Here Are Pointers for Canning Garden Beans

"Fresh garden beans of any variety as well as dried beans may be canned successfully at home in either tin or glass with a pressure cooker, says Miss Inez M. Hobart, extension nutritionist, University Farm, St. Paul.

"To can snap beans," says Miss Hobart, "wash them thoroughly and cut in pieces. Add boiling water to cover and simmer in an open kettle about 5 minutes, or until the beans are wilted and will bend without breaking. Pack into hot containers, cover with hot water, and add a teaspoon of salt to each quart. Process immediately at 10 pounds pressure. No. 2 plain tin cans require 25 minutes of processing and No. 3 cans require 30 minutes. Pint glass jars require 30 minutes and quart jars 35 minutes.

"Kentucky Wonder beans are excellent string beans for canning," continues Miss Hobart. "Only young and tender lima beans are suitable for canning. [illegible] Shell and wash the young beans, then bring them to a boil in enough water to cover them. Pack hot into glass jars, or enamel or plain tin cans. Cover with hot water and add 1 teaspoon of salt to each quart. Process immediately at 10 pounds pressure. No. 2 cans will require [illegible] minutes of processing, and No. 3 cans [illegible] minutes. Pint jars need [illegible] minutes and quart jars [illegible] minutes."

Be on Guard Against Infantile Paralysis Now, Physicians Warn

The largest number of cases of poliomyelitis occurs in late summer and early fall and a word of caution is therefore given in the bulletin issued today by the Committee on Public Health Education of the Minnesota State Medical Association, against neglect of any summer illness.

No safe vaccination or immunization has yet been discovered for protection against infantile paralysis. Recent experiments in a chemical spray which will protect nasal passages from entry of the virus of the disease are interesting and hopeful. But the method has not been sufficiently well tested on human beings for it to be recommended as yet for general use.

In the meantime, the best hope for avoiding the disease is to avoid contact as far possible with all summer infections.

It is now generally agreed that every "polio" epidemic is accompanied by a large number of so-called abortive cases. These people are ill but do not develop the characteristic paralysis. They undoubtedly are capable of infecting others, some of whom will develop a paralysis. Many of these cases are regarded as ordinary stomach upsets or respiratory infections and no effort is made to protect others from contact with them.

Any illness, particularly in the season of greatest prevalence of infantile paralysis, should have good care and watching. The sick child or adult should be put to bed first, not only to keep him away from others but to give him the best chance to throw off the infection no matter what it should turn out to be.

Seven Fined for Taking Minnows in Clearwater

Seven men were arrested recently by Clearwater county officers and game wardens, charged with taking minnows in closed waters stocked with trout, and brought before the local courts, where six pleaded guilty and were each fined $25 and costs, while one man pleaded not guilty and asked a change of venue. It is alleged that the group were several men who had made minnow seining [illegible] to this part of the state at the expense of public streams. Game Wardens A. M. Holt, [illegible] Gordon and Charles Mauder and Sheriff Art Anderson and Deputy Gene Robbins rounded up the ten men on the Clearwater river northeast of Clearbrook. Four of the men in the group had in their possession at the time of the arrest about 200 dozen minnows.

Wenzel Views Minnesota Water Control Projects

Returning from a week end tour of the western and southwestern part of the state, conservation commissioner H. C. Wenzel last week said he was greatly impressed by the work being done to restore normal lake levels.

With chief engineer E. V. Willard and director Walter Olson of the division of drainage and waters, Wenzel inspected the $2,000,000 Lac Qui Parle project which will create a storage reservoir 40 miles long.

"Having frequently hunted ducks in this territory, I believe migratory waterfowl will greatly increase as a result of the improvements being made," Wenzel said.

Sam Snead Is Winner of Open Golf Tournament in St. Paul on Sunday

While a rip-snorting wind blew away the chances of several challengers, slamming Sam Snead, West Virginia sensation who fought his way to second place in the national open, annexed his second major championship Sunday afternoon by blasting par on his final two rounds to win the eighth annual St. Paul open tournament.

Snead compiled a total score of 283 for 72 holes as he got as high as par only once in four rounds. His cards read 72, 69, 71 and 71 in order.

Harry Cooper, the dethroned champion, blew surprisingly and kicked himself out of the running with rounds of 74 and 75, five strokes over par for the day, to make his total 289 for the poorest finish he has ever staged in the St. Paul open, an event he has won three times.

Pat Sawyer, of Minneapolis darling of the golf galleries, continued to carry the largest crowd of spectators with him and came through with final rounds of 72 and a subpar 70 to tie for third with a 285 total.

Willie Goggin, San Francisco veteran, burned up the course on his Sunday morning round with a 69, and then matched par on his final try to score 284 and beat Pat and two others out for second place. Tied with Sawyer at 285 were the veteran Johnny Revolta, 1934 title-holder, who shot a 70 on his final 18 holes, and K. C. Zabowski of Winnipeg, who also got under par with 71 on the finishing round.

TORNADO BECOMES GIANT SPRINKLER

New Ulm. A natural phenomenon was noted in the vicinity of Oshawa recently during a thunder storm when a small tornado became a giant sprinkler. The twister struck Nicollet county, swooped down on the Mike Bresnahan farm in Oshawa, sucked up the water in a small slough and then continued for some distance before spreading the water like a giant sprinkler over the Alan Mans farm.

FAIR WEEK AGAIN

This is Fair Week in Thief River Falls but the fair is going to be held next week. It's a week late this year and whether being a week late is going to be good or bad for the fair remains to be seen. The managers were glad the gates didn't have to open Tuesday. The grounds looked like a perfect setting for a water carnival. Now, however, the hope of those who worry about such things is that next week won't be worse.

If the weather reforms and settles down to a normal life again it should be a good fair. As such things are classified, the local fair ranks high. In point of attendance it is near the top of the list. Outside of the state fair, better attractions are not found anywhere. It suffers to some extent because of inadequate facilities but this defect is being remedied gradually as funds become available. Financially it is in a good healthy condition as pioneer organizations go, this being the thirty-sixth year of its life.

And so another fair will come and go. When that has gone there will be little left of the summer. While it is in progress it will be the meeting place for many thousands of people who look forward to it as an annual outing. The low admission price for adults, and children being admitted free, puts it in the class of low cost entertainment.

Residents in the south end of town are glad there is a flow of water in the river again but they hope the flow of water will not cause further unnecessary delay in the progress of the disposal plant project. After a few years of dry weather people took for granted that it never would rain again. Now, just because it has started to rain, there is no reason to believe that it never will be dry again. We still need the disposal plant and while there is now no emergency to meet, the project certainly should not be dropped.

There are times when we get darned good and disgusted with the human race, but when we talk to farmer after farmer who has seen good crop prospects washed away just as he was getting ready to start harvesting, and observe how they take their licking, swallowing a lump in their throat and joshing about it all just as if that was the way things were supposed to be, then we really like people. Maybe it's just as well if we don't get quite as rich as we'd like to be. What a stuffy old community this would be if all the people were wealthy.

Those pesky Chinamen are picking on the Japs again. That's what the Japs tell us officially. Our sympathies, of course, are with the Chinese. It's their country and the Japs have no business being over there. Of course things were different when the whites took this country away from the Indians.

Things certainly have been humming around here lately—and biting too. Gosh the mosquitoes have been tough. Considering everything, our winters really aren't so bad up here.

Folks hereabouts are agreed that we had a million dollar rain early this week. The excess moisture will cost this territory at least that much.

We lost five pounds of weight in just a few minutes the other day, arguing with a flock of mosquitoes. One more hour of that exercise and we would have had our boyish figure back again. It occurred to us at the time that one of the things the local purity squad probably never will have to contend with is a nudist colony.

THE END OF A CHAPTER

(New York Times)

With the supreme court issue definitely settled for this session, and possibly for many sessions, the time has come to express the hope that a happier chapter lies ahead and that the bitterness of a bitter controversy may be soon forgotten. Out of the whole hard fought debate one point deserves to be remembered, and this deserves to be remembered long. It is the clear and unmistakable demonstration that no president of the United States, however popular, however convinced of the sincerity of his purposes and however certain in his own mind of the propriety of his methods, can propose to take a short cut to the achievement of his objectives by a route which threatens the independence of the judiciary, without encountering deep and determined opposition on the part of great numbers of his countrymen who rightly regard an independent judiciary as the bulwark of their freedom.

It would be ungracious to turn the page of the debate in congress without an expression of gratitude to those Democratic senators who have helped to shape the issue for the country. Wheeler, Bailey, Burke and Gerry; King, McCarran, O'Mahoney and Van Nuys; others could be added to the list—have made a fight for which we believe history will honor them. They have had the courage of their convictions, and the willingness to speak out in protest against a plan of which they disapproved on principle. Because many of them have long been identified with the progressive wing of the Democratic party, because their votes in the past have helped the President to achieve the enactment of the whole structure of legislation which bears the name of the new deal, they have had in this instance to face the charge of betraying the cause of liberalism. But they have ample reason to believe that theirs has been the longer view; that zeal for reform which tinkers with the safeguards of liberty is mistaken, and that the cause of liberalism is best served by preserving a system of orderly government in which liberalism itself is free to function.

As for the President: That he has suffered a loss of prestige, for no good cause is undeniable. In dramatic fashion he has been rebuked, as on this issue he should have been, by members of his own party. But it need not and does not follow that the President's leadership has been fatally impaired. He has made a mistake, but mistakes are made. The best way to correct them is to admit them openly, if possible; at least by refusing to persist in them.

Mr. Roosevelt has nearly four years in the White House and the greatest opportunity of any President in modern times to be of service to his country. He has youth, vitality, immense resourcefulness and a deep and generous sympathy with those in distress who turn to the government for deserved assistance in achieving a life of greater happiness. He has a talent for leadership. He can give inspiration to any cause that may enlist his efforts when that cause is praiseworthy. Before this issue of the court arose, his influence was used on more than one occasion—and it can be used again—to weld the country rather than divide it, and to preserve the heritage of our national unity.

Mr. Roosevelt need not, and he will not, look in vain for adequate support of any genuinely progressive measure which is carefully prepared, properly debated and realistically founded in the traditions of this country. The future is his own to make, and the opportunities which lie before him are exceptional.

TEN YEARS AGO

From the Times of Aug. 4, 1927

Peter Engelstad this week completed the hay harvest on 175 acres of alfalfa that yielded well.—C. Gustafson returned with his brother, G. O. Gustafson, after spending three months in Sweden.—Output of the local creamery is showing a big increase over last year, 71,000 pounds of butter having been churned in July, J. C. Holte, manager, stated.—Approximately 1,000 persons joined Sunday in the sixth annual tour to the narrows sponsored by the Red Lake Summer Resort association.—Mary Prichard became the bride of Arwood Northby Wednesday in the Presbyterian church.—Miss Ella Miller arrived from Seattle to spend the remainder of the summer at her home here.

TWENTY YEARS AGO

From News-Press, Aug. 2, 1917

This city was well represented at a district Sons of Norway picnic at Maple lake Sunday.—The mercury registered 107 here last Friday.—Local people filling eleven automobiles made a good-will tour to Winnipeg last week-end. The trip was marred by numerous tire blowouts. George G. Johnson acted as pilot on the trip.—The first draft quota for Pennington county was set at 79.—Mrs. Albert Engen and Mrs. Anna Langseth left with their daughters for a visit with relatives in Decorah, Iowa.—Mayor F. H. Gambell was in a Crookston hospital receiving treatment for hip injuries sustained in an automobile mishap while returning to this city from Fargo.

Driving Range Opens Today on Highway 32

To give local golfers a better opportunity to perfect their skill in driving golf balls where they want them to go, Al Cloutier announced that he will put in operation today a 300-yard driving range on Highway 32 just north of the city limits. Such ranges have proved to be a popular innovation in other cities where they have been established.

Junior Chamber Will Hold Meeting Tonight

After a recess during July the Junior Chamber of Commerce will resume its sessions this evening with a dinner meeting at the Evelyn hotel at 7 o'clock, Clarence Sande, president of the organization announced this morning.

PUBLIC OPINION

Editor of the Times:

Having read many good, analytical editorials, on the subjects of political principles in the United States News, I wrote the editor, David Lawrence, requesting him to also take up the money question so that people could be informed and discard the present absurd, unjust and unconstitutional system. His answer was that "the whole money question is one upon which you realize there is considerable difference of opinion. The moment you touch money, you disturb so many other things at the same time."

These statements, of course, are true, but think what an awful admission of defeatism, or cowardice they are as an excuse for not wanting to tackle the most important question there is in the political field, except the form of government! Why, our civilization, as it is today, would be impossible without a medium of exchange and organized government and yet leading men and newspapers admit their lack of courage to tackle the money question!

Since when did cowardice win victories for advancement of truth and justice?

Order for Hearing on Petition for Adjustment of Final Account and for Final Decree of Distribution

State of Minnesota, County of Pennington.

In the Matter of the Estate of Lars Ostvedden, also known as Lars Ostvedden, Decedent.

The petition of Nels Ostvedden as representative of the above named decedent, together with his final account of the administration of said estate, having been filed in this Court, representing, among other things, that he has fully administered said estate, and praying that said final account of said administration be examined, adjusted and allowed by the Court, and that the Court make and enter its final decree of distribution of the residue of the estate of said decedent to the persons entitled thereto.

It is Ordered, That said petition be heard and said final account examined, adjusted and allowed, by the Court, at the Probate Court Rooms in the Court House, in the City of Thief River Falls, County of Pennington, State of Minnesota, on the 28th day of August, 1937, at ten o'clock A. M., and that notice of this hearing be given by publication of this order in the Thief River Falls Times, and by mailed notice as provided by law.

Dated August 2nd, 1937.

By the Court,
ANDREW BOTTELSON,

In Memoriam

In loving memory of Maybelle Jensen who passed away Aug. 5, 1933.

The evening sun is setting on a shore so far away,
Where we hear our Maybelle calling with a voice so light and gay.
As it echoes long and lasting, in this misty world of care
A silent tear is falling, Our hearts say yes in prayer.
No words can speak our longing, As you crossed to distant shore.
You now are safe with Jesus and will be forever more.
We wait again for one sweet day, When no more we have to roam,
When we gather all on that bright shore, A place we can call home.

OENS, MARSHALLS GAIN THIS WEEK IN DIAMONDBALL

Four Teams Will Take Part in Playoff Starting Next Monday

Local diamondball fans were treated to another upset this week when the Oens defeated the high-ranking Kiewel team 2-1 in an eight-inning game. Marshalls continued their hot pace by defeating the Bridgemans 9-1 and claiming a forfeit win from Montgomery Wards.

Tonight and Friday evening the Bridgemans will try to gain a place in the playoff by taking the Larsens in what should prove to be a very interesting tussle.

The playoff will start next Monday evening with four teams competing. To date places have been clinched by the Marshalls, Kiewels and Larsens. If the Bridgemans defeat the Larsens in their two games they will be the fourth team, and if they lose both the Oens will be the other contender. If the two teams split even, a game will be played between the Oens and Bridgemans to determine the fourth team.

The first game of the semi-finals Monday evening will be played between the teams ranking in second and fourth positions, and the second game Tuesday night between the first and third ranking clubs.

A team composed of the best players in the local league is now being selected to represent Thief River Falls in a diamondball tournament to be conducted in Grand Forks Sunday, August 15.

Water Now Flowing Over Top of Thief Lake Dam

Word was received by the Times Monday from Robert Forder at Middle River that, for the first time since the dam at Thief lake was built, water is flowing over the top of the structure as a result of recent heavy rains. The lake area has been expanded to a point where it covers an expanse five and one-half miles long and three and one-half miles wide.

CHANGE IN RURAL REHABILITATION SUPERVISOR HERE

E. D. Fernlund, Pennington Supervisor, Tenders Resignation

Following announcement of the resignation of E. D. Fernlund as rural rehabilitation supervisor in Pennington and Red Lake counties, Burton L. Olson, district supervisor, stated this week that Oliver Howard, supervisor in Marshall county, will also handle the work in Pennington county.

Rehabilitation loans in Red Lake county will be handled under the supervision of O. H. Johnson of Crookston, who, it is planned, will arrange to visit Red Lake Falls each week. Loan policies are not affected by the change in supervisors.

Mr. Fernlund, who will return to college to complete a veterinary course, was given high praise by Mr. Olson for the efficient manner in which he has conducted his work in this section during his period of service here.

Youth Is Charged With Passing Forged Checks

Lawrence Erickson, member of the CCC camp at Middle River was arrested Saturday on a charge of having passed four forged checks in this city over a period of three weeks. He waived a preliminary hearing in municipal court Monday, and was bound over to district court under $1,500 bonds.

Lincoln High School Band Plays at Fair Tuesday and Wednesday

Above is pictured the Lincoln high school band of Thief River Falls which, under the direction of R. G. Riggs, will present brief concerts in front of the grandstand at the Pennington county fair next Tuesday and Wednesday evenings, performing in advance of the WLS Barn Dance troupe and the Ernie Young revue. The local musicians, in their frequent appearances during recent months, have evoked much favorable comment for the quality of their performance, revealing that they are making steady progress.

PENNINGTON CO. FAIR WILL OPEN TUESDAY FOR FOUR-DAY RUN

(Continued from page one)

cluding such well-known personalities as Patsy Montana, the Prairie Ramblers, Henry Hornsbuckle, Olaf the Swede, the Country Cousins and the Smile-Awhile Gang.

Vaudeville acts to be presented in connection with Ernie Young's revue the last three nights of the fair include the Joe Thomas Saxotette, a group of saxophone artists garbed in Pierrot style; Joe Jackson, master of the art of pantomime; Motter & Davis, hand-balancing act; Lady Barbara's Circus, animal act; Roth & Shay, comedians; and the four Hazel Mangean girls, presenting drawing room acrobatics.

The Ernie Young revue is attractively embellished with fresh costumes and scenery, and moves at a fast pace, according to reports from other fairs where it has appeared this year, indicating that it is fully equal to the performance given in Thief River Falls last year.

The Fairly-Martone Shows, which will provide entertainment on the midway, are one of the largest traveling companies of its kind, presenting nearly a dozen rides of various kinds, including some never before seen here, in addition to a wide variety of shows and exhibits.

A crew of men has been busy the past week getting the grounds and buildings into shape for the big exposition. Water is being piped from the city mains to the stock barns and the carnival lot, which will remove much inconvenience suffered in past years.

Following trips made recently by groups of Thief River Falls citizens to the Marshall county fair at Warren and the Roseau county fair at Roseau, large delegations from those two cities are expected to attend the Pennington county event. Several bands from outside this community also will make their appearance here, it is anticipated.

Warren Folks to Visit County Fair Thursday

While no official notice has yet been taken, plans are now under way to conduct Warren's annual tour to Pennington County Fair at Thief River Falls on Thursday evening, August 12, says the Warren Sheaf. The tour will be conducted in appreciation of the splendid delegation of Thief River Falls citizens who attended the Marshall county fair early in July. All residents of the community are invited to participate.

Veteran Rail Workers Are Honored at Joint Meeting Held Sunday

At a large gathering held Sunday in the Odd Fellows hall, members of Division 318 of the B. of L. E. and Lodge 103 of the B. of L. F. & E. honored a group of veteran railroad workers. John Mitchell of Mahnomen received a fifty-year membership badge, and 25-year membership buttons were conferred on J. H. Holmes, Percy Lamb, H. Halland and O. F. Halldin of this city and Thomas H. Dobbin of Glenwood. Paul A. Harris presided as toastmaster at a banquet attended by 80 members, and short talks were given by C. E. Helquist, H. W. Kinghorn and A. M. Campbell. Out-of-town guests were Mr. and Mrs. Mitchell and their two daughters and Mr. and Mrs. Dobbin.

Transient in Jail for Threatening 2 Farmers

A. C. Hanson Loses Post as Game and Fish Chief

Appointment of Harry E. Speakes of St. Paul, as director of the state division of game and fish was announced today by Herman C. Wenzel, state conservation commissioner. Speakes succeeds A. C. Hanson, Wadena, game and fish director since 1935. Hanson was a speaker here last week at a meeting of sportsmen at the Auditorium. At the same time Commissioner Wenzel announced appointment of Edward McKeever of Duluth as deputy director. He replaces Emil Rahja of Chisholm, who is being transferred to another division. Both appointments are effective August 16.

Land O'Lakes Plant to be Erected in Lakeville

Selection of Lakeville, southeast of the Twin Cities in Dakota county, as the site for construction of a $100,000 Land O'Lakes poultry dressing plant has been announced by company officials in Minneapolis. Construction will begin this fall. The plant will be the third of its kind in the state. Other plants are at Thief River Falls and Albert Lea. Carload shipments of dressed poultry will be sent largely to eastern markets.

THREE COUNTIES IN COMPETITION FOR FAIR TRIPS

Subdistrict Home Economics Achievement Day Held Here Tuesday

The sub-district home economics achievement day was held Tuesday August 3 at the Lincoln high school for the purpose of selecting demonstrators in cake, bread, clothing, canning, room furnishing and food preparation and exhibit in thrift, and room furnishing to represent the district at the state fair. Marshall, Red Lake and Pennington county 4-H workers took part in the contest.

Miss Mae Sontag and Mildred Schenck, state 4-H club agents from University farm, acted as judges. A. J. Kittelson, state 4-H club leader of St. Paul was a visitor at the achievement day.

The results of the contest will be announced at a later date following completion of the work of judging.

LOCAL MAN FINED $7.50 FOR CARELESS DRIVING

WLS BARN DANCE TROUPE AT FAIR TUESDAY EVENING

Famous Radio Performers Will Appear Only One Night at Fair Here

When real dyed-in-the-wool radio fans get together, one usually says "I wish I knew what So-and-so looks like." This wish will be granted to hundreds of people in this community when the WLS ON PARADE show visits the Pennington county fair next Tuesday evening, August 10. WLS has made a practice for years of allowing its best known stars to appear before the listening public and that's just what this show is doing throughout the middle west.

The name WLS on Parade was taken from a popular WLS program presenting leading artists of the station. And the touring show which will play here is composed of leading entertainers who have made their names on the National Barn Dance, the Merry-Go-Round and Smile-A-While Time.

This show has broken attendance records in many cities because thousands of people crowd in to see their favorite radio personalities as they parade in person before them. Come early to get a good seat!

The troupe, which scored a huge success when it appeared last year at the Pennington county fair, will give only one performance in Thief River Falls on the opening night of the fair Tuesday evening.

Brother of Local Man Died Friday in Sweden

Dr. Franc Swedenburg, prominent physician and surgeon of Ashland, Oregon, and a brother of Dr. A. W. Swedenburg of this city, died unexpectedly last Friday in Gothenburg, Sweden, while in the course of a tour of Europe with his daughter, according to a cablegram received at the Swedenburg home here. The body is expected to arrive in New Yok City this week-end.

Local Golf Tournament Hampered by Rainfall

Due to heavy rains the past week which have made several holes on the local course inaccessible, playing of matches in the golf club championship tourney have been delayed, Douglass Booren, tournament chairman, announced today. He added that as a result the playing of the final round has been deferred from next Sunday to the following Sunday, August 15.

COUNTY'S BUYING POWER INCREASED $101,030 BY WPA

Large Expenditures Made in Pennington County in Past Two Years

WPA, since it began operations approximately two years ago, has increased the buying power of Pennington county by $101,030, according to data made public this week through the Crookston office of Alden Halseth, in charge of operations in this area. The figure is taken from a report to J. H. Kovarik, district director at Detroit Lakes, from the St. Paul office of Victor Christgau, state administrator.

Mr. Christgau's report shows that in the state as a whole, WPA has paid out $61,754,645.43, as of June 1. "This money", said Mr. Christgau," has served a two-fold purpose. It has been paid as wages to persons who otherwise would have been idle or on direct relief, thereby not only providing an income for the worker and those dependent upon him, but has helped all lines of business in each community. As a result of the labor of these workers, the state is dotted with worth while projects, some large and some small, which remain as long-lasting benefits to be enjoyed by generations to come.

"During the last few months we have completed work on parks, dams, fair ground improvements, school buildings, swimming pools and many other projects which the several communities never would have had, had it not been for the work relief program.

"Apart from its material aspects, we cannot lose sight of the economic value of the program to the various communities. One is impressed with what WPA labor has accomplished when consideration is given to the cost of direct relief to the various counties had it not been for the federal government's participation in the work.

FARMER WATCHES HOGS DISAPPEAR

Ellsworth—Bob Fagan, a farmer living two miles east of Ellsworth had the experience of seeing all his hogs disappear while he was standing nearby talking to his landlord. Thirteen hogs walked by the farmer to the hog waterer and a minute later all the animals had vanished. The hog lot was vacant. Upon investigation it was found that the hogs had fallen into an abandoned well of which neither the landlord who purchased the farm a year ago nor the tenant who had lived there for eight years knew of. The hog waterer placed at the spot of the well, sunk in 1917, had held until now. With the aid of a noose and snare a crew of carpenters, at the time making repairs, drew up the hogs. All were saved with the exception of one.

Prairie Ramblers with WLS Barn Dance at Fair Tuesday

Most people are very familiar with dinner entertainment when they "eat out" but how many know that thousands of mid-western families have music and singing to please them as they eat breakfast every morning? That's just what happens on the WLS Smile-A-While program six mornings a week at 5 o'clock Central Standard Time.

Everyone in this community will have an opportunity to see a star aggregation of breakfast entertainers when the Prairie Ramblers are featured on the WLS National Barn Dance Program at the Pennington county fair next Tuesday evening, August 10. For many months the boys have been rising around 4:00 a. m. in order to do their early morning entertaining. Breakfast is cooked for them right in the Studio, and much of the food is sent to them by ardent listeners.

These Prairie Ramblers, with Patsy Montana, are leading stars on the National Barn Dance, too. Their singing and playing of mountain and cowboy songs is perhaps unexcelled by any in radio. In their stage act, they have novelties galore which seldom fail to stop the show. with Jack Taylor, whose guitar to face, you'd first shake hands with Jack Taylor, whose guitar and bass fiddle playing are exceptional. Perhaps Chick Hurt would smile at you next. He really can make a mandolin talk. Then Tex Atchison would step up—a handsome boy whose claim to fame is the expert playing of a fiddle left-handed. Lastly, Salty Holmes would greet you. He's a tall, lanky boy who keeps the house in laughter with his comedy. He plays guitar, harmonica, a tin can and a jug; and yodels, too.

They've never failed to please an audience, these happy boys from the Kentucky mountains and their Montana girl companion.

PIANO STUDIO WILL OPEN IN CITY ABOUT SEPT. 1

Miss Harriet Bergman of Williston, N. D., plans to open a piano studio in the city, about September 1. She was graduated from the Music department of the University of Minnesota in 1935 and has also studied at the MacPhail School of music. Miss Bergman and her parents, Mr. and Mrs. F. P. Bergman of Williston, were in the city last Thursday making arrangements for the studio.

Slayer of 3 Southern Minnesota Farmers Is Captured on Tuesday

Jens Thompson, Freeborn county farmer wanted for the murder of three of his neighbors, was captured without resistance in a wooded ravine near Houston late Tuesday.

He was tracked down by bloodhounds which had been searching the thickly wooded section about Houston for the last three days after several farmers had reported seeing him in the vicinity.

He was immediately taken to Caledonia, the county seat, and then removed to Albert Lea, where he will be called on to face a first degree murder charge naming him as the slayer of the three farmer brothers, Louis, Joe and Anton Lukes, his neighbors.

Sheriff Arthur C. Brown said Thompson freely admitted the killings, declaring that he shot the brothers "because they had ruined my life" and he thought he ought to end theirs.

The three brothers were slain, on the afternoon of July 22 as they worked in their fields, by a sniper who drove up to their farms.

REUNION FOR FIVE GENERATION FAMILY

Bigley—Although four generation families may be a common occurrence, this community boasts of a five generation family which recently held a reunion. Members of the family are from 91 years to 18 months of age. They are: Mrs. Peter Petersen, 91 years, S. P. Bergquist, 71 years, both of Alida; Mrs. Fred Nielsen of Lock, Wisconsin, 49 years, E. R. Fritz of Minneapolis, 29 years, and Walter William Fritz, 18 months. All met last week near Alida for a reunion, at which time a picture was taken of the group.

GOVERNOR BENSON REMOVES J. H. HAY FROM STATE POST

E. F. Selvig Is Appointed Deputy Commissioner of Agriculture

As part of Governor Elmer A. Benson's "house cleaning" of state capitol offices, J. H. Hay, who served for many years as superintendent of schools in Thief River Falls, Tuesday was dismissed from the position of deputy commissioner of agriculture.

Mr. Hay had filled the post since the administration of Governor J. A. O. Preus. Named to succeed him was E. F. Selvig, head of the division of cooperative accounting.

At the same time was announced the removal of C. P. Bull as state weed inspector. He will be succeeded by Fred Crane of Crookston, who in the election campaign last fall served as Polk county Farmer-Labor campaign manager.

Safety Chief Points Out Laws Requiring Report on Accidents

Drivers of vehicles involved in highway accident resulting in personal injury or death or in property damage of $50 or more are required under the new highway traffic regulation act to report the accident immediately to the state Highway department in writing, W. F. Rosenwald, director of the division of Public Safety of the Highway department, pointed out to drivers of vehicles using the Minnesota highways.

In his appeal, Mr. Rosenwald said that: "prompt and thorough response on the part of parties to an accident will eventually supply the safety division with a groundwork for traffic safety which will make for less hazardous travel."

The law referred to by the Safety division chief is Section 23 of Chapter 464, laws of 1937. It reads: "The driver of a vehicle involved in an accident resulting in injury or death of any person or total property damage to an apparent extent of $50 or more shall, within 24 hours or as soon thereafter as physically able after such accident, forward a written report of such accident to the department (highway) which written report shall contain the names and addresses of the persons involved in the accident, license numbers of the cars involved and the time and place of the accident."

These reports, Mr. Rosenwald said, may be written in letter form. On their receipt by the department those reporting will be sent a form for statistical information which will be used for analyzing the accidents to determine causes and how to prevent reoccurances. The Safety division chief declared that they will not be used for purposes of prosecuting persons involved in accidents but rather will constitute a record which will be analyzed and tabulated annually for the purpose of determining when and where accidents most frequently occur so that physical conditions responsible may be rectified or eliminated.

The new traffic code makes it mandatory that the Highway department makes public annually statistical reports based on the accident reports.

Sunday, Holiday Truck Travel Ban Tightened Further by New Order

Continuing the drive to lower the Sunday and holiday traffic accident and death rate on the trunk highways entering Minneapolis, St. Paul and Duluth, the state highway patrol is now assisting in enforcement of a new regulation by the Railroad and Warehouse Commission prohibiting certain commercial trucks from entering or leaving Minneapolis or St. Paul or Duluth by any highway on Sundays and holidays up to Sept. 11.

Formerly, as announced by the Highway department, the type of trucks under ban were permitted to enter Minneapolis and St. Paul via designated highways. None was permitted to leave. The new order prohibits entering and leaving any highway.

The regulations exempt Class T vehicles, trucks of one ton capacity or less, vehicles transporting livestock, trucks carrying newspapers and perishable food stuffs, public utility emergency wagons, ambulances, garage tow cars and the like and these may enter and leave the three cities at any time via any route.

BROTHERS MEET AFTER 48 YEARS SEPARATION

Montevideo—After a separation of 48 years, M. A. Jump, of Montevideo, familiarly known as "Daddy" Jump, was reunited with his brother, Walter Jump, whom he had not seen since 1889. Born into a large family in Ottumwa, Iowa, M. A. Jump at an early age came to Minnesota where he married and later settled on a farm near Montevideo. Walter Jump also married and lived in Carroll, Iowa. Several months ago he visited with his sister in California and through her succeeded in locating the address of his brother. He arrived in Montevideo last week and the two brothers are having a happy reunion together after almost half a century's separation.

CUFF LINK LOST 22 YEARS AGO IS FOUND

Buffalo—A cuff link which Gust Hied of Hector wore on his wedding day was found recently after having been lost for 22 years. Mr. Hied lost the cuff link while picking strawberries. When he found it it was in excellent condition, in spite of the fact that it had been exposed to the garden soil for more than two decades.

Farmers 22 Years Ago

We present here brief sketches of Pennington county farmers prepared 22 years ago. They furnish an interesting cross section of agricultural activities at that time.

V. C. Noper

V. C. Noper came from Galesburg, Illinois and located on a farm two miles west of this city. He came from the greatest corn state and one of the best agricultural states in the union—but this is what he says about Pennington county: "This country can raise more and better small grain than Illinois and the climate here is far superior to Illinois. This is the best climate in the world! When it comes to corn, of course, they raise some pretty good corn in Illinois, but I remember though, that when they started raising it down there it wasn't nearly as good as the average corn that is raised around here. Their season is a little longer, but if the farmers here will plant northern matured and tested seed and plant it on fall plowing, the crop will mature ten days earlier than it does now, and would be one of our big crops. There is good money in the beef and dairy industry and the opportunities offered here are abundant. This country can raise more grass than Illinois ever could and a few acres of corn will fill a silo large enough to last a good sized herd a long time. No matter what line you start, the dairy or the beef, you've got to have thoroughbreds. I am more than satisfied with Northern Minnesota, and especially Pennington county. I've got several of my old Illinois neighbors up here to look the country over, and there are a few more down there that ought to be jarred loose. Yes sir, they ought to come to Northern Minnesota. This is a great country.

J. G. Feragen

Thirty-two years ago Andrew Feragen homesteaded land in Sec. 24 of the town of Numedal. Today, his son, J. G. Feragen is farming the original homestead. This is what he thinks about tilling the soil in Pennington: "Yes, I was born on this farm, and with the exception of two years I was out west, I have lived here ever since I first remember of seeing it. It used to be so wet that we could hardly plow a few acres, and hay was our biggest crop. Going to town some days, the wagon box would almost float off. That was several years ago, and today, as you look off across our fields there is nothing to suggest a marsh. You see where that straw stack sets over there? I remember when that was covered with water, and one year we cut 45 bushels of oats to the acre off that piece, and a little farther over we got more than 60 bushels. Ever since they put in the ditches, this country started to improve. In ten years this country has gone ahead fast. One quarter section adjoining this place was so wet years ago that my brother refused to homestead it. You couldn't buy it now for $40 per acre. I find that crops usually do better on fall plowing. The soil holds the moisture better. I had some oats on a piece of fall plowing a few seasons ago, and the yield was 65 bushels to the acre. The way land is increasing in value, it won't be long before an ordinary farm will bring $75 per acre. I surely wouldn't want anything better than a section of Pennington county land."

W. E. Sargent

W. E. Sargent is a young man, to whom the future means much. He was raised on a farm in McDonough county, Illinois, and came to Pennington county and bought a portion of the old Harson farm in Sec. 7 of the town of Rochsbury. That he is well satisfied with this section, is shown by the following statement, willingly given to a News-Press man recently: "This dirt," and he waved his hand across his fertile tract of 240 acres, "would be worth $175 per acre down in McDonough county. The cheapest land down there is $125 an acre and usually consists of hills and hollows. If you rent an Illinois farm you pay at least $7 per acre cash—and trust to the Lord for a return on your money. When you strike a bad year you are up against it. The fall months down there are generally pretty muddy, making it hard for the teams to get into the fields after the corn. When I came up here the boys at home wanted me to write and tell them all about it. I told them they ought to come up here right away as the country was settling fast and the land values were increasing. One fall I put onto my fall plowing, twenty acres of corn, five acres of alfalfa success. If the Illinois people only knew what is being done here, I'm sure they would come up here, too. We have had several offers for our farm but are not going to sell. This country satisfies us. I like the winters up here much better than those we had in Illinois. Even in the middle of November we can go around outdoors bareheaded. Whenever I see anything in the papers that boosts Minnesota I clip it out and send it to the folks back home. The Illinois farmers will be coming up here soon, I know. They've got to, land is too high down there and this is just as good as what we used to call home.

Two fat people in a coupe certainly is discouraging to hitch hikers.

EIGHT GRANDPARENTS PRESENT AT BAPTISM

Cloquet—When the five-weeks-old daughter of Mr. and Mrs. Melvin Carlson was baptized at the home of her grandfather and grandmother she had the honor of having her eight grandparents in attendance with one grandfather performing the baptismal service. The child's four grandparents and also four great grand-parents are all living and all were able to attend their granddaughter's baptism.

Indigestion is the inability of a round stomach to adjust itself to a square meal.

HISTORICAL SOCIETY DISPLAYS TELEPHONES

About sixty-five pieces of telephone equipment assembled by Mr. George W. Johnson of St. Paul have been presented to the Minnesota Historical society by the Tri-State Telephone company. Some of the items in the collection, which includes switch-boards, mouthpieces, dials, transmitters, receivers, complete instruments, both manual and automatic, and the like, date back to the eighties, and others are modern in design. The collection as a whole offers a vivid picture of the progress of one method of communication in the Northwest in the past half century. It is now on display in the museum of the Historical society in St. Paul.

HISTORICAL SOCIETY DISPLAYS TELEPHONES

About sixty-five pieces of telephone equipment assembled by Mr. George W. Johnson of St. Paul have been presented to the Minnesota Historical society by the Tri-State Telephone company. Some of the items in the collection, which includes switch-boards, mouthpieces, dials, transmitters, receivers, complete instruments, both manual and automatic, and the like, date back to the eighties, and others are modern in design. The collection as a whole offers a vivid picture of the progress of one method of communication in the Northwest in the past half century. It is now on display in the museum of the Historical society in St. Paul.

TO CONTINUE LOW INTEREST RATE ON U. S. FARM LOANS

Present Rate Applies to Total of $172,174,000 Loans in State

More than 56,000 Minnesota farmers are affected by the continuation of the present interest rates on federal land bank loans and the reduction in rates on commissioner loans, under the new law recently enacted, says the Federal Land Bank of St. Paul. The total volume of loans in the state of Minnesota on which these rates apply was $172,174,000 on June 1 this year.

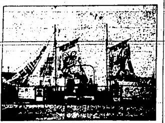
The 3½ per cent rate on land bank loans made through national farm loans associations will apply to all interest installments falling due in the year beginning July 1, 1937; while the rate will be 4 per cent on all installments falling due within the following 12 months.

"Direct loans"—those made by the land bank directly to individual farmers, not through associations—will be ½ of 1 per cent higher.

Commissioner loan interest rates were reduced from 5 to 4 per cent for 2 years from July 22, 1937, for all installments falling due within that period.

SUDDEN RICHES DISSOLVED OVERNIGHT INTO THIN AIR

Ely.—Because of a typographical error the riches of Babbit residents, all holders of Mesabi Iron shares, dissolved overnight into thin air. All went to bed one evening happy and wealthy for the papers had brought news in the curb market quotations that Mesaba Iron was listed at $8.00 and $9.00 a share. In the morning a Duluth stock broker was contacted and investigation showed that the quotations had been a misprint and should have read 80 to 90 cents.



DEEP SEA DIVING SHOW

One of the new and interesting shows carried with the Fairly-Martone Shows playing on the midway at the Pennington county fair Tuesday to Friday of next week. The unique front resembling an old style sailing ship identifies the deep sea show. Inside is a huge tank holding fifteen thousand gallons of water, in which a diver, encased in regulation U. S. government diving suit, wrestles with a giant octopus. On deck is found a very interesting collection of deep sea plant life and collection of deep sea water fish, on which spectators are given a brief informative lecture.

34 Liquor Dealers in East Grand Forks Fined

Polk county coffers were enriched $2,890 last week as the result of fines of $85 each assessed against 34 East Grand Forks liquor dealers on charges of possession of liquor for sale without being duly licensed by the state of Minnesota. Thirty-three men and one woman paid fines of $85 and costs of $2 in an all-afternoon session of the East Grand Forks municipal court Thursday. Municipal Judge Edward Devitt imposed the fines and County Attorney F. H. Stodsvold prosecuted the cases, assisted by state liquor control commission operatives who made the arrests.

Northwest School Head Reports Fruit Raising in Valley Profitable

Many fruits are proving profitable in the Red River Valley this year according to surveys made by experts from the Northwest School and Station. Superintendent T. M. McCall reports that one raspberry grower has reported more than $100 worth of sales from a single acre. Several strawberry growers with overhead irrigation systems have reported excellent returns this year. The favorable rainfall of midsummer has encouraged heavy growth of stems and top of all fruit trees and plants. The heavy growth of top of fruit plants may be a hazard according to Northwest School authorities. Late fall growth of woody plants should be checked by planting cover crops such as buckwheat, rape, oats or barley. Cover crops help use up the soil water supply and thereby check the growth of woody plants. Woody fruit plants should have their stems and canes thoroughly matured and ripened to escape winter injury. Sheltered areas with rich soil and abundant soil water may be desirable for fruits such as strawberries but such areas should be avoided for tree fruits. Late fall growth on tree fruits on rich soil areas is responsible for more winter injury than low temperature according to McCall.

Beavers Building Dams in the Beltrami Island Resettlement Project

Beavers have in effect joined the construction crews of the Resettlement Administration near Baudette in the program of operations restoring a million and a half acres of submarginal land for forestry, game, and recreation.

Spreading out from their formerly-restricted aquatic habitats, the "trowel-tailed engineers" have taken up abodes in the 340,000 acres of swamps and bogs newly reflooded by 176 dams built by RA workers. About a fourth of the flowage back of the dams show signs of beavers moving in. Many of the dams reveal that the beavers have gone over them carefully and placed their stamp of approval on the construction.

"The RA dams provide them with more than enough water," Jack Manweiler, project game manager, commented, "but a beaver has to be busy, and in the nature of things, he has to be building something. If it makes them any happier to be puttering around with their own ideas of embellishments on our dams, we are pleased. This is a wildlife project, and contented beaver will very likely propagate more abundantly."

RIVER VALLEY

A very large gathering attended the funeral for Miss Myrtle Hofstad at the Clearwater church last Thursday. This community extend their deepest sympathy to the grieved family who are left to mourn the loss of a quiet and loving daughter and sister.

Mrs. Olaf Komplien and children of Thief River Falls visited last week at the Rensla home.

O. M. Mandt and son Alvin left last week for St Paul where Alvin is confined at a hospital for medical treatment. Mr. Mandt returned Saturday. —Mr. and Mrs. Maurice Lahtinen left Saturday for their new home at Tamarack.

A large crowd attended the Ladies aid at the Emil Lundeen home Friday. —The choir met for practice at the church last Wednesday evening. Choir practice will be held every Thursday evening at the church.—Miss Cora Rodahl who has been employed near St. Hilaire returned home last week.

The excessive rains that have fallen in this locality lately have done much damage to hay that has been cut and is being cut. The heavy rainfall which came Sunday evening will make it almost impossible to get on to the fields to do any harvesting. Crops on the lower lands are completely damaged.

All the members of the Lundeen families and relatives at Trail and Wanke motored to Itasca Park Sunday where they enjoyed an outing. —The Luther League meets Sunday evening at the Oak Park church, Mrs. Ben Bendickson and Mrs. Walter Lundeen will serve lunch. Everyone welcome to attend. —Mr. and Mrs. Olaf Staloas and Miss Signe Myrum attended the church festival at Garnes Sunday.

The Hard Recipes Are Easy Ones---

when you cook with

PYROFAX GAS

Modern Pyrofax Magic Chef Ranges and clean, instant-heating Pyrofax Gas really make cooking a pleasure. You have a smokeless, drawer-type broiler, an automatic oven and clean, clog-proof top burners. Pyrofax Gas Service can be yours, no matter where you live, for so little money. Equipment is installed for only $9.75, and the gas itself costs as little as 3½c per meal per person. Come in this week and select your beautiful, modern range.

Here's a dish as enchanting as its name—

"CROCK O' GOLD"

4 tbsp. butter
4 tbsp. flour
1 tsp. salt
few grains pepper
1 cup milk
1 cup grated cheese
4 egg yolks
1 cup corn
4 egg whites

A corn and cheese souffle that the whole family will rave about! Heat butter, add flour, salt and pepper. Add milk gradually, stirring constantly, until thick. Add grated cheese, and stir until melted. Pour over the beaten egg yolks. Add corn and mix well. Fold this mixture slowly into the stiffly beaten egg whites. Pour into a greased casserole. Set your Pyrofax Magic Chef oven at 325 degrees and bake for 45 minutes. Serve immediately. Serves 6.

Farmers in Flooded Region Striving to Save Part of Crop

Are Assured of Adequate Relief Where Needed Thru Federal Agency

REQUEST FOR AID GETS QUICK ACTION

Some Feed Can be Salvaged in Area If No Further Rain Falls

Summoned into special session by Governor Elmer A. Benson after assigning state officials to make an aerial survey of the flooded area in northwestern Minnesota, the state executive council Wednesday allocated $55,000 for relief of victims in the seven affected counties.

Charles Ommodt, state commissioner of agriculture who made the report on his aerial survey of the blighted areas, was given $50,000 for the purchase of livestock feed.

An additional $5,000 was allotted L. P. Zimmerman, state relief administrator, for work projects in the area. These will, in the main, concern clearing drainage ditches.

With funds made available early this week for the relief of farmers in the flooded areas in Eastern Pennington and Marshall and adjoining counties who will need aid after having lost all or most of their grain and forage crops, efforts are now being made to salvage as much of the crop as favorable weather conditions may make possible, and to secure supplies of feed so that livestock herds will not have to be sold.

Following conferences by Senator E. L. Tungseth with officials in St. Paul late last week, state and federal agencies this week took action to insure that relief will be provided in cases where it is needed, so that no one will have to go hungry as a result of losing their crops.

Designated to handle the administration of relief in the affected region, which also includes sections of Roseau, Red Lake and Lake of the Woods counties is the rural rehabilitation division of the resettlement administration with district headquarters in this city.

Barton Olson, district supervisor who will handle the work, said yesterday that only a few applications for aid had been filed as yet, and that the affected farmers are not panicky but are determined to get whatever salvage out of the feed crop that they possibly can. Relief, he stated, will be handled on the basis of actual need, rather than the amount of loss suffered.

County boards in this and several other Northwest counties are expected to take early action to apply for grants of federal funds for ditch-cleaning projects on which farmers could be employed, it was learned.

Governor Elmer A. Benson was informed Tuesday by Charles Ommodt, commissioner of agriculture, that a survey by airplane of the flooded area in northwestern Minnesota disclosed a monetary loss of $2,000,000 in Pennington and Marshall counties alone. Five counties are in the flood district.

Commissioner Ommodt's report was telephoned to Governor Benson from Crookston Monday night after he and Senator E. L. Tungseth of Thief River Falls, from the

N. W. SCHOOL MAN SPEAKS TO GARDEN GROUP ON MONDAY

A. C. Vogele Discusses New Method of Propagating Plants

The August meeting of the Thief River Falls Garden club Monday evening in the Civic and Commerce association room was attended by 25 members, who heard a talk by A. C. Vogele of Crookston, horticulturist at Northwest School. Mrs. L. G. Larsen, president, was in charge of the meeting.

Mr. Vogele described a new method of propagating plants of all kinds by quickly developing a root system thru a recently developed hormone solution, which he said is now commercially available. He also devoted considerable time to a discussion of a tendency of leaves of certain plants to turn yellow, ascribing it to a mineral deficiency.

It was agreed that the program of the September meeting should be devoted to a discussion of the care of bulbs, and the matter of securing a speaker was left in the hands of County Agent Howard Grow.

Judge M. A. Brattland Quoted in Swedish Paper

Mrs. M. A. Brattland this week received from her husband, Judge Brattland, who is sojourning in the Scandinavian countries a copy of Dagens Nyheter, Stockholm newspaper, quoting remarks made by him in contrasting the progress of the cooperative movement in this country with that in the Scandinavian nations. "We have much to learn from you", he stated in summing up his remarks. Judge Brattland will return to his home here early in September.

MR. AND MRS. PER HAGEN MARK THEIR 60TH WEDDING DAY

Have Made Their Home in New Solum Township for Past 48 Years

A large gathering of friends and relatives assembled Sunday at the Martin Jarshaw home to pay tribute to Mr. and Mrs. Per P. Hagen of New Solum township, Marshall county, on the occasion of the sixtieth anniversary of their marriage in Trysil Osterdalen, Norway, in 1877.

Participating in an informal program were Rev. T. Myhrer of Newfolden, Rev. E. L. Tungseth, Mr. and Mrs. Arnold Folden, Mrs. Andrew Hanson, Mrs. Clarence Larson, Gust Silvernes and the Folden string band. Lunch was served to the assemblage.

Of ten children born to Mr. and Mrs. Hagen five are living, including Karl and William at home, Olaf of New Solum and Emma (Mrs. Martin Jarshaw and Nellie (Mrs. Lawrence Peterson), both of New Solum.

Coming to this country from Norway in 1881, Mr. and Mrs. Hagen settled first near Holmes City, Douglas county, and in 1889 came to New Solum, where they have since made their home, living in the same house the past 41 years. Mr. Hagen was appointed postmaster of Llewellyn postoffice in 1901, continuing in that capacity until the office was discontinued.

Mrs. Hagen, now 81, has been partly crippled the past 12 years or more, but still retains a keen interest in her family and domestic affairs. Mr. Hagen, 82, enjoys good health, and until recently has assisted with the farm work.

Nearly 100 golfers from Thief River Falls and twenty other towns in this section of the state are expected to respond to invitations to participate in the first annual fall shortaton golf tournament on the local course Sunday, August 29, Douglas Booren, tourney chairman, announced today. Nine holes will be played.

STATE HIGHWAY 59 ASSN. MEETS IN CITY FRIDAY

Delegates Are Expected From Many Minnesota Communities

N. W. ELSBERG WILL BE GUEST OF HONOR

Noon Dinner Will Precede Business Session of Organization

Thief River Falls Friday will be host to approximately 100 members of the Minnesota division of the U. S. Highway 59 association when the quarterly meeting of the organization will convene at the Auditorium, beginning with a dinner at 12:30, it was announced today by F. A. Rinkel, first vice president of the association and chairman of the road committee of the Civic and Commerce association, sponsor of the gathering.

Guest of honor at the session will be N. W. Elsberg, state highway commissioner, while other guests will include Al Graves of Bemidji, district highway engineer; Lee Boyd of Crookston, district maintenance engineer; members of the Pennington county board and Thief River Falls city council; and officers of the Iowa Highway 59 association.

The Minnesota Association consists of civic leaders of the towns, cities, and counties through which this important artery of transportation runs. Organized recently in Morris, Minnesota, after a preliminary meeting in Marshall, the U. S. Highway 59 association is carrying on a vigorous fight to prevail upon the highway department to rebuild Highway 59 into a high type U. S. A. standard paved road as quickly as it is physically possible to do so.

The officers of the association are: W. W. Book, president, Marshall; F. A. Rinkel, 1st vice president, Thief River Falls; Arthur N. Barnard, second vice president, Fergus Falls; C. E. Arnold, secretary, Montevideo and F. A. Hancock, Treasurer, Morris.

The directors are: H. Tellander, Worthington; C. C. Elkjer, Clarkfield; J. O. Salness, Montevideo; Magnus Johnson, Watson; Noel G. Johnson, Milan; Mayor A. T. Forsberg, Appleton; Lloyd Maxwell, Holloway; Harry Quigley, Morris; F. A. Olson, Marshall; Helmer Larson, Barrett; and Harold Barker, Elbow Lake.

The association members believe that the economic value of a paved highway running north and south through their cities and counties exceeds that of any other governmental project that has yet been proposed. They claim that it will increase tourist traffic from the middle and southern part of the United States tremendously. It will provide a commercial link between all of the paved roads running east and west through the state, as well as be a commercial advantage to all of the territory through which this important artery runs.

COUNCIL GRANTS TWO DRY CLEANING LICENSES TUESDAY

Gaston Ward Appointed to Park Board Succeeding Louis DeCremer

The city council held a short session Tuesday evening, adjourning in time to permit the members to attend the WLS Barn Dance performance at the fair grounds. Another session will be held next Tuesday evening.

Licenses authorizing the opening of two new dry cleaning establishments in the city were approved at the meeting for the Zephyr Cleaners, who will be located in the new building being completed at 313 East Third st., and for the Bon Ton Cleaners, who will share the Ihle & Son real estate office. The application of J. A. Ralston for a barber's license also was approved.

Following the resignation of Louis DeCremer as a member of the park board, Mayor W. W. Prichard informed the council of the appointment of Gaston Ward as his successor, and this was approved.

Fair Troupe Entertains Rotary Club on Tuesday

The Rotary club was entertained following its luncheon Tuesday noon by a group of selections by the Joe Thomas Saxotette, which is appearing this week at the Pennington county fair. President Tom Mehegan gave a brief account of a district meeting of Rotary officers which he attended Sunday at Fergus Falls in company with Dr. Baldwin Borreson, secretary.

Special Session Laws Published This Week in Times Supplement

A twelve-page supplement to the Times this week carries the full text of 98 new laws enacted by the special session of the Minnesota legislature which adjourned late in July. Perhaps the most general interest attaches to the terms of the amended income tax law as it applies to individual incomes. Also included in the publication is a resolution authorizing the appointment of an interim committee to make a study of the state election laws.

SEES FLOODS AS PROMOTING WATER CONTROL PROJECT

Members of Tri-State Commission Visit Flooded Areas in County

Dean Holm of St. Paul, executive secretary of the Tri-State Water Conservation commission, and H. H. Matt of East Grand Forks, a Minnesota member of the commission, arrived in this city Tuesday to make an inspection of the flooded areas in Eastern Pennington and adjoining counties in company with Senator E. L. Tungseth.

Mr. Holm stated that one of the objectives of the group, which seeks both flood control and water conservation measures, is to straighten out the tortuous Red Lake river channel as it comes down from Red Lake, and said that one means of accomplishing this end would be the establishment by the federal government of a WPA work camp similar to the one now in operation near Bronson.

While both state and federal aid are being sought for the project, Mr. Holm added, the active support and participation of the local communities directly affected is indispensable. Now is the logical time to seek action, he said.

County Board Receives Requests for Work on Old and New Ditches

In addition to transacting routine business at its postponed August meeting Monday, the Pennington county board heard several delegations of farmers from the eastern part of the county who requested that steps be taken to construct new ditches and clean out existing ones as a means of relieving the flood situation. No action was taken at the session, but members of the board, to familiarize themselves with the situation, made an inspection tour of the affected area Tuesday.

Resettlement Engineer in City Is Transferred

Charles Wright, construction engineer and general superintendent on the local resettlement project, was transferred during the past week to a project at Marshfield, Wisconsin. He has been succeeded here by John E. Hurley of Ironwood, Michigan, who had held a similar position on a project in that community.

Drum Corps Will Join in State Competition

To Compete at State Legion Convention Next Week in Virginia

The Thief River Falls Legion auxiliary drum and bugle corps and the Ninth District band, two organizations in which local citizens are much interested, will leave this week-end for Virginia to participate in the state Legion and auxiliary convention which opens Sunday and continues thru next Wednesday.

The high spot of the convention for the members of the local organization will be the Class A drum corps competition Tuesday evening at 7 o'clock in which the Thief River Falls group, following a period of intensive rehearsals under the direction of Mrs Jeanette Wright, drum major, will compete for the first prize of $250.

Other events in which the drum corps will take part include the memorial parade Sunday; the massed band and drum corps display late Monday afternoon, followed by a banquet; Forty and Eight parade late Monday evening; and the main convention parade Tuesday afternoon at 1:30.

Entered in the individual drumming contest will be Mrs. Juanita Lynde and Martha Holmgren, while individual bugling contestants include Mrs. Lila Hanson, Alice Baker and Ida Fossum.

A large delegation of local Legion and auxiliary members will attend the convention on one or more days. Official Legion delegates include Tom Lonson, Tom Rowan, Carl Kretschmar, M. P. Erickson, H. M. Olson and A. R. Hulbert, while auxiliary delegates are Mrs. Thora Nelson and Mrs. G. G. Beddick.

RENAME NORBY PRESIDENT OF SCHOOL BOARD

Board Monday Accepts Lund & Tunberg Bid for School Bus

TEACHER IN CENTRAL SCHOOL RESIGNS POST

Miss Sylvia Hanson, Wheaton, Is Appointed Music Supervisor

B. O. Norby was reelected president of the Thief River Falls board of education at its annual organization meeting held Saturday, other officers named including Dr. A. E. Jacobson, vice president; Ralph W. Woolhouse, secretary; and Alfred Skarstad, treasurer.

The treasurer's bond was fixed in the amount of $5,000, and the meeting date was set as in the past on the second Monday evening in each month. Committee appointments include: Finance, Skarstad, chairman; Dr. Jacobson and William Douville; instruction, Dr. Jacobson, chairman; Skarstad and Norby; maintenance, C. E. Helquist, chairman; Woolhouse and Douville.

At the regular August meeting held Monday evening five dealers submitted eleven bids on a fifty-passenger bus to be used for transporting pupils from the rural districts. The board voted to accept the low bid of Lund & Tunberg for a Ford chassis and Schurmeier-Whitney body to cost $1,984.62, other bids ranging as high as $2,538.82.

The board reappointed present bus drivers, including Randall Noper, Albert Poppenhagen, Albert Horter and Neary Louse. Also reappointed as school janitors were Anton Carlson, Central; Otto Geske, Knox; Peter Sater, Northrop; and Obert Lindland, Werner Rasmussen and August Sortland, Lincoln and Washington. Each was given a salary increase of $5 a month.

Miss Winifred Wengeler, who has served efficiently during the past twelve years as secretary to the superintendent of schools, tendered her resignation to the board, and Miss Vivian Havel was named to succeed her. Miss Havel is now engaged in familiarizing herself with the work.

Also accepted was the resignation of Miss Thordis Johnson as geography instructor in the Central school. She plans to remain in Chicago during the coming year to continue her education.

Miss Sylvia Hanson of Wheaton was elected music supervisor, which post was held last year by Miss Erma Springen. Miss Hanson was graduated from St. Cloud teachers college and from the music department of the University of Minnesota. She has taught for nine years, including two years at Buffalo and the past seven years at Rice Lake, Wisconsin, where she made an excellent record in both vocal and instrumental work.

The board will meet within the next few days to elect a school librarian and a successor to Miss Thordis Johnson, Supt. Morris Bye announced today.

Marx Bros. in "A Day at Races" at Avalon Sunday

In what is described as their maddest, merriest film to date, the Marx Brothers will appear in "A Day at the Races" at the Avalon theatre Sunday and Monday, with a midnight prevue Saturday evening at 11:15. The plot of the picture shifts from a sanitarium to a race track, and is packed with action. The supporting cast includes Maureen O'Sullivan, Allan Jones, Douglass Dumbrille and others.

Legion Junior Ball Team Downs Roseau 15-3 Sun.

In a six inning contest played at the fair grounds ball park Sunday afternoon, the Thief River Falls Legion junior baseball team scored a decisive 15-3 victory over the Roseau junior aggregation. Booren and Nicholson did the twirling for the locals, while Anderson served behind the bat.

Best Program Ever at Pennington Co. Fair; Event Closes Friday

Substantial Addition to Business Section

Above is shown the new home of the Skarstad-Daniels Lumber company which was completed recently. Located on the east side of Horace av. at Fourth st., the main structure is 60 by 80 feet in dimensions, and is built of tile with a steel roof, while the cement shed adjoining is 16 by 32 feet in size. The attractive building is placed on a site 100 feet wide and 140 feet in depth.

Ideal Weather Greets Opening; Huge Crowds in Attendance

GRANDSTAND SHOW OF OUTSTANDING MERIT

Exhibits in Most Departments Are Best in History

The show is on!

Going into its third day of ideal weather conditions, the Pennington county fair, which opened Tuesday, has been attended by huge throngs from thruout Northwestern Minnesota, which gives promise of former attendance records being eclipsed if the weather remains favorable thru Friday, the closing day of the 36th annual event.

The grandstand and bleachers were nearly filled Tuesday evening the opening night of the fair, when the WLS Barn Dance troupe provided a type of entertainment that was plainly greatly enjoyed by the large crowd.

Ernie Young's revue, "The Passing Parade," made its debut at the fair Wednesday evening, and proved again, as two years ago, that Mr. Young is outstanding leader in providing this type of entertainment. With the most elaborate background in fair history, and with the chorus of twenty attractive girls arrayed in a variety of beautiful costumes, the show moves at a fast pace and proves to be highly entertaining. Final performances will be given this evening and Friday evening when the grand prize award will be made.

In connection with the revue is offered a half dozen vaudeville acts of superior calibre including the Joe Thomas Saxotette; Joe Jackson, Jr., bicyclist and pantomimist; Motter & Davis, hand balancing act; Lady Barbara's Circus a donkey act; Roth & Shay, comedians; and the four Hazel Mangean girls, presenting drawing room acrobatics.

Exhibits in nearly all departments of the fair outstrip those of former years, the various buildings being crowded to capacity. The agricultural exhibits, including grains, corn and a wide variety of garden products are the best on record owing to the favorable growing season, in the opinion of Supt. Hans Anton.

Livestock exhibits, particularly of cattle, are above the standard of preceding years, and all leading breeds are on display. The display of flowers in the Woman's building is the largest and most varied in the history of the fair, and won high praise from A. C. Vogele, horticulturist at Northwest School, Crookston, who judged the entries. Exhibits in other departments of the Woman's building also are of outstanding quality.

Displays in the 4-H department are the most numerous to date, and present a vivid picture of the work the boys and girls are accomplishing in such fields as bread and cake baking, home beautification, vegetable growing, sewing, canning, meal planning and home furnishing.

TOTAL OF 2768 IN COUNTY SCHOOLS DURING PAST YEAR

Matheson Submits Annual Report to Department of Education

A total of 2768 pupils were enrolled in Pennington county schools during the past year, it is revealed in the annual report of A. C. Matheson, county superintendent of schools, submitted recently to the state department of education.

The total was almost equally divided between girls and boys, there having been 1393 of the former and 1375 of the latter. An aggregate of 1866 children attended high and graded elementary schools, while 902 attended ungraded schools in the rural districts.

By age groups the pupils were divided as follows, the report shows: Ages five to seven inclusive, 510; ages eight to fifteen, 1941; ages 16 to 20, 299; under five and over 21, three. A total of 722 pupils attended high school, while 235 entered school during the year for the first time, and 212 were graduated from the eighth grade.

ADULT 4-H LEADERS COMPLETE PLANS FOR FAIR DISPLAY

Division Superintendents Named at Meeting Last Week

The adult leaders of the Pennington County 4-H clubs met at the County Agent's office Wednesday night of last week to discuss and make plans for the fair. A health clinic for all 4-H club members was also discussed. The purpose of this examination is to select the most typical boy and girl to represent the county at the state fair.

The following clubs asked to take charge of booths at the County Fair:

Northfield Club, sewing I and III; Reiner club, home beautification, canning and cake; Steiner Club, garden; Goodridge and Highlanding, room furnishing; Thief River Falls Club, meal planning and bread.

The superintendents for the different divisions in 4-H work include Eugene Thompson, Thief River Falls, livestock; Dorothy Woolson, Thief River Falls; poultry; Ruth Brink, St. Hilaire, gardening; and Hazel Mellin, Thief River Falls, home economics.

Fine Weather Prevails Locally During Week

Ideal weather, with the mercury ranging around the 80 degree mark, prevailed locally during the last week, the skies being clear except for a light shower Monday night. However, additional showers fell late last week south and east of the city. Harvesting operations are now general except in the flooded areas, where the water has been gradually receding during the past week.

Gullingsrud Receives Big Gas Tax Allotment

Representing an increase of more than fifty per cent over last year's figure, a check for $19,875, covering one-half of the 1937 gas tax allotment for Pennington county, was received Tuesday by County Treasurer John Gullingsrud from State Auditor Stafford King. The sum of $13,125 was received from the same source in August, 1936.

ANTON AND GROW CONFER ON SOILS PROJECT FOR 1938

Next Year's Setup Will be Simpler, St. Paul Meeting Indicates

Hans Anton, chairman of the Pennington County Agricultural Conservation association, and Howard E. Grow, county agent, attended a state conference on August 6 and 7 at University Farm for the purpose of discussing the 1938 conservation program. Every county was represented by two delegates.

The soil conservation and domestic allotment act has been extended to 1942 by congress. That means there will be a program for another four years and the purpose of this meeting was to make recommendation for a satisfactory and permanent program. The needs for a permanent program for agriculture is quite evident now as the price of farm grains have taken quite a drop, due to the reports of a crop that will exceed the ten year average.

At the present time it looks as though the 1938 program will be quite different, but much easier understood and administered, than the program in 1936 and 1937.

Temperatures in Hemispheres

The earth is nearest the sun when it is winter in the Northern Hemisphere and summer in the Southern Hemisphere. The difference in distance is such a small fraction of the total distance that there is no significant difference in the corresponding seasons in the two hemispheres.

Growing With Your Child

Enjoyment of Everyday Things

Along about the end of April, two small children were observed crouching down beside a bed of tulip plants whose leaves were beginning to show above the ground. *Their mother was there, too,* and the three were enjoying these small bits of green to the utmost. For the next two weeks they watched the quick growth of the little plants and finally were thrilled with the flowers. We might accept a lesson from this group and develop an appreciation of the everyday things that are all around us.

Much pleasure can be gained from one's garden if only the beauties contained therein are observed, and if one becomes sensitive to the small growth changes which occur almost daily. Some, of course, are ready to proclaim that they have no garden. Even those who live in apartments can have gardens in flower pots or window boxes. Bulbs and other plants can be secured quite cheaply and grown indoors as well as out with little effort. Or, if one doesn't desire flowers close at hand where they can be enjoyed daily, there is still the neighbor's garden. How many of us even see the flowers around the house down the street?

Then enjoyment of the things around us can be extended to include trees and woods. It makes little difference whether one is walking along a street with trees on either side, or driving through a wooded country, the beauty is there and can be enjoyed if only one sees it. To be aware of the different kinds of trees, the different shapes of leaves, the different shades of green, adds to the pleasure of any jaunt.

It is surprising how many people drive through beautiful stretches of the countryside and fail to see the birds and tiny animals. Being on the alert for wild life, being able to name and describe birds and animals can result in much pleasure. Being able to identify the songs of various birds also adds to a trip through the woods.

There are other beauties of nature, too, that are around us every day. A gorgeous sunset or a splendid sunrise can add to the depth of feeling for the whole day, yet many never see either. The deep blue sky with white clouds floating here and there, or a sky hanging low with storm clouds is a thing of beauty. The very 'feel' of the atmosphere can be enjoyed. These and many other everyday things of nature can add pleasure to our everyday living.

Enjoyment of everyday things is not necessarily confined to appreciation of nature. Beautiful colors, a lovely design, delightful music, a child's laugh, another's job, a playful kitten are at hand daily and can be sources of pleasure. The everyday things which can be appreciated are almost unending if only we look for them.

Parents particularly have a responsibility in enjoying everyday things, not only because it will add to their lives, but because they can help children to become sensitive to and appreciative of the little things. If we wait for the big events in life, we will have little pleasure because they so seldom arrive by themselves. But if we enjoy the little pleasures, they will lead to the bigger ones.

Johnson Faultless in Dress

Andrew Johnson, while occupying the White House, was faultless in his dress, and particular to the point of fastidiousness. He always wore a frock coat and high standing collar, well fitting shoes or boots and carefully cut trousers. His biographers say that he was among "the most perfect types of American manhood; that he was of perfect mold and splendid physique."

Tung Oil From Nut

Tung oil, or chinawood oil is a thick oil, rather unpleasant in both smell and physiological action. As its name suggests, it is pressed from the nut of a tree that has been cultivated in China for 2,000 years. Tung oil dries at about the same rate as linseed oil to form a tough and highly resistant film. It long has been the basis of the celebrated Chinese lacquers.

Official Paper of Pennington County and City of Thief River Falls

WHEN 111,000 AMERICANS DIED

(Industrial News Review)

A generation has passed since the sinking of the Titanic, yet that great disaster is still well remembered. Fifteen hundred persons died.

The Johnstown flood will never be forgotten—the world was aghast when the death total of 2,209 was tabulated.

The World War was the most sanguinary conflict in history. In it, 50,000 Americans lost their lives, and they are still mourned.

The recent Texas school explosion, which killed 294 children, brought universal sympathy and horror.

Yet last year 111,000 Americans met accidental death—more than twice as many as were killed in the great war—and it caused hardly a ripple in the flow of news. We read of some of those accidents in our paper—"John Jones, aged 45, died in emergency hospital after being struck by an automobile"—turned the page, and forgot them. This astounding callousness—this attitude of "Accidents always happen to the other fellow, not to me or mine"—is death's greatest ally.

Among men, heart disease is the only thing which kills more men than accidents. Such plagues as cancer, tuberculosis, pneumonia—plagues which are being fought by all the resources of science—are down the list. Recklessly driven automobiles, burns, falls, drownings, and so on—these are the great killers.

Practically every accident is preventable and this is especially true of the motor car, greatest of all the great killers. Care, competence, courtesy—these make up the accident prevention triumvirate. It's up to you—to all of us.

CONGRESS AGAIN A POWER

(Minneota Mascot)

It's usually quite interesting to read the various columns under Washington date-lines, each of them professing to purvey the latest and most startling "inside dope." Frequently these whispers by those in the know are slightly at variance.

Here are two interesting paragraphs from one such confidential column, always rather sedate in tone. The first runs thus: "Most members of the cabinet and nearly all close presidential advisers are saying privately: 'I told you so.' Each now passes out word that he urged the president to pull out of the fight on the Supreme Court at the time the Social Security act was upheld. Why that advice was not taken remains a Washington mystery."

The other comment, dealing with a likely future trend, is as follows: "Deep discouragement fills the ranks of left-wing 'thinkers' who have flourished inside the government within recent years. Several tell friends that they now intend to follow the leader, joining Dr. Rexford Tugwell in a return to private life. Swing of power back toward congress takes luster from their jobs. Sharp decline is expected in the call for 'advanced ideas'."

Along that line, it does appear practical to let some of our present experiments get into a smoothly functioning state before rushing into any more right away.

BUG INVASION

(St. Paul Dispatch)

While Americans have been concerning themselves with many things "from cabbages to kings" various sorts of insects have been concerning themselves with American agriculture. The depredations of these pests have become a problem of national scope and some millions of dollars are being expended in an effort to eradicate them. The latest of these tiny marauders is the Japanese beetle which is doing an enormous amount of damage in the Eastern United States.

The Japanese beetle is like the grasshopper which has destroyed millions of dollars worth of agricultural produce in the western farming states in that it will eat almost anything. The beetle, however, is even more uncontrollable than the grasshopper because of its greater radius of activity. The beetle not only propagates by the millions but also flies fast and far and hitch hikes on automobiles and railroad cars. At present the Federal government has established a quarantine around New England and the Middle Atlantic states in an attempt to control the infested area. As yet no effective way has been discovered to prevent crops, lawns and golf courses from being destroyed by the insects.

With the addition of the Japanese beetle there are at least four different types of insects which threaten to be major agricultural problems in the United States at present. In the West and Middle West the grasshopper, in the East the beetle, in the South the Argentine weevil and to a lesser degree in Minnesota and the Dakotas the army worm are all busily engaged in consuming products which man, in his presumptuous way had thought he would reserve for himself.

SPEED THAT DOESN'T SAVE TIME

(Philadelphia Inquirer)

If motorists who turn streets into speedways could only realize that they gain little time in the long run, while inviting serious mishap to themselves and others, perhaps—but only perhaps—some of them might reform their ways. The Chicago Safety council has made a practical experiment with two cars over the same course in busy traffic.

The driver of one was instructed to speed without regard to traffic lights or regulations. The other driver was told to observe the law and all safety precautions while making as good time as he could. The two cars reached their destination together.

Expert motorists have often observed, while touring, a car shoot past them at breakneck speed only to be overtaken a few miles down the road. A steady pace is better than spurts when good time is to be made. And it not only saves times, but lives.

It would not be especially difficult to estimate in dollars the benefit that has been conferred on Minnesota agriculture by the development of Thatcher wheat at the Minnesota Experiment Station. Certainly many a farmer is realizing $20 or $30 to the acre where otherwise his wheat crop would be a total loss due to the ravages of rust. The total result this year and in the years to come will run into millions and millions of new wealth for the state, thus returning to the state many fold the cost to the state of the research which finally produced this rust-resistant variety. At last rust has been conquered by developing a rust-resistant wheat rather than by the other method followed for many years of trying to eradicate the rust. That Thatcher wheat will remain permanently rust resistant is perhaps not to be expected. It will probably in due time go the way of other wheats which have had their time of favor, but if one variety of wheat can be developed to a point where it will resist rust, then other varieties can be so developed, and for that reason, the development of Thatcher wheat would appear to definitely establish a method of permanently removing the rust menace.—Morris Tribune.

Trade Try-out Courses Offered to Students at Dunwoody Institute

Dunwoody Institute in Minneapolis offers trade try-out courses in the following lines: automobile work, air conditioning, building construction, drafting, electrical work, farm mechanics, highway construction, machine shop and printing. These open up on August 16 and continue until on or about September 10, or later.

This gives an excellent opportunity for a young man to actually try out one or more of the above lines to see if he is interested in the same and if he has the ability which would best function in the selected trade.

These try-out courses are specifically scheduled before the University and other advanced institutions of learning open in the fall so that following the three-week trade try-out those who find that they are not interested or do not have the special abilities required for the training at Dunwoody may enter some other institution of learning without "getting out of step" with their former classmates.

Dunwoody Institute was a gift to the residents of the state and is conducted without profit. Inquiries about the training at Dunwoody and visitors are welcome at all times.

136 Drivers Deprived of Cars for Drunken Driving During July

July saw 136 persons losing their drivers licenses—and without exception each loss was for driving while drunk, it was revealed by a report for July handed N. W. Elsberg, state highway commissioner, by Gil Carmichael, director of the drivers license section.

In his report, the drivers license head particularly called the commissioner's attention to the fact that up to August 1 this year 25 licenses have been taken away from youths between 15 and 20 for driving while intoxicated.

"Persons of that age," Mr. Carmichael said, "cannot be sold liquor under the law. The number picked up driving while drunk is evidence that some liquor dealers are supplying our young men with liquor. I, therefore, urge the proper officials to make an effort to determine the source of liquor of any minor arrested for driving while drunk. Such action, of course, is out of the jurisdiction of my department."

To August 1 there have been 608 revocations of drivers licenses, the report disclosed. This is against 769 for the entire year of 1936. At the same time there have been 119 suspensions for the seven months. In July there were 52.

In the matter of July revocations, Hennepin county led the counties with 24. St. Louis was next with 20 and Ramsey was third with 16.

Ramsey county, however, led in suspensions with 15, Hennepin was next with 8 and St. Louis was third with 6.

The drivers license section has returned 67 revoked and suspended licenses where terms have expired.

PUBLIC OPINION

Editor the Times:

The eastern half of Pennington county and the southeast part of Marshall county, together with sections of Roseau county and northeastern Red Lake county have a flood situation which is nothing less than serious. Realizing the seriousness of the situation and after conference with commissioners Race and Mandt, I went to St. Paul last Wednesday evening to contact State and Federal officials. Last Thursday I met with the Executive Council and presented to them the problems we faced on account of the flood. I also spent Friday in St. Paul contacting other important State and Federal officials.

I am indeed glad to be able to bring back a very favorable report. Action has been obtained immediately. Definite assurance was given us that no one would suffer. Four men were sent at once from St. Paul to certify such farmers as will need relief, and to organize all rural relief activities. They are already here working. Mr. Youngdahl, certification man for Minnesota, wired Washington to permit farmers suffering from the flood to certify for Resettlement employment. At this writing no answer has been received. W.P.A. work projects could be organized out of ditch cleaning and repair work. If that kind of employment is to benefit farmers they must however be permitted to certify. The Highway Department was also contacted with the request that construction work on highway No. 1 east of this city be done on relief basis giving our flood affected farmers the opportunity of earning some money. Mr. Elsberg, highway commissioner, promised to do everything he could to effect such an arrangement.

It is indeed fortunate that both State and Federal governments are now well organized to take care of both regular relief and such emergency relief as will be ours at this time. Mr. L. R. Zimmerman, who is Federal Relief Administrator for the state, has already given this emergency much attention. His field man, Wm. Paul, has now been here for several days ascertaining data and obtaining necessary information. Since his return from New York, our Governor, Elmer Benson, has given the matter his personal attention. Monday he sent Mr. Chas. Ommodt, Commissioner of Agriculture, here to make a thorough survey. Two Army planes were sent up from Fort Ripley and Mr. Ommodt and I obtained a very good bird's eye view of the flood area. We circled over Pennington county, including Grygla and southeastern Marshall county. A sorry spectacle indeed! Many farm buildings were standing in water. Fields and meadows were flooded.

More reports will be given later. At this time I want to assure our people that they will be taken care of on the basis of need and that I am doing everything I can. At the same time my efforts would not avail without cooperation from our State and Federal government. They deserve our most respectful recognition and I am certain that our people will greatly appreciate their efforts in our behalf. Meanwhile salvage all that you possibly can.

Look Out for Your Belt Line, Is the Advice of State Medical Society

The life line and the belt line have a distinct relationship, according to a bulletin issued today by the Minnesota State Medical association's committee on public health education. As the belt line grows longer, the life line grows shorter.

Of course, the doctors do not refer in this bulletin to lines on the palm but to the actual length of life of any average individual. They recommend that the tailor who sees a good many prospective patients before the doctor does should take an immediate interest when the belt line of his clients first starts to expand. If he did so, perhaps a good many of the ailments that cut short the lives of overweight women and men past middle age could be caught early, and the increase in weight checked in time to save valuable lives.

Serious attention to the problem of overweight affords one of the best hopes of reducing the death rate from diseases of the heart and kidneys and circulatory system against which the least progress is being made today.

Figures cited in the bulletin show that the mortality among fat men and women is much greater than among those whose weight approaches the normal average for their years.

$35.00
Offered In Gasoline Economy Test Next Week

Owners and drivers of Ford V-8 Trucks and 85 H. P. Commercial cars will compete Saturday, August 21st in a gasoline economy test. With $35.00 in prizes offered to the winners, according to announcement today by Lund and Tunberg, local Ford Dealer.

The contest is scheduled to start at 10 A. M. to 1 P. M. at edge of north end of city.

Each contestant will be given a half gallon of gasoline in a special container, and the test will be to determine which driver can go farthest on the half gallon of gasoline.

The owner of the winning truck will receive $15.00, and a similar prize will be awarded to the owner of the winning commercial car.

Lund and Tunberg also announced that while the contest is in progress a five-gallon mileage test will be made with a demonstrator truck, with every owner invited to guess how far the truck can go on five gallons of gasoline. A $5.00 prize is offered for the truck owner guessing nearest to the actual mileage.

Order for Hearing on Petition for Adjustment of Final Account and for Final Decree of Distribution

State of Minnesota,
County of Pennington.

In the Matter of the Estate of Lizzy Osvolden, also known as Liz Osvolden, Decedent.

The petition of N. [illegible] Osvolden as representative of the above named decedent, together with his final account of the administration of said estate, having been filed in this Court, representing, among other things, that he has fully administered said estate, and praying that said final account of said administration be examined, adjusted and allowed by the Court, and that the Court make and enter its final decree of distribution of the residue of the estate of said decedent to the persons entitled thereto;

It is Ordered, That said petition be heard and said final account examined, adjusted and allowed, by the Court, at the Probate Court Rooms in the Court House, in the City of Thief River Falls, County of Pennington, State of Minnesota, on the 28th day of August, 1937, at ten o'clock A. M., and that notice of this hearing be given by publication of this order in the Thief River Falls Times, and by mailed notice as provided by law.

Dated August 2nd, 1937.

By the Court,
ANDREW BOTTELSON,
Probate Judge.

SO. ST. PAUL LIVESTOCK

(By U. S. Department of Agriculture, Economics and Minnesota Department of Agriculture)

South St. Paul, Minn., August 9, 1937 (U.S.D.A.)—Hogs opened the week about steady, holding all of last week's sharp advances. Most good and choice 160-240 lb. weights sold at $13.00-13.25, a few 240-300 lb. butchers $12.45-13.15. Good sows 300 lbs. down bulked at $11.00-11.65, bigweights down to around $11.00, medium grade sows $10.00-11.00. A few feeder pigs sold up to $13.00.

The Monday cattle run of 9,000 was considerably increased over last Monday's run of 7,700, and even midwestern markets had a combined run of 80,000 cattle today against 85,000 a week ago. Bulk of the local crop consisted of grassy material, and grain feds held fully steady, good grade steers and yearlings being salable at $12.50-14.00, medium warmedup lots down toward $9.50. Grassy steers sold slow and weak to killers but steady on stocker and feeder account with grassy killer she stock and bulls weak to 25c lower. Plain grass steers went to killers at $7.00-9.00, most grass heifers $5.50-7.50, plain to good beef cows $5.00-7.00, most low cutters and cutters $3.50-4.75. Sausage bulls sold largely at $5.25-6.25, outstanding kinds being quotable to $6.75. Vealers opened weak to 25c or more lower, bulk good to choice $9.00-10.50, common and medium grass calves $5.00-7.50, cull heavy calves down to $4.00. Medium and good stocker steers landed at $7.00-9.50, stock heifers $5.50-7.50.

Slaughter lambs opened the week steady to 25c lower, other classes largely steady, choice Washington lambs making $10.65, and fat native lambs $10.25, with plain kinds down to $7.50. Good to choice slaughter ewes earned $4.00-4.50, choice around 72 lb. Washington feeding lambs $10.25, and a few native feeders around $8.00-8.25.

PUBLIC NOTICES

In Memoriam

In loving memory of our son and brother, Knute, who died three years ago Aug. 11th, 1934.

We cannot forget you, dear brother and son,
The long may seem the years;
And often in the lonely hours,
We wipe away the tears.
We try to still our heart aches,
And try not to complain;
For God will let us come to you,
After a little while.
O, may we meet, dear brother and son,
Where friends no more shall weep,
For those who died in Jesus,
Their death is only sleep.

Sadly missed by Mr. and Mrs. Thomas Larson, Mr. and Mrs. Clarence VeVea, Laura Larson, Mr. and Mrs. Claude Hicks, Mr. and Mrs. Sigurd Peterson, Misses Petra, Elsie, Bertha, Ingeborg and Cecilia Larson. 32p

OENS AND KIEWELS WILL COMPETE FOR CITY D-BALL TITLE

League-Leading Marshalls Are Eliminated From Title Play

In two sensational diamondball games that were not won until the last inning the Barzens and the league leading Marshalls were put out of running for the city D-ball title. Oens scored two runs in the last inning to defeat the slightly favored Barzens. Arnold Rustad smashed out a hit to score Jessie DuChamp with what proved to be the winning run. The game was a pitcher's battle between Marv Benson of Oens and Kaushagen and Iiallingrud of Barzens. Each team got 4 hits.

The Marshall-Kiewel game was tied 3-until the last inning when the Kaushagen-Ness combination was responsible for the winning runs. Jorde and Ness each allowed eight hits. Oscar Bakke drove out a home run in the second inning.

The championship game between Kiewels and Oens will consist of a three game series, unless one team wins the first two games. The first two games of the series will be played on Wednesday and Friday nights, Aug. 18 and 20. If each team wins one game the third and deciding game will be played on Sunday, Aug. 22.

A local All-Star D-ball team picked by the different managers will play in the tournament at Grand Forks next Sunday.

FINED AFTER FRACAS IN ST HILAIRE WEDNESDAY

Joe Strom, 18, of Red Lake Falls was taken into custody late last Wednesday night by Sheriff Arthur Rambeck following a fracas at St. Hilaire. Brought before Judge Lincoln Arnold in municipal court, Strom was sentenced to pay a fine and costs totaling $6.00.

RELIEF IS PROVIDED FOR FLOOD VICTIMS IN EASTERN REGION

(Continued from page one)

air viewed the east half of Pennington county, the southeastern portion of Marshall county and a portion of Red Lake.

Governor Benson had asked that the survey be made with a view of possibly supplementing the aid already being extended to needy families by the federal rehabilitation administration.

The counties where financial aid has been requested include besides Pennington and Marshall, Beltrami, Lake of the Woods and Roseau counties.

At the same time, Lloyd I. Nelson, state director of the rural rehabilitation administration who visited this section Monday, estimated that between 500 and 700 families will require financial assistance through the winter.

Nelson emphasized that most of the families are not destitute, but are in need of immediate help. He said that the water is about 18 inches deep in ditches and that it is between two and six inches deep on a large part of the crop.

Nelson said that his men found that the water was receding Monday at the rate of approximately an inch every six hours, stressing that a drop of between six and eight inches is necessary to save a large part of the crops.

Nelson has six men in the area, while the state relief administration has four men in that district. In addition, county boards have furnished clerical help.

Redeeming Damaged Bills

The Redemption Office of the U. S. Treasury has to listen to the woes of people with parts of torn bills. Three-fifths of a torn bill is redeemable at face value, two-fifths at half value. However, if there is satisfactory proof that the other part of the bill has been completely destroyed, the Treasury will redeem even a fragment.

LOCAL PLAYERS IN ALL-STAR GAME AT CROOKSTON TODAY

Valley League Team to Meet Crookston Pirates at 8:45 Tonight

In what promises to be one of the most interesting baseball games of the current season, the Red River Valley league all-stars will meet the Crookston Pirates Northern league entry, this evening at 8:45 in the Crookston ball park. Players from East Grand Forks, Oslo, Warren and this city will be in the all-star lineup, prospective players from the local team being Soholt, Jaranson, Ekeren, DuChamp and Benson. Their teammate Sahl will be on the mound for the Pirates.

The Thief River Falls aggregation will journey to Warren for a game Sunday afternoon, while Warren will meet the locals at the fair grounds ball park next Thursday evening, August 19, at 6 o'clock. The Civic and Commerce association, which is sponsoring the contest, is requesting local business places to close for the occasion that day at 5:30. sion that day at 6:30.

Playing here last Sunday, Shorty Dokko's Gary team, altho outhit by the locals, came out at the long end of a 4-1 score. The visitors started out at a fast pace, with Brevick clouting out a four-bagger in the first inning and Ege another in the second, in which Bakke also scored. Gary scored its final run in the fourth, while the locals made their lone tally in the seventh when Ekeren made the circuit. Sahl and Helberg were the opposing pitchers, the former allowing seven hits and the latter ten.

Catholic Charities Meeting in St. Paul

Solemn Pontifical high mass in the Cathedral of St. Paul will open the twenty-third annual National Conference of Catholic Charities Sunday, August 29. In conjunction with the conference, extending through September 1, there will be held the annual meeting of the Superior Council of the Society of St. Vincent de Paul. Thousands of clergy, members of religious orders, and lay leaders from throughout the nation and Canada will assemble in the city that derived its name from the great Apostle of Charity. James Plunkett, general chairman of the local committee on arrangements, said the Conference would mark probably the greatest assemblage of churchmen in the St. Paul archdiocese since installation of Archbishop John Gregory Murray, January 27, 1932.

Lutheran Tent Meetings Will Open Next Tuesday

Dr. B. M. Christenson of Minneapolis will be the speaker for a series of tent services here beginning Tuesday evening, Aug. 17 and which will continue until and including Sunday evening, the 22. Services will be held every evening at 8 o'clock. The meetings are sponsored jointly by the Augustana and Zion Lutheran churches of our city.

On County Fair Program This Week

Above is pictured the team of Motter and Davis, who will present what is asserted to be the greatest hand-balancing act ever to be witnessed locally at the Pennington county fair closing Friday, where the team will be one of the outstanding performers in front of the grandstand. Motter and Davis recently staged their act at the famous Roxy theatre in New York City.

PENNINGTON CO. FAIR NOW IN FULL SWING; TO END FRIDAY NIGHT

(Continued from page 1)

Crowds thronged the fair grounds Wednesday afternoon, the occasion being Thief River Falls day, with local business places closed for the afternoon. A feature of the afternoon was a snappy demonstration by the local auxiliary drum corps, which performed in such an able manner as to give high promise of the corps' success at the state Legion convention in Virginia next week. The organization also appeared briefly in the evening in front of the grandstand, playing an overture preceding the Ernie Young revue.

Added attractions Tuesday and Wednesday evenings were half-hour concerts by the Lincoln high school band under the direction of R. G. Riggs, the aggregation performing in a highly professional manner.

The horse racing program was run off on schedule Wednesday afternoon, and will be repeated this afternoon and Friday under the direction of H. R. Lund. Enough entries are on hand to insure lively competition for the substantial purses.

W. W. Viebahn Gets New Position in Pittsburgh

Resignation of W. W. Viebahn as superintendent of Luverne's municipal electric plant, waterworks and steam heat system was accepted by the city council. It will become effective in time to permit Mr. Viebahn to leave on August 21st for Pittsburgh, Pa., to accept a position in the central engineering department of the Westinghouse Electrical company. Mr. Viebahn has been city superintendent in Luverne since May, 1935, coming there from this city where he served for a year as city engineer.

Boy, 11, Drowned in Red Lake River

Oscar Halvorson, 11-year-old son of Mr. and Mrs. Henry Halvorson of Hickory township, drowned while swimming with a group of boys in Red Lake river at a point near his home Wednesday of last week.

Funeral rites were held Saturday at the Nazareth church, Rev. Sigurd Fladmark officiating, and interment was made in the church cemetery.

The boy was born September 13, 1925, and was reared in Hickory township. He is survived by his parents, four brothers Clifford, Raymond, Selmer and Edwin, all residing at home, and five sisters Regina, Helen, Alvina, and Dolores, all at home, and Mrs. Walter Johnson of Hickory township.

War Veteran Agency Is Abolished on Thursday by Executive Council

The state executive council in a heated session last Thursday abolished the War veteran relief agency headed by George Sjoslius and transferred that activity to the state board of control.

Over the vigorous protests of Stafford King, sole Republican council member present, Veterans Relief was transferred to the department under the board of control headed by David Lundeen, brother of Congressman Ernest Lundeen.

The action constituted a victory for the three Liberal members of the council. It reversed the Executive council of 1935, then Republicans relief from the board of control and under a law passed by the Conservative Legislature of that year gave it individual status.

Approximately 40 employes will lose their jobs under the consolidation. When the executive council war veterans relief agency was established in 1935, the board of control was dominated by Liberals.

Driverless Car Goes 2 Blocks in Grand Forks

James Morgan's Model T Ford set out to see the world for itself Friday afternoon in Grand Forks and didn't do badly at that. It tossed Mr. Morgan aside as soon as he'd cranked it and departed on a two-and-one-half block driverless spree down Second avenue North. Weaving from curbing to curbing 10 times in its flight, the auto miraculously missed eight passing cars and dozens of youngsters playing nearby. A friendly tree in the middle of the 1200 block brought the adventure to an end.

BE ON GUARD FOR LEAFY SPURGE, IS AGENT'S WARNING

Grow Also Warns of Threat of Field Bindweed Infestation

It is quite apparent that weeds are one of the things that farmers must combat more than ever before if they are going to raise crops as they have in the past, states Howard E. Grow county agent.

The two weeds that everyone must be on the watch for, he said, are leafy spurge and field bindweed. These weeds are more important than any others at this time because they are spreading so fast and are so hard to control. It costs from $40 to $90 per acre to eradicate these weeds once they are established. Nearly every county in Minnesota has them both. Pennington is more fortunate. So far only one small infestation of leafy spurge has been found and there are no reported infestations of field bindweed.

"These two weeds are on exhibit in the agricultural building at the county fair," said Mr. Grow. "If you do not know what they look like, do not miss this opportunity to become acquainted with them. Perhaps there are other infestations in the county that we do not know about. Now is the time to see these weeds and report any that you may think is either of these two pests."

Funeral Rites Today For Arne Moe, 83

Funeral rites will be conducted at two o'clock this afternoon from the Evangelical Free church, Rev. J. O. Jacobsen officiating, for Arne Moe, who died Sunday at his home at 421 Knight Ave. No. Interment will be made in the Holt cemetery.

Mr. Moe, who was eighty-three years of age at the time of his death, was born in Solor, Norway, March 19, 1854. He was married in Norway to Mina Olson in 1881 and in the following year emigrated with his wife to the United States, making his home at Alexandria until 1886. In that year he and his wife moved to Marshall county, residing there until 1906 when they moved to Grandville, N. D. In 1928 they moved to this city, where Mr. Moe spent the remaining years of his life.

He is survived by his wife, two sons Halver of this city, and Ole of Ross, N. D., one brother Theodore Moe of Olds, Alberta, Can., and seven grandchildren. His parents and two sisters and two brothers preceded him in death.

Crookston Sanatorium Head Resigns Position

Dr. W. G. Paradis, superintendent and medical director of Sunnyrest Sanatorium at Crookston since May, 1929 last Thursday handed his resignation to Sunnyrest Sanatorium commissioners. The resignation is to take effect November 15. Dr. Paradis gave as reasons for resignation, better opportunities in private practice, and discontent at the Sanatorium. He intends to enter private practice in Canton, Ohio. Dr. M. O. Oppegaard, of Crookston, and Dr. E. Erickson, of Halstad, have been appointed by the Sanatorium board to interview candidates for Dr. Paradis' position.

ARREST DRIVERS WHO DO NOT DIM LIGHTS, IS ORDER

Highway Patrol Chief Takes Steps to Reduce Number of Accidents

"In the future, arrest any night driver who does not depress his headlights," was the order that John P. Arnoldy, state highway patrol chief, gave his men Monday.

"Sufficient publicity has been given this section of the new uniform traffic act so that motorists throughout the state should know they are now required to dim their lights when passing traffic at night," the chief said. He also declared that the new law, in his belief, would result in a lowering of the highway accident rate as many of the crashes at night were caused by glaring headlights.

The chief pointed out, however, that drivers of those vehicles that do not have a multiple beam are not violating the law if they do not dim.

At the same time, he told his patrol to arrest any driver of a gasoline, naptha or benzol tank truck who does not come to a dead stop prior to crossing a railroad track.

Chief Arnoldy also ordered his men to pick up the driver of any commercial caravan where a vehicle is pulled and which does not have brakes that can be operated by the driver in the tow car. This order applies also to drivers of new automobiles in transit pulling another car.

Declaring that the highways of Minnesota must be made safer even if wholesale arrests are necessary, the highway patrol head instructed his men to go into action whenever an infringement of the law was detected.

ATTORNEY SETS A PERFECT EXAMPLE

Redwood Falls—Leon H. Brown, local city attorney, set the perfect example for illegal parkers in the city by signing a complaint against himself for the infraction. He went farther. He prosecuted himself before Judge T. F. Reed, Jr., entered a plea of guilty and paid a fine of one dollar and costs. Brown's car caused quite a stir when it was parked diagonally to the street where parallel parking is the rule. Practical jokers armed with cameras rushed to the scene, called councilmen in relays and formed a grinning gauntlet for the machine when Brown finally remembered it and removed it. The only statement Brown would make after the rigors of his trial was that his action proved Redwood Falls city officials are ultra-impartial.

"ANTHONY ADVERSE" IN A MINNESOTA HOSPITAL

Cloquet.—Anthony Adverse lives not only in the 600-page novel or on the screen, but one Anthony Adverse is now receiving care at a local hospital. He is the abandoned baby boy, nicknamed "Anthony Adverse" after being found in a parked car. To the query, "How's Anthony Adverse doing?" came the reply, "Oh, he's just fine!" from a nurse at the hospital who sounded as thrilled as any fond mother who had just been asked about her new baby. When found Anthony tipped the hospital scales at 7 pounds, 12 ounces, but he is gaining weight, a gain of exactly 6½ ounces already being reported. Holding to the opinion that the baby was left here by someone from out-of-town, authorities are still attempting to solve the mystery of his identity. In the meantime, Anthony is receiving many gifts from local residents.

Northwest School Man Warns of Worm Infested Chickens and Turkeys

Poultry men should, at this time of year, safeguard their flocks especially the young turkeys and chickens from infestations of tape and round worms. A healthy flock of young turkeys or chickens may be ruined in a short time if worm infestations are permitted to go unchecked, according to Professor A. M. Pilkey, poultryman at the Northwest School and Station.

External symptoms of intestinal parasites are first noted in the loss of bloom of the flock and when sickly pale-faced birds appear. A post mortem examination of one or more sickly birds will tell whether or not intestinal worms are the cause of trouble. When the entire intestinal tract is opened, the tapeworms can be identified by their segmented bodies and by their attachment to the inner intestinal walls. The thread like round worms, if present, will be seen floating in the intestinal contents.

Severe treatment is necessary to combat intestinal worms in poultry. Mr. Pilkey recommends that high-grade Kamala and nicotine sulphate pills made by reliable companies be used for intestinal worms in poultry. Mr. Pilkey warns, however, against overtreating birds with worm pills. It is better according to Professor Pilkey, to try out the dosage on a few birds before the whole flock is treated. The regular dosage is one pill for an adult bird of six months of age or older and divided pills for younger birds according to age.

Oysters Are Tested

Oysters must pass two examinations before they are ready for the market: the oyster beds must meet certain standards of purity; and the oyster itself must pass a "purity" test after it is taken from the shell.

H. C. WENZEL MAPS REORGANIZATION OF GAME WARDENS

Will Equip All Wardens With Uniforms, Announces Commissioner

A sweeping reorganization of the state game warden force, including the establishment of eight or more law enforcement districts under the supervision of chief wardens selected by competitive examinations, was outlined last week by Conservation Commissioner H. C. Wenzel.

According to tentative plans now being made, each district warden would have from ten to fifteen wardens under his direct supervision. District wardens would be selected on a basis of general ability, character, and personality, as well as records made in examinations.

All district wardens would be responsible to a chief warden in the St. Paul offices and to the deputy director of the division of game and fish.

It is planned to furnish all wardens with uniforms. "I believe that uniformed game wardens will inspire respect for the law, and will demonstrate to the public that game wardens are on the job," Wenzel said. "Other states have found this system very successful, and we intend to profit from their experience in enforcing game and fish laws for the benefit of all citizens."

COLLECTING NAMES BECOMES NEW HOBBY

Edgerton.—Some persons collect odd coins, others collect postage stamps, others buy expensive paintings or antique furniture, but Mrs. A. C. Hartog of this village has a hobby which is much less costly and to her just as fascinating. She collects boys' and girls' Christian names to while away dull evenings. Having begun only recently Mrs. Hartog already has more than nine hundred names. She does not accept odd names such as those combined from two or more other names. The name collector estimates that in the Edgerton community where every boy is supposedly named, "John, Gerrit, Peter or Dick", and every girl is supposedly named, "Mary, Grace, Tena, Tillie or Martha" there are more than four hundred names commonly used.

ONLY 4 VOTES AT SCHOOL ELECTION

Lake Wilson—Members of the local school board and the school janitor monopolized the recent school election at which only four votes were cast. The votes of these four persons elected two members of the board of education which spends $18,000 of Lake Wilson citizen's tax money. In former years 200 residents voted at school elections.

Capitol News Review

By A. I. Harris

Asserting that the special session of the Legislature has paid for itself many times over in that it has driven an entering wedge for a far-sighted tax relief and readjustment program, Senator George Lommen, liberal floor leader of the upper house, in a statewide radio hook-up last week, took his conservative colleagues to task for their concerted effort to block the administration tax program of placing a greater share of the tax burden upon wealth.

"Every move of the Senate conservatives was to protect the steel corporations against the first, long-awaited tax increase on the iron producers of Minnesota," he charged.

In spite of the opposition, however, Senator Lommen asserted "that the courage of the liberal forces in the Legislature has finally, in spite of all odds, resulted in an increase of 80 per cent to the taxes upon the mining companies."

He further charged that since 1921 the mining companies have been granted tax reductions totaling nearly $19,000,000 a year by Republican legislatures.

Governor Benson's refusal to re-issue a license to Pinkerton's Detective Agency, thus preventing them from operating in Minnesota, has received commendation from prominent labor leaders throughout the state who realize from actual experience that much labor strife has been directly incited by undercover operatives working for Pinkerton's and other espionage agencies.

"Basing his conclusions on testimony disclosed before the LaFollette senate committee investigating violations of civil liberties, the Governor stated that he considered Pinkerton's activities "detrimental to the general welfare of our people."

He gave as reasons that the agency interfered with labor's legal right to organize and bargain collectively and aided employers in evading the Wagner labor relations act as well as supplying strike breaking personnel to clients at times of labor disputes.

The major question before a large section of the farming population in the state right now is what is going to happen to the proceeds from this year's crop. Thousands of farmers in the state will have a good harvest for the first time in several years. However, many have back seed and feed loans made during drouth years when not even enough was raised for the following year's seed.

The government's attitude will be most important. To force farmers to turn over the proceeds of the harvest in payment of debts would strip most of them of all their gains. A lenient policy on the part of the government, the biggest creditor, would in all likelihood be followed by a similar policy on the part of private agencies.

Farm legislation continues to be a matter of concern in Washington. The administration measures, the so-called "parity income" bill, now must share the attention of congressmen with a new measure introduced by Chairman Jones of the House agricultural committee. Briefly, the Jones bill would set parity prices and income as the basis for a federal farm policy, and would continue the soil conservation program but with graduated payments with a maximum to any one farmer of $10,000.

Further, it would require farmers to divert acreage from specific crops when the supply of these override the demand, both domestic and foreign, by 10 per cent. A processing tax would also be levied, amounting to two cents a pound on cotton, 10 cents a bushel on wheat and rice, 25 cents a hundred weight on pork, all subject to a referendum by growers and raisers.

The addition of the Jones bill in the arena amounts to a revolt, Washington observers say, on the part of a large number of the congressmen. The Senate committee as well as the House farm groups seem determined not to return to any compromise form of the AAA, thus bucking the wishes of the Department of Agriculture.

Acting on numerous complaints that various loan companies, making small personal loans, are charging usurious interest rates in direct violation of the law, State Banking Commissioner Robert Beery last week began an investigation. Although finance companies refused to open their books to state banking examiners, legal means are being sought to compel them to produce their records. "The banking department is determined to put a stop to usury," Commissioner Beery stated.

A survey completed last week of the tax situation in the state answers very effectively charges of reactionary propaganda agencies that the special session of the Legislature which cost approximately $200,000 did not accomplish anything that the regular session would not have done.

The survey shows very clearly that owners of real property will save several million dollars yearly as the result of concessions won by the liberals in the closing days of the special session.

Passage of the homestead exemption act, which exempts city homes and farms for the first $4,000 valuation from the state real estate levy will result in savings of $2,000,000 yearly to home owners.

In addition, the millage rate of not to exceed 10 mills for each year of the next biennium as compared to the millage rate of 12.60 and 11.99 mills which was proposed under the tentative agreement at the close of the regular session will result in a further savings to all real estate owners of more than $5,737,000 for the next two years.

It was also revealed that the program of the Senate conservatives as set forth in the omnibus tax bill originally passed by the Senate at the regular session would have resulted in a 23 mill levy on property for state purposes for each year of the biennium. This program was frustrated by Governor Benson and the liberals who insisted on tax relief for real estate owners.

Effect of the cut in relief appropriations made by the Legislature at the behest of conservatives is already being felt. L. P. Zimmerman, state relief director, has ordered a cut of 25 per cent in allotment of state relief funds to all counties for the month of August. The heaviest cut is being made now, because needs of the relief clients will be greater during winter months when warm clothing and fuel will be needed.

Before continuing its inspection of the books of finance companies making small, personal loans which have been charged with imposing usurious interest rates, the state banking department is awaiting an opinion from Attorney General William Ervin regarding the jurisdiction of the department.

"Should the present law prove inadequate, efforts should be made to amend it," Commissioner Beery said. "Otherwise there is no state agency which has the power to force 'loan sharks' to comply with the statutes pertaining to usurious practices."

"The constitution was made for the people and not the people for the constitution and, with this fundamental principle in mind, it should be interpreted to promote the social and economic welfare of the people."

This sometimes forgotten truth was driven home to 1500 people attending a meeting sponsored by the Danube Commercial Club by Attorney General William S. Ervin, chief speaker at the meeting. Mr. Ervin also discussed a move to obtain lower telephone rates throughout the state as a result of the decision in St. Paul which reduced rates by more than $500,000 a year for telephone users.

Good crops which are predicted throughout the state will not bring an end to the farm problem. Farm income is still substantially below the 1929 figures and farmers are still losing their farms at the rate of 40,000 a year throughout the country. However, some farmers will be better off than they have been in many years and others who went deeply in debt during the long years of the agricultural depression which started in 1921 will have some cash in hand. Their problem will be to keep the creditors from gobbling up most of it. Already farm groups, apprehensive that the farmers will be little better off than in drouth years if they are pushed to make full payments are requesting a lenient policy on the part of government and private loan agencies.

The state's financial status has been greatly improved in the last fiscal year, State Treasurer C. A. Halverson has disclosed. The revenue fund is out of the red and there is a surplus of $4,317,205.01 at present, he said. This compares very favorably with conditions at the beginning of this fiscal year when the fund was overdrawn $931,760.26.

There is also a noticeable increase in the permanent trust funds. Every such figure shows substantial gains over last year. Further, the repayment of loans made by the state to cities, villages, and school districts has increased, thus indicating an improvement in their financial conditions also, Halverson declared.

To keep berry pickers honest, require that they whistle continuously.

At Frances Willard Statue In National Capitol

In stately white marble the figure of Frances E. Willard stands in Statuary Hall in the Capitol of the United States the mecca always for all White Ribbon visitors to Washington, and the shrine to which the World's Convention wended its way in the late afternoon of the first day.

Because no more than one hundred persons are allowed in the rotunda at once, only the guests from other lands and members of the World's Executive were privileged to gather about the pedestal of the beautiful statue for the stirring service as Miss Agnes E. Slack placed there a large wreath made from evergreens sent from twenty-five different countries a tribute of love laid at the feet of that great soul who first conceived the idea of a united womanhood of all nations to free the whole world from the heartbreaks that come through the liquor traffic.

(Local export regulations and shipment complications made it impossible for all the affiliated countries to have a part in this testimony to the founder of the World's W.C.T.U.)

A prayer was voiced by Mrs. C. Taune Gauntlett of Japan and Mrs. Boole explained that this statue of Frances Willard is the only one of a woman which ever has been placed in this court of honor (put there by the state of Illinois as one of two permitted each state). She felt it was most seemly that the women who had come to the convention from all over the world should assemble there for this brief service of loving veneration for the founder of the work which they are carrying on. "No person amongst us," she continued, "is so fitted to place this wreath and voice our appreciation of Frances Willard as her friend Agnes Slack of England, our Honorary Secretary, who has been in this work for forty years and was appointed to her task by Frances Willard herself."

THRESHING CREW HOLDS FIRST SIT-DOWN STRIKE

Atwater—Not the CIO, the AFL or IWW, but the IBHG, Independent Bundle Hauling Gang staged the first sit-down strike held in this community. To get Reuben Hovey's operator of the threshing rig, temperature down to normal after the bundle haulers went on strike required 639 gallons of water poured on his head. The strike began when, after threshing all day, Hovey would not set the rig so the wind was favorable while hauling wheat. And so the haulers sat, and sat, until finally Hovey dug two new holes and moved the rig.

Octopus Loves Freedom

The octopus may look like a tough customer, but it can't stand captivity. The curator of the Honolulu aquarium reports that while delicate sea creatures may live to be old and feeble, the octopus usually dies after a short time in captivity.

Antlers Not Horns

Antlers of deer, moose and elk are not horns, but are solid, bony structures, shed and regrown annually.

NO FEED OR WATER, PIGS LIVE 3 WEEKS

Farmington.—Two pigs were rescued from the wreckage of a corn crib on a farm near Lakeville after having lived without feed or water for three weeks. Early in July the wind blew down a silo and corn crib on the W. H. Samels' farm. Three weeks later, when a carpenter raised the crib to rebuild it, two pigs were found underneath the wreckage, where they had been imprisoned during the entire period. Although the carpenter thought the pigs would die, he gave them water and now Henry Randall, tenant on the farm, believes he can make them weigh 225 pounds for the fall market.

BOYS HAVE NARROW ESCAPE FROM AUTO

Littlefork.—Four local boys, Douglas, Sam, and Junior Anderson and Ronald Lemmer, narrowly escaped death last week when the Buick sedan in which they were riding went out of control and turned over three or four times. The doors of the car sprung open on the first bounce, throwing all of the boys clear of the wreckage with the exception of Douglas who was pinned underneath by one arm and held in such a position that he would have drowned in a ditch, had not his father, who was working in a nearby field, and passers-by rescued him immediately. The accident happened on highway 71 while the boys were on their way to the Anderson farm to clear land. Except for a severe shaking up, no one was injured. The body of the car was badly smashed.

SHORT CIRCUIT CAUSES $1200 DAMAGE IN FIRE

Luverne.—A short circuit in an automobile, it is believed, was the cause of a fire that destroyed $1200 worth of property at the Jake Proost farm, a few miles south of the Rock-Lyon county line. The fire was discovered at midnight and before it could be brought under control a combination machine shed and garage was completely destroyed. In the razed structure were three automobiles, some farm machinery, and a quantity of lubricating oils. The fire department succeeded in preventing the flames from spreading to other buildings and a number of hay stacks in the yard. It is reported that no insurance was carried on the property.

Sojourner Truth

Sojourner Truth was a negro lecturer, born in Ulster county, New York, about 1780. In 1827 she escaped from Michigan, where she was held as a slave, and discarded her real name for Sojourner Truth. Though quite illiterate she spoke with much natural talent on emancipation and other reforms.

FARMER FINDS DYNAMITE STICK IN KITCHEN STOVE

Swanville.—When Adolph Vavra Jr., young bachelor farmer of Bruce township, near Swanville, lit the fire in his kitchen stove one morning he was greeted by a sputtering produced by a stick of dynamite. The evening before he had gone to the district school meeting, leaving the door of his house open. When he lit the fire in the morning to prepare his breakfast he observed the sputtering, and glancing into the ash pan he saw a fuse running up through the grate into the firebox. He pulled out the ash pan and found a stick of dynamite on the other end of the fuse. Grabbing the dynamite, he threw it out through the open door and it exploded before it hit the ground, causing no damage. Adolph can advance no theory as to a motive for the act because he does not know of any enemies.

ALBINO WOODCHUCK IS FAMILY'S PET

St. Cloud—Populated by the customary dog, several pairs of pigeons, a harsh-throated parrot, a tame bluejay, and, of all things, an albino woodchuck, the home of Ed Henneman here is one of the most novel and interesting in this city. Christened, "Chucky", the woodchuck is the only one of its kind in existence, it is believed, and one of the few ever seen. It is an albino; its fur is pure white and its eyes are pink. Chucky is as much at home in the Henneman household as is either his master or mistress. He responds to his name, in much the same manner that a dog does, eats from Mr. Henneman's hand, and feels slighted if Mrs. Henneman fails to give him his weekly bath. But all of Chucky's manners are not complimentary. The woodchuck will drink all the whiskey given him—and any brand will do. Asked if he hiccups or staggers, Mrs. Henneman smiled and said, "No, he just goes to sleep."

Mrs. L. O. Fovig and daughter Donna Rae of Moorhead are visiting at the home of Mrs. Fovig's mother, Mrs. J. S. Barnett. They arrived Friday and will remain until Sunday.

Mr. and Mrs. Albin Roos of Chicago left for their home Saturday after spending two weeks here with relatives and friends. They were accompanied by Mr. and Mrs. Melvin Voldness and children.

Miss Fern Barnett returned last week from Minneapolis, where she spent six weeks studying toward her bachelor's degree at the MacPhail School of Music. Her study included the latest teaching methods for children studied under Mrs. Charles Hardy, pipe organ under the instruction of F. W. Mueller, and piano under Elsie Wolf Campbell. Miss Barnett's mother, Mrs. J. S. Barnett, who was with her daughter in the Cities, also returned last week.

Robert Oen, who has been attending the summer session at the University of Minnesota, returned to this city last week. He was accompanied by Miss Lucille Schafer and her sister Miss Betty, both of St. Paul, who were guests for a few days at the Rasmus Oen residence. The Misses Schafer left the latter part of the week to join their parents at their summer home near Brainerd. Robert Oen accompanied them, returning to this city after a brief visit.

Cull Poultry Flocks to Remove Poor Producers, A. M. Pilkey Advises

Now is the time to cull the poultry flock, says A. M. Pilkey, poultryman at the Northwest School and Station, Crookston. Professor Pilkey states that "flocks which do not maintain fifty per cent production should be checked at once and all poor layers and non-layers should be removed." According to Mr. Pilkey, not over forty per cent of the farm flock should be kept over for a second year, and under present conditions the percentage of carry-over hens should be less than the figure indicated.

It is poor economy to provide room for boarder hens, for boarder hens can be sold now at fair prices and the feed saved can be profitably used on the good laying hens. Marked improvement can be made in the farm flock by keeping over only the best hens providing of course outstanding breeding males are secured from reliable sources.

Poultry culling can be easily learned by any interested poultryman. Poultry culling schools and demonstrations are conducted annually through-out the Red River Valley by county agents and experts from the Northwest School and the University of Minnesota Extension service. Poultry culling bulletins may be secured from the Northwest School or Office of publications, University Farm, St. Paul. A new and revised bulletin on poultry culling by Professor Pilkey is being printed at the present time and will be available for distribution at an early date.

MINIATURE 'TORNADO' PECULIAR PHENOMENON

Hastings.—While enjoying a leisure moment on her front door step one morning Mrs. R. T. Varlen of Marshan witnessed a peculiar phenomenon. Springing up, apparently "out of a clear sky" a tiny whirlwind started. As it traveled it increased in size and velocity until it took on the aspects of a miniature tornado, whirling about the barnyard and toppling over a fence that obstructed its path. A bundle of grain was whirled high into the air, then suddenly dropped to earth like a discarded plaything. Astonished and puzzled by the antics of the diminutive twister, Mrs. Varlen wondered whether it might not become formidable enough to tip over some of the buildings on the premises, when suddenly, its force expended, the whirlwind subsided and literally vanished into the air.

DUCK SEASON TO OPEN OCTOBER 9 IN THIS REGION

Regulations Are Announced by U. S. Bureau in Washington

A 30-day hunting season on ducks, geese, jacksnipe and coot in Minnesota, opening October 9, was set recently by the bureau of biological survey in Washington. The open season in Minnesota for shooting mourning doves will be from September 1 to November 15.

The waterfowl dates also apply to Michigan, Montana, the Dakotas and Wisconsin, and other states included in the bureau's northern zone. Regulations governing hunting, the first to be made since the signing of the migratory game bird treaty with Mexico last March, were approved by President Roosevelt.

Under the regulations, waterfowl and coot may be hunted from 7 a. m. to 4 p. m. in season, and snipe, rails, gallinules other than coot, woodcock, mourning doves and band-tailed pigeons may be hunted from 7 a. m. to sundown.

Protected from hunters in all parts of the United States will be Ross' geese, wood ducks, ruddy ducks, canvasbacks, redheads, bufflehead ducks and swans.

The daily bag and possession limit on geese and brant of kinds permitted to be killed has been increased to five. Last year the limit was four. Other bag and possession limits, continued from the last two seasons, place the daily limit on ducks at 10 in the aggregate and make the possession limit conform to the daily bag. The daily bag limit has been increased from 15 to 25.

The three-shell limit on repeating shotguns is continued from last season and hunters are prohibited from using shotguns larger than 10-gauge.

In the intermediate zone the duck hunting season will be from November 1 to November 30, and for the southern zone the bureau set the season to open November 27 and close December 26.

Pioneer Race Horse Trainer Is Still Active at Age of 82

Peter Crow, a resident for many years of Thief River Falls, where he has long been a familiar character as a trainer of race horses, serving in that capacity for some years for Roy Lambert, now of Detroit Lakes, is the subject of a sketch in the Bemidji Sentinel a. Bemidji, in which city he has recently been spending some time in the pursuit of his vocation. The article reads in part:

Here's another way to keep young—follow the ponies. Peter Crow has been around the race tracks for 62 years now and hes as spry as a youngster—and he'll be 83 on November 14.

Peter Crow is trainer and driver for Elmer Marin, Bemidji race horse owner, and he cut a few capers while he recalled some of the facts and incidents of his life for this interview.

He was born in Moundsville, West Va., back in 1854, Crow recalled, and he got off the train in Tracy, Minn., 61 years ago. His career in racing horses had begun in West Virginia and Kentucky but it really blossomed in the Great Northwest.

Although Pete doesn't do much driving any more, his sage advice is valued by the horse owners in the training of thoroughbred (and expensive) race horses. Crow came to this region in 1896 and has driven races at thousands of county fairs and meets since that time.

For many years he has made his home at Thief River Falls and the last race he drove was last year at Anoka—and he was driving for Elmer Marin that time. In 62 years he has done a lot of racing—many times in Grand Forks, Ada, "Jimtown", Fergus Falls and other Minnesota, Dakota and Montana cities.

Even today 82 years and a touch of rheumatism can hardly keep Pete Crow out of the little bicycle-wheeled cart that he has driven in so many races—but then, the younger generation must have its chance. Asked which was the best horse he ever drove, Crow picked Axaletta, owned by Forbes and Comb out in Montana 10 years back.

When Nov. 14 rolls around, Peter Crow will celebrate his eighty-third birthday, whether he likes it or not. His own feeling on the subject is that "If this darn rheumatism would let me alone, I wouldn't be more than 24."

Successful Efforts

Efforts are always successes. It is a greater thing to try without succeeding than to succeed without trying.

It Happened at the Capitol

(Guest Editor this week, Victor A. Johnston)

The feud which has been brewing for some time between former Governor Hjalmar Peterson and Farmer Labor administration leaders flared to white heat this week when Peterson charged that "free discussion of party policies" was barred by the party leaders and that the Farmer Labor Leader, the party's official newspaper was a "propaganda organ" used to support only favorite candidates of the administration."

Denouncing Abe I. Harris, editor of the Farmer Labor Leader and accusing him of presenting only his own "warped views" in that paper Peterson asserted that news contributions which differed from the views of Harris were rejected and not printed in the Leader.

"Because of such tactics" Peterson said "those who are misrepresented in the columns of the Leader are obliged to present their ideas in newspapers that the Leader editor calls the 'kept press' but which are still open minded enough to publish expressions from different viewpoints.

The feelings of Hjalmar Petersen toward present administration leaders has long been known and their feelings toward him have been expressed on many occasions but this "bad blood" has become intensified the past six months as Hjalmar looms more and more to the front as a candidate against Governor Benson next year.

As the "Hjalmar Petersen for governor" talk has increased over the state the efforts of administration leaders to discredit him have also increased. No opportunity has been lost by the "Capitol Crowd" to crack down on the former governor. He in turn has called them "Mexican Generals" and has been openly at odds with the Abe Harris-Art Jacobs-Roger Rutchick combination which together with the governor have dominated party affairs.

A few weeks ago Hjalmar Petersen appeared on the same platform with the governor at a Dakota County picnic and each expressed divergent views regarding the work of the state legislature. The governor continued to attack the legislature, especially the senate, and Hjalmar Petersen complimented the legislature on the work accomplished.

Shortly after this clash of opinion the Chippewa County Farmer Labor association at Milan passed a resolution censuring Petersen for his actions and such resolutions were scored by Petersen this week when he said:

"Individuals refusing to obey the dictates of the party's political machine are often the target of resolutions passed at sparsely attended local, county and district party meetings. State jobholders told what to do are running the show at these meetings" Petersen asserted.

Anti-Communist organization leaders of the state went on record this week with criticisms of the attendance of Governor Benson at a New York meeting of the American League against War and Fascism. This organization it is claimed is purely communistic and the announcement that Benson would lead the parade in connection with the meeting was first announced in the Daily Worker, central organ of the Communist party in the United States. Later this was denied by the governor who said he had merely accepted an invitation to be one of the principal speakers at the meeting.

DO FROGS RAIN FROM THE SKY?

Fergus Falls.—Many people scoff at reports that minnows and frogs can literally rain from the sky, and a recent report from Ashby to the effect that frogs were found in a wagon box after one of the recent rains has renewed the argument as to whether or not frogs can come from the clouds. H. C. Kersten, a farmer living three miles southwest of Wendell, offers some positive proof that frogs can come from the sky. About fifty years ago, when Mr. Kersten was working on a farm he saw real live frogs come down. Seeing something strike the ground, he investigated and found the object to be a frog. A few minutes later a half dozen frogs, all of them alive, came down from the clear sky. This rain of frogs puzzled Mr. Kersten until he heard that at a point 12 miles from his farm a small twister had swept up an entire pond, apparently carrying the frogs by upper air currents.

Red River Valley History

By Wm V. Werling

Sketches Written in 1915

The following sketches of residents of the Thief River Falls community back in the year 1915 *gives us an interesting and illuminative cross-section of conditions* here then, especially in the field of agriculture. They were published in the edition of the Thief River Falls paper referred to in previous articles. Readers are advised to try to picture themselves as reading the sketches as though they had been published currently and in that way receive a more vivid impression.

P. M. Peterson

P. M. Peterson, formerly had the use of a rented farm at Waubay, S. D., but when the time came that he wanted a farm of his own, he came to Pennington county and purchased 200 acres in the township of Norden, and now has one of the finest farms in this section. Regarding his farm and his ideas of this section, Mr. Peterson said: "The principal reason for buying this farm was that we wanted a home for ourselves and the boys. When you rent a farm, you really have nothing of your own, and nothing for the boys to be interested in. I like South Dakota as far as the land is concerned, but you never know when you are going to have a bad year. One year, the dry spell and the hot winds spoiled a fine barley crop for me, and a hail storm took most of my wheat. When I came here I brought a whole carload of stock with me, as I believe in stock raising. I haven't been here very long, but if I could sell, I surely wouldn't go back to Dakota."

Peter Engelstad

Thirty-two years ago, Peter Engelstad was a poor Norwegian immigrant boy. Today he is one of the most prosperous and progressive farmers in Pennington county. In fact he has acquired that reputation throughout the northern part of the state. "When we first came to this section, we drowned out, froze out, nearly starved out and had no market. We had to go fifty miles or more in the fall in order to earn money enough to pay our taxes and make our living," is the way Mr. Engelstad describes the conditions that existed here when he first came. Today Mr. Engelstad doesn't hardly have to leave his farm in order to get both the money to pay his taxes, and the living. Here are a few of the things Mr. Engelstad has: A modern, two-story brick house with sewer, hot and cold water and electric lights; fifty high grade Guernsey cows and a registered Guernsey sire; average monthly profits from milk and cream amounting to approximately $500; three silos with a capacity of 400 tons; large commodious barns and lots of room for his stock; and best of all, no desire to sell his farm, even at better than $100 per acre. All his stock is fed on tame hay, corn fodder and ensilage.

John Phillip

Fourteen years of Pennington county farming has convinced John Phillip that Iowa is "no place for a farmer's son." He came here fourteen years ago and moved onto a farm near Germantown and he wouldn't move off *for the best farm in all Iowa.* Says Mr. Phillip: "I don't see why Iowa farms should be worth more than what I've got here. They can't raise any more than we can and I wouldn't go back and pay from $150 to $200 an acre for a farm. I think that the only advantage Iowa has over us is the corn they raise, but we can make more on alfalfa, and I have proved it. With northern matured seed, we can raise just as good corn here as anywhere in the country. I have raised 50 bushels of corn to the acre here and that is a pretty fair crop. This country needs farmers—not just settlers, but men who know how to farm. There is another thing that it needs and that is gravel. This country is so blame fertile that when I wanted to do some concrete work one winter, I had to haul the gravel fifteen miles."

They certainly were optimistic in those good old boom days and there really is no reason, in the writer's opinion, why they should not be just as optimistic if not more so nowadays. Certainly there is good soil here, favorable climatic conditions and other factors that tend to insure agricultural success. If we can exhibit the same spirit and enthusiasm of the man of 22 years ago we are likely to go far yet.

SMILEY

Mr. and Mrs. Ray Brand of Minneapolis arrived Friday to spend this week at the home of the latter's uncle and aunt, Mr. and Mrs. O. N. Olson and also at the Jim McCrum home. On Monday the Brands, accompanied by Clara Olson, motored to Bemidji where they spent the day at the Carl Jacobson cottage. —Mr. and Mrs. Harold McCrum and daughters Jane and Nancy and son Billy left Sunday morning for their home in Billings, Mont. They were accompanied as far as Jamestown, N. Dak by the former's sister, Mrs. Sheryl Cabot and sons, Hugh and Allen. The whole party had been house guests at the W. E. McCrum home the past several weeks. —Mr. and Mrs. Harold Hammershoy of Lands Valley, N. Dak spent a few days at the George Ege cottage and were callers at the O. N. Olson home enroute to Sandstone on a business trip.

NEW ROLE ASSUMED BY TURKEY GOBBLER

Mora.—One of the turkey gobblers belonging to Ingeman Ostrom of Lewis Lake assumed a new role when he took possession of a turkey nest containing three eggs. The gobbler was insistent in his "sit-down" strike and before long two of the eggs hatched. With two husky young ones on his hands, the proud pseudo mother is now kept busy caring for his two turkey chicks. Persons observing say that the gobbler is doing a good job.

NIGHT and DAY

you're safe on CONCRETE

At night you appreciate concrete all the more because its light gray surface helps you see down the road. Light is spread without "glossy" reflection. Pavement edges are clearly defined.

Concrete meets the ideal for a pavement as defined by the International Illumination Congress of 1928. This is important to you because surveys show that the rate of death per accident is 43 per cent higher during darkness.

Concrete, smooth but nonskid, insures a quick, certain stop even in the rain. Blowouts, spring breakage, steering gear failures, accidents of all kinds are less apt to happen on concrete.

Yet concrete is not only safe—it is more comfortable—it saves in driving costs—it costs less for upkeep—and cost of construction is less than that of any other pavement of equal load-carrying capacity.

ACTION TAKEN TO GIVE RELIEF IN FLOOD AREA

Agriculture Department to Provide Feed for Farmers in Need

AGENTS OF OMMODT SURVEY FLOOD ZONE

Zimmerman's Office Working on Ditch Cleaning Project

While, with water subsiding from fields in the flooded area east and north of this city, many farmers will be able to salvage a part of their roughage and other crops, oats and hay will be provided at convenient points next week for farmers in the flood zone who are in need of it, it was announced today by Walter E. Johnson, acting as flood relief supervisor for Charles Ommodt, commissioner of agriculture. Farmers are asked to communicate with Mr. Johnson at his office in the rural credit building in this city.

"We find conditions very acute in many cases," said Mr. Johnson, "while in others farmers are going to have a fairly good supply of feed for livestock provided conditions will permit them to harvest their crops on wet land. As a result of the infestation of mosquitoes, dairy herds have dropped off in production of milk, in many cases as much as 50 per cent. We are undertaking these relief measures so that farmers will not be compelled to sell their milk cows, which are their principal source of income."

Mr. Archibald, representing the office of L. P. Zimmerman, state relief director, spent from Friday to Wednesday in the flood area investigating the proposed ditch cleaning project to provide work relief for farmers. He left yesterday for St. Paul to report to Mr. Zimmerman and work out details of the project, which would tend to avert similar floods in the future. The Marshall county board, meeting last week, passed resolutions endorsing the project.

Commissioner Ommodt also was in this city over the week-end to get information as to the livestock feed situation.

PLUMMER PLANS BIG CELEBRATION NEXT WEDNESDAY

Auxiliary Drum Corps Will Participate in Fall Festival

Elaborate plans have been completed by Plummer citizens for their annual fall festival to be held in that village next Wednesday, August 25, it was announced here this week.

The day's festivities will open at 11 o'clock in the morning with a big parade including an array of floats and headed by the Thief River Falls Legion auxiliary drum corps. Substantial prizes will be awarded the winning entries. The drum corps also will appear in a street demonstration in the evening at 7 o'clock.

Other attractions will include a free auction sale in the morning at 11:30; an address at 1:30 by Rep. Harold L. Peterson of Willmar, representing Governor Elmer Benson; a baseball game at 4 o'clock between Thief River Falls and Plummer; 21 spectacular circus acts at 2 o'clock and again at 8; agricultural exhibits in the basement of the auditorium; dances on the bowery and in the auditorium; and a huge street carnival, featuring the Art B. Thomas Shows.

A large number of residents of the Thief River Falls community will go to Plummer Wednesday to participate in the celebration.

Gable and Loy in 'Parnell' Sunday at Avalon Theatre

Hailed as a powerful dramatic offering, the motion picture "Parnell", telling the story of Charles Stewart Parnell, the "uncrowned king of Ireland", will be shown at the Avalon theatre Sunday and Monday, with a midnight prevue Saturday evening at 11:15. Co-starred in the production are Clark Gable and Myrna Loy, while the supporting cast includes Edna May Oliver, Billie Burke and Alan Marshall.

Make Unusual Record

A record of eight years of perfect school attendance has been established by the above three eighth grade graduates of the Prairie View rural school in District 64, Numedal. A. C. Mr. and Mrs. Soren Knutson are parents of the Knutson children and Minnie Oaness' parents are Mr. and Mrs. Joe Oaness. Miss Sena Welo taught in the Prairie View school during the past year. Alice Knutson was graduated two years ago, while her brother was a member of the 1937 graduating class.

CALL FLOOD LOSS LESS SEVERE THAN FIRST REPORTED

Members of Tri-State Waters Group Reports on Findings

A "comparatively small" loss in the northwestern Minnesota flood zone was reported Saturday in St. Paul by the Red River tri-state waters committee after an independent survey of the area where a state official estimated damage at $2,000,000, according to an Associated Press dispatch.

Two committee investigators, reporting to Governor Benson on a trip through the counties for which the executive council has allocated $55,000 flood relief, said in many cases the concensus was crop damage "would not be much more than 24 per cent."

"It is impossible to determine the total amount of damage caused by these flood waters at this time," said the report, prepared by H. H. Matt of East Grand Forks, vice chairman, and Dean Holm of St. Paul, consultant and executive secretary of the commission.

The report came three days after Charles Ommodt, state commissioner of agriculture, told the executive council the loss would exceed $2,000,000 in seven counties he said were flooded by torrential rains.

The inspection trip was made after consultation with Henry Holt of Grand Forks, committee chairman; P. H. Elwood, counselor of the national resources committee, and Dr. Irvin Lavine, consultant at Grand Forks, the report said.

In the course of their survey tour Messrs Matt and Holm visited Thief River Falls early last week.

Red Lake Water Level 18 Inches Above Last Year

While in Thief River Falls last Thursday George M. Wilson, who makes his home at the Red Lake narrows, informed a Times representative that due to recent heavy rains the water level in the huge lake is approximately 18 inches above that of a year ago. An increase of another foot, he added, will be necessary before the lake resumes its normal level.

PLAN PROGRAM OF REQUESTED WORK ON T. H. 59

More Than 100 Attend Meeting of State Group Here Last Friday

ELSBERG AND MAYOR OF WINNIPEG GUESTS

Rinkel On Committee to Make Study of Weak Links in Route

Plans for the development of Highway 59 into the leading trunk route extending north and south thru Minnesota, and for the elimination of present weak links in the highway were formulated last Friday afternoon in the Auditorium at the quarterly meeting of the Minnesota division of the National Highway 59 association.

Testifying to the interest taken in the organization by towns along the route of the highway, more than 100 persons were present at the dinner served during the noon hour and remained for the afternoon discussion. Twenty communities were represented.

Guests of honor at the meeting were N. W. Elsberg, state highway commissioner, and Dr. Fred Warriner, mayor of Winnipeg. Presiding at the session was W. W. Cook of Marshall, president of the association.

Acting on a suggestion made by Commissioner Elsberg, Mr. Cook was authorized to appoint a committee of seven to make a study of the highway thru the entire state and, after submitting their recommendations to the next meeting of the association in Appleton in November, to confer with Mr. Elsberg regarding the improvements that are considered most urgently needed. Among those named on the committee were F. A. Rinkel of this city and Ray Swanson of Bronson.

Reports submitted at the meeting by representatives of the various towns on the highway resulted in general agreement that sections must in need of improvement at present are those from Noyes to Orleans, Thief River Falls to Plummer, in the Appleton vicinity and south from Worthington to the state line.

Local residents who have rooming or boarding places for high school students or who wish to secure the services of students for part-time work should notify Mrs. Blanche Korstad, dean of girls, telephone 66, or should call the superintendent's office, Supt. Morris Bye announced today. He added that anyone wishing to rent rooms to teachers should call his office.

SHORTSTOP EVENT ON LOCAL COURSE SET FOR AUG. 29TH

Nearly 100 Golfers From a Dozen Towns Expected to Participate

Nearly 100 golfers representing more than a dozen Northwest communities will assemble in this city Sunday, August 29, to participate in what is destined to become an annual event, the Thief River Falls shortstop golf tournament.

Qualifying score for the one-day tourney must be turned in by 9:30 the morning of the event, Douglas Booren, tournament chairman, announced. Flights will be arranged according to the scores turned in to the committee. Each of the flights will have three trophies for the winner, runner-up and, consolation winner. The awards will be attractive cups and useful silverware.

Mr. Booren stated that entries are assured from Warren, Erskine, Crookston, Winger, Bemidji, Grand Forks, Fosston, McIntosh, Roseau and Karlstad, so that a lively day is assured on the 3020-yard course.

WARREN NINE HERE TO SEEK REVENGE THIS EVENING AT 6

Sahl Holds Opposition to One Lone Single at Warren Sunday

Local business places have been requested by the Civic and Commerce association to close this afternoon at 5:30 to permit a full turnout for the ball game at the fair grounds at 6 o'clock between Thief River Falls and Warren, the contest being sponsored by the association, Secretary, Paul Lundgren announced.

Either Sahl or Benson will be on the mound for the locals. Warren will come determined to get revenge for a 11-0 shutout at the hands of Thief River Falls last Sunday, each team having won two of the four games played this season.

Baudette, which recently defeated the locals 3-0, will furnish the opposition on the fair grounds diamond next Sunday afternoon at 3 o'clock. Johnson, speedy left-hander, will do the twirling for the visitors.

Last Sunday's victory at Warren was featured by superb pitching by Sahl, who held Warren to one scratch hit, and by the heavy hitting of Soholt, local catcher, who knocked out two home runs, one with the bags loaded. Thief River Falls piled up ten hits, and Sahl struck out 12 men.

SOO LINE NOW MOVING GRAIN AT RAPID RATE

Early Season Movement Promises Best Showing Since 1930

137 CARS OF GRAIN IN LOCAL YARDS SUNDAY

Large Tonnage Sugar Beets Is Also Anticipated This Fall

A movement of grain thru Thief River Falls on the Soo Line that may prove to be the most extensive since 1930, due to fair to good crop yields in Eastern North Dakota, is now well under way, and is providing employment for a considerable number of extra workers in this community.

Supt. A. C. Peterson announced that 71 carloads of grain arrived in the city Saturday evening, and that Sunday there were 137 carloads in the local yards, of which 43 had been inspected and the remaining 94 were held for inspection before proceeding on their way.

Due in part to relatively favorable grain prices, the rate of loading on the division per day, at this early stage of the season, is equal to that of 1930, the last year the territory served by the Soo Line had a big crop. In that year a total of 12,393,740 bushels was handled, while in 1935, the next best of recent years, the figure was 8,223,000 bushels.

With threshing operations in the valley not expected to reach their peak until the end of the week, loadings to date have been particularly heavy in Eastern North Dakota, as far west as Loma.

A much heavier movement of sugar beets than last year in Soo Line territory is also in prospect this fall, it being estimated that approximately 800 carloads will be loaded out of Oslo and Alvarado consigned to the beet sugar factory at East Grand Forks. Factory officials have estimated that the average yield of beets will be in the neighborhood of nine tons to the acre. A relatively large movement of potatoes also is in prospect, Mr. Peterson stated.

ROCKSBURY CLUB TO PRESENT PLAY IN CITY FRIDAY

Young People to Offer "Red Acre Farm" in Sons of Norway Hall

A group of young members of the Rocksbury Community club will present an enjoyable home talent play, "Red Acre Farm", at the Sons of Norway hall Friday evening, August 20, at 8:30 o'clock it was announced today.

The plot of the play, which has a farm background, revolves around a stern father who suspects his daughter has stolen an heirloom which should have been used to pay off the mortgage on the farm. The story develops both laughable and pathetic situations.

Included in the cast of characters are Thomas Yatesund, Perry Borgie, Gust Gunderson, LaVern Engelstad, Harry Oen, Bob Toomey, Ray Oen, Helen Marquette, Ruby Engelstad, Anna Hansen, Ardith Haney and Esther Hetland.

Local Rotary Club Pays Tribute to H. A. Pratt

On the eve of his departure for California, H. A. Pratt, longtime member of the local Rotary club, was the object of tributes paid by his fellow club members following the luncheon Tuesday noon at the Evelyn hotel. Speakers included Rev. E. L. Tungseth, A. C. Peterson and H. E. Nelson. Mr. Pratt spoke briefly in response, and Helmer Carlson, his successor as Soo agent here, was introduced.

Stores to Close Today at 5:30 for Ball Game

With the object of making possible the biggest attendance of the year at the baseball game between Thief River Falls at the fair grounds this evening at 6 o'clock, arrangements have been made for local stores to close at 5:30, a half-hour earlier than usual. The game is being sponsored by the Civic and Commerce association.

Drum Corps Places 2nd at Legion Convention

Nosed Out of First Place by Aitkin by Four Tenths of a Point

Acquitting itself in a highly creditable manner, the Thief River Falls Legion auxiliary drum and bugle corps came within four tenths of a point of winning first place in statewide competition at the Legion convention in Virginia Tuesday, being nosed out by Aitkin, which scored 94.7 points to 94.3 points for the local group.

The two corps were so much on a par that the judges had a difficult time reaching a decision, the Thief River Falls unit being given a perfect rating for cadence and for inspection of uniforms and equipment. The corps was much in evidence thruout the duration of the convention, participating in the memorial parade, convention parade and winning honors for the best appearing corps in the Forty and Eight parade.

In the band contest the Ninth district aggregation was awarded top honors and the state title, which it also had won in 1934. The Minneapolis Bear Cat post band placed second. Sleepy Eye won the Class A men's drum and bugle corps championship, winning by a slim margin over Chisholm, three times winner. Ely placed third.

M. B. Hurley of Pine City Wednesday was elected state commander, succeeding F. Ben Anderson of New Ulm. St. Cloud was named the 1938 convention city, following the withdrawal of invitations by Mankato and Minneapolis.

Mrs. W. P. Robertson of Litchfield was elected state president to succeed Mrs. C. F. Moore, Jr., of Minneapolis at the closing session of the auxiliary's gathering. Mrs. Halsey D. Cory, Winona, was nominated for national vice president to represent the northwest division.

COUNCILMEN DEAL WITH VARIETY OF MATTERS TUESDAY

Approve Reappointment of Dr. O. F. Mellby to Park Board

A variety of matters occupied the attention of the city council at its adjourned August session Tuesday evening. Included was approval of the reappointment by Mayor W. W. Prichard of Dr. O. F. Mellby to the park board for the term expiring in 1942.

Also approved was the mayor's appointment on a temporary basis of Elmer Berg as patrolman succeeding Guy Lane, who has gone back to work on the Soo Line. Berg has been serving recently as special police.

Building permits covering construction of garages were approved for G. Tharaldson, Dr. O. G. Lynde, A. O. Schmeltzer and G. C. Paulson. W. W Long was granted a permit to make minor alterations to his residence, and Arthur Ramberk was authorized to remodel his machine shop building on Horace av.

At the request of A. C. Peterson, local Soo Line superintendent, the south side of the Soo depot on Third st. as far as the brick walk extends was designated as a "No parking" zone.

Street Commissioner John Jaranson reported that the recently purchased supply of road oil would arrive in a day or two, and he was authorized to arrange for the necessary equipment to put the streets in shape to receive the application of oil.

Peter Neadeau was present from the Red Lake Indian agency to secure approval of his bill for removing weeds from Red Lake river below the outlet, which project had been authorized by the council early in the summer. The bill, which covered the services of a crew of ten men, amounted to $200.

Lutheran Meetings to be Held in Local Churches

On account of unsettled weather the services planned for the Lutheran tent this week will be held in churches instead. Services will be held in the Augustana church on Thursday and Saturday evenings and in the Zion church Friday evening. Three services will be held in the city auditorium Sunday, morning service at 11; afternoon at 2:30, and evening at 8. Dr. B. M. Christensen of Minneapolis is the speaker.

Voices Board's Thanks

ROBERT J. LUND

Secretary of the fair board, who in commenting on the highly successful outcome of the 1937 Pennington county fair last week expressed the board's appreciation of the wholehearted support given the event by all groups in the community. Said Mr. Lund, "We wish especially to thank local merchants for their cooperation in distributing fair prize tickets, also the county board and the city council for their financial support, and the people of this section in general, who have demonstrated their appreciation of our efforts to provide the highest type of entertainment. We also wish to thank the superintendents of the various departments for their hard work in behalf of the fair's success."

TWO POSITIONS ON SCHOOL FACULTY FILLED BY BOARD

New Librarian and Central School Teacher Are Appointed

Two vacancies on the public school faculty were filled by the board of education at an adjourned meeting Monday evening, while Supt. Morris Bye informed the board that Miss Sylvia Hanson of Wheaton, appointed music supervisor last week, had decided to remain at Rice Lake, Wisconsin, where she taught the past seven years.

Miss Adaline T. Dock of Greenbush was elected school librarian, succeeding Miss Minnie B. Leavitt, who retired last June. After attending the University of North Dakota, Miss Dock was graduated from the University of Minnesota in 1933, and has served the past three years as record librarian for the state board of control, which position she is resigning to come to this city.

Howard M. Balderstone of Brandon was named to succeed Miss Thordis Johnson, resigned, as geography teacher in the Central school. Mr. Balderstone attended the University of Minnesota and was graduated in June from the St. Cloud state teachers college.

Kiewels Defeat Oens in First Contest of Diamondball Playoff

The Kiewel and Oen teams meet Wednesday evening in the first game of the playoff in the city Kiewels landing on top by a 2-0 score. The Oens succeeded in getting hits off Ness, while Benson, pitching for the losing side, allowed five hits. The next game in the series will be played Friday evening, with the team that wins two out of three games declared champion of the league.

Prowler Football Squad Opens Practice Aug. 25

The Lincoln high school football squad will hold its first official practice session next Wednesday afternoon, August 25, at 4 o'clock, following a call issued this week to 25 boys by Coach George Lee. Included in the number are nearly fifteen lettermen. Other boys wishing to try for places on the team also are invited to appear for practice, Mr. Lee said. The Prowlers will meet their first test of the season against Red Lake Falls on the local gridiron September 17.

ATTENDANCE AT FAIR IS AGAIN FIXED AT 45,000

Income Is Approximately Same as Last Year, Says Sec'y Lund

RECORD CROWDS AT SHOW FRIDAY NIGHT

Premium Checks All Will be Distributed by Early Next Week

Climaxed last Friday night by a record-shattering crowd, the 36th annual Pennington county fair came to a close after experiencing four days of ideal weather, attracting a total attendance estimated to equal last year's record figure of 45,000 persons.

Pending a final check on income, Secretary Robert J. Lund indicated that receipts from grandstand, bleachers and carnival were ahead of the figures for 1936, while receipts from other sources were slightly less. The grand stand and bleachers Friday evening enjoyed the largest patronage in the history of the fair, exceeding the former record established on the night of the public wedding several years ago.

Equaling last year's attendance record is conceded to be an unusual achievement in view of the unfavorable conditions arising previous to the opening of the fair as a result of continued heavy rains. That the attendance continued to increase each of the last three nights of the event is taken as an indication that the grandstand entertainment and other attractions were uniformly pleasing.

Premium checks aggregating approximately $1,800 will all have been mailed out by early next week, Mr. Lund stated, adding that the agriculture department set a new high record with 975 entries, other outstanding divisions including the flower, art, 4-H and livestock departments.

The fair had no sooner come to a close late Friday night than a heavy rain arrived at 6 o'clock Saturday morning. The grounds had already been vacated by the Fairly-Martone Shows and Ernie Young's revue, the former group proceeding to Winona, and the latter boarding the Soo flyer en route to the Blue Earth county fair at Mankato, where it appeared Saturday afternoon.

Crowds at the fair were orderly, no arrests being made, according to Police Chief A. B. Stenberg.

Attendance prizes were awarded Wednesday and Thursday afternoons to Mrs. E. D. Haug, Mrs. Ole Legvold and Robert Oden of this city and Milen Austin of Goodridge, while the grand prize Friday evening went to Frank Hanson of Viking.

HARRIS ROAD SHOW IS COMING TO CITY OPENING MONDAY

Herschel V. Hanson Weds Virginia Girl

Of interest to local residents is the marriage of Miss May Veronica Kirby, daughter of Mr. and Mrs. John Kirby, Sr., of Virginia, and Herschel V. Hanson of Duluth, son of Mrs. Carrie Hanson of this city. The exchange of marriage vows was made on Wednesday of last week at 9:30 a. m. in the parsonage of Our Lady of Lourdes Catholic church at Virginia, before the Rev. Father F. J. Walsh. Miss Modesta Kirby, the bride's sister, was bridesmaid; Raymond Hanson of Devils Lake, N. D., brother of the bridegroom, was best man. A breakfast at the Kirby home followed the ceremony, shortly after which Mr. and Mrs. Hanson left for a motor trip to this city to spend four days with the bridegroom's mother, prevented by illness from attending the nuptials. Following their visit the couple went to Milwaukee and Chicago after which they will make their home in Duluth where Mr. Hanson is associated with the Minnesota Power and Light company. Vergene Atola Benson, Lloyd Peterson Are Wed

The marriage vows of Miss Vergene Atola Benson and Lloyd Peterson, son of Mr. and Mrs. Gilbert Peterson of Blackduck, were spoken at 4:30 p. m. July 11 at beautiful church nuptials at Strathcona in the Free Mission church, which was decorated with ferns, lilies, daisies, and other flowers. Rev. Frank Bass of Minneapolis, with whom the bride worked as an assistant the past year, read the service. Arrangements for the wedding were made by Mr. and Mrs. Elling Erickson of Greenbush, friends with whom the bride has made her home.

Miss Evelyn Erickson played fifteen minutes of organ music before the ceremony and also played the wedding party's processional and recessional. As part of the service Miss Inez Erickson sang "I Love You Truly", "Have Thine Own Way, Lord", and "Oh Perfect Love".

The bride, who was given in marriage by Mr. Erickson, wore over her floor-length gown of white taffeta, the train-length veil worn by Mrs. Erickson as a bride thirty-four years ago. She carried a bouquet of red roses, baby breath, and white calla lilies. The bridesmaids Miss Gladys Anderson of Effie and Miss Bernice Erickson of Greenbush, wore torquoise and peach lace, respectively, over matching taffeta slips. The maid-of-honor, Miss Winnifred Peterson of Blackduck, also wore lace over taffeta, in a lovely shade of blue. The attendants' gowns were similarly fashioned, floor-length with puffed sleeves, and each attendant wore wrist bouquets of sweet peas and roses. Groomsmen were Andrew Michalicek of Alvwood, and Clarence Erickson of Greenbush. The bride's veil was carried by little June Ranstrom and Rolland Yovik.

The ceremony was followed by a program of music and toasts, with Rev. Benson of Strathcona presiding as toastmaster, and a reception for 150 guests at the church. At 6:30 oclock a buffet supper was served to sixty guests at the home of Mr. and Mrs. Tom Hamness.

After a wedding trip along the North Shore of Lake Superior and to various Northern lakes, Mr. and Mrs. Peterson will reside east of Holt for the summer months, the groom being employed as an engineer there.

Present at the wedding were out-of-town guests from Blackduck, Lancaster, Warren, Holt, Newfolden, Effie, and Karlstad.

OIL MAN FORGETS PUMP 2750 GALLONS GAS LOST

Sacred Heart.—If someone should begin prospecting for oil near Art Samuelson's bulk station here, he would, no doubt, think he had struck a gusher, for there are 2750 gallons of gas in the ground. After loading his tank wagon one day last week Art forgot to turn off the pump, and upon returning from his trip to the country he discovered that his large reservoir was entirely empty. Due to the noise of a passing train, Samuelson had not heard the pump running when he finished loading.

NRS Offices Have Full Data on Job Applicants

The National Reemployment office is in better position to furnish qualified workers today than it was four years ago, according to E. R. Stanghelle, manager of the Thief River Falls office. "When we began making selections of workers back in July 1933 at the time the National Reemployment Service was organized," he says, "we hadn't learned the necessity for exceptionally careful interviewing and classifying, and there had been no job descriptions prepared to aid us in evaluating the qualifications of persons we interviewed. But it's different now. We have been supplied with carefully prepared outlines of the work requirements in the various occupations, and we have learned the importance of determining to the minutest detail just what type of work applicants are qualified to do. Thus the information is available when making selections to meet the exacting requirements of employers.

480 Institutions Adopt Insured Mortgage Plan

In Minnesota, 480 lending institutions have qualified to make loans under the insured mortgage plan, it is announced by Fred Schilplin, state director of the federal housing administration. These institutions, known as approved mortgagees, lend money for the purpose of building, buying or refinancing residential construction that meets the minimum requirements of the federal housing administration property standards. The list of approved mortgagees in Thief River Falls includes the First Federal Savings & Loan association, Northern State Bank and Union State Bank.

LOCAL MAN FINED $5 AFTER ST. HILAIRE MELEE

After being arrested by a constable in St. Hilaire late Saturday night on a charge of assault and battery, William Bugge of this city appeared in municipal court Monday morning and was fined $5 with costs of $5.30.

The thermometer shows that the heat is making high-signs.

Official Paper of Pennington County and City of Thief River Falls

Something will have to be done soon about the double parking problem in the business section. So many people are developing the habit of leaving their cars in the middle of the street while they run their errands in the stores that traffic is often held up several minutes at a time. And on busy days a lot of cars can line up in a minute or two. Such congestion is quite common in front of the post office. One day last week the street was completely blocked while the drivers of two cars transacted their business at the stamp counter. And in this particular instance there was plenty of parking room along the curb. There are times perhaps when double parking is justified but it is happening so often now that the practice is adding to the difficulty of an already difficult traffic problem. We will either have to resort to parallel parking along the curb or prohibit double parking entirely.

There is only one answer—the Pennington County Fair is just plain, downright lucky. For years and years it has hit good weather during the first week in August. This year, in order to secure desirable attractions, the dates were set back. As a result a week that would have been bad was avoided and the later dates proved ideal. Within four hours after the crowd had left the grounds the last night came another deluge. We wonder if there is another fair in the country that has been able to operate so many years without being forced to miss a single performance because of bad weather.

In spite of mosquitoes, attendance figures at the Pennington County Fair were well up to the high marks of recent years. Grandstand receipts set a new high record, proving that good entertainment is still appreciated. It is estimated that on Friday night the mosquitoes were outnumbered two to one—except on the platform.

Figures are not available as yet but it is quite certain the Fair was profitable again this year. And this will mean further debt reduction for the organization along with a few more necessary improvements. There is a possibility that with two or three more successful years the remaining debt can be cleaned up and it then will be possible to move along more speedily with the program of improvements, many of which are needed. During the last ten years more than six thousand dollars has been spent on the grounds but the facilities are still woefully lacking. The immediate objective of the board, however, is to get out of debt and that is always a good policy.

In only three more short weeks the schools will be doing business again and another winter will be just around the corner. One nice thing about winter in this country is that we don't have to worry from day to day about floods and drouth and mosquitoes and grasshoppers and rust and frost.

With favorable weather conditions from now on crop conditions in this section of the state are going to average up pretty well. As usual, the year will be exceptionally good for some and exceptionally poor for others. It probably would be unreasonable to expect it to be perfect for all. But considering the territory as a whole, we have much to be thankful for. There are other parts of this and neighboring states that have been less fortunate this year than we.

WILL'S RATING
(Baltimore Sun)

Congress is being asked to appropriate $500,000 to be used in building a memorial to Will Rogers. The monument is to cost $1,000,000 (the other $500,000 being raised by private contributions) and it will be put up at Claremore, Okla.

There's no doubt about it: one of the things this country needs is more and better memorials. And the notion of building one to Will Rogers is a fine one. The unhealthy tradition that the only people to whom memorials ought to be dedicated are statesmen, politicians, scientists and rich men who give their money away ought to be broken. And we can think of no better way of breaking it than to erect a monument to a humorist. It would be nice to have monuments to Bill Nye and to Petroleum V. Nasby, as well as to Will.

It is when one gets to figuring on the cost of such monuments that the real difficulty begins. The Lincoln memorial in Washington cost $2,591,000. Was Will Rogers two-fifths as important to the United States as Lincoln? Or, to turn it around, was Lincoln two and a half times as important as Will? And consider Thomas Jefferson. His new monument is going to cost about $3,000,000. Does Will rate a memorial 12½ per cent as imposing as Thomas Jefferson's?

We don't know the answer. But it seems likely that if Will were still here he'd be strongly tempted to discuss the subject.

The Senate and House finally agreed on an income tax bill that appears reasonable in view of the need for balancing the state's budget. The bill will produce about $10,500,000, which is about twice what the present income tax produces. Individual tax rates run from one to 10 per cent, and corporation taxes are a flat 7 per cent. Income tax payers will know that their taxes have been increased when they pay next year, for the amounts which will be due will increase from twice to seven times what they are at present. It is estimated that there will also be an increase of about 45,000 in the number of income tax payers because of a change in the methods of exemption. This increase is entirely among people of lower incomes. This bill is an improvement in some minor respects over the one practically agreed upon at the regular session, but the rates gained by the special session is that the new law seems to have been enacted more in a spirit of fairness all around.—Morris Tribune.

THUNDER OVER THE CAPITOL
(New York Times)

Simmering in the summer heat of Washington, our senators and representatives are said to have developed a collective case of nerves which makes them as snappish as a crateful of Maryland turtles. They lash out at each other like angry schoolboys, but the quality of the repartee appears to diminish in inverse ratio to the number of motives impugned. Even so, public debate imposes a certain degree of restraint. But in the privacy of the offices the unfortunate secretaries are exposed to the full blast of Capitol hill peevishness. Female secretaries spend much of their time dissolving into tears, and male secretaries hunt out-of-the-way corners from which to snarl back in safety.

Part of the blame seems to lie with President Roosevelt's defunct court bill. For five months that hung over the dome like a thunder-cloud which everybody expected to discharge in a gigantic burst of oratorical lightning. Meanwhile members of both houses went right ahead storing up their own static burst. The court bill was disposed of behind the scenes and in the shadow of a funeral. Nevertheless, plenty of sparks remained in the air and they still crackle through every session. Moreover, the effort to legislate now seems like anticlimax. Nobody's heart is in his work. Everybody wants to go home to his family and the voters. Our legislators are not only hot and tired but they are bored. In other words, it isn't the heat—it's the stupidity.

AN ANTI-SYPHILIS PROGRAM
(St. Paul Dispatch)

The recommendations of Dr. Schoch, city health officer, for combating syphilis in St. Paul are sound advice for an effective campaign against the disease. If this community intends to take an active part in the national fight against venereal disease some sort of program along the lines advocated must be followed.

It is noted that the seven measures recommended are designed to bring a larger number of persons under examination and treatment, such as, all applicants for marriage licenses, prospective mothers, applicants for insurance, all patients entering hospitals, and anybody in private employment who wants to be tested. As it is now, such diagnosis and treatment are confined in St. Paul largely to police characters and suspicious cases. These constitute only a small part of the population the control of which, experience has shown, does not contribute greatly to the eradication of the disease.

Dr. Schoch's assertion that there is no more social stigma attached to syphilis than to any other disease is directed against that barrier of prudery which has so long been the obstacle to progress against control of the plague. No anti-syphilis program can be effective so long as this false attitude prevails.

NO CHANCE FOR PRIDE
(Long Prairie Leader)

A compilation of state finance figures from each of the 48 states made public last week by the Associated Press shows that Minnesota is among those with the worst records.

The great majority of the states have whittled down their bonded debt the past seven years and have also reduced their taxes for state purposes. While North Dakota cut its debt $11,000,000, Minnesota increased its debt $46,000,000 to reach an all time high of $131,000,000. And the Minnesota debt has climbed in spite of higher taxes for state purposes than any state in the union.

During this period Oregon whittled down its debt and completed the year with a net cash balance of $16,000,000. Arkansas had $10,000,000 in the treasury. California had cut its state operating expenses $17,000,000, Illinois had a treasury balance of $65,000,000 and in addition had reduced its debt $28,000,000. Iowa had a cash balance at the end of the year of $5,100,000.

All the states have the same problems of relief and road building as has Minnesota yet our state seems to be outstanding in its bad finance record. Minnesota's chief debt building has been due to its rural credit, highway and relief bonds. A large part of the rural credit and highway debt is a hang over from previous administrations but the fact remains that the administrations of the past eight years have increased the debt notwithstanding tax revenues have reached heights never before known.

BEING "PROGRESSIVE"
(Fairmont Sentinel)

In the foolish days of ye olden type any person able to make his own way in the world was considered quite progressive. The modern, new thought is the other way around. You must be busted, on relief, or at least decently distressed to rank as a progressive. If you are still solvent and not looking for some kind of a government handout you are a proper target for epithets and name calling, such as economic royalist, reactionary and plunderer.

GLARING HEADLIGHTS
(Lake Wilson Pilot)

A few arrests of auto drivers who continue to blaze past you at night like a meteor with headlights aglare, might have a wholesome effect. As it is now, there are a lot of drivers who are either ignorant of or ignore the law.

"I hope the next session to see some one, logical, sensible method worked out whereby we can handle this relief problem . . . and yet put the responsibility upon the states. Unless you do that, a federalized organization will arise so powerful politically that no congressman can be elected without its stamp of approval an organization of people receiving gratuities from the government. They will be here asking for civil service status as government employes. They will want annual leave and sick leave and retirement benefits, and an increase in wages."—Representative Woodrum of Virginia, Democratic wheelhorse of the appropriations committee in the House of Representatives.

Did you ever go into a town that impressed you as a good town and meet one of the residents of the town who belittled it, knocked it, and ran it down to you? Remember how it affected you, and how disappointed you were? And again did you ever go into a town and have the first person you met begin to tell you what a good town it was? Remember how differently that introduction affected you from the other? Everyone is like that. Strangers that come into this town are affected by the reception they get just as you were affected. Stop and think of this when you meet a stranger. He may conclude to locate here or not locate here from the manner in which he is received and is told of the town.—Blooming Prairie Times.

The Thief River Falls editor complains that he lost five pounds of weight the other day in an argument with a flock of mosquitoes. Say, Mister, you just don't use the right technique. One of our farmer friends here in Wadena corralled a few of the pesky critters, lassoed them and hitched them to his binder. At least, that's what he said.—Wadena Pioneer Journal.

The government is taking on new employes at the rate of 8,000 a month. By the year 2000 we will all be on the payroll.—Wheeling News Register.

Don't pity the fellow who is tall and thin. Life insurance statisticians have found that while it is healthy to be overweight in youth, those who are underweight outlive the big husky fellows six times out of ten, if they live past 40.—Redwood Gazette.

Topics of the Times
By M. A. B.

In spite of the tremendous crowds at the county fair last week, there were enough mosquitoes to insure that no one would be neglected.

In some parts of the state, we understand, farmers complain that the big crops they are getting this year are hard on the soil.

Mothers will soon get some assistance in the job of handling Young America. School bells ring again September 7.

If you think women can't take a joke, says a cynic, you ought to see some of their husbands.

Most folks will say Amen to the highway patrol chief's order to arrest all motorists who refuse to dim their lights.

About 40 billion cigarets were produced in this country during the past three months. That's approximately one smoke for every dollar of the national debt.

The heretical statement that half of those in college might better be at work has a sensible sound to it.

Turning on the gas, says a colleague, is one way to commit suicide. Stepping on it is another.

The President's supreme court appointment pleased John L. Lewis, which, presumably, makes it unanimous.

These new business blocks are a big addition to the city, but another good way to improve the looks of the town would be to remove some of the dilapidated barns and sheds in the residence district.

PUBLIC OPINION

Editor the Times:

I wish to express my thanks to our members and friends for helping our club and game warden Lyle Tweet with our booth at the county fair. Also the fair board for their help. With the small space we had we did as good a job as we could. And we hope by our next fair we can have a building of our own at the fair grounds to display our wild game, and a meeting place as well. This is something we have talked about, and let us all get started on this and see what we can do by next fall. We invite new members to join us, as our membership is only $1.00 per year. See L. J. Uses of Alfalfa Told in Extension Bulletin

With soil conservation practices pointing to an increased use of legume crops in Minnesota, a publication issued by the agricultural extension division, University Farm, St. Paul, will be of special interest to farmers.

The revised publication, "Special Bulletin 101," "Alfalfa in Minnesota," is written by A. C. Arny, member of the University Farm agronomy staff. The bulletin discusses the use of alfalfa in crop rotations, as a hay crop and livestock feed.

Kinds of alfalfa recommended for Minnesota and the method of seeding the crop are treated fully by Mr. Arny. Special emphasis is placed on purchasing good, clean seed. Valuable suggestions are given as to the time to cut hay for best quality and also on how to cure hay to best advantage. Other methods of using the Minnesota alfalfa crop are also discussed in the publication.

This bulletin may be obtained by writing to the Bulletin Office, University Farm, or from the county agricultural agent or the high school teacher of agriculture.

It Happened at the Capitol
(Editor this week, W. E. Elston, St. Peter Herald)

Criticism of the American League against War and Fascism, the organization for which Governor Elmer A. Benson led a huge parade in New York on Saturday, August 7th, continued from a new source this week.

In a speech before the Minnesota convention of the American Legion Auxiliary in Virginia, Mrs. M. Villars of St. Paul, national chairwoman of the auxiliary's committee on education of youth on American Doctrine, charged that the American League Against War and Fascism is "one of the most subversive groups in the country today."

"It is openly and notoriously Communistic, with its board of directors headed by well-known Communists and radicals," Mrs. Villars declared. "Let us not be impressed because certain individuals occupying positions of power attempt to lend the color of respectability to a radical group by personally becoming part of such a demonstration as took place in New York. Remember that this Anti-War and Fascism organization preaches to youth that we should go upon a theory of 'production for use and not for profit', which translated means the abolition of private property.

"It is to be deplored that those who should by their position of power be an example to American youth are lending a sympathetic ear and voice to such theories. It should place us upon our guard, and make us alert to remove these individuals from power at the first opportunity. This we owe to the youth of our country, as well as to those who in the history of America fought for freedom, liberty and human and property rights. We must point out to youth the hysterical, fear-bound situation which exists in the other countries of the world today, where ruin, revolution, dictatorship and brutality march hand in hand, foreign to the form of government we have in America for a free, liberty-loving people; and that true democracy is the only hope and salvation in a dictator mad world."

The parade which Governor Benson led in New York was made up of "10,000 trade unionists and communists", to quote from the New York Herald Tribune. Quoting this same newspaper further: "The straggling army of radicals and unionists carried banners and placards denouncing war, Fascism, Fordism, Hitler, Tom Girdler, Mussolini, Franco, Hearst and the Japanese militarists and praising the Scottsboro boys, the Spanish loyalists and the Chinese people. A detail of Communists ran beside the governor's car and offered three cheers at every street corner, after first explaining to spectators who the governor was."

The Daily Worker, published in New York as the official organ of the Communist party, printed the following interesting information about Minnesota's Governor Benson during his New York visit:

"Last November he was elected governor of Minnesota on the Farmer-Labor party ticket. Following a consistent united front policy with the Communist party in Minnesota, he has repeatedly supported labor in their struggles for better conditions, and in the present unionization efforts of the Steel Workers Organization committee, has pledged active and unceasing support."

Ommodt Confiscates Supply of Fake Butter

Chas. Ommodt, commissioner of agriculture, today urged retail dealers throughout Minnesota and especially in the large cities to be on the lookout for imitation butter being sold by fly-by-night salesmen. Investigation by the agricultural department resulted in the confiscation of several lots of this imitation butter, and the necessary steps are now being taken to apprehend and arrest the vendor and manufacturer. The matter was turned over to Fay G. Child, director of consumers research, who pointed out that the laboratory tests show that the butter confiscated had 37.2 per cent fat (neutral lard) and the rest was principally water, with a small amount of salt, vegetable gum and artificial coloring.

First Cartoon of Uncle Sam

First cartoon of Uncle Sam was drawn by F. Bellew and appeared on March 13, 1852, in "The Lantern," a comic weekly published in New York City. The cartoon showed him as clean shaven. He wore striped trousers and a top hat. Cartoonist Thomas Nast, who really brought Uncle Sam to wide notice in the 60's and 70's, added the goatee and the vest with stars.

VIKING

Rev. and Mrs. Harlan Peterson and daughter Shirley returned home on Monday afternoon after a six weeks vacation which they spent in different parts of the east. SO. ST. PAUL LIVESTOCK
(By U. S. Department of Agricultural Economics and Minnesota Department of Agriculture)

So. St. Paul, Aug. 16, 1937: Cattle supplies here today were very generous, numbering about 10,000 head, and much of the run consisted of grassers. Fed cattle were scarce and steady, while grassy killer steers and she stock sold weak to 25c or more lower. Good fed steers sold sparingly at $12.00-14.50 with nothing choice here but quotable up to $16.00 or above. Grass killers sold mostly at $7.50-9.25, load lots up to $10.25 with small packages above. Grass fat heifers topped at $8.65 for 817 lb. averages, most plain heifers turning at $5.50-7.00, good grass fat cows turned $6.00-7.25, the bulk of grassy butchers $5.00-6.00, low cutters and cutters making $3.50-4.50 or more. Sausage bulls cleared at $5.50-6.25 mainly, heavyweights up to $6.50. Vealers were around 50c lower with good to choice grades at $9.50-10.50, sparingly $11.00. Choice feeder steers brought up to $9.75 in load lots, good western stockers $7.25-8.75, most plain and medium grade light stockers going at $5.00-7.25.

Hog trade ruled 15-25c lower with sows showing most of the full decline. Top dropped to $12.8[illegible] with good and choice 160-240 lb offerings clearing at $12.75-12.[illegible], 240-300 lb. $11.75-12.75, and odd lots of bigweights on down to $11.25 and below. A few 140-160 lb. average sold at $12.00-12.75. Good sows 300 lb down bulked at $11.00-11.25, few $11.50-11.75, 360-400 lb. $10.75-11.00, few $11.15, and big weights down to $10.60, while medium grades sold at $10.25-11.00. One small lot of strictly choice 65 lb. feeder pigs scored $13.25, with others largely $13.25 down.

Slaughter lambs this week continued 25c lower. Choice around 85 lb. Washington lambs sold at $10.65, practically straight. Good and choice natives made $10.25, with common grades down to $8.00. Ewes were steady. Good to choice slaughter ewes made $3.00-4.75, common and medium grades $2.00-2.50. Sheep receipts today approximated 4,700 compared with fully 12,000 last Monday. Yearling breeding ewes were in demand at $8.00-9.00 with solid mouth ewes going at $4.50-5.25.

STEINER

Supper guests at the R. Rupprecht home Tuesday evening were, Mr. and Mrs. [illegible] Olson, daughter Myrtle and son Reuben of Cloquet, and R. Simonson of Thief River Falls. Mr. and Mrs. Olson and children arrived Monday from Cloquet and visited with relatives in Thief River Falls, Goodridge, and Warren. They left for their home Sunday. Mrs. Olson is Mrs. R. Rupprecht's sister.

The 4-H club had their meeting Wednesday evening at the hall.

Visitors at the R. Rupprecht home Sunday evening were, J. Dorval and children and Miss Austin of Newfolden and Mr. and Mrs. T. Brokke and Mr. and Mrs. W. Johnson of Thief River.

Miss Adeline Peters of Grygla is now employed at the Berg brothers home.

A large crowd attended the Ladies aid held at the H. Olse home Sunday.

Mr. and Mrs. A. Simonson of Thief River, accompanied by Mrs. R. Rupprecht and son Arthur motored to Drayton, N. D. Sunday.

A. Foslin who has been working at [illegible] the past months returned to his home last week. He is now employed in Thief River Falls.

Mrs. R. Rupprecht, Mrs. Agnes Warner and Mrs. P. Tanle attended the shower on Mrs. Rupprecht's daughter, Mrs. W. Johnson at her home in Thief River Falls Friday.

Raymond Holmo arrived from Chicago for the week end which he spent with his father, I. Holmo.

New neighbors will soon be in this community as the buildings on the [illegible] farm, on the [illegible] which used to belong to Arthur Simonson, will soon be completed.

Early Ohio Bank Failures

Between 1811 and 1831 bank failures in Ohio averaged one a year, which was a high mortality rate considering the small number of such institutions. These failures were doubtless due to the loose banking regulations and the fluctuation in printing press bank notes.

BOLT OF LIGHTNING PLAYS FREAK TRICKS

[illegible] Centre—A bolt of lightning played freak tricks when it danced about playing tag with itself in the farm home of Mr. and Mrs. Emil Carlson, near Fairy Lake. Lightning struck in the farm home when a bolt entered the chimney. The bolt flashed around indoors, broke out through the brick in seven places, passed through a kerosene can spilling the contents, soldered two other cans together in its wild flight, and escaped the building through the back of the house. In spite of its contact with inflammable materials no fire resulted. Members of the Carlson family were uninjured.

FUNDS AVAILABLE FOR HELPING HIGH SCHOOL STUDENTS

Aid Extended by State and Youth Administration, Bye Announces

Funds have been made available by the state executive council and by the National Youth Administration for continuance of the program of financial assistance to high school pupils during the current school year, 1937-38, Supt. Morris Bye announced today. This aid is granted to enable all needy pupils to attend high school.

Students, in order to be eligible, must show that without financial assistance they would not be able to attend high school this year or they would attend high school at too great a sacrifice. The state aid is limited to high school students under 21 years of age.

The federal aid under the National Youth Administration is limited to students between the ages of 16 and 24 inclusive. Students, in order to receive aid, must prove that they can give assurance of good scholastic work.

The necessary blanks that must be filled in now, applying for student aid, may be secured at the office of Superintendent Bye.

Monster Captive Worm Flees From Times Office

Neal Belland, living at 724 Eighth st., E., last Thursday brought to the Times office an unprepossessing exhibit in the form of a huge worm, three inches long and three-quarters of an inch thick. The creature was of a pale green color, with small brightly colored projections. Unfortunately the worm, which was found on a willow tree, is not available for inspection, as it escaped from its receptacle and crawled out of the front door of the office under its own power.

ALL-STARS BOW TO CROOKSTON TEAM THURSDAY 5 TO 3

Thief River Falls Players Were Members of Picked Team

Playing at Crookston last Thursday night the Red River Valley league all-star team, composed of players from Thief River Falls, Oslo, Warren and East Grand Forks, lost a close game to the Crookston Pirates, Northern league entry, 5 to 3.

In the first inning Joe Bach of East Grand Forks scored for the All-Stars, while in the second Crookston scored twice following wild pitches by Parish of Oslo, on the mound for the visitors. Crookston scored another run in the third and two more in the seventh, and the Stars made their final score in the fifth.

Helmer Sahl of this city shared pitching honors for Crookston with Hanach. Soholt did the receiving for the All-Stars, while Jaranson played in the left field position.

Interment Held Monday For Son of Merton Coles

STATE HIGHWAY 59 MEETING ATTRACTS LARGE ATTENDANCE

(Continued from page 1)

After pointing out the need of more highway funds if all demands for construction are to be satisfied Mr. Elsberg stated that work on Highway 59 is hampered by the fact that many sections of the route were added to the trunk system in 1933 and are not under the federal aid system. He added that the highway has the earmarks of becoming a highly important trunk route, and said he realized the need of constructing the link at the north end leading to Noyes.

Following greetings extended at the opening of the meeting by Mayor W. W. Prichard and Mr. Rinkel, first vice president of the association, Mayor Warriner of Winnipeg said his people want to see Minnesota's good roads linked up with those of Manitoba, and offered his cooperation to that end. Mr. Pouselle, manager of the Winnipeg tourist and convention bureau, echoed Mayor Warriner's remarks, and Mr. McTavish, editor of the Winnipeg Tribune, also spoke briefly.

Testimony as to the need of improving local links in Highway 59 was given by H. M. Hoel, manager of the Thief River Falls Seed House, and H. O. Norby, manager of the Land O'Lakes plant, both engaged in extensive trucking operations. They pointed out that the situation is bad for many weeks during the spring months.

Mr. McCullough, an officer of the Iowa U. S. Highway 59 association, reported that the route is largely paved thru Iowa, Kansas and Missouri, and that efforts are being made by the national organization to secure an outlet to Mexico and Central America.

Among the communities represented at the meeting were Clarkfield, Montevideo, Milan, Appleton, Morris, Barrett, Marshall, Detroit Lakes, Mahnomen, Plummer, Lancaster, Newfolden, Strandquist, Karlstad and Bronson.

The visitors were entertained immediately following the serving of dinner by a group of selections by the Roleo Quartet appearing at the county fair.

TENNIS EXPERTS DIVIDE MATCHES WITH CROOKSTON

Four Local Men Participate in Intercity Tourney Last Sunday

When tennis balls stopped flying Sunday, and the perspiration was drained from the courts, scorekeepers found Crookston had broken even with Thief River Falls in an inter-city meet in Crookston. Each team had won two singles matches and one doubles match.

Eugene Panzer of Crookston started things by beating Marvin Benson 6-3, and 6-1. The next match went to Thief River when William Korstad battled Jack Graham to a 6-7, 8-6, 6-3, decision. Then Clarence Bergum jumped on Lincoln Arnold to win, 6-1, 6-1. Roger Panzer was unable to do more than prolong the match, Phil Chase, of Thief River, finally winning 4-6, 6-4, 7-5.

In the afternoon, Thief River's doubles team of Arnold and Benson upset the dope to win over Eugene Panzer and Jack Graham, 6-2, and 6-3. The second match of the afternoon between Bergum and Roger Panzer, Crookston, and Korstad and Chase, of Thief River was the day's best. Bergum and Panzer took the first set 6-4, and lost the second, 6-4. After an hour's rest play was resumed and the set see-sawed to four-all. Then Panzer took his own serve and, with Bergum, broke through to take the game, set, and match, 6-4.

Lund & Tunberg Sponsor Economy Test Saturday

Operators of Ford V-8 trucks and commercial cars are invited by Lund & Tunberg, local Ford dealers, to compete for prizes in a gasoline economy test to be conducted at the north edge of the city next Saturday, August 21, between the hours of 10 in the morning and 4 in the afternoon.

Prowlers Enter Strand Home Thursday night

Prowlers made their appearance in this city again last Thursday night when they entered the H. K. Strand home at 613 LaBree av. N. Their loot included Mrs. Strand's purse which they found in a drawer in the dining room and which contained $12, and Mr. Strand's purse containing sixty cents which they abstracted from his trousers in the bedroom. Some of the other contents of Mrs. Strand's purse were thrown on the lawn as the intruder left the premises.

9-YEAR-OLD WARREN GIRL DROWNS IN MINNEAPOLIS

Julia Gloria Franson, 9, daughter of Mr. and Mrs. Adolph Franson of Warren, was drowned Sunday when she got into deep water while wading in Lake Harriet in Minneapolis. She was one of the 13 drowned in the northwest over the week-end.

Mother of Miss Ragna Stenerson Passed Away in Rochester Tuesday

Mrs. Gunder Stenerson, 62 of Moorhead, mother of Miss Ragna Stenerson, member of the public school faculty here died Tuesday morning in a Rochester hospital after having been ill at her home for several weeks.

Surving in addition to Miss Stenerson are Mr. Stenerson, two sons, I. T. Stenerson of Moorhead and Gordon of Borup; and two daughters, Mrs. Manley Furseth of Halstad and Mildred at home. There are four grandchildren.

Mr. and Mrs. Stenerson came in 1921 from Erskine to Moorhead, where Stenerson is president of the Stenerson Lumber company. Mrs. Stenerson had frequently been a vistor in Thief River Falls during the years her daughter has been teaching here.

Funeral rites will be conducted from the Luthern church in Erskine Saturday afternoon at 2:30.

Mrs. Carrie Klopp, 67 Dies in Local Hospital

Mrs. Carrie Klopp, 67, died in a local hospital early Thursday morning of last week. Funeral rites were held Saturday afternoon at the Erickson and Lund chapel, Rev. J. A. Jacobsen officiating, and interment was made in Norden cemetery.

Mrs. Klopp was born March 5, 1870, in Valders, Norway. She was married in Norway in 1894 to Even Klopp, who preceded her in death in 1905. In 1908 she emigrated from Norway, coming to Barron county, Wisc. and later in the same year moving to Norden township where she lived until 1915. In that year she moved to this city where she has since made her home.

She is survived by her daughter, Mrs. Omar Lee of this city; her four sons Ole, Syver and Nels, all of this city, and Christ of Clearbrook; her brother Nels Bergene of Dolas, Wisc., and ten grandchildren.

Claffy Is Registering High School Students

As another reminder of the imminence of the first day of school in this city Tuesday, September 7, W. G. Claffy, Lincoln high school principal, Monday began the work of registering prospective students. He asked that all students who failed to register last spring do so now at his office in the Lincoln building.

Program on Knox School Grounds Friday at 3

Sponsored by the City Dairy, a dramatization based on a good health theme, singing, music and a doll buggy parade will be staged Friday afternoon at 3 o'clock on the Knox school grounds. A prize will be given each child taking part, it was announced. The program will be staged under the supervision of Mrs. Agnes Israelson, recreational leader, with the assistance of a group of NYA girls.

GOVERNOR BENSON NAMES FOUR NEW REGENTS FOR 'U'

Fails to Reappoint Any of Present Members of Board

Governor Benson has selected four new regents for the University of Minnesota to supplant the ones whose terms expired last February, it was announced Tuesday. None of the four whose terms expire has been renamed.

The four new regents are: George B. Leonard, Minneapolis attorney; Lewis Lohmann of St. Paul, former state commander of the American Legion; Ben Dubois of Sauk Center, secretary of the Independent Bankers association; Martin Olson, farmer of Vining, Minn.

The four who will be dropped from the board are Rufus Rand of Minneapolis, Julius Coller of Shakopee, A. J. Olson of Renville, and O. J. Hagen of Moorhead.

The action of the governor followed the failure of the state legislature, at its regular and its special session, to agree on four candidates acceptable both to the conservative senate and the Farmer-Labor controlled house.

His selections are also definitely in line with the announced policy of the Farmer-Labor party to place, as rapidly as possible, on the board of regents men who agree with the political philosophy of their party.

There'll always be more or less trouble in this country until the Department of Agriculture learns to cross a dust-bowl with a valley flood.

Plumber from Duluth Will Open Shop Here

Tom Peck, plumber who for the past four years has operated a plumbing and heating service in Duluth, arrived in this city from Duluth and has opened an office at 316 Knight Avenue north pending establishment in permanent quarters of his plumbing and heating service, which will be known as the Peck Plumbing and Heating Co. Mr. Peck announced that he will carry Kohler fixtures and Wiel-McLain boilers. Mrs. Peck will join her husband here later.

CLOSE BIDS SLASH EXPENSE OF LARGE HIGHWAY PROGRAM

Contract Is Let for Paving On Highway 10 in Ottertail County

Minnesota's largest highway construction program of 1937 swung underway this week with the award by N. W. Elsberg, state highway commissioner, of $1,586,406 in construction contracts, on which close bidding drove cost prices down to a figure almost three quarters of a million dollars below the department's own estimates.

The awards called for immediate beginning of construction work as of Monday of this week, on paving, bituminous surfacing and bridge jobs in 12 counties.

All of the projects awarded were federal aid projects, that is, they are to be constructed out of federal and state funds, matched on an equal basis, and made available by the additional revenue provided by the one-cent gas tax increase enacted by the last Legislature. The new jobs will place hundreds of men at work, through the contractors.

Paving bids alone were approximately $650,000 less than the original cost estimates on the jobs, and totalled $1,446,486. Bituminous surfacing bids totalled $89,184.72, and three bridges $50,784.25.

Contracts awarded include: Ottertail county: Paving T. H. 10, length 8 miles, located between New York Mills and Bluffton. Awarded to Nelson, Mullen and Webster, Minneapolis, for $216,149.15 out of matched federal aid. Work to start August 16.

Kittson county: Bituminous surfacing, T. H. 75, length 16.3 miles, located between Hallock and St. Vincent. Awarded to Culligan-Weinhagen Company, St. Paul, for $89,184.72 out of matched federal aid. Work to start August 16.

Sportsmen, Wardens to Supply Game Bird Data to State Department

Questionnaires asking recommendations for the 1937 game bird season last week were sent to 246 sportsmen's clubs throughout the state and to all game wardens. The forms are to be returned not later than Thursday, August 18.

Questions asked include whether or not an open season is recommended for the various species, how long an open season is recommended for the various species, how long an open season should be, whether the birds have increased or decreased since last year, and what general shooting regulations are recommended.

Ringnecked pheasants, Prairie chicken or pinnated grouse, sharptail or whitebreasted grouse, ruffed grouse or partridges, Bobwhite quail, Hungarian partridge, mourning doves, and waterfowl are included in the questionnaire.

McKinley's Favorite Hymn

President McKinley's favorite hymn was "Lead, Kindly Light." It was sung at the funeral service in Canton and also at the services held at the Capitol in Washington. The hymn, "Nearer My God to Thee," was played by the Marine Band at the services at the Capitol.

TRAVELS FOUR MILES ON "TRIKE" TO VISIT

Morris.—Young Roger Christopherson of Donnelly, aged four, realizing that summer is the time for traveling, decided on a trip for himself. As a means of conveyance he chose his tricycle and as a destination the home of his great grandfather, four miles away. Just like other travelers, Roger believes in making good time. Leaving his home on tricycle about noon one day, without announcing his intentions to the family, he arrived at his great grandfather, Peter Olson, about two o'clock in the afternoon. He had pedaled a distance of four miles.

U. S. DEPARTMENT REPRESENTED AT MINNESOTA FAIR

Agriculture Has Big Part in State Exposition September 4-11

The United States Department of Agriculture has awarded its ace 1937 exhibit to the Minnesota State Fair, September 4 to 11, announces Raymond A. Lee, secretary. Recognition of the state's pre-eminence in diversified agriculture is seen in the decision of the Federal government in selecting Minnesota for its middle west showing, Mr. Lee points out.

The general subject of the important exhibit is the conservation of farm, forest and wild life. Ten booths covering 2,400 square feet of floor space will explain the significance and importance of conservation projects. Individual exhibits will stress forest management, forest and water supply, wild life conservation, farm improvement, pasture and roughage and soil erosion control.

Joseph W. Hiscox, chief of the division of exhibits, will send two staff members to the Fair to supervise the installation of the displays on the mezzanine floor of the Cattle pavilion.

Minnesota's $146,000,871 dairy industry will present the most comprehensive exhibit in the Fair's history. Processing of milk and dairy products from the farm to the home will be the theme of this exhibit which will be presented by the Minnesota Dairy Industries committee representing 11 cooperating groups and the dairy division of the University of Minnesota College of Agriculture. Each step in the process from the cow to the creamery to the central plants to the home, complete with the intricate network of transportation required will be shown by working scale models. Augmenting the exhibit will be important industrial products that are by-products of dairying, such as bakery products, plastics and adhesives.

Inverted Road Paving

Macadamizing was new to the western country back in 1837. The paving scheme was the invention of old John Louden MacAdam, born in Ayr, Scotland, in 1756. He came to America in 1770, but returned to Scotland in 1783, where he began experiments with building roads of crushed stone. So successful was his scheme that parliament voted him 10,000 pounds for his work.

N. W. SCHOOL SEES 50 PCT. INCREASE IN ENROLLMENT

349 Students Already Have Reserved Rooms for Fall Term

The Northwest School, with the largest advance enrollment in the school history, is facing a banner year according to Superintendent T. M. McCall. A total of 349 students have paid advance room reservations in order to make sure of rooms at the school. This advance enrollment is fifty per cent higher than one year ago at which time an all-time record of 401 was made for the school year.

The dormitories will be taxed to capacity this year; special provision is being made to accomodate a large number of girls in the home economics building, with Miss Elsie Kingston as preceptress. It is apparent that the crowded conditions in the dormitories will continue until such time as the state legislature can approve of the University building needs.

Some of the factors contributing to the steady growth of the Northwest School, according to Superintendent McCall are: the six-months school year which permits the boys and girls to spend their entire summer season on the farm, the tuition aid for eighth grade graduates, the happy combination of academic and practical work, the school family social activities, and the academic ranking which permits the four-year graduates to enter as freshmen in colleges and universities.

Wardens to Receive $10 Salary Increase Sept. 1

State game wardens will receive a salary increase of $10 a month beginning September 1, Conservation Commissioner Herman C. Wenzel announced last week. Game wardens now receive a maximum of $135 a month. Under the new schedule they will receive $145 a month, with the understanding that an additional $10 monthly increase will be granted when "funds permit." Any additional wardens who may be employed by the department will receive a beginninig salary of $135 a month, with four $5 increases to be granted at the discretion of the department, eventually giving them $155 a month.

SMALL GIRL LOST IN WOODS, 250 SEARCH

Hewitt.—The two and one-half year old daughter of Mr. and Mrs. Merle Manselle is recovering at her home near Nimrod from mosquito bites, exposure, and hunger after having been lost in the woods near home for twenty hours. Neighbors, relatives and others from miles around numbering 250 persons, joined in the search when little Blanche was missed. She had started for home from a neighboring farm where she had been spending the day and was lost in the woods. A neighbor found the child in a semi-conscious condition, lying near a log about four miles from the Manselle farm. Indications were that she had been lying there for some time, suffering from hunger, insect bites, and sunburn.

LAD CLIMBS HIGH LINE POLE, ESCAPES INJURY

Hutchinson. —Jimmie Betker, the seven-year-old son of Mrs. Harry Betker of the Heatwole district had a miraculous escape from death when he climbed to the top of a high line pole near his home, received a shock and fell fifteen or twenty feet to the ground. Taken to a hospital, he was found to be suffering from bruises and shock, and although internal injuries were feared, the boy was sufficiently recovered to return home in two days, apparently not much the worse for his experience. Jimmie, together with other children, had gone to the mailbox, where the adventure-some spirited lad climbed to the top of the electric high line pole. When he reached the transformer he fell to the ground, unconscious. He regained consciousness, however, before his mother came to the scene of the accident. Jimmie suffered from shock, had a small burn mark on his neck, his digestive tract was paralysed, a symptom often occurring with electrical shock, but he recovered rapidly, suffering no ill effects.

Feared Fulton's Steamboat

Robert Fulton started out in 1812 from Pittsburgh to New Orleans in his steamboat, the New Orleans. Many people along the Ohio shore—those who had never seen or heard of such craft—ran back from the shore at the sight of this strange thing

Bids Are Requested on Paving Job Near Noyes

A second major highway construction program coming almost on top of $1,500,000 worth of contract awards made on Monday, was announced this week by N. W. Elsberg, state highway commissioner. Commissioner Elsberg asked for bids on grading, paving, bituminous surfacing and graveling work in six counties, estimated to approach $900,000 in cost. Kittson and Fillmore counties will have grading and paving jobs; St. Louis and Big Stone counties will have grading and bituminous surfacing, while Houston and Ottertail roads will receive graveling jobs. The letting will be made on September 3. The jobs to be let include: Kittson county, grading and paving T. H. 75, length three miles, located between Noyes and three miles south, comprising 71,077 cubic yards of excavation and 36,750 square yards of concrete paving.

The American people are peaceful of purpose, but why do they eat so much spinach?

DISLOCATES SHOULDER IN FIRST HALF HOUR ON JOB

Hanley Falls.—Soon after having begun work on the Olaf Torgerson farm in this community, T. G. Vogt, transient farm hand, was on his way with a sore shoulder, money in his pocket, and minus a job, for during his first half-hour of work he dislocated his shoulder. After having stored away a goodly portion of ham and eggs at breakfast, Vogt's next job was to drive a team of horses hitched to a bundle rack. The horses started unexpectedly, and in grasping for the reins, Vogt fell from the rack, thereby dislocating his right shoulder. Having received the ham and eggs, cash, and the sore shoulder, the man left the farm.

It has about gotten so in this country that love at first sight is really possible, but at the same time it's safer to wipe off your glasses and take a second look.

ATTENTION!
Flax Growers

We will be in the market for a considerable tonnage of clean, long, dry threshed flax straw this coming Fall.

We are interested in the fiber content of the straw and therefore suggest that growers interested in disposing of their flax straw to us cut their crop as close to the ground as possible and in threshing set blower to build neat stacks to eliminate waste.

DRUM CORPS' WEDDING MARCH NOT SCHEDULED

South St. Paul.—Not every bridal couple marches down the church aisle to the accompaniment of a military drum corps, but that was the opportunity offered inadvertently to a local bride and bridegroom. Without realizing that the itinerary of a march to advertise their festival would take them past the church where at the precise moment the pipe organ was scheduled to sound the strains of a wedding march, the V. F. W. drum corps paraded along the street with bass and snare drums and bugles going full blast.

CRYSTAL WHITE SOAP OFFERS FREE! A BIRTHSTONE BRACELET

GENUINE 14-KT. GOLD PLATE SETTING AND FITTINGS

YOUR OWN BIRTHSTONE set in lovely filigree mounting . . . an exquisite, colored, imported stone made in simulation of the genuine stone. Black wrist cord adjustable to any wrist. Latest type safety clasp.

Free FOR 20 WRAPPERS FROM CRYSTAL WHITE SOAP

Special offer to induce you to use this big, creamy-white bar soap that washes clothes crystal clean . . . dishes crystal clear.

Think of it! This beautiful bracelet of genuine 14-carat gold plate setting and fittings and YOUR OWN BIRTHSTONE —FREE! The imported colored stone (there's a different one for each month) set in an exquisite mounting, makes a lovely bracelet . . . one you will delight in wearing. And it has an adjustable black cord strap. Remember too, that wearing your own birthstone brings good luck and happiness. And it's easy to get, too!

Crystal White is the creamy-white, family bar soap that gives richer, longer-lasting, "billion bubble suds"—even in hard water—because it is made with the same costly tropical oil used in making expensive toilet soaps and shampoos.

These thicker, harder-working suds dissolve grease and grime like magic . . . get everything crystal clean. What a blessing that is to women for all hard cleaning jobs! Yet Crystal White Soap costs only half as much as soap in fancy packages. You'll find Crystal White ideal for laundry—dishes—pots—pans—all your household cleaning.

Get your supply of Crystal White Soap TODAY. Send in 20 wrappers and get your FREE birthstone bracelet!

HERE ARE THE LOVELY BIRTHSTONES—SELECT YOURS

TRAFFIC SAFETY PROJECT SEEKING 500,000 MEMBERS

State Committee Asks All Citizens to Join in Campaign

The Minnesota public safety committee is asking all residents of the state to help expand safety activities. A campaign is under way for enrollment of 500,000 supporting members. The membership fee is but twenty-five cents, and as that covers two years, the rate amounts to practically but one cent a month.

That support of the work of the state and local committees is warranted, A. V. Rohweder chairman of the Minnesota public safety committee points out, is evidenced by the statement made by the nation's top most safety authority, W. H. Cameron, managing director of the National Safety Council, at Duluth last week.

Speaking at the meeting of the safety advisory committee, Mr. Cameron said, "Minnesota is leading the nation in traffic safety work. Thirty-eight less lives lost in the first six months of this year in Minnesota, as compared to the same period in 1936, is evidence of the gain being made. This is particularly outstanding when it is noted that gasoline consumption was sixteen million gallons higher. That means considerably more motor vehicle travel and that many more opportunities for accidents—but deaths were cut down".

"Still," Chairman Rohweder points out, "199 lives were lost during the six months in traffic accidents, practically every one of which could have and should have been avoided." Local safety committee officers and members are urged by Mr. Rohweder to make particular efforts during the third and fourth weeks of September to get clubs and organizations of every kind within their areas to complete their safety supporting member-ship work.

She has used Telephone Service More than 50 Years

Mrs. Mary Murray, one of our customers, recalls more than half a century of telephone service:

"Without a telephone I'd feel cut off from the world," she told us. "Now that I'm 80 years old, I find it very difficult to get out and I receive the most pleasure from talking with my friends over the telephone.

"I've used the service for more than 50 years. There's a difference between telephones now and even a few years ago. There has been a great improvement in the service."

★

Telephone service is constantly increasing in value. Year after year, this Company, aided by other parts of the Bell System in research, planning, engineering and manufacturing, is able to connect you with more persons and to provide you with faster, more accurate and more dependable service at charges which give you more and more for your money.

31 PIGS BRING $1,060 CHECK

Fairmont.— Theodore Schwieger of Fraser township finds it pays to buy pigs as feeders and sell them at present market prices, even when grain is high, for he has received a $1060 check for 31 pigs. He brought 31 head of fall pigs to Fairmont last week and sold the Spotted Poland Chinas at $12.65, getting a premium of an extra quarter per hundred because they were all well finished. The average weight of the porkers was 266 pounds, the entire offering bringing Mr. Schwieger a check for $1,060. He purchased them as feeders last spring at $4.50 a hundred.

GRYGLA

Mrs. A. B. Hylland returned to her home here after undergoing treatment at a hospital at Thief River Falls. She is very much improved in health.

Mr. and Mrs. George Robinson and baby from Detroit, Mich., are spending a vacation visiting at the Peter Carlson home. Mrs. Robinson was formerly Miss Elsa Carlson and very well known here.

Mrs. Carlson from Minneapolis, a sister of Mrs. John Fransman Jr., arrived Sunday and will visit for some time with relatives.

Melvin Bade, Ole Nerby, Alfred Fransman and Ed Lois, who have been working in the harvest fields in North Dakota spent Sunday visiting their families here.

Gertrude Engelbert and Lee Duffield of Thief River spent Sunday visiting at the Sandberg home.

Mrs. Anton Sub from Sandstone is spending her vacation visiting at the home of her parents, Mr. and Mrs. Sven Torsten west of the village.

Mr. and Mrs. A. Nordby and children of Chicago are visiting a week at the P. A. Nerby home.

Clifford Moren and Harold Lian left the forepart of the week for Warren in which vicinity they will be employed.

Mr. and Mrs. J. T. Peterson and children from LeSueur arrived Monday and will visit with friends and relatives.

Mr. and Mrs. Gander Grovum, Mr. and Mrs. Harold Bush and Mr. and Mrs. F. A. Brown motored to Crookston Monday and were in attendance at the House of David-Crookston base ball game.

Roy Welch and family, who for some time lived on the Gonnering farm east of town and lately on the Campbell place just north of Malcolm, has disposed of his effects and moved away. His destination is unknown.

Miss Lillian and Elwood Linder of El Paso, Wis. and Miss Alberta Ulmer [illegible] from Minneapolis spent a few days visiting at the Sandberg home. Miss Linder and Elwood are niece and nephew of Rueben and needless to say their visit was much enjoyed.

A number of people from this locality were at Bemidji on Monday attending the land sale by the Conservation Department on the game reserve. There was very little competitive bidding.

BLACK RIVER

Miss Arleen McKercher, R. N. of the Shrine hospital of Chicago arrived at her home on Saturday evening to spend some time visiting at the home of her parents, Mr. and Mrs. R. J. McKercher.

Sunday evening visitors at the home of Mr. and Mrs. V. O. Brink were Mr. and Mrs. Hance and children of Crookston and Mr. and Mrs. M. R. Graham and daughter Marilyn.

Mrs. Hannah Koldahl who has been visiting with her sons, Arthur and Louis Koldahl of the Iron Range arrived here on Friday for a visit at the R. L. Larson home and with other relatives and friends from here. Mrs Koldahl will leave for Washington to spend the winter with her daughters.

Mr. and Mrs. N. R. Buchlen and daughters Norma and Diana left on Saturday evening for Roseau where they spent the week end at the home of Mrs. Buchlen's parents.

Mr. and Mrs. Theo Seebart and daughter Marjorie of Grand Forks, motored to the home of Mr. and Mrs. R. J. McKercher on Sunday and spent the day. Mrs. Seebart and daughter remained for a longer visit at the McKercher home.

Red River Valley History

By Wm V. Working

N. W. Minnesota in 1915

We believe the following article written twenty-two years ago is worthy of reproduction here because it describes, to a great extent at least, this section as it is today.

The counties of Northwestern Minnesota are located in the heart of the world famous Red River Valley, comprising an area which embraces prosperous farm homes and thrifty villages and cities. There are several railroad centers, with numerous railroad lines running in all directions. The score of up-to-date cities and villages reflect the industry of the entire district.

There are about 20,000 farms; banks, with deposits that indicate strength and stability; splendid rural and city schools; the State School of Agriculture, at Crookston; several private schools; numerous churches of all denominations in all of the communities; live newspapers in its thrifty and progressive cities and villages; good markets for all products; rural free delivery systems on a par with those in the counties of any section of the state in territory covered and service rendered; railway and telephone service to every part of the Valley—in fact Northwestern Minnesota has business, agricultural, social, religious and educational facilities comparable with any modern, up-to-date section wherever it may be located.

Farming is the great industry of these counties. Their soil, their farm crops of every variety, with corn, alfalfa, clover, wheat, flax, barley, etc., growing and yielding splendidly; their potatoes, fruits and trees; their poultry; and their dairying interests—all developed and all increasing in amount and value each year make these counties among the most favored in the great Northwest.

Behind these industries, there is a people on the farms and in the towns that are alive and active. Social clubs in the country, scores of them, make each neighborhood a unit in cooperative work and in intelligent and social intercourse. County agricultural agents, the Northwest School of Agriculture, and high school faculties do much to create enthusiasm among the people. Contentment, present good times, and full promise of future prosperity, give all living here a hopeful optimistic view point.

The results of numerous chemical analysis of the soils of Northwestern Minnesota show them to contain all the plant food elements in abundance. Their high limestone content would class them with the best limestone soils in the world. They are, also, exceptionally rich in organic matter and potash. Many of these soils which have known no other than grain crops since first they were broken in the "eighties" still produce in a normal season, with good tillage, from 16 to 25 bushels of wheat to the acre. Where a rotation of crops has been followed, good plowing done, some manure applied and good seed used with proper preparation of the seed bed and adequate drainage, this soil will produce from 40 to 80 bushels of oats; 20 to 35 bushels of wheat of the finest quality; 30 to 60 bushels of barley; 15 to 25 bushels of flax; 18 to 20 bushels of Winter rye; 30 to 50 bushels of corn, or when cut for silage 10 to 16 tons per acre. Timothy and clover yield from 1½ to 3 tons of hay per acre; alfalfa from 2 to 4 tons; potatoes from 200 to 300 bushels on clover land where manure has been used and from 100 to 200 bushels following grain, without manure. Maximum yields are often reported doubling the average of those stated above.

The opportunities for successful potato growing in these counties are unsurpassed. The soil and climatic conditions are such as produce potatoes of excellent flavor, splendid keeping qualities and high yielding power. The counties of the Red River Valley have long been known as the home of the Early Ohio potato; however, both early and late varieties grow here to great perfection. This region is not subject to many of the serious diseases of other potato regions of the United States. It is because of their great constitutional vigor that the Red River Valley seed potatoes are much sought for in the seed potato markets of the middle west.

VALHALL

The community club will give their play "Red Acre Farm" at the Sons of Norway hall Friday evening, August 20, at 8:30. Admission, adults 25 cents, children free. Come out and enjoy the evening.

Mr. Brulins of Henry, Ill., is spending some time with his son-in-law and daughter Mr. and Mrs. C. H. Toomey.

Mr. and Mrs. James Prichard and son of Storm Lake, Iowa and Mrs. W. W. Prichard Sr. of Thief River Falls, made a brief visit at the Peter Engelstad home Saturday.

Mr. and Mrs. Paul Engelstad, Karl, Morris and Blanche motored to Lama, N. D., Saturday to attend the funeral services of Carl Peterson.

Mr. and Mrs. Lars Engelstad, Doris Gene and Larry of Moorhead, Amy Gunderson of Benson, Esther Gunderson of Fargo, N. D., and Gina Gunderson motored here to spend their vacation at the Peter Engelstad and O. B. Gunderson homes. Gina Gunderson had spent a week at the lake at Park Rapids with her sisters Amy and Esther.

Members and friends of the Rocksbury community club met at the Trinity church stand at the fair grounds Friday evening and had lunch together. A good time was had by all.

Grace, Hazel and Paul Bergie Jr., of Fargo, N. D., and Mrs. Pete Nelson and daughter Gladys of Hazel called at the Perry Bergie home Sunday.

Mr. and Mrs. Martin Finstad visited at the Carl Finstad home Sunday. The Martin and Carl Finstad families motored to Terrebonne the same day.

A free country is one where people criticize officers for not catching lawbreakers and feel outraged when they are caught breaking a law.

HICKORY

(Too late for last week)

The Nazareth church festival which was held on the H. T. Hanson farm Sunday, Aug. 8 was very well attended. Services were conducted at 11 o'clock by Rev. H. O. Sabo of Mavie assisted by Rev. Sigurd Fladmark. Songs were rendered by the male chorus of Thief River Falls. Lunch was served at noon. The following program was rendered in the afternoon: welcome address by Rev. Sigurd Fladmark, solos by Harry Hitterdal of Thief River Falls accompanied by Mrs. Hitterdal at the organ, talks by Paul Lundgren of Thief River Falls and Dreng Bjornaraa of St. Paul, short talks by Bj. Bjornaraa, Miss Dora Arveson and Rev. Fladmark, and a song by the audience. The program was directed by Bj. Bjornaraa.

Oscar Halvorson Drowns

The community was shocked to hear of the sudden death of Oscar Halvorson, who passed away on Wednesday, July 28th. Oscar, aged 11, who together with his two sisters, Regina and Helen and a brother Selmer, was out swimming in the Red Lake River near his home, drowned. Funeral services were conducted at the Nazareth church on Saturday afternoon.

Dr. A. B. Jacobson, Lars Larson, Dr. Nesse, Bernhard Knudsen and Harry Hitterdal of Thief River Falls accompanied by Mrs. Hitterdal rendered some beautiful selections at the Nazareth church festival on Sunday.

Miss Dora Arveson is visiting at the home of her brother Albert Arveson near Wanke.

Mrs. Dreng Bjornaraa, daughter Carolyn, Mrs. Erick Johnson, daughter Eileen and the Misses Borghild and Solveig Bjornaraa were supper guests at Olaf Nelson's on Monday.

Miss Esther Haugen is employed at the Edward Hanson home near McIntosh.

Mrs. E. H. Oftelie, who has been a patient at a hospital at Thief River Falls, has returned to her home.

Gunder Lintvedt, Bj. Bjornaraa and E. H. Oftelie visited on Monday with Ole Kroshus, who is a patient at the Bethesda hospital at Crookston.

Mrs. Jorgen Oftelie of West Duluth is visiting with relatives in this community.

Mr. and Mrs. Dreng Bjornaraa and daughter Carolyn of St. Paul accompanied by Miss Borghild Bjornaraa and Jim Helle arrived at the Bjornaraa home on Saturday evening. Mr. Bjornaraa returned to St. Paul Monday while his wife and daughter remained for an extended visit.

Mr. and Mrs. Julius Halvorson and daughters Thelma and Gladys of McIntosh, Mr. and Mrs. Ludvig Johnson and daughters of Mentor, Mr. and Mrs. Ole Dahle of Erie, and Miss Martha Halvorson of Bagley attended the funeral services for Oscar Halvorson on Saturday.

Mr. and Mrs. Bj. Bjornaraa and Dreng Bjornaraa accompanied James Helle to his home near Goodridge on Saturday evening. Mr. Helle returned recently from a trip abroad to Norway, Sweden, England, France, Germany and Denmark.

Miss Borghild Bjornaraa, who is attending the Twin City Secretarial College, is enjoying a five weeks' vacation with relatives.

Mr. and Mrs. Edward Hanson and children of McIntosh attended the church festival on Sunday.

Mr. and Mrs. Nick Risen and daughter Corrine Faye of Preston, Wash. accompanied by Mrs. Britta Risen and daughter Mabel attended the picnic on the H. T. Hanson farm Sunday.

SILVERTON

The August meeting of the Silverton 4-H club will be held next Friday evening, Aug. 20 at 8:30 p. m. at the Furuseth home, entertained by Myrtle Ethel and Leonard Furuseth at 1203 1st St. East. Inez Morehouse, Myrtle Furuseth and Wallace Smith are the members of the program committee.

Silverton 4-H club members were very fortunate in winning prizes at the Pennington county fair in competition with other clubs of the county, having won as follows: Effie Hanson, 1st in sewing, 2 class B; Ina Anderson 1st on bread, class A; Martha Anderson, 2nd on bread, class B; Edwin Berggren, 1st on roll; Dorothy Woolson, 1st on breeding pen of White Leghorns over all breeds in club work. Dorothy will exhibit her pen at the Minnesota State Fair, Sept. 4-11th. Several other members of the club also expect to attend the fair. Other prizes won were Effie Hanson 1st on booklet "Trees". Ina Anderson, art student, 2d on drawing of Barbara Stanwick and 2nd painting of Joan Crawford.

Edith Omundson and H. Varner of St. Cloud came Tuesday of last week to spend a brief vacation at Miss Omundson's parental home. Mr. Varner left Sunday for St. Cloud, but Miss Omundson expects to remain for another week visiting friends and relatives in Thief River Falls and vicinity.

Arthur Sundfors of Thief River Falls was an overnight guest of his cousin, Severin Berstad on Saturday and spent Sunday at the Berstad home in Smiley.

Miss Augeline Havet spent Thursday night at the home of Sara Woolson.

Miss Violet Helmohson spent several days last week with friends in Thief River.

Dorothy and Sara Woolson visited on Sunday evening of last week at the home of Ellen Janda at St. Hilaire.

Bjerge Newton and sister Mrs. Ida Bjerge were Sunday visitors at the J. Hanson home.

Miss Marjorie Lane, Iris Thompson, Violet Larson and little Mary Ellen McCabe were callers at Woolsons Wednesday evening.

Edwin Berggren and Garfield Syverson spent part of Sunday picking raspberries where the berries have been exceptionally fine this year because of the abundant moisture.

Mr. and Mrs. Frank Johnson and daughters of St. Hilaire visited Saturday evening at the Woolson home.

We will repay him.

Procter & Gamble

DON'T DELAY . . . ACT AT ONCE . . . WHILE SUPPLY LASTS

Simply Do This

To Keep Your Loveliest Things Looking Colorful, Fresh And Gay: Go To Your Dealer And Buy A 25c Size Package Of Dreft. Then, For Only 1c More—Receive A Full Size 15c Package To Try. Money Back If Not Satisfied.

● Procter and Gamble makes this remarkable offer—a regular fifteen-cent package of DREFT for 1¢—for the sole purpose of inducing more women to try this amazing and utterly new washing creation. So that they can see for themselves that here at last is the way to wash fine things perfectly and with utter safety to any color or fabric that plain water won't harm.

Just go to your dealer's and get a big, economy size twenty-five-cent package of DREFT. And you'll receive for ONLY ONE CENT, a regular 15c package of DREFT (a 15c package marked especially to sell at 1c during this sale).

Banishes Troublesome, Dingy, Color-Dulling, Hard-Water Scum

If you enjoy keeping your dainty, delicate, expensive things looking fresh, colorful and gay—even after scores of washings—you owe it to yourself to try DREFT—(Process and product patented U. S. letters patent, 1,968,793 to 7 inclusive) the most amazing washing discovery in over 2000 years! For DREFT brings an entirely new conception of how long you can wear lingerie, chiffon hose and fine woolens without seeing them grow dim, dull and lifeless. And the chief reason for this is because DREFT can't possibly form any hard-water "scum."

This "scum" which you always see in your rinse water, is unnoticeable in your wash water—yet it is there, doing its vicious work, wash after wash, dulling the lustre of your sheer lingerie, spotting and streaking silk stockings. And this is true even though you have used what, before the discovery of DREFT, was recognized as the best, most expensive, soap known for washing fine fabrics.

Amazing as this may seem, DREFT ends all this because it can't form scum. And even more amazing, DREFT actually removes the stubborn, clinging scum particles that failed to rinse away in previous soap washings—lets "scum-dulled" colors come up to their true brilliance. You'll be thrilled to see the delicate colors and feel the silky softness of your sheerest stockings "wash back" in DREFT suds.

5 Times Greater Suds

In addition, DREFT does these three remarkable things no single soap has ever done or can do now:

Makes 5 times greater suds than any soap in the hardest water.

Cleanses thoroughly—even lipstick and so-called "impossible" smudges!

Rinses out completely—no soapy deposit left.

By comparison DREFT makes even the purest soap you have ever known seem harsh—because DREFT suds contain no alkali. Alkali in soapsuds is what fades colors. DREFT suds are the only suds you can get that do not contain alkali. You'll be astonished how, wash after wash, silk stockings actually seem like new when you use DREFT. It's economical too. For instance, in hard water, you need only use half as much DREFT as you would the finest soap flakes. We don't ask you to take our word for these amazing claims. Prove them for yourself at our risk.

Take Advantage of 1c Sale Today

Please take special notice that this unusual 1¢ bargain sale is limited. You can only get 1¢ DREFT while your dealer's stock lasts. Remember to get DREFT today. Your money back if you're not satisfied. Act quickly and avoid disappointment.

CONGRESSMEN GO HOME AFTER LONG SESSION

Resist President's Program in Term Closing Last Saturday

SPECIAL SESSION IS EXPECTED IN OCTOBER

Farm Legislation Included in Business Left Unfinished

Congress scurried happily homeward Sunday from Washington, D. C., expecting nevertheless to be called back into special session in mid-October.

In the interim, its members looked for a renewal of the guerilla warfare within the Democratic party which began with the Roosevelt court bill and persisted to the end of the session which adjourned Saturday night.

It was regarded as inevitable principals in that controversy — including President Roosevelt himself—would seek to array public sentiment behind them by speeches and statements before congress meets again.

For the next session may develop into a showdown between the President and the conservative forces of the party, which by combining with the Republicans, blocked a substantial part of the chief executive's legislative program.

And the large number of things left undone when adjournment was reached, things close to the administration's heart, furnished a substantial basis for the general belief a special session would be called.

While there was no official word on that question, Mr. Roosevelt was known to have discussed it with his leaders in congress and they were said to have advised some colleagues to make their vacation plans with that in mind.

But, whether congress meets in special session or not until the regular convening date in January, there was little doubt the controversies of recent months would be picked up just where they were dropped Saturday. The issues will be the same.

Congress will be asked first of all to enact the wage and hour bill approved by the senate over the vigorous protests of the south, only to be trapped in the rules committee of the house by a combination of Republicans and southern Democrats.

Farm legislation will be requested by the President, frankly disturbed by the possibility of the accumulation of price-depressing surpluses in cotton.

Beyond these issues lie controversies over the reorganization of the executive branch of the government, the creation of seven "little TVA's" on as many important water sheds, and the perennial battle over anti-lynching legislation.

For new and spectacular business there will be a general overhauling of the income tax schedules, forecast by the President.

UNDERSECRETARY OF AGRICULTURE HERE WEDNESDAY

M. L. Wilson Well Pleased With Progress of Resettlement Project

Expressing his satisfaction at progress made to date on the local resettlement project, M. L. Wilson of Washington, D. C., undersecretary of agriculture, in company with a group of other department officials, inspected the project Wednesday evening in company with J. W. Taylor, supervisor.

The party arrived in Thief River Falls Wednesday evening at 6:30 and left this morning for Baudette, in which vicinity they will inspect the similar Beltrami Island project.

Included in the group, in addition to Mr. Wilson, were N. S. Boardman, regional director of the Resettlement Administration; A. C. Lytle, assistant regional director; Raphael Zon, U. S. forester at the Lakes States experiment station in Milwaukee; and Stanley Wilson of Milwaukee, assistant regional forester.

New Soo Agent Here

HELMER CARLSON

Who early last week assumed the position of Soo Line Agent in Thief River Falls, succeeding H. A. Pratt, who has retired from active work. Mr. Carlson, who served as Soo agent at Devils Lake, N. D. from 1919 until coming here, is a native of this section, having been born near Rosewood. Previously to going to Devils Lake, he was employed by the Soo Line first at Noyes and later at Tolley and Fordville, N. D.

HORSE DISEASE IS STILL PREVALENT IN THIS LOCALITY

Veterinarian Care Urged by Livestock Sanitary Board

The epidemic of sleeping sickness among horses is continuing with just as many affected as there has been in the past few weeks, County Agent Howard Grow reports.

Various farmers have reported a variety of simple kinds of home treatment for sick horses that they claim have proved effective. In some cases the horses may not have been afflicted with sleeping sickness, or perhaps some of the horses have been able to withstand the disease. Whether their recovery was natural or due to some simple treatment is hard to tell. One thing that must be remembered, said Mr. Grow, is that a disease caused by bacteria or virus is not always cured by some simple treatment.

The Minnesota livestock sanitary board recommends that treatment should be prescribed by a qualified veterinarian. "Only the first substantial frost", Dr. Charles E. Cotton, executive secretary of the board said, "will halt the disease. The frost will kill the four types of mosquitoes which are responsible for transmitting the infection." Until more definite information is available the thing to do is to follow the advice of the sanitary board, Mr. Grow said.

Ford Trucks Establish High Gasoline Mileage in Contest Saturday

Approximately 25 Ford trucks participated Saturday in the gasoline economy test conducted on Highway 1 west of the city under the sponsorship of Lund & Tunberg, local Ford dealers. Each truck was supplied with one-half gallon of gas and ran until the supply was exhausted. Gordon Gunderson won first prize in the pick-up classification, making an average of 28.2 miles per gallon, while Vic Berg won first honors for trucks, making a record of 21.88 miles per gallon.

M. Bothun Is Adding to Greenhouse Facilities

To accommodate his expanding business, Martin Bothun, proprietor of the Thief River Greenhouse, announced today that construction was started Tuesday on a new greenhouse 20 by 50 feet in dimensions and a potting room 14 by 20 feet. The new structures, which will be located south of the present greenhouse at the north end of Arnold av., are scheduled to be completed next month.

PLAN VISIT TO RESETTLEMENT FARMS TONIGHT

C. and C. Group Accepts Invitation Extended by J. W. Taylor

CAVALCADE TO LEAVE AUDITORIUM AT 6:30

Civic Group Discusses Proposed Celebration This Fall

At last Thursday's luncheon of the Civic and Commerce association, the group accepted an invitation extended by J. W. Taylor, in charge of the Thief River Falls resettlement project, to make a tour this evening to inspect several typical sets of buildings constructed on farms in this locality included in the project. The party will assemble at the Auditorium at 6:30.

With a total of 113 sets of buildings to be constructed or remodeled, Mr. Taylor stated that the project is now about one-third completed. Following completion of work on twelve farm units in the Oklee vicinity, construction crews will proceed to the Warren area, he said. Nearly 900 applications, he added, have been received to date for the available farms, virtually all of, which, it is expected, will be disposed of without loss to the federal government, sponsor of the project.

At Thursday's meeting F. A. Rinkel, chairman of the road committee, reported on the recent session here of the State Highway 59 association, and added that Highway Commissioner N. W. Elsberg had stated that his department was prepared to start rebuilding Highway 1 east of this city as quickly as the road dried up sufficiently.

After a discussion of the matter of staging a fall celebration in October, in which the merchants present expressed themselves as being in favor of the proposal, the matter was left in the hands of the merchants committee, which was asked to be prepared to report at today's meeting.

O. C. Paulson told of the excellent showing made by the Thief River Falls drum corps at the state Legion convention in Virginia, and urged that members of the association support the effort being made to send the corps to the national convention in New York City.

ALL IN READINESS FOR SHORT-STOP TOURNEY SUNDAY

Golfers from Many Nearby Communities Plan to Participate

Given favorable weather, large delegations of golfers from clubs in this section will assemble in Thief River Falls Sunday for the first annual shortstop tournament to be held on the local course. Tourney Chairman Douglas Booren has received word that groups of players will be present from Bemidji, Grand Forks, Erskine, Mahnomen and other towns.

While the tournament is scheduled to start at 9:30, Mr. Booren asked that local golfers planning to participate be on hand at 9 o'clock in the morning in order to relieve congestion when play gets under way. They also are asked to notify him of their intention to play not later than Saturday evening.

Nine-hole rounds will be played, and trophies, which are now on display at Elofsons jewelry store will be awarded to the winner, runnerup and consolation winner in each flight. Women members of the local club will serve lunch to the players, starting at noon, it was announced.

Man Fined for Shooting Ducks Ahead of Season

Ed Fiskevold was arrested late last week by Game Warden Lyle Tweet on a charge of shooting ducks out of season and without a hunting license. Apprehended northwest of Goodridge in Marshall county, he pleaded guilty when brought before Judge Lincoln Arnold in municipal court Monday, and was sentenced to pay a fine of $10 and $6 costs, while his gun was confiscated by the warden.

The most typical or healthiest Pennington county 4-H boy and girl will be selected at a county-wide clinic to be conducted Friday in the Lincoln high school building, Miss Thelma Solie, county club leader, announced today, adding that the winners will be awarded free trips to the Minnesota state fair. In charge of the clinic will be Dr. Edward Bratrud, Dr. Baldwin Borreson and Dr. A. E. Jacobson.

KIEWELS DEFEAT OENS, TAKE TITLE IN DIAMONDBALL

Win Deciding Game Sunday in Championship Series

The Kiewels Sunday became the new city diamond-ball champs when they took the third and deciding game from Oen's 10-4.

The first game of the three game playoff finals went to Kiewels when they squeezed out a 2-0 win over Oens, a wide throw at home plate accounting for the winning run. Oens came back to even up the series by winning the second game by a score of 4-1. Benson held Kiewels to two hits and won his own game by hitting a home run with DuChamp on base in the first inning, all the scoring taking place in the first inning. Kaushagen and Ness pitched for Kiewels and allowed eight hits.

Kiewels won the third and deciding game Sunday by a score of 10-4, collecting 9 hits to 5 for Oens. Ness on the mound for Kiewels struck out ten batters. Arnold Rustad, catcher for Oens, fractured a finger when a fast ball caught his finger tip.

Ole Ness managed the winners and turned out a fine all around team that had good fielding and hitting, the battery of Allen Ness and Oscar Bakke being largely responsible for the team's fine record.

The personnel of the finalists is as follows: Kiewels: Ole Ness, Allen Ness, Oscar Bakke, Ardell Robinson, Paul Dahl, Leonard Sanders, Jim Kelley, Jackson, Newton, W. and M. Helgeland, Ell and Hans Kaushagen. Oens: Marvin Benson, Arnold Rustad, Arthur Myrom, Bus Rattleson, Jesse DuChamp, Howard Holum, Chuck Krause, Raymond Bergstrom, Carl Lee, John Lynskey, Red Palmer, Scotty Cameron, Legler, Wendell Beebe, Mellberg.

Ole Engelstad served efficiently as umpire.

Oiling of Streets on East Side Under Way

Under the direction of the J. W. Craig company, oiling of approximately twenty blocks on the east side of the river got under way over the past week-end. Included in the oiling project are St. Paul, Markley and Kendall avs., and the section on LaBree av. from the south end of the paving around the curve to Riverside av.

DEMONSTRATION TEAMS TO VIE FOR STATE FAIR TRIP

To Compete Next Monday in Civic and Commerce Assn. Rooms

Demonstrations in the 4-H safety activity and home beautification project will be given Monday afternoon in the Civic and Commerce rooms in the municipal Auditorium at Thief River Falls. The winning individual safety demonstrator will attend the State Fair.

Opal Werner from the Steiner 4-H Club will give a demonstration on "Safety in the Farm Home." Lucille Thomas from the Thief River Falls Club will give a demonstration on "Safe Driving and Safe Walking." Doris Hostvet will also give a safety demonstration on "Landscaping."

The winning demonstration team will be awarded a free trip to the State Fair. Teams from other projects such as pig, baby beef, poultry, dairy calf, corn, potato, garden, colt, sheep, health or conservation of wild life may also compete in this division providing the two members who compose the team are enrolled in the club project they demonstrate.

FLOOD RELIEF WORK IN AREA COORDINATED

Rural Rehabilitation Set-up to Handle Grants and Refinancing

EXECUTIVE COUNCIL TO PROVIDE FOR FEED

State Relief Agency to Supervise Ditch Cleaning Projects

Burton Olson of the Resettlement administration, Walter Johnson, representing the state executive council and Leon Archibald representing the state relief administration held a conference here Tuesday afternoon together with Senator E. L. Tungseth in order to co-ordinate the services of these several departments.

The rural rehabilitation division of the Resettlement administration will have charge of any direct grants that may be necessary, also the re-financing of farmers who because of serious crop failure may find themselves in acute distress.

The executive council through Mr. Johnson will distribute necessary hay and feed in order that productive livestock may be kept over winter. This department will operate as much as possible through cooperatives and set up supply depots from which distribution can be made. Hay and feed will be sold at cost.

Mr. Archibald will have charge of work projects which will be open for those who need to earn some ready cash. Ditch cleaning and repair jobs will be major projects and this work will be under way as soon as conditions will warrant. This work has the approval of the county commissioners and is generally admitted to be urgent and constructive.

Senator Tungseth stated today, "I speak for local people when I say that we appreciate the business-like attitude which our state and federal officials have taken, and I am glad to know that all in actual need will be provided for."

Lund, post commander, announced today, adding that members of the Red Lake Falls post and unit have been invited to be present for the occasion. O. C. Paulson will serve as installing officer for the Legion and Mrs. Claude Evenson for the auxiliary. A Dutch lunch will be served at the close of the evening.

Magnuson Friday Will Open Enlarged Store

Expanding Local Enterprise Features New Hardware Department

Celebrating the completion of a building and remodeling program under way since early in May that has more than doubled its floor space, the Independent store on East Third st., owned and operated by A. M. Magnuson, will hold its formal opening Friday and Saturday.

In addition to demonstrations of canned goods in the grocery section and household appliances in the new and complete hardware department, gifts will be presented to all ladies and to children accompanied by their parents who visit the store, and free coffee and cookies will be served Saturday, Mr. Magnuson announced.

Besides the addition 40 by 90 feet in dimensions now housing the grocery department, the older portion of the building occupied by the hardware department has been completely remodeled and has been equipped with a modern new front corresponding with that of the addition.

Albert Larson has been in charge of construction of the building, plans for which were drawn by Russell Anderson. The electrical contract was carried out by Danielson Brothers, while the plumbing was installed by W. C. Rathbun and heating and air conditioning by A. V. Brodin.

Fruit and vegetables, kept fresh by an Ocean Mist air-conditioned spray, are located at the right front portion of the grocery department. To the rear is the meat department, the equipment of which is featured by a 20-foot refrigerator counter and the latest model York refrigerator 16 by 12 feet in size.

The grocery department is located at the left side of the spacious room, which is equipped with Ken-tile floor covering in an attractive pattern. A modern rest room for ladies is located in the basement, as well as stock rooms and shower baths for the employes. Attractive offices are placed at the rear of the grocery department.

The commodious hardware department is fitted with the latest type of fixtures designed and manufactured by the Minnesota Hardware association. Kitchen and other household items are located in the ladies' section at the right, while household appliances are placed in the center, and on the left side are found the men's section and lines of builders hardware.

Starting from a small beginning as an exclusive grocery store, Mr. Magnuson has expanded the enterprise to the point where today he has fifteen men in his employ. Working under him as general manager are three department managers: Gordon Ballangrud, groceries; Raymond Morgan, hardware; and John Rolland, meats. Others employed include Glenn Christie, office manager; Walter Ristau, in charge of fruits and vegetables; and Donald Kolbo, city order department.

STATE INCOME TAX SHARE FOR COUNTY SCHOOLS $16,560

August Allotment Is Paid at the Rate of $9 Per Pupil

A check for $16,560, representing the share of Pennington county schools in the state income tax, was received last week in the office of County Auditor A. M. Senstad, and is at the rate of $9 per pupil. The figure compares with $11,623.50 received in August, 1936, which was at the rate of $6.15 per pupil. Another payment will be forthcoming in December, the total amount distributed in August to schools throut the state being $3,640,896. The law provides that the money shall be used for payment of any bonded indebtedness of the districts before being used to pay operating expenses.

SCHOOL OFFICERS PLAN FOR PUPIL TRANSPORTATION

Meet Tuesday to Set up Districts in County Under New State Law

School superintendents of Pennington county met Tuesday afternoon in the office of Supt. Morris Bye to divide the county into districts for the transportation of rural school pupils to city and village high schools.

They acted under the provisions of a law enacted in the special session of the state legislature appropriating $150,000 for the transportation of non-resident high school students, the money to be paid to rural school districts to reimburse them for money they pay to high school districts for transporting students. It is expected that several years will elapse before the plan is fully developed.

Under the law it is necessary for the rural districts to make arrangements with the high school district for transportation in order to secure reimbursement. To carry out the plan a county committee was formed including Mr. Bye, chairman; County Supt. A. C. Matheson, secretary; and Superintendents Olson of Goodridge and Graham of St. Hilaire.

The division of the county effected at the meeting places the following rural districts in the Thief River Falls area: Dists. 64, 147, 127, 2, 25, 219, 135, 7, 149, 191, 73, 29, 165, 164, 42, 55, 53, 28, 26, 30, 81, 4, 11, 51, 125, 221, 95 and 60 in Pennington county and 41, 17, 133, 118, 72, 84, 112, 76 and 21 in Marshall county.

Districts to be served by the St. Hilaire school district include Nos. 69, 180, 106, 160, 54, 99, 94, 178, 12, 6, 17, 124, 1, 43, 108, 227 and 131. Districts in the Goodridge area are Nos. 48, 15, 44, 66, 57, 48, 228, 70, 41, 68, 38, 50, 59, 5, 19, 37, 47, 56, 14, 39, 34, 52, 67, 3 and 65.

L. S. Hess New Head of Northern Chapter of Royal Arch Masons

L. S. Hess Monday evening was named high priest of Northern chapter Royal Arch Masons, the election following a dinner served at the Evelyn hotel. He succeeds Joseph Fabrick, who has been head of the lodge during the past year. Other officers elected include Nels A. Nelson, king; R. Dan Bjorkman, scribe; Theodore Quale, treasurer; and Adolf Eklund, secretary. Appointive officers will be announced later by Mr. Hess. The newly elected staff will be installed Monday evening, September 13.

SOO PASSENGER TRAIN RUNS INTO WEED BURNER

Soo passenger train No. 65 coming in from Duluth Tuesday evening collided with a weed burner on the track southeast of the mill yard, no one being injured, while the equipment was slightly damaged. The collision occurred during a brief driving rainstorm.

SCHOOL BELLS TO RING AGAIN TUESDAY, SEP. 7

Only One Faculty Member in High School Remains to be Appointed

MONTEVIDEO TEACHER IS MUSIC SUPERVISOR

Kyle Montague, English Instructor, to Go to Wisconsin

With all but one of the public school staff of 51 members appointed to date, preparations are virtually complete for the opening of the Thief River Falls schools Tuesday morning, Sept. 7, Supt. Morris Bye announced today. The only vacancy remaining to be filled is that occasioned by the resignation last week of Kyle Montague, instructor in English and debate, who has accepted a position in the Waukesha, Wisconsin, schools.

Appointed last week to the position of music supervisor was Miss Ruth E. Nelson of Montevideo. After being graduated from the Montevideo high school, Miss Nelson received the degree of bachelor of music at St. Olaf college, and attended McPhail school this summer. While at St. Olaf she was a member of the St. Olaf choir. During the past four years she has served as vocal supervisor at West Central School of Agriculture in Morris.

While no major remodeling projects were carried out in the school buildings during the summer, numerous minor repairs were made including the refinishing of many of the floors. Few changes have been made in the curriculum this year, the principal one being the addition of Agriculture III in the high school, providing a full four-year course in this subject under the supervision of Harold F. Harrison.

As was the case last year, kindergarten departments will be maintained in the Knox, Northrop and Washington schools. Children not old enough to enter the first grade, but who are five years old on or before March 1, 1938, may enter the classes September 7, Mr. Bye stated.

Textbooks will be furnished free to grade pupils as in the past, while high school students will be charged a rental fee of $2.50 for the use of the necessary textbooks, of which $1 will be returned at the end of the year if and when all books are returned in good condition.

A fifty-cent fee will be paid by high school students who desire lockers, the fee to be refunded at the end of the year when the key or combination lock is returned. The number of lockers being limited, they will be assigned in the order in which applications are received.

500 CARS GRAIN LOADED IN WEEK ON SOO DIVISION

Number Compares with 385 Cars for Whole Month of August, 1936

With threshing now in full swing in the territory served by the local Soo Line division, a total of approximately 500 cars of grain were loaded on the division during the week ending Monday, Supt. A. C. Peterson announced today. This figure compares with a total of 385 cars loaded during the entire month of August, 1936, when drouth ravaged the crops in the entire North Dakota area. That loadings of grain are now proceeding at a rapid rate is indicated by figures revealing that 106 cars were loaded on the division Saturday, with 91 on Monday and the same number Tuesday. A large additional number of Soo employes have been provided with work as a result of the relatively heavy crop movement.

Inga Stenberg, September Bride-Elect, Is Honored

Miss Inga Stenberg, bride-elect, whose marriage to Elmer Berg will be an early September event, was feted at the F. C. Meyer home Friday evening at a surprise shower at which Miss Muriel Sommers and Mrs. Arthur Christiansen (Lilah Olson) were hostesses. Miss Helene Ristau was awarded a prize as winner in the games and contests which were the diversion. A two-course luncheon was served at three tables for four, which were decorated with lighted tapers and bowls of flowers carrying out a green-and-yellow motif. Miniature dressed-up gumdrop bridesmaids were guest favors, while a miniature bride distinguished the place of honor for the bride-to-be. The guest list included the following names: Misses Inga Stenberg, honor guest, Mabel Iverson, Eva Robarge, Gladys Severson, Ellen Berggren, Helene Ristau, Bernice Berge, and Mabel Stokke; and the Mesdames Grace Swanson, Clarence Gulseth, Marie Stenberg, and F. C. Meyer. The luncheon was followed by the opening of the shower gifts, which included an end-table, a gift from the group, and articles for the bride's kitchen, individual gifts from each member of the group.

MRS. KARL KOLLITZ FETED BY MOTHER

Mrs. Karl Kollitz (Clarissa Travillion) was honored by her mother, Mrs. Arthur Wilson, and by Miss Gertrude Bakke at a shower at Mrs. Wilson's home last Thursday evening. A color scheme of blue-pink-and-white carried out the stork" theme, which was also carried out in the luncheon menu, which included a lovely decorated cake. The luncheon was served at card tables following the bridge games which were the diversion. Mrs. Kollitz was presented with beautiful shower gifts. Present were the Mesdames Karl Kollitz, guest of honor, Joe Madsen, George Ohlin, Luther Haugen, Oscar Hegquist, Laura Dahl, H. R. Colvin, E. W. Baumann of Mavie, and Charles Kiewel; and the Misses Rhoda Angell, Eva Robarge, Lucille Madsen, and Florence Oslund of Warren.

Announcement Made of Dr. Warren J. Hanson, Miriam Brown Betrothal

Announcement was made in the Twin Cities recently by Mr. and Mrs. George A. Brown of Minneapolis of the engagement of their daughter, Miss Miriam Eleanor Brown, to Dr. Warren Justin Hanson, local dentist, son of Dr. and Mrs. Fred C. Bakke of Warren. The wedding will take place in October.

Dr. Hanson was graduated from University of Minnesota and is a member of Sigma Alpha Epsilon fraternity. His fiancee is also a graduate of Minnesota and is a member of Alpha Gamma Delta sorority.

Clarice Sorenson Is Bride of D. Johnson

A navy blue ensemble, consisting of a white-lace trimmed frock with gored skirt and bolero and matching navy-blue accessories, was chosen by Miss Clarice Sorenson, daughter of Mr. and Mrs. Edward Sorenson of Viking, for her marriage to Douglas Johnson, son of Mr. and Mrs. Gust Johnson of this city. The wedding occurred at two o'clock Sunday afternoon at the parish home of Rev. Harlan Peterson of Viking, who read the service in the presence of immediate relatives. The bride's ensemble was complemented by her bouquet of pink roses and pink-and-white sweet peas.

Miss Fern Sorenson attended her sister as bridesmaid. She wore a brown ensemble with brown accessories and a corsage of yellow roses and pink sweet peas. Luther Johnson was his brother's best man.

After the ceremony a reception was held and supper served at the home of the bride's parents. Decorations were in pink-and-white, which were also the colors used in decorating the large wedding cake. Present at the reception were the Messrs. and Mmes. Ed Sorenson, Soren Sorenson, Carl Sorenson and family, Stanley Sorenson and family, Oscar Sorenson and family, Wm. Poturek, Jr., Albert Peterson and family, Gust Peterson and family, Axel Anderson and family, Harlen Peterson, Gust M. Johnson, Albert Poppenhagen and family, and Luther Johnson; Albert Sorenson; and the Misses Fern, Gladys, Alice, Doris Mae, and Beverly Claire Sorenson, Borghild Johnson, Ethel Johnson. Out-of-town guests were Mrs. Inga Sheveland of Poplar, Mont., and Mrs. Victor E. Johnson, and Mrs. S. Murphy, both of Chicago, Ill.

The bride attended the Warren high school and the groom attended Lincoln high school. After a short wedding trip the couple are residing at the home of the groom's parents until the completion of their new home being built on Crocker Avenue.

RUBY CONKLIN HONORED DURING VISIT IN CITY

Miss Ruby Conklin of Forest Grove, Ore., formerly a nurse at the St. Luke's hospital, has been entertained by former members of the hospital nursing staff at their homes during her visit in the city.

On Saturday evening, Mrs. Harvey Patten entertained at bridge for Miss Conklin, other guests being Mrs. Edward Bratrud, Mrs. Lincoln Arnold, and Mrs. James Newland. LOCAL NEWS

Miss Aagot Hanson left Sunday for Duluth.

Mrs. Roy Erickson of Minneapolis is visiting in this city. Mrs. Erickson is a former resident here.

Mrs. W. A. Bishop and Miss Alpha Bishop had as their luncheon guests Wednesday, Mrs. Bishop's brother and sister-in-law, Mr. and Mrs. A. Christianson and daughter Gladys of Maplebay.

Mrs. Lars Hage of Plummer accompanied Mrs. Halvor Loken and daughter Inga to Alexandria to attend the funeral of Mrs. H. T. Thompson, sister-in-law of Mrs. Loken. They returned Wednesday night.

Local men who attended the golf tournament at Bemidji last week-end were Hal Ekeren, Dr. Baldwin Borreson, H. O. Chommie, Kern Olson, Dr. Edward Bratrud, Theo. Bratrud, Tom Mehegan, and Vic Jung.

Mrs. C. Bloom returned to her home at Wheaton Tuesday after visiting for some time here with her son-in-law and daughter, Mr. and Mrs. H. E. Nelson. Eugene and Doris Nelson motored to Wheaton with their grandmother, returning to this city Wednesday.

Mrs. Ingeborg Hjoland had as her guests on Sunday, Mrs. Harum and Miss Lind, both of Madison, Wisc., and Miss Lind's niece of St. Cloud, and Mrs. Sarah Knutson and sons Ingvald, and Harold, Mr. and Mrs. Knute Knutson, Mr. and Mrs. Melvin Longevan, and Miss Lottie Knutson.

Word has been received here of the death about a month ago of Mrs. R. A. Ronlund, wife of a former head of the shoe department of the local Penney store, who is now assistant manager of the Fargo Penney store. Mrs. Ronlund died at the Crookston sanitorium. Funeral rites and interment were at Cambridge.

Warden J. J. Sullivan of State Prison Dies

Funeral services for Warden John J. Sullivan of the state penitentiary were held in St. Michael's Catholic church in Stillwater Monday. Flags on public buildings were at half-mast, and business houses closed during the service. At the prison, attendants said, inmates indicated their sorrow at Sullivan's death by a subdued and quieted demeanor, although no general tribute was permitted.

'PENNIES FROM HEAVEN' BECOME $5 GOLD PIECES

Crosby—When in a recent heavy downpour of rain part of the foundation of Mrs. Henry Vreeland's house at Lakeview was washed out, Mrs. Vreeland thought the saying, "It's an ill wind that blows nobody any good" had been reaffirmed, but she found later that instead of raining "pennies from heaven" she was reaping five dollar goldpieces. While her son was tearing out some old shelving in the basement to make room for the contractor who was to build a new cement block wall he discovered a box made of the inner lining of birch bark containing 11 five dollar gold pieces. The oldest was dated 1880 and the latest bore a 1905 date. Changing the money at the bank young Vreeland bought himself a new suit of clothes and has the balance safe but not in a snuff box.

It Happened at the Capitol

Capitol Hill in St. Paul was quiet this week but it was only a surface quiet. Many believed it was the quiet which precedes the hurricane. For rumors were rampant that the axe was getting ready to swing more viciously on *the necks of state-house employees* and that dismissals already announced were "only the beginning."

Strength to these rumors came when Governor Benson discharged C. Paul Tracy, assistant director of the drivers license bureau and twenty five men were let out of the war veterans relief agency.

Tracy, of the license bureau, was one of the staunchest supporters of the late Governor Floyd B. Olson. He was Hennepin county manager of the Olson for Governor All-Party committee in 1932 and state campaign manager for Olson in 1934.

The wholesale housecleaning of capitol employees comes as a flat contradiction to the governor's campaign speeches in the last election when he stood for the merit system among state employees. Certainly the ousting of statehouse workers for no reason except to give their jobs to others is destructive of morale among the employees and not conducive to efficiency.

But with eyes fixed on the 1938 election, the governor goes his way intent on building up a machine of office holders who will keep his administration in the saddle and reelect him next year.

This ruthless disregard for the merit system among state employees is apt to be a boomerang to the governor and it is likely to be one of the major indictments of his administration. It is certain to be a charge he will have to answer in his next campaign. In fact, already over the state open criticism is being expressed and the Worthington Globe has this to say under the heading "Service, Competence, Be Damned."

"It is not so often, nowadays" the Worthington paper says "that we dip into the unsavory mess that is state politics for editorial material. The people of Minnesota indicated at the election last fall that they will take a stiff dose of rotten politics if necessary in order to get a kind of liberalism which has been promised. We asked for it, so we shouldn't perhaps, squawk too loudly if we get what has been in the cards.

"But when something particularly rank is perpetrated in the name of party loyalty, political patronage, or what have you, we think the common voters of the state should know just what has happened.

"A case in point is the recent ouster of two men with long records of efficient service under the state commissioner of agriculture. They are J. H. Hay, deputy commissioner of agriculture who has been in charge of the administration of the cooperative laws of the state, and C. P. Bull in charge of the state weed laws.

"These men had sinned in that their administrations ran clear back to the days of Republican control. Specifically trained for their work, they were retained as the backbone of the department through many years of farmer-labor rule—that is until the Twin City labor cabinet took charge and their Mr. Benson started to give orders.

"There is hardly a farmers cooperative in the state that has not benefitted by the service of Mr. Hay. A large percentage of them owe their very existence to him. As the principal speaker at thousands of annual meetings of cooperative elevators and creameries he has talked sensible community cooperation and rekindled the community spirit on which all cooperatives must be built. Many an ailing association, on the verge of going on the rocks because of internal strife or inefficient management, has been piloted over the rapids by Old Man Hay, who knew how to talk to farmers.

". . . But Mr. Hay, who has lived and preached cooperation for forty years does not measure up to the standards set up by the labor cabinet who like to talk about helping the farmers but who get all their agricultural training on Washington Avenue. So Old Man Hay, godfather of cooperatives, must go.

STATE SESSION OF W C T U IS ARRANGED

All state officers, state directors of departments and the 14 district presidents who are state vice presidents of the Minnesota Woman's Christian Temperance Union, are completing preparations for the 60th annual convention to be held next week at Jackson hall of the First Baptist church, beginning Tuesday, August 31, and continuing through Friday, September 3.

Mrs. Olive Elliott, St. Paul state director of scientific temperance instruction, will conduct a school in alcohol education from 10 to 12 o'clock Tuesday morning and from 2 to 4 o'clock Tuesday afternoon.

Arrangements are being made for district presidents to hold a luncheon conference from 12 to 2 o'clock and another conference luncheon for the state directors of departments will be held at the same time.

The convention proper will open Tuesday evening at 7:30 o'clock with a grand processional of girl scouts, Mrs. Margaret C. Munns, the guest of honor, state officers, state directors, district presidents and branch secretaries. Mrs. Mildred Bentley, Minneapolis, general secretary of the Youth's Temperance Council, will direct a song service. The Rev. W. D. Riley, pastor of the First Baptist church, will lead the devotions; welcome greetings will be given by representatives of churches, schools and the city of Minneapolis; an address will be given by Mrs. Margaret C. Munns, Evanston, Ill., treasurer of the National W. C. T. U. and the film "The Beneficent Reprobate" will be shown.

Henceforth it will be contrary to new deal doctrines to sneeze in New York state. The WPA hay fever squad has started to eradicate ragweed.—Cleveland Plain Dealer.

Game Warden Applicants to be Examined Sept. 8, H. C. Wenzel Announces

Civil service examinations for applicants for state game warden positions will begin at 9 A. M. Wednesday, September 8, at Mechanic Arts High School in St. Paul, according to an announcement issued last week by Conservation Commissioner H. C. Wenzel.

All game wardens at present employed by the department of conservation will be admitted to the examinations, the announcement states. Among other applicants, only those whose applications were received between July 1 and August 31 will be eligible to compete in the examinations.

The examination papers will be graded by Harry Speakes, director of the division of game and fish, A. W. Smith, chief examiner of the department of conservation, and a game management specialist of the University of Minnesota.

"The state legislature in providing for the merit system for employees of the department of conservation provided no funds for conducting the examinations," Commissioner Wenzel added. "We must therefore hold all examinations in St. Paul to save expense."

Rail Unions Demands for 20 Pct. Pay Boost Is Denied by Carriers

A strike of 350,000 men who operate the nation's trains was threatened Wednesday in the wake of the carriers' refusal to meet demands for a 20 per cent increase in wages.

Three weeks of conferences between the committee of 16 representing 86 major railroads and spokesmen for the five "operating" brotherhoods ended suddenly with the announcement in Chicago by Chairman H. A. Enochs of the management group that the raise could not be granted because it would prove "ruinous."

The unionists then issued a formal statement setting forth:

"This leaves no alternative for these organizations other than to set the day and hour for the men to withdraw from service, in accordance with the authority already given in a strike ballot in which 97 per cent of the workers voted in favor of a strike unless satisfactory disposition of the request for increases in rates of pay was obtained."

GAS ECONOMY of FORD V-8 TRUCK EXCEEDS ALL EXPECTATIONS IN TEST

It's one thing to claim gasoline economy—but it's something else to PROVE such a claim under actual road conditions and with regular drivers. The remarkable gasoline economy of Ford V-8 Trucks and Commercial Cars was proved conclusively in the economy test which we conducted August 21st. The V-8's used in this contest were all owned by business men here. Some of these units were three years old.

THIEF RIVER FALLS DRIVERS PROVED THE REMARKABLE MILEAGE OF FORD V-8 TRUCKS AND COMMERCIAL CARS IN TESTS AVERAGING 17.39 MILES PER GALLON FOR TRUCKS AND 21.93 MILES PER GALLON FOR 85 H. P. COMMERCIAL CARS.

Truck Award
$15.00 to V. C. Berg—
21.88 miles per gallon

HOW THE TEST WAS CONDUCTED

Every driver was required to disconnect his fuel tank. A test can was mounted on the unit and connected with the carburetor so that an exact measured quantity of gas was used by each contestant. The actual distance traveled by each unit from starting point to stopping point was measured by disinterested judges and this distance computed into miles per gallon. The official starter for the trucks was Cy Arnold of the Ford Motor Co.

Commercial Car Award
$15.00 to Gordon Gunderson—
28.2 miles per gallon

FORD ECONOMY ONLY BEGINS WITH MILES PER GALLON

Many drivers think of economy chiefly in terms of gasoline mileage. But Ford economy only begins at that point, for in all ways the Ford V-8 is economical to own—economical in first cost; economical in oil consumption; economical in tire wear; economical in repairs and replacements. We believe that this is why we are selling more and more Ford V-8 units to those who have a haulage problem requiring one unit or a whole fleet.

SLEEPING SICKNESS

The epidemic of sleeping sickness which has taken the lives of so many horses has cost the farmers of this community a lot of dollars. It has hit a few individuals pretty hard. It costs money to replace a team at present prices. The fact that this epidemic already extends over seven states makes it a problem of more than local or even state interest and a demand has been made for action by the federal government. Along this line the Fergus Falls Journal comments:

> The loss of these horses is definite and tangible, and now that the government is relieving everybody else, it might turn its attention to reimbursing farmers at least to the extent of a part of the price of their horses. A government which is spending millions for grasshopper poison, might at least furnish the serum for sleeping sickness treatment. Numerous farmers are talking of selling off their horses and going into tractor farming, which would mean less demand for oats and more for gasoline.

Thief River Falls is really a railroad town again. Day and night, trains are rolling in and out of the yards. And the clatter and bang of these trains is sweet music.

A group of the higher-ups in the government's resettlement organization visited here yesterday evening and inspected some of the local units that have been completed. They seemed to be well satisfied with the progress that is being made and judging from their comments they considered this one of their best projects. Folks hereabouts are beginning to think well of the project too. To start with, we were among the skeptical. The first plans that came out were so ridiculously visionary. They would have meant such top-heavy costs that no farmer could ever hope to pay for one of them. As they are being built, however, there is a good chance that most of them will pay out. The buildings are designed for utility and while the farm homes provide many comforts, expensive gadgets have been eliminated. This community is fortunate in having had Jack Taylor as the head of the project. He has incorporated a lot of common sense into a program that in some parts of the country, under less able leadership, has become a scandal.

According to Ole Legvold, this is the first year since 1929 that the city has been able to use its hydro plant during the month of August. This month the wheels have been turning day and night and up to last night 164,000 kilowatts had been generated from water power. The total for the month from this source will be close to 200,000 and there are good prospects for a steady flow of water throut the month of September. Water power means the saving of at least a thousand dollars a month in the purchase of fuel oil. In the course of a few months such a saving becomes quite an item.

Mayor LaGuardia of New York speaks several languages fluently. For a time, in fact, it looked as though he could talk Democratic to a Democrat and Republican to a Republican.—Worcester Gazette.

Hjalmer Petersen is being mentioned as a possible candidate for the governorship on the Democratic ticket and the suggestion is evidently meeting with approval in the ranks of all three parties. He would make a good governor. But the problem of electing him would be rather complicated. In a field of three strong candidates his chances of winning would be slight. In a two way fight he would be elected. This situation emphasizes the need for party realignment both in the state and nation. Old party labels no longer have a meaning. Two new parties, one conservative and the other liberal, would be more satisfactory from every standpoint. Of course at the present time few people would classify themselves as conservatives but that condition will reverse itself again. Two parties, so designated, would at least bring together people of similar views and would make it easier to register those views effectively in the ballot.

MR. SEWARD'S INVESTMENT
(The New York Times)

When Secretary Seward bought Alaska seventy years ago last March, the Russian Government put on its hat and went straight down to the bank to cash his check for $7,200,000 before he changed his mind. Later the canceled check got back to Washington, and in time the General Accounting Office seems to have got it. Now the Alaskan delegate to Congress, Anthony Dimond, wants to mail it to Juneau for exhibition, and it can't be found. Maybe the General Accounting Office forgot to take it out of its vest pocket when it sent its other suit to the cleaner. Anyhow, it put it somewhere where it was sure it would be safe, and where it thought it could lay hands on it at any moment, and no doubt it will turn up in the next Spring cleaning.

Meanwhile the mention of the check sets one to thinking. When Mr. Seward bought Alaska, in 1867, $7,200,000 seemed a lot of money. Many persons thought Mr. Seward was being wantonly extravagant with the taxpayers' money. This was a mistake. In gold, silver and copper alone Alaska has produced more than a billion dollars since the purchase. The Alaska salmon pack in a single year has run to nearly six times the original cost of "Seward's Folly."

Mr. Seward bought in a bear market. Alaska, in 1867, cost us about twelve dollars a square mile. The Virgin Islands, purchased in 1917, cost us about $190,000 a square mile. Seven million dollars will hardly buy anything these days. Dropped into the Federal budget, it would be as insignificant as the earth in the Milky Way. Laid end to end it would hardly reach from the Treasury Department to Harry Hopkins' office. At the peak of our depression activities it would have run the Federal Government about eight hours and forty-seven minutes.

Everything considered, Mr. Seward seems to have invested that money about as economically as could have been expected. If he had worried the price down to an even seven million dollars, the calculations whose results were given in the preceding paragraph would have been simpler, and perhaps more accurate, but he is dead now, and we can let bygones be bygones. It is nice to think that we don't have to give Alaska back, even if we have lost the check. We shouldn't like to see the Russians trying to collectivize the Eskimos or shooting the inhabitants of Juneau and Fairbanks for dialectical divagations.

"NORTH CAROLINA, GOD BLESS HER"
(Fergus Falls Journal)

Senator Wagner's bill to put the government into the house-building business to the extent of $700,000,000 is being badly managed in Congress. The bill is the measure intended to provide for low cost to a comparatively few poor people, largely at government expense, but Senator Byrd and others showed that the houses already built, by the government had cost more, room for room, than the houses that they themselves were occupying. Wagner represents New York, and it was predicted that all, or nearly all, of the money would be spent in New York City under the guise of "slum clearance," if the bill got through as originally drawn. To prevent this, senators tacked on an amendment providing that not more than 20 per cent of the money should go to any one state. As Senator Reynolds, of North Carolina remarked: "If $700,000,000 of the people's money is to be expended, I want North Carolina, God bless her, to have her share, even though she does not need it particularly." That is the attitude of the average legislator.

Indiana state officials are still trying to explain to the satisfaction of the politicians their carelessness in permitting a surplus to accumulate in the treasury.—Toledo Blade.

FISHING GUIDE DIES AT AGE OF 110 YEARS

International Falls—"Old Jonathan" Morriseau, aged 110 years, believed to have been the oldest resident of the Lake of the Woods district, died August 5 in Kenora. The famous old canoeist and guide was born at Lake St. Joseph in the Patricia district in 1827, near the Ontario-Manitoba boundary where his father was employed by the Hudson's Bay company. Morriseau, a familiar figure to pioneer residents of this section of the district, was a veteran of the Wolseley expedition that crossed the Lake of the Woods in pursuit of Louis Riel. A twin brother died in 1934.

ORGANIZATION AT WORK TO COMBAT '38 GRASSHOPPERS

T. L. Aamodt Tells of Serious Outbreak in Southern Minnesota

Out of the present grasshopper infestation, the worst that has probably struck Minnesota, according to T. L. Aamodt, assistant state entomologist, University Farm, St. Paul, has come the completion of an organization which will make it possible to combat on a statewide basis any future insect outbreak.

The area of Minnesota north of a line bounded by the southern borders of Bigstone, Swift, Kandiyohi, Meeker, Sherburne, Isanti and Chisago counties, has always been considered the real grasshopper area of the state. In 1931 and 1932, this area was organized for grasshopper control and is now having excellent control with no serious outbreaks and very little crop damage. The farmers in this territory, states Mr. Aamodt, have learned to control the grasshoppers by looking for infestations early in the spring, and poisoning them before they can develop.

The southern area of Minnesota is now being organized just as was the northern area. This is the first serious outbreak to call for organization in the southern counties, but when it is completed the state will have permanent facilities for fighting any insect outbreak. For immediate control, tons of poison bran mash ingredients have been distributed thruout the counties affected. By August 15, more than 3,000 tons had been issued. The intensive control campaign now in progress will be continued until late fall to prevent egg laying by the insects. Plans are being formed for a poison campaign to wind up the control work next spring. The state executive council recently appropriated $50,000 to purchase bait for the control work early in 1938.

A. G. Ruggles, state entomologist for the state department of agriculture, University Farm, is directing the campaign. Mr. Aamodt is directing the field work, and H. L. Parten, extension entomologist, University Farm, is aiding with the educational work.

WOMAN, 81, QUEEN OF BERRY PICKERS

Hopkins.—When you're 81 years "young" will you still be picking raspberries—and what's more important, keeping up with the young "fellers"? That's what Mrs. Anna Drusch, 81, of Clear Springs has been doing on Ed. Haldky's farm south of Glen Lake during the hot weather. For three weeks she picked berries for the Haldkys and for three weeks she set the pace for all the pickers. She earned $15.00. Every morning at 5:30 she walked with her daughter, Mrs. Annie Karasek, a mile to the Haldky farm, picked until noon, then rested a half hour while she ate the lunch she prepared at home, worked until five o'clock and then walked home. In her own farm home where she has lived for 53 years, Mrs. Drusch does much of the house work and busies herself about the garden, raising potatoes and vegetables.

CITY COUNCIL PROCEEDINGS

Pursuant to adjournment the City Council of the City of Thief River Falls, Minnesota, met in session in the Council Chambers in the Auditorium and Municipal Building on August 17, 1937. The meeting was called to order by the President at eight o'clock P. M. with Alderman Griebstein, Salveson, Baker, Myhrum, Kinghorn present and Alderman Christofferson absent.

Mayor Prichard presented the appointment of Elmer B. Berg as regular Police patrolman effective on August 15th, 1937 and appointment of Dr. O. F. Mellby to succeed himself as a member of the Park Board for the term expiring on the second Tuesday of January, 1942, which appointment was duly confirmed.

A communication signed by A. C. Peterson, Superintendent of the Soo Line was presented and read, the same requesting the designation of part of Third Street fronting the Soo Line passenger station as a safety and no parking Zone. Alderman Kinghorn introduced a resolution designating that part of Third Street from the Soo Line Company tracks west to the end of brick walk fronting the station, as a Safety Zone and directing the Police Department to install "No Parking" signs thereon and moved adoption of the resolution. The motion was seconded by Alderman Myhrum and the resolution was duly adopted.

Application for building and remodeling permits were presented and granted as follows: G. Thoraldson, garage, Lots 24-25, Block 3, Knox Addition, cost $250.00; W. W. Long, remodeling of residence, Lots 29-30, Block 29, Red Lake Rapids, cost $50; G. O. Lysne, garage, Lot 5, Block 21, Red Lake Rapids, cost $200.00; A. O. [illegible], garage, Lot 15, Block 3, Oakland Addition, cost $200; O. C. Paulson, double garage, Lot 14, Block 3, Oakland Addition, cost $250.00; A. J. [illegible], repairs to building on Lots 1-2, Block 28, O. T. S. cost $150.00.

Application for dance permits was presented by Sons of Norway Building Corporation, dances to be held twice each week from August 1st on. Motion was made by Alderman Kinghorn, seconded by Myhrum and carried that the same be approved and granted.

Application for renewal of Dry Cleaners license was presented by Universal Cleaners. Motion was made by Alderman Myhrum, seconded by Salveson and carried that the application be approved and granted.

Applications of the following for compromise of accumulated taxes against real estate and ... recommendations of the Tax Committee of the Council, were presented: Amelia Langevin, Minneapolis Bridge Company, Mary Sprecher, Edward J. Holmgren, David A. Evenson and Dr. Edward Bratrud. Motion was made by Alderman Myhrum, seconded by Salveson and carried that the City Council recommend to the County Board of Pennington County a compromise settlement of said taxes.

Alderman Myhrum introduced a resolution fixing the salary of additional Police Patrolman, Elmer B. Berg, at $100.00 per month, effective on August 15th and moved adoption of the resolution. The motion was seconded by Alderman Baker, and the resolution duly adopted.

Alderman Kinghorn introduced a resolution approving and ratifying the amendment of Greenwood Cemetery Commission to Article 9 of the By Laws of said Commission and moved adoption of the resolution. The motion was seconded by Alderman Baker and the resolution duly adopted.

On motion duly made and carried the meeting was declared adjourned.

EMIL GRIEBSTEIN,
President of the Council.

Attest: P. G. Pederson,
City Clerk.

RESOLUTION

At an adjourned regular meeting of the City Council held August 17th, 1937, Alderman Myhrum, seconded by Alderman Baker, introduced the following resolution and moved its adoption:

To Observe 25 Years of 4-H Work at State Fair Opening September 4th

The silver anniversary of 4-H club work at the Minnesota State Fair will be observed when approximately 2,000 Minnesota 4-H club boys and girls congregate at the state fair grounds, September 4-11, for a week of exhibiting, demonstrations and judging work.

The progress of 4-H club work, how it has influenced and aided Minnesota rural life will be depicted in a series of pictorial exhibits, states T. A. Erickson, state club leader, University Farm, St. Paul, who in 1912 went to the state fair with the first 4-H club exhibits. In that year a budget of $200 was allowed for 4-H exhibits with no club boys or girls attending the state event; this year the budget will be in the neighborhood of $30,000, with some 2,000 boys and girls from all of Minnesota's 87 counties participating in scores of 4-H agricultural and home economics events.

In 1913, six club girls went to the fair from Hennepin county to present several canning demonstrations. The first pig club exhibit was added in 1914. Four-H club dairy work came in 1922 with other divisions of the work being added until in recent years 4-H club work has become a major part of state fair activities.

At the 1937 state fair, as in former years, special emphasis will be placed on dairy production and consumption, particularly in regard to the production of sanitary dairy products. For the first time a class of producing cows will be exhibited by club boys and girls who will also be required to show record books on this advanced dairy project. Exhibits of small fruits will also be an entirely new feature this year.

Johnson, her husband, and [illegible], a single woman, Mortgagors, to the City of Thief River Falls, Minnesota, a Municipal Corporation, Mortgagee, dated January 1, 1930, and recorded in the office of the Register of Deeds, of Pennington County, Minnesota, on the 9th day of January, 1930, at 1:30 o'clock P. M., in Book 81, of Mortgages on Page 91 thereof.

That such default consists in the failure to pay when due the taxes levied and assessed against the premises described in and covered by said Mortgage for the years [illegible], and to pay the interest on said Mortgage which fell due January 1, 1937.

That the amount claimed to be due on said Mortgage at this date is [illegible] dollars. That the premises described in and covered by said Mortgage are Lots Thirty-two, Thirty-three and Thirty-four (32, 33 and 34), of Block Seven (7), of Knox Addition to the City of Thief River Falls, except a strip of land [illegible] feet, previously deeded from the rear end of Lot Thirty-four (34), in said block.

That by virtue of the Power of Sale contained in said Mortgage, and pursuant to the statute in such case made and provided, said Mortgage will be foreclosed by the sale of said premises, at public vendue, to the highest bidder for cash, by the Sheriff of Pennington County, Minnesota, at the front door of the Pennington County Court House, in the City of Thief River Falls, in Pennington County, Minnesota, on Saturday, the 4th day of September, 1937, at eleven o'clock A. M., to satisfy the amount then due on said Mortgage together with the costs of sale and [illegible] dollars, Attorneys fees, stipulated in said Mortgage.

Dated this 21st day of July, 1937.

The City of Thief River Falls,
Minnesota, A Municipal Corporation.

STOLEN AUTO RECOVERED BEFORE THEFT IS KNOWN

Fosston.—Usually when cars are stolen the owners immediately notify police and make attempts to recover the vehicle, but not so the men of a local automobile agency. They waited for officials to notify them when the car was stolen. Howard Wynne was preparing to demonstrate a car to a prospective customer, he received a long distance telephone call from Crookston informing him of the theft of the car. E. H. Lohn, Polk county deputy sheriff, called to tell the dealers the stolen car had been located at Niagara, North Dakota, after it had been found abandoned on the bank of a river. The owners had been determined through the state auto registration department.

GOODRIDGE REVIVAL SERVICES TO CLOSE

Interest in the Revival services at the Goodridge Gymnasium continues to grow. A large crowd greeted the Accordion Gospel Team last Sunday night, including delegations from Thief River Falls, Grygla, Goodridge and community. Evangelist Alta B. Clift brought a stirring message on "Sowing and Reaping". The old-time Religion is preached straight from the Bible and special singing and accordion music is rendered at each service.

Due to many calls to new fields, the Evangelists announced this will be the closing week, Friday night is Missionary night when all are asked to save and bring as many pennies as possible for the Missionary offering helping to spread the Gospel at home and abroad.

There will be no Saturday night service but Sunday night at 8 p. m. a stirring message on "God's Opinion of You" will bring the series of meetings to a close.

OWNER SEES LIGHTNING BOLT STRIKE NEW HOME

Hastings. — Summer thunder storms are not always the harmless occurrences they are said to be according to Otto Reissner who turned into the driveway of his new home one evening just in time to see lightning strike the roof and send a portion of it into the air. An estimated loss of $300.00 to the building which is still under construction was caused in an instant. The greatest damage was done to the electric wiring which was almost completely destroyed and it is believed that solder used in the plumbing system was melted by the intense heat and will have to be replaced. In one place a wire had fallen across a bath tub, burning through the enamel to the iron base. According to Mr. Reissner, a hole four feet by two was torn in the roof and the siding in an unfinished room hurled into the air. Close examination showed that the nails in some places were melted into the wood.

SCHOOL ATHLETES MAY BE INSURED AGAINST MISHAPS

Principal Claffy Gets Details of State Athletic League Plan

Plans for the Minnesota State High School league athletic accident benefit plan were announced this week by W. G. Claffy, Lincoln high school principal, following receipt of details from O. E. Smith of Anoka, executive secretary of the league.

The benefit plan, which is entirely voluntary on the part of the participating athletes, has been developed by the league for the benefit of boys injured in high school athletics, giving equitable aid to those injured in the course of supervised athletic pursuits.

Each boy who desires to participate in the plan is required to pay a registration fee of 75 cents for all sports or 25 cents for all sports except football. A schedule of benefit payments ranging up to $200 in the case of the loss of the sight of one eye has been arranged. Further details are available at the office of Mr. Claffy.

SAHL PITCHES 2D ONE-HIT CONTEST AGAINST WARREN

Locals Win From Baudette Sunday by Score of 6 to 5

Given good support by his teammates, Helmer Sahl pitched his second successive one-hit game against Warren last Thursday evening on the fair grounds diamond, a large gallery witnessing the contest which ended 3-0 in favor of the locals. Sahl further distinguished himself by banging out a home run in the fourth inning, also driving in Stroble. The game was a good exhibition thruout, Baumgartner, Warren hurler, holding Thief River Falls to four hits.

The locals will journey to Oslo for a contest next Sunday afternoon, while Sunday and Labor Day September 5 and 6, the Bemidji team will come to this city for a two-game series.

Making an uphill fight Sunday after Baudette scored three runs in the first inning, the locals made one tally in the first, two in the seventh and three in the last frame to win the contest 6-5. The game was marked by plenty of strikeouts, Lefty Johnson of Baudette accounting for 13, while Sahl for the locals struck out six men in six innings and Stroble six in the last three frames. Todden, Baudette catcher, made an excellent showing at the bat, accounting for four hits including a four-bagger in four chances. Four Thief River Falls men were hit by pitched balls.

Funeral Rites Tuesday For Mrs. Julia Rod, A Pioneer Resident

Funeral rites will be conducted Tuesday for Mrs. Julia Rod, a resident of this vicinity for fifty-three years, the past 37 of which have been spent in this city, who died Wednesday in a local hospital. Services will be at two p. m. from Zion Lutheran church, Rev. E. L. Tunseth officiating, and interment will be in Greenwood cemetery.

Mrs. Rod, who was in her ninety-second year at the time of her death, was born on Christmas Day 1845, in Drammen, Norway. She was married in Norway on October 27, 1869, to Hans Rod. She came with her husband to America in 1883, making her home at Pelican Rapids for one year before moving to St. Hilaire in 1884 to reside until 1900, in which year she came to this city to reside for the remainder of her life.

She is survived by three sons, Ole P. Rod of Oakdale, Calif., Hans of Goodridge, and Axel of this city; three grandchildren, and two great-grandchildren. Her husband, three brothers, two sisters, one son, and one daughter preceded her in death.

Succeeds Edgar Naplin in Welfare Office Here

Miss Marguerite Johnson will arrive from Minneapolis next week to assume the post of case supervisor for the Pennington county welfare board after being recommended for the post by the state board of control, John X. Lynsky, executive secretary of the county agency, announced this week. Miss Johnson's duties will include the handling of child welfare cases. She succeeds Edgar Naplin, who has accepted a position with the Polk county welfare board in Crookston.

Health Pageant Was Successfully Given at Knox School Friday

A Health Pageant, sponsored by the Sanitary Dairy, was held at the Knox School grounds, Friday, August 20. The children representing vegetables were the first to enter followed by the health fairy and the fairies, each giving her recitation. All of them proceeded to the king's palace singing their health song and on their arrival at the palace Miss America entered, the pageant ending with the singing of "America".

Betty Bergstrom took the part of the health fairy; Joan DuChamp, Joan Erickson, Nettie Haugen, Eunice Merritt, and June Rockstad were the fairies. Poster bearers were Noland, Gerald, and Francis Ness, Beverly and Virginia Noel, Dolores Olson, Gordon Odegaard and Orville Ryan.

The queen was Betty Ann Gulrud and the king Sonny Israelson. Their attendants were: Barbara Holmgren, Darlene Vevea, Marlene McFerran, Burnell Israelson and Betty Dyrdal. The vegetables were played by the following: June Cote, June McCann, Gerald Nelson, Dorothy Hanson, Kenneth Vevea, Norma Vevea, Robert Johnson, Paul and Helen Green. A recitation "My Teeth" was given by Charles Noel.

As a grand finale to the day's achievement a doll buggy parade was held. The winners were: Betty Ann Gulrud, first; Marlene Lund, second; and Nettie Haugen, third. The judges of the doll buggy parade were Miss Thelma Solie and Verna Becker.

The doll buggy parade and the pageant were held under the supervision of Mrs. Agnes Israelson, assisted by youths employed by the National Youth Administration.

Threshing Operations Getting in Full Swing

With favorable weather continuing most of the past week, threshing operations are getting into full swing in the Thief River Falls territory, especially in the western part of the county. With the exception of a brief hard shower of rain late Tuesday afternoon, dry weather has prevailed and harvest is near completion except in the area that was flooded a few weeks ago.

Sande and Arnold Will Attend State Meeting

At last Thursday's dinner meeting of the Junior Chamber of Commerce in the Evelyn hotel, at which 45 members were present, President Clarence Sande and Lincoln Arnold were named delegates to represent the organization at the state Junior Chamber convention in Detroit Lakes this weekend. They will leave Friday to attend the meeting.

Mrs. Linda DuChamp Dies at Age of 75; Long-Time Resident

Mrs. Linda DuChamp died at the home of her son Joe in this city Friday at the age of 75 years.

Mrs. DuChamp was born June 7, 1862, at Christiana, Norway, coming to America and making her home at Austin in 1877. Two years later, in 1879, she moved to Olga, N. D., where she was married in the same year to Joseph DuChamp. In the following year she and her husband moved to a farm near this city. Mrs. DuChamp lived in this vicinity the remaining years of her life, coming to the city in 1934 to reside with her son.

Surviving relatives are her two sons Joe of this city, and Fred of Chisholm, one daughter, Mrs. Elizabeth Ludtke of Minneapolis; three brothers, Hans and Sven Swanson of Norway, and Henry of Washington; also eighteen grandchildren and three great-grandchildren. Her husband, one son and two daughters preceded her in death.

Funeral services were held at the Larson chapel Monday, Rev. E. A. Cooke officiated and interment was made in Greenwood cemetery.

To Aid Businessmen in Social Security Returns

M. B. Fairbanks, R. S. Freeman and B. B. Peterson, deputy collectors of internal revenue, arrived in the city this morning to assist local business places in connection with their returns under the social security act. They announced that, in addition to calling on businessmen, they may be contacted at the Evelyn hotel by those interested. They plan to remain in the city for a week or ten days, at the same time visiting other nearby towns. The men form one of five squads now at work in various parts of the state.

New Inheritance Tax Law Is Now Effective

Several drastic changes have been made in Minnesota's inheritance tax in recent legislation. Changes have been made in classifications, exemptions, and rates. Where formerly a husband and wife and children were exempted $10,000, now the exemption is but $5,000 for husband and adult children, with the rates a trifle lower, according to an analysis by the Minnesota Taxpayers Association. The wife and minor children remain at $10,000 exemption, while fathers and mothers, brothers and sisters, remain the same as to exemptions with slightly lower rates. Strangers or friends not related have no exemptions at all, but the rate has been reduced nearly two per cent. Husbands and adult children, consequently, will pay the greater inheritance tax and are most affected by the changes.

JOB RISK DIVISION RECORDS INCREASE AS YEAR END NEARS

56,000 Employers and 450,000 Workers to be on File by January 1

A complete record of the 1937 earnings of approximately 450,000 workers and the pay roll records of nearly 56,000 employers in Minnesota must be on file with the Minnesota unemployment compensation division at the close of the year. The record, kept on individual cards for each worker and employer, will be the basis upon which the division will begin payment of benefits to eligible unemployed workers after January 1, 1938.

Data from which these records are being established now is being gathered by the division through reports required of all employers of one or more persons. Because of the enormity of the task, Frank T. Starkey, industrial commissioner in charge of the division, today urged all employers to aid the division by reporting promptly at all reporting periods.

"All workers in covered employment who become unemployed through no fault of their own and meet with other requirements of the law will be entitled to benefits for unemployment suffered after January 1, 1938," Mr. Starkey explained. "Benefits will be paid unemployed workers on the basis of their earnings during 1937, and only through information obtained from their employers will we be able to determine the benefits to which they are entitled.

"Payment of benefits to eligible unemployed workers will aid them in maintaining themselves and families until they find new jobs, thereby relieving their communities from business let-downs. The state employment service, which will begin to function January 1, 1938, will aid unemployed workers to obtain suitable work.

"Full information to workers regarding registration for jobs at employment service offices in their districts and application for benefits will be furnished by the unemployment compensation division before the close of the year."

FOODS CONSUMED AT CAMP LISTED

Montevideo.—Judging from the quantities of food consumed, soldiers in the two divisions taking part in the maneuvers of the Fourth Army at Camp Ripley during the last two weeks didn't suffer for lack of enough to eat. During their two weeks' sojourn in the camp the soldiers consumed 21,500 pounds butter, 115,000 pints of milk, 95,000 quarts brick ice cream, 9,200 pounds chicken, 15,500 dozen eggs, 2,800 pounds prunes, 2,800 pounds spaghetti, 1,116,200 pounds bread, 56,000 pies, 5,800 dozen doughnuts, 2,800 cup cakes and 10,000 bananas. And as though that weren't enough, the following food products were also in readiness: 7,500 pounds cabbage, 50,000 pounds onions, 52,000 bunches radishes, 98,800 pounds potatoes, 8,300 pounds bacon, 9,500 pounds ham, 41,600 pounds beef, 5,000 pounds fish, 5,000 cans chow mein, 5,000 pounds cheese and 3,500 pounds sausage.

Copies of Local Paper Thirty-Six Years Old Are Found in Partition

Two old copies of the Thief River Falls News, dated June 6 and 20, 1901, have been brought into the Times office by S. G. Weflin of the staff of the street department, who found them in the walls of his house. The paper was published by John W. Eastman and the copies were addressed to Thomas Benston. Among the well-known names mentioned are those of F. H. Kratka, Mrs. N. W. Tarrant, C. A. Nason, Anton Langseth, W. W. Prichard, Professor James A. Wilson, Frank Bourque, James Meehan, Perl W. Mabey, M. C. Harlow and Emil Zeh. A complete absence of local news features the front page, which is devoted to items dealing with national and foreign affairs.

Buy Stock Animals for Feeding, Specialist Says

Farmers with large supplies of hay on hand who wish to market this hay through livestock, will find it best to purchase such types of animals as stock heifers, cows, or breeding ewes, rather than high class feeder steers or lambs, points out W. H. Peters, chief of the animal husbandry division, University Farm, St. Paul.

"Good quality feeder steers and lambs are already so high in price that the only way one can hope to make a profit on them this year will be by feeding good fattening rations so that when they go back to the market they will be market topping fat cattle and lambs," says Mr. Peters.

"A cattle fattening ration should contain twice as much grain by weight as of hay and a lamb fattening ration grain and hay in equal amounts by weight if good gains and a market topping finish is to be obtained. Sorry will be the man who buys high quality, high priced feeder cattle or lambs and then feeds only roughage this year."

He wears the trousers in his home but usually with an apron over them.

AZTEC INDIANS TO PROVIDE SHOW AT MINNESOTA FAIR

Group From Mexico to Share in Grandstand Program Sept. 4-11

Aztec Indian Flying Dances, spectacular and hazardous rites of that early Mexican tribe, will be the headline feature of the 1937 State Fair Revue, the night grandstand production at the Minnesota State Fair from September 4 to 11.

Negotiations were completed with Mexican government officials to bring the famous "voladores" or flying dancers from their home in remote Pahautlan, northwestern Puebla in Mexico to Minnesota for the first appearance of the feature at any Fair in the world. It will be the second time they have given the ancient religious rites away from their home village. The Indians from the Itoml tribe, descendents of the Aztecs, are performing their marvelous feats of balance and timing at the Chicago Charter Centennial this week.

Diving from the top of the 100-foot pole and whirling downward headfirst with the unwinding of their ropes, the participants train for a life-time. The "Juego Del Volador" or literally, the "game of the flyers" is said to be the most sensational ceremonial performed by any Indian tribe.

State Fair Revue, the featured attraction of the State Fair's $100,000 entertainment program, will pulsate with life, color, surprises and quick-fire action. New types of costumes, sound, lighting and musical effects have been interwoven into the five big episodes, and 21 scenes to be presented on three stages. Thirty-three comedy, acrobatic and aerial acts, famous ballets, plus a cast of 350 will participate in America's hit show of 1937.

37.3 MILE BITUMINOUS CONTRACT IS AWARDED

The bituminous surfacing job for trunk highway 55 between Elbow Lake and Glenwood has been awarded by the state highway department to Joe Mirau and H. C. Jones, Crosby, contractors, for $82,480.21 for the 37.3 miles stretch. In the specifications it was made mandatory that the contractors hire their unskilled labor through the National Reemployment service at Fergus Falls, and Montevideo. Work on the project started Monday.

YEARS [illegible] GOOD

Red Wing.—Anton Anderson, 84-year old pioneer of the Randolph community has owned and worn the same pair of shoes for the last 50 years, and he says they appear capable of standing several more years of wear and tear. Worn on Sundays and for special occasions only, the shoes, bought for a dollar second-hand from a shoemaker, have never been prepared. Mr. Anderson's goal in life is to reach the century mark—now 16 years away—and he hopes the shoes will also last that long. Entering a shoe repair shop 50 years ago Mr. Anderson asked to have his shoes repaired. Unable to wait, the shoemaker offered Anderson his shoes, "if they would fit." The shoes fit Anderson so perfectly that when he returned to secure his own pair he asked to purchase the shoemaker's.

A badly needed invention — a zipper for the town gossip's lips.

The INDEPENDENT Extends To You A Cordial Invitation To Attend The

GRAND OPENING

of It's Fine New Store

SIX BIG DAYS STARTING

Friday, Aug. 27

and Continuing Through Thursday, September 2

YES, the new store is ready for inspection and we extend to you a cordial invitation to pay us a visit during the Grand Opening Sale. This is the event we have looked forward to for several years. Each year, since we started our business nearly nine years ago, has brought us a substantial increase in volume. This steady growth, year by year, has encouraged us to believe that our service has been reasonably satisfactory. It is with the idea of further improving that service that we have now enlarged our quarters and added another department to our store, and we are now better equipped than ever before to give you a low cost merchandising service—dependable goods at fair prices. Our large volume gives us buying power. Our new store, with its convenient arrangement and up-to-the-minute equipment, enables us to operate efficiently. In other words, we sell right because we buy right and operate efficiently. It is on this basis that we solicit your patronage and it is on the belief that this is the right way to operate a business that we base our hope for continued growth. Yes, we extend to you a cordial invitation to visit our store during this Grand Opening Sale—and to make this store your store all the time.

A COMPLETE MODERN MARKET

Offering a Wide Selection of

QUALITY FOODS

In planning our new store we have tried to make The Independent the best equipped food market in the northwest. It is possible that we haven't quite reached that mark. There may be stores that have better facilities for service. We won't argue the point. But we like it. We have ample display room. We have the best equipment obtainable to take care of perishable goods. We have storage room that simplifies the problem of quantity buying. And these things are all in your favor. These things make it easier for us to serve you. And because of these things we believe you will find this new store a more convenient, a more pleasant and a more economical place to do your shopping. Try it and see.

LARGE NUMBER TOADS LIVE IN BASEMENTS

Madison.—If toads had "froglegs" Norman Petersen of this village could have some very delectable meals for a long time, judging from the number of toads which he found recently in the basement of a local cafe. Having decided to clean the toads from the basement, he went down with a bushel basket and brought up about 200 of the amphibians. "There are plenty more left," Norman remarked. The toad population in this vicinity has increased remarkably, causing residents to wonder whether they just rain down, whether toad eggs have been lying dormant waiting for rain, or whether toads just hopped into the basements.

Red River Valley History

By Wm V. Werling

Local Publicity in 1915

Here is another article that is appropriate today as well as it was in 1915. It appeared in the *Times in that year and while the* mutations since have made the article somewhat inaccurate as current publicity, still it is appropriate enough to carry a message to readers of today.

In the summer time it would be hard to find a more beautiful country than that which surrounds Thief River Falls and extends for miles in all directions. All manner of summer sports can be indulged in, the climate and endowments of nature each contributing their share in making this section an ideal one for the enjoyment of summer pastimes. The rivers, lakes and small streams give the fisherman an opportunity to enjoy himself to the utmost, while the hunter could not find a better spot in the state for all kinds of game.

The Thief and Red Lake rivers join within the city limits and at the place where their waters merge is a most picturesque spot known as Squaw Point. During the summer months hundreds of people gather at this place to fish or enjoy themselves in the shade of the magnificent trees, resting on the velvet like carpet of grass. This place was the old camping ground of the Chippewa Indians, for which reason it is named Squaw Point.

The Thief River is a beautiful stream and affords an excellent place for boating. It is navigable for some distance north of Thief River Falls and hundreds of launches with gay parties of merry-makers travel up and down its course in the summer time. One pleasure steamer, accomodating about fifty people, is at the service of the public on this river and it is utilized a great deal by all classes of people.

During the hunting season hunters from all parts of the state come here to get their share of prairie chickens. This they have no trouble in doing as the hunting is ideal and thousands of this much sought for fowl may be found in any direction from Thief River Falls. Thief Lake, about thirty miles north of this city, is the stamping ground for the duck hunters and, as in the case of the prairie chickens, this game is to be found here in large numbers.

Thief River Falls and the surrounding country is indeed an ideal place to enjoy nature as the Maker intended it should be.

Of course, automobiles were far less numerous in 1915 and distance had not been shortened to today's proportions. The tempo of life, too, was slower in spite of what some of the "bloods" of that day thought was the last word in speed. Today the young *people demand speed and action* and plenty of noise, while confusion seems to be essential to the success of a holiday, to say nothing of an outing. In former years people used to hie themselves away to farm homes tucked away in peaceful nooks where they might be sure of peace and quiet. Their nerves were not very bad in those days, but today there are people so nervous they can not stand the crowing of roosters or even the soothing croaking of frogs.

Then we have bred a type who find the quiet of a farm or ordinary summer resort oppressive. They sometimes hurry away to town where they can hear the noise of streetcars and automobiles in heavy city traffic and other raucous sounds so familiar to the city dweller.

But Minnesota has "sold" nature in its most attractive form supplemented by man-made conveniences to vacationists throut the country. People came here in summer from every state in the union to enjoy nature's blessings here without suffering discomforts. It is probable no state can equal Minnesota in this respect. This city and section get a share of these visitors but it is likely they will receive more as the years go by. It takes time to develop the summer tourist business. But if the attractions of this section could be stressed effectively in certain quarters it is altogether likely that the tourist business here would be stimulated.

Going back to the old days we find that the attractions offered were wholesome and time-tried although not spectacular. In the long run these are the attractions that count and this section still has them, in more pronounced form than ever considering the changes that have occurred otherwise.

FRUITS, VEGETABLES RAINED ON TRUCKER

Two Harbors.—Richard Aho, trucker for a local grocery had the experience recently of being caught in a "shower" of tomatoes and raspberries. Coming from Duluth with a truckload of fruits and vegetables he was suddenly confronted by three cars, one parked in the middle of a river bridge and two cars approaching. As he dipped over the steep incline Aho chose the lesser of two evils and crashed into the back of one car. The load shifted and literally buried the trucker under tomatoes and raspberries.

New Commissioner Is Named in Red Lake Co.

Former County Commissioner Ole O. Lee of Equality was named county commissioner for the third district of Red Lake county Thursday afternoon by a board of election consisting of Chairman Axel Burman of Equality, Chairman John Sorenson of Garnes and Mayor Emil Sandeen of Oklee. Mr. Lee succeeds the late Ole Krostue who died last week. Mr. Lee is no novice in the position as he served on the county board from 1923 to 1927 and from 1931 to 1935. He was a candidate for re-election three years ago but was eliminated at the primaries in a hotly contested five cornered fight.

"Talk about Lasting! See how ISO-VIS holds up!

BECAUSE OF THE 'QUART THAT'S NOT FOR SALE'*

● For every two quarts of Iso=Vis we make, we use three quarts of regularly distilled motor oil. One whole quart of carbon-forming, sludge-forming impurities—material which causes high oil consumption—is carefully removed by Standard Oil's patented Propane and Chlorex processes, and is "not for sale!" That's why Iso=Vis is longer lasting—why it holds your oil level *up* and your oil costs *down!* Try this *tougher, more durable* motor oil in your own crankcase. A New Trick in PAINTING ECONOMY

You put 75c in the can . .

you take out big savings *every year*

ANY HOME OWNER CAN DO IT!

THE secret of this trick, of course, lies in the Acme Quality House Paint can. You simply put 50c to 75c more per gallon into NEW ERA House Paint, as compared to ordinary house paint. You get 30% greater covering — therefore use *fewer gallons.* You get greater weather resistance. Therefore you get *five years* of service instead of *three.* In other words, NEW ERA House Paint costs less *by the job by the year.* And you have the superior colors and finish of an Acme Quality NEW ERA Paint job *in addition.* Let us submit the actual savings possible on your house. "It's the only car for us!"

The Only Complete Car—Priced so low

Hundreds of thousands of people are echoing these words because Chevrolet is the only low-priced car with all these features of beauty, performance, comfort, and safety!

● Give people a *better* motor car—one that's smarter, safer, smoother-riding, as well as more economical—and they're bound to say, "It's the only car for us!"

That's what Chevrolet has done, in Chevrolet for 1937, and that's what people everywhere are saying.

They know Chevrolet is *smarter,* because it's the only low-priced car with distinctive New Diamond Crown Speedline Styling. They know it's *safer,* because it's the only low-priced car with Perfected Hydraulic Brakes, New All-Silent, All-Steel Body and Shockproof Steering*. And they also know it's more *comfortable,* because it's the only low-priced car with the Knee-Action Gliding Ride* and Genuine Fisher No Draft Ventilation.

See and drive Chevrolet for 1937, and convince yourself that it's the only car for you.

ASSESSMENT OF P. P. TAXES REVEALS GAIN

Assessed Values in County Aggregate $677,884 for 1937

FIGURES ARE SENT IN TO TAX COMMISSION

Gains Are Shown in Numbers of Cattle and Sheep in Pennington Co.

The abstract of personal property assessed valuations in Pennington county as equalized by the county board and sent in last week to the Minnesota tax commission reveals that the assessed valuation for the county in 1937 is $677,884, a substantial increase over the 1936 figure of $614,006.

The full and true value of all personal property this year is fixed at $2,519,369, compared to $2,297,912 in 1936. At the same time assessments of moneys and credits increased from $645,809 in 1936 to $782,150 this year.

A total of 2721 assessments were made this year, of which 1369, approximately half the aggregate number, were in Thief River Falls. Last year the assessors made 2520 returns, of which 1110 were in this city.

The abstract reveals that the sheep population of Pennington county as reported by the assessors increased from 13,342 in 1936 to 14,424 this year. The number of cattle of all ages and grades rose from 15,738 last year to 16,440 as of May 1 this year. The number of purebred animals, however, showed a slight decrease.

Assessed valuations of personal property for the various subdivisions of the county in 1936 and 1937, as returned by the assessors and equalized by the county board of equalization, is shown in the following table:

WATER TURBINES STILL CARRYING CITY POWER LOAD

Output to September 1 Is Three Times Total for All of 1936

More than 500,000 kilowatts of electric current were produced by the water turbine units in the municipal power plant up to September 1 this year, the total being three times as much as the 149,700 kilowatts produced in this manner in 1936. The turbines have been operating steadily since July 17, when the first heavy rains arrived, and Supt. Ole Legvold expressed hope, based on the present stage of the river, that the water power would supply 500,000 more kilowatts by the end of the year. The turbines have been in use during part of all of five months this year, while in 1936 they were operated only in April and part of May, and in the several years preceding they were used only to a small extent owing to the low stage of the water.

Sportsmen's Club Plans Meeting Tuesday Night

A meeting of the Pennington County Sportsmen's club will be held next Tuesday evening, at 8 o'clock in the Civic and Commerce association rooms, Carlie Johnson, president, announced today. He added that the proposed erection of a conservation building on the fair grounds will come up for consideration at the session.

AID TO DEPENDENT CHILDREN SET UP IN PENNINGTON CO.

New Plan to Supersede Mothers' Allowances, Lynskey Announces

Pending the transfer of mothers' allowances into the form of aid to dependent children under a state law recently approved by the federal social security board, the Pennington county welfare board, in session late last week approved payments on a temporary basis to each of the 61 present recipients, John X. Lynsky, executive secretary of the board, announced, adding that each person now receiving aid will be required to file a new application.

Mr. Lynskey indicated that the county will benefit under the new law, inasmuch as the county will be required to pay only one third of the total aid to dependent children, the remainder of the cost being borne by the state and federal governments. The mothers' allowances now paid come entirely out of county funds.

The board at its meeting also considered several new applications for old-age assistance. Mr. Lynskey stated that a total of 386 persons in the county now are receiving this form of aid, compared to slightly more than 400 a year ago.

CORN PALACE TO BE FEATURE OF FALL FESTIVAL

Businessmen Approve Plan at Meeting Tuesday Evening

FARMERS REQUESTED TO DELIVER EAR CORN

Plans for Celebration to be Further Developed This Week-end

Symbolizing the fact that this section of Minnesota is the farthest north area in the United States to grow matured field corn, a corn palace will be constructed in the city to furnish the central theme of a fall festival to be staged in Thief River Falls early in October.

A decision to proceed with plans for the celebration was definitely reached at a dinner meeting in the Evelyn hotel Tuesday evening attended by fifty local businessmen, numerous speakers strongly endorsing the proposal. The organization of committees to handle various details of the festival will be completed late this week.

Russell Anderson has been engaged to draw plans and supervise construction of the corn palace, which will be erected on Second st. in front of the winter sports arena.

A call for 400 bushels of ear corn to be used in construction of the palace is being issued today by Andrew Anderson, chairman of the agricultural committee of the Civic and Commerce association, which organization is sponsoring the festival.

The committee expressed the hope that the corn to be utilized will come from many different farms in this section of the state. It is specified that the corn is to be delivered at the county agent's office in the basement of the Auditorium not later than September 15. Payment will be made at the prevailing price, or, in case the supplier wishes to donate the corn, it will be sold when no longer needed and the proceeds will be used to promote 4-H club work. A coupon for the use of interested corn raisers will be found in an advertisement elsewhere in this issue.

TIMELY MATTERS ARE DISCUSSED AT C. AND C. MEETING

Group Favors Fall Celebration at Session Last Thursday

A variety of matters came up for discussion at the Civic and Commerce association luncheon last Thursday noon, including the expression of a large majority of members in favor of the proposal to stage a fall celebration.

Secretary Paul Lundgren read a letter from F. A. Kinkel, chairman of the road committee, to Congressman R. T. Buckler asking his cooperation in securing a special allotment from the federal bureau of Indian affairs for the improvement of the Red lake narrows road.

The association went on record as favoring the present railroad service for handling the Goodridge mail contract as opposed to a truck line. Mayor W. W. Prichard said there was a possibility of securing the cooperation of the Osborne-McMillan Elevator company in installing a light or sign on top of the lofty terminal elevator on condition that free electric current would be provided. The matter was left in the hands of Mr. Prichard for a later report.

Drum Corps Performs at Fosston Fair Sunday

Altho the event was hampered by heavy rains Saturday, the East Polk county fair at Fosston attracted a large attendance Sunday. Featuring the day's program were two appearances of the Thief River Falls auxiliary drum corps, which was accompanied by the group's new mascot, Jack Glessner, three-year-old son of Mr. and Mrs. Ily Glessner. The drum corps also appeared jointly with the Ninth District Legion band.

4-H Health Champions of County are Chosen

Dorothy Robarge and Conrad Engelstad Will Compete at State Fair

Gail Jones, daughter of Mr. and Mrs. George Jones of Goodridge, ranked highest among her 35 competitors at the Pennington county 4-H club health clinic with a score of 98.1%. Gail is 12 years old and in her first year of club work. She is a member of the Highlanding 4-H club.

Dorothy Robarge, daughter of Mr. and Mrs. V. F. Robarge of Thief River Falls, who had a score of 97.7 and rated second among the girls will represent Pennington county at the state fair. She is 16 years old, a member of the Thief River Falls 4-H club and in her second year of club work.

Conrad Engelstad, 14 year old son of Mr. and Mrs. Axel Engelstad, despite his numerous freckles was named the county health champion for boys with a score of 96.1 and will represent this county at the fair. He is a member of the Rocksbury 4-H club.

The health clinic at which these champions were chosen was held Friday at the Central school. The physical examinations were conducted by Drs. H. H. Hedemark, R. K. Helseth, and E. V. Pelletiere of the Bratrud Clinic. Dr. Baldwin Borreson and Miss Hessburg of Oakland Park Sanatorium gave Mantoux tests, while Dr. A. E. Jacobson was in charge of teeth examinations. Local nurses who assisted the various doctors included Mrs. Edward Bratrud, Mrs. Harvey Patton, Miss Dahlen, Mrs. James Newland, Mrs. Hedemark, and Mrs. Morris Bye.

Dorothy Robarge and Conrad Engelstad attribute their perfect health to plenty of fresh air and sleep, a sufficient supply of green and yellow vegetables, and close adherence to the simple rules of clean living.

Miss Thelma Holie, county club leader, is very proud of the boy and girl who have been chosen to represent Pennington County at the State Fair. They have worked hard for the goal they have won and are deserving of the distinction it brings them. The clinic as a whole was very successful and probably will become an annual feature of 4-H club work in this county.

County Agents Receive Tips on Organization of Office Details Here

At a meeting held in the Civic and Commerce association rooms Tuesday county agricultural agents and office assistants from seven counties were given some of the principals of office organization, according to Howard E. Grow Pennington County agent. Men that spoke on the subject were L. A. Churchill, state county agent leader; C. L. McNelly, district leader; and Virgil Fenel, specialist in office organization, all of University Farm. Mr Fenel will work in these seven counties helping the office assistants arrange their files on a uniform system.

10,000 Ducks Reported in the Mud Lake Area

That there is a plentiful supply of ducks in Northwestern Minnesota this fall is indicated in the report by Irving E. Quist, associated with the Mud lake restoration project, that fully 10,000 of the birds are making their headquarters in that area. With an ample supply of feed available, the birds are expected to be in prime condition by the time the hunting season opens.

LOCAL BALL TEAM TO MEET BEMIDJI IN GAMES SEPT. 5-6

Games Called for 3 O'clock Sunday and Monday Afternoons

The Thief River Falls baseball team will wind up its season over the Labor Day week-end, meeting the fast Bemidji club in a two game series on the fair grounds diamond Sunday and Monday, both games being slated to start at 3 o'clock. Helmer Sahl and Harold Stroble are scheduled to do the twirling for the locals, while Davidson will catch.

The Bemidji team, one of the fastest semi-pro outfits in the northwest, won two games from Thief River Falls over the Fourth of July week-end by scores of 6-5 and 6-5, and the locals are determined to turn the tables in the coming series.

Outhit by the winners ten hits to three, Thief River Falls sustained a 11-4 defeat in their game at Oslo last Sunday. The locals scored one run in the seventh inning and three in the ninth, while Oslo started out with three runs in the first inning and had piled up their total of 11 by the end of the sixth. Sahl and Stroble divided the pitching duties for the locals, while Parish, Oslo twirler, held Thief River Falls to three bingles.

FLOOD RELIEF UNIT SETS UP FEED STATIONS

Agriculture Dept. Director Approves Progress Made to Date

AREA OFFICES OPENED AT ROSEAU, BAUDETTE

Heavy Rain Saturday Visits Southeast Section of County

In a visit Friday to the flood relief office set up in Thief River Falls by the state department of agriculture, Commissioner Charles Ommodt found that satisfactory progress has been made in setting up machinery to provide for the distribution of hay and feed for livestock on a cost basis in the area affected by heavy rains in Eastern Pennington and Marshall, Western Beltrami, Eastern Roseau and Lake of the Woods counties.

Walter E. Johnson, supervisor here, announced that he had practically completed the organization of the field machinery, utilizing the services of township supervisors, thus assuring a thorough knowledge of local conditions without the expense of hired investigators.

Mr. Johnson stated that feed depots are being established under the direction of the department of agriculture at Grygla, Gatzke, Fourtown, Goodridge, Thief River Falls, Roseau, Warroad and Baudette. At most of these points the cooperative creameries have been placed in charge of distribution, which will be made on a cost basis. Area offices, he stated have been set up at Roseau and Baudette in order to simplify administration in the wide area affected and to save travel for those in need of aid.

Commissioner Ommodt indicated while here that farmers in need of aid will be given an opportunity to work in exchange for the feed supplied to them. Leon Archibald, field supervisor for the state emergency relief office, has charge of work projects in the area, including the clearing of ditches.

An area in the southeast section of Pennington county that had previously been hard hit by excessive rains was visited Saturday evening by another heavy precipitation reported to have aggregated several inches in some localities. The storm was most severe in the Bemidji area, where a rainfall totaling 4.47 inches was recorded.

RESETTLEMENT FARMS VISITED BY BUSINESSMEN

Inspect Eight Sets of New Buildings Thursday Evening

A group of local businessmen, in company with J. W. Taylor, in charge of the local resettlement project, last Thursday evening made a tour of inspection of eight sets of buildings erected this year on resettlement farms near this city, Hazel and St. Hilaire. The visitors were impressed by the substantial construction of the buildings and the practical arrangement of the dwellings.

The principal stops were made at the former C. E. Olen farm south of Greenwood cemetery and the former Sands & Healy farm west of St. Hilaire.

Mr. Taylor announced today that the first tenant for a resettlement farm has been selected. He is Johnnie Nelson of the Mud lake area, who will move on to the former Guy Anderson farm near Holt. Nearly 300 men are now at work on the huge project, rushing numerous sets of buildings to completion.

Land O'Lakes Plant Adds to Seed Cleaning Dept.

The seed cleaning department of the Thief River Falls Land O' Lakes plant has been expanded this season by the addition of a large amount of new equipment, giving it a capacity of a carload of cleaned seed each day. While sweet clover supplies the greatest volume of seed handled, the plant is equipped to care for all varieties grown in this section, it was announced.

Ernotte Hiller Wins Shortstop Golf Event

Crookston Man Leads Field of 48 Golfers on Local Course Sunday

Ernotte Hiller of Crookston added the first championship of the Thief River Falls annual shortstop tournament to his growing list of golf laurels Sunday by besting his fellow townsman, Dr. C. L. Oppegaard, one up on the fourth extra hole. In the semi-finals, Hiller beat H. O. Chommie of this city, while Dr. Oppegaard was eliminating Jim Nordine of Karlstad.

In the first round, Hiller put out Homer Gilbertson of Roseau; Dr Oppegaard eliminated Vic Jung of this city; Chommie bested Mearle Webb of Crookston; and Nordine took the measure of B. W. Gabrielson of the local club. Vic Jung copped the consolation trophy in the flight by eliminating B. W. Gabrielson and Homer Gilbertson.

Forty-eight golfers from Crookston, Roseau, Karlstad, Bemidji, and Thief River Falls, participated in the event. Cloudy weather and the possibility of rain prevented the expected larger field from turning out. Entries closed at 10:00 a. m. and the first flights were out by 10:15. Nine hole matches were played throughout, with many contests going into extra holes.

N. R. Johnson of Bemidji won the first flight, defeating C. L. Hiller of Crookston. H. E. Hanson of Roseau was the consolation winner.

In the second flight, Dr. H. H. Hedemark defeated W. Brooks, of Bemidji for the championship of that flight. Judge J. E. Montague of Crookston took consolation honors.

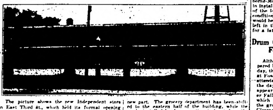
The third flight winner was Herman Strander of Crookston, conqueror of Dex Duggan of Bemidji. O. S. Nordine won the consolation trophy.

Francis Stadsvold of Crookston, fourth flight winner, eliminated Paul Buran of Roseau in the finals of the flight. Herb Jung of this city was the consolation winner.

In the fifth flight Jack Padden of Crookston defeated S. P. Daniels of Thief River Falls to win the flight title. Morris Bye was the winner of consolation honors.

The local course was in the best condition in its history and was well adapted to the one-day tournament. The event was a financial success, according to its sponsors, who plan to repeat it in coming years.

Independent Store Building Fine Addition to East Third st.



The picture shows the new Independent store on East Third st., which held its formal opening last week-end following the completion of a 40 by 60 foot addition on the east side of the original building. The old portion of the structure was completely remodeled and made to conform to the new part. The grocery department has been shifted to the eastern half of the building, while the newly installed hardware section is located on the west side. A. M. Magnuson, proprietor, has received many compliments on the substantial improvement he has made in the East Third st. business district.

MRS. DAVID TOLLEFSON IS HONORED AT SHOWER

Mrs. H. N. Elofson and Miss Ethel Barstad were hostesses Monday evening at Mrs. Elofson's home at a shower for Mrs. David Tollefson (Dolores Amundson). The guests spent the hours in sewing and embroidering articles for the honor guest, in addition to which they participated in a contest, prizes being won by Mrs. C. G. Gilbertson, and Evelyn Michaels. Luncheon was served at 10:30 o'clock, and lovely shower gifts were presented to Mrs. Tollefson. Honoring Mrs. Tollefson were the Mesdames Peter Amundson, Art Collins of Spokane, Wash., Henry Stenarud, Ira P. Nicholson, Irene Faustad, Carl Melby, C. G. Gilbertson (nee Elaine Wenner) and William Elofson; and the Misses Evelyn Michaels, Dolores and Verone Urdahl, Claire Guth and Violet Anderson.

Brunell Erickson and Martha Storholm Feted

During the past week going-away parties have been given for Miss Martha Storholm, who will leave Friday for Minneapolis, where she will take a course in nurses training at Swedish hospital, and Miss Brunell Erickson, who plans to leave September 10 to attend St. Olaf College, Northfield. Another party is being planned for this evening.

On Friday evening Miss Adele Holmstrom entertained at a theatre party for Miss Storholm, other guests being the Misses Jean Frissell, Eunice Lindholm, Phyllis Norbeck, Vivian Whiting, Marion Dillon, Brunell Erickson, Avis Arhart. At the close of the evening, Miss Holmstrom entertained her guests at luncheon at her home, the service with which the luncheon table was appointed forming a color motif of pink-and-white. A going-away gift of remembrance was presented to the guest of honor.

Miss Storholm and Miss Erickson shared honors at the handkerchief shower given by Miss Marion Dillon at her home Monday evening. The evening was spent informally and a midnight luncheon was served. Flowers provided the decorations. The guest list included the Misses Martha Storholm and Brunell Erickson, honor guests, Jean Frissell, Eunice Lindholm, Adele Holmstrom, Lovey Cosgrove, Ruth Wassgren, Phyllis Norbeck, Betty Protzeller of Fairmont, Elaine Swanson of Battle Lake, and Margaret Dillon.

Leone Weis, Dwight Traver Vows Spoken At Detroit Lakes

The nuptial vows of Miss Leone Weis of Detroit Lakes and Dwight Traver of this city were spoken at 8 o'clock Monday evening at Detroit Lakes at a beautiful candlelight service in the German Lutheran church, which was decorated with flowers for the occasion. Rev. R. Heyne of Detroit Lakes read the service.

The bride, who was given in marriage by her father, wore a white satin gown fashioned on princess lines with high neckline. The skirt extended into a sweeping train at the back. To her jeweled headband was fastened the train-length veil worn by her mother as a bride. She carried Johanna Hill roses.

The bride was attended by her sister of Ogemah as matron-of-honor and the groom's sister Miss Jean Traver of Detroit Lakes was her bridesmaid. Both attendants wore floor-length redingote frocks of striped chiffon over satin and corsages of pink roses. The matron-of-honor wore yellow and the bridesmaid pale blue. The groom was attended by his brother Elliott of Detroit Lakes and by a brother-in-law of the bride of Ogemah.

Following the ceremony a reception was given at the Weis home at which relatives and close friends were present. Garden flowers made festive decorations and a bride's cake graced the buffet. The bride and bridegroom left on a week's motor trip along the North Shore of Lake Superior, and will arrive in this city Tuesday to make their home. Their address for the present will be 422 North Horace Ave. The groom is employed with the local Gamble store.

Residents of this city who attended the wedding were the grooms' uncle and aunt, Mr. and Mrs. E. D. Traver and son Calvin, and Mr. and Mrs. Anton Carlson. Other out-of-town guests were present from the twin cities, Aneta, N. D., and Missoula, Mont.

MRS. C. E. OLSON IS HOSTESS FOR DAUGHTER

One son preceded him in death.

Bridge Parties Given in Honor of Mrs. J. J. Mack

Mrs. J. J. Mack (Marguerite DeCremer) of Little Rock, Ark., who, with her husband and daughters Elizabeth and Margaret, left Tuesday morning for Little Rock after visiting here at the home of her parents, Mr. and Mrs. Louis DeCremer, was entertained by friends at a luncheon and bridge party during her visit here.

Mrs. H. O. Chommie and Mrs. Kern Olson were hostesses for Mrs. Mack at a noon bridge-luncheon Saturday.

On Friday evening, Miss Katherine Barzen entertained for Mrs. Mack at an evening of bridge, three tables of which were in play. Guests were the Mesdames Mack, honor guest, Geo. Werstlein, Kern Olson, H. O. Chommie, Baldwin Borreson, Rudolph Sagmoen, Paul Couvrette, Nate Harris, Phil. Bryant, and Roy Barzen; and the Misses Elizabeth DeCremer, and Esther Hennes. Prizes for bridge were awarded to Miss DeCremer and Mrs. Borreson for high and second high scores, respectively, and refreshments were served by the hostess.

YOUNG PEOPLE'S SOCIETY ATTEND CONVENTION PICNIC

Members of the young people's society of the local Covenant Mission church, together with young people from Viking, Warren, Roseau, and Rosewood, were the guests of the Crookston young people's society at a wiener roast and campfire get-to-gether at Crookston Monday evening. Present from this city were Miss Waldie Borgland, Miss Ella Erickson, Mendell Erickson, Rodney Brodin, Robert Hanson, Nels Holmberg, and Rev. Geo. Peterson.

GEORGE SEDLACEKS ARE HONORED AT KANKEL HOME

Mr. and Mrs. Carl Kankel of Red Lake Falls entertained informally at their home Wednesday evening for Mrs. Kankel's brother-in-law and sister, Mr. and Mrs. George Sedlacek, other guests being Mrs. Grace Swanson, Miss Evangeline Baker, Miss Margaret Stadum, Chester Ness, and Lawrence Sedlacek.

HANDKERCHIEF SHOWER FETES MRS. ED. GIBSON

The Log Cabin of the Palm Garden cafe was the scene Tuesday evening of a handkerchief shower honoring Mrs. Edward Gibson (Amber Prugh) of Superior, Wisc. who returned to this city for a brief visit the early part of this week. Hostesses were Mrs. Lou Cheney and Miss Harriet Dillon. Feting Mrs. Gibson were the Mesdames Richard Weeks, Harry Prugh, Harold Prugh, Bertha Gibson, Clarence Gulseth, Helmer Lundgren, Gordon Storholm, Russell Nelson, Enga Lindberg, and Thomas Scanlon; and the Misses Cyrella Reller, Gladys Wold, Violet Prugh, and Bernice Berge, and the hostesses. Luncheon was served at eight o'clock.

Ruth Peterson's Marriage Announced by Parents

Mr. and Mrs. Joseph Peterson announce the marriage of their daughter, Ruth Theresa to Gordon Leigh Andre, son of Mr. and Mrs. Charles J. Andre of St. Paul. The wedding took place August 24 in Bethlehem Lutheran church, Minneapolis, and attendants were Miss Mabel Hodgson and Wilbur Andre. Ushers were Russell C. Andre and George Lee Smith. After a trip east, Mr. and Mrs. Andre will live in Indianapolis.

Games and singing by Rachel Rogers and Clara Stigen with guitar accompaniment provided the evening's entertainment, after which a lovely birthday luncheon was served by the hostess, who was presented with birthday gifts by her guests.

For Barbara Winge

Miss Ardith Reierson entertained at her home Thursday evening for Barbara Winge, who left recently for Sioux City, Iowa, where she will make her home. The evening was spent playing games after which a delicious lunch was served by Mrs. Reierson, assisted by Miss Marguerite Simonson. A gift was presented to the honor guest. Present were Barbara Winge, guest of honor, Ardith Sandum, Esther Lufkin, Adeline Lorentson, Eleanor Erickson, Joyce Paquin, Ilene Hoffseth, Ruby Gunderson and Gloria Quist.

FAREWELL PARTY GIVEN FOR BARBARA WINGE

A farewell party was held at the home of Esther Lufkin Thursday evening in honor of Barbara Winge, who left Sunday for Sioux City, Iowa, where she will make her home with her sister, Miss Gail. The evening was spent in a social manner after which a lovely lunch was served. The honor guest was the recipient of a lovely gift of remembrance from her friends. Present were Barbara Winge, guest of honor, Lorraine Baken, Marcella and Agnes Baker, Ardith Reierson, Anne Evenson, Ruby Gunderson, Ardith Sandum, and Esther Lufkin.

Lars Backe Honored On 81st Birthday

On the occasion of his eighty-first birthday anniversary, which occurred Sunday, Lars Backe was honored by his son-in-law and daughter, Mr. and Mrs. Gaston Ward, who entertained at supper parties at their home on Sunday and Monday evenings. Mr. Backe, a pioneer resident of this city, has been very active in civic and church affairs during his residence here.

A profusion of beautiful gladiola decorated the rooms of the Ward home for the festivities. Supper was served at six o'clock and contests and group singing provided the diversion. An attractive birthday cake graced the supper table at each occasion.

Guests present were Mr. Backe, guest of honor, Dr. and Mrs. H. J. Rice, Mr. and Mrs. A. E. Mattson, Mr. and Mrs. Robert J. Lund, Mr. and Mrs. Morris Bye, Mr. and Mrs. Martin Erickson, Mr. and Mrs. Nels A. Nelson and son Bud, Mr. and Mrs. Otto Parbst, and Marion and John Parbst, Mr. and Mrs. Richard Weeks, and the Misses Helen Granum, Helen Newbury, and Vivian Ward.

WATER GLASS RIDES THREE MILES ON RUNNING BOARD

Welcome—Art Wohlhuter has decided that the newer cars made to run more smoothly haven't so much over his old auto which can carry a water glass on its running board for a distance of three miles without spilling the water. The Wohlhuter family attended a birthday party at the Harry Schultz home recently and after the party drove home three miles at their usual rate of speed. A water tumbler, left on the running board of the car by someone at the party, was discovered the following morning. It was half filled with water.

New Highway Exhibit to be Ready for State Fair

The state Department of Highways is building an entirely new and instructive exhibit for the Minnesota State Fair, Sept. 4 to 11, which will include a complete motion picture theater. The theater will show interesting and educational pictures illustrating traffic safety measures and new uniform traffic laws and speed zoning provisions enacted by the last legislature. The department invites the public to view its exhibit, in the State Exhibits Building. Free copies of the new booklet containing all state traffic laws will be distributed, as will illustrated literature on Minnesota tourist advantages and highways.

N. W. SCHOOL SAYS THATCHER WHEAT DID WELL IN 1937

Gave Splendid Performance in Year of Heavy Rust Infestation

The performance of Thatcher wheat this year has been outstanding, according to R. S. Dunham, agronomist at the Northwest School and Experiment Station, Crookston. Wheat at the station has not been threshed yet, says Mr. Dunham, but yields reported by farmers have run from 26 to 30 bushels per acre. It is not true, however, that Thatcher yields well only in years of heavy stem rust epidemics. Thatcher withstood the rust in 1935 and again this year so much better than Marquis Reward, or Ceres that it yielded heavily by comparison but it has been a consistently good yielder in other years as well. Thatcher has been grown in the varietal plots at the Northwest Station since 1929. In only two of the eight years has Ceres outyielded it and in those two years only by 4.2 and 2.5 bu. respectively. Marquis has never outyielded it and Reward only once by 2.3 bu.

Thatcher has its faults and improved varieties will take its place as time goes on. At present there is no variety of bread wheat in commercial distribution that is so dependable for yield, rust resistance, and milling quality. It is unwise to plant Thatcher late since any rust-resistant wheat is influenced by the conditions under which it is grown and late planting in bad rust years is conductive to injury by rust.

However, in trials at the Northwest Station this year, Thatcher planted as late as June first was not seriously injured by rust, and that planted May 15 was only slightly affected. About 70% of the plants in both the May 15 and June 1 sowings carried stem rust infection but the pustules were small and of the resistant type. Thatcher planted May 6 or earlier carried only a trace of stem rust, that planted May 15 carried up to 10%, and that planted June 1 carried as much as 50% on a few plants. Yields are not available at this time but will be reported later.

A very small percentage of the wheat acreage in the Red River Valley was in Thatcher this year. If all wheat had been of this variety it would have increased the farm income by many thousands of dollars.

STOLEN CAR MAKES 900 MILES IN FIVE BLOCKS

Hackensack.—A stolen car driven 900 miles was recovered here only five blocks from its original parking place when Hollis Bailey's car was found several days after it was stolen. The speedometer had registered 900 miles during the time the car was missing. A 17-year-old Walker youth confessed he had stolen the car and together with a local boy motored to Bismarck, North Dakota. Sentence has not been pronounced by the probate court, but it is expected the youth will be put on probation.

50 CHUKER PARTRIDGES RELEASED NEAR WINONA

In the first of a series of experiments, approximately 50 young chuker partridges were released this week in wooded areas in Winona County, according to Frank Blair, state superintendent of game propagation. Additional small groups of chukers will be released shortly in Martin and Pine Counties and possibly in the extreme northwestern part of the state, Blair said.

Nels Malm, Resident of Marshall County Since 1878, Died Last Sunday

Nels Malm, one of the first permanent residents of Marshall county and prominent participant in civic affairs throughout the county, passed away at his farm home near Argyle, Sunday night at the age of 84 years.

Funeral services were conducted Tuesday at two o'clock from the Swedish Lutheran church of Alvarado with Rev. A. A. Larson, pastor of that congregation, officiating. Interment was made in the North Big Woods cemetery, which originally was part of Mr. Malm's farm. He was born in Sweden and came to the vicinity of Argyle in 1878.

Survivors include four sons, Victor of Warren, William of Miltona; Walter of Argyle; and Arthur of Grand Forks; and one daughter, Mrs. George Eckman of Grand Forks.

Present Time Favors Organization of Cow Testing Associations

Factors which affect the dairy industry of Minnesota are making the organization of cow testing associations in the state extremely practical at the present time, observes E. A. Hanson, extension dairyman, University Farm, St. Paul.

From among these factors, Mr. Hanson points out three that are strongly in favor of such action now: (1) abundance of feed, (2) favorable butterfat prices, (3) good market prices for cull cows.

In recent years, dairymen have delayed joining CTA groups because of a scarcity of feed with which to carry on adequate feeding programs; this has been remedied this year in most sections of the state by abundant forage and grain crops, says Mr. Hanson, and dairymen can not afford to feed well. Butterfat prices are at a fairly strong level now in relation to feed prices, and indications are that they will remain so for some time. For the dairyman who would have some of his cows culled because of low production, the price on cull cows is now just twice what it was during drouth years and at the low point in the dairy industry about 1932. Cull cows are bringing from 2 to 3 cents per pound at South St. Paul markets.

"It is only good business for the farmer to join a CTA group, and put his herds on a profitable basis by using records as a guide to feeding and culling out low producers and saving heifers from the best cows."

SAYS FRIDAY THE 13TH IS NO JOKE

Springfield—Friday the 13th is no longer just another day to Harold Smith who says the 13th is no "joke". Early on the morning of Friday the 13th he sat reading some of the oddities in the news. He was of the opinion that people with superstitions were just plain "nuts." But now he believes in superstitions, for later Friday evening he went swimming at the pool here and in making an overhand stroke he dislocated his left arm. He sustained a painful injury which will keep him laid up for at least three weeks. It was necessary for him to take ether before the muscles would relax, making it possible to work the injured limb into place.

Cynical Brutality

People were not only brutal but cynically brutal in the last century. The history of Italy recounts how, after a revolt, many Italians were executed and the bill of expenses presented to the nearest relations of the hanged men.

HELEN WASSGREN FETED AT GOING-AWAY PARTY

Miss Edna Stelen and Miss Elna Anderson of the St. Luke's nursing staff entertained in the hospital dining room Monday evening in honor of Miss Helen Wassgren, a member of the staff who will leave Saturday for Minneapolis, where she will be an assistant instructor at Eitel hospital. The guest list included, in addition to the honor guest, the hospital nursing staff, the ladies of the hospital office and Bratrud clinic, Mrs. Edward Bratrud, and Mrs. James Newland. At eleven o'clock the hostesses served a two-course luncheon. Miss Wassgren was presented with a going-away gift.

MRS. ROBERT NELSON ENTERTAINS FOR SON

Mrs. Robert Nelson entertained at her home Saturday afternoon in honor of her son Gerald's seventh birthday anniversary. Guests were Gerald Nelson, honor guest, Marilyn and Ramona Johnson, Manley Brahs, Jana Jam, Lorraine Haugen, Gerald Hedland, Betty Lou Johnson, Tom Daily, Jr., Barbara Jean Bishop, Dwight Henerud, Ida Mae Bendickson, Beverly Lou Carlson, Eunice Ann Merritt, and Arlene Rose Michaels. The guests played games during the afternoon, after which a birthday luncheon was served by Mrs. Nelson, assisted by Elaine Douglass and Nona Nelson. A birthday cake decorated in pink and green and topped with lighted candles occupied the center of the luncheon table. Gerald received lovely gifts. Mrs. Nelson entertained the mothers of some of the children at a late afternoon coffee party following her son's party. Present were the Mesdames Orlando Bishop, Carl Johnson, Emil Hedlund, E. Christie, and C. Bendickson.

CLUB ENTERTAINS FOR MRS. M. T. McFARLAND

Mrs. M. T. McFarland was entertained at her home Wednesday evening by the members of her club at a handkerchief shower. Bridge was the diversion, and luncheon was served by the club. Present were the Mesdames McFarland, A. Lein, Ann Adey, E. O. Peterson, G. W. Booren, H. E. Nelson, Benj. Kiewel, Ralph McCain, and H. A. Brumund.

Public Executions in Ohio

Until 1883 executions in Ohio were public, with men, women and children coming—a la excursion—for miles around to watch a condemned man go to his death by hanging. But in April of that year, says the Cleveland Plain Dealer, the legislature passed a law providing that executions should thereafter be held privately in a penitentiary chamber to be built for the purpose.

Elsberg Announces $200,000 Program of Weed, Brush Cutting

The state Highway Department has expended approximately $85,000 and will be required to expend at least $200,000 before the close of the season for the mowing of roadsides and the eradication of noxious weeds on the state's 11,350 mile system, N. W. Elsberg, state Highway commissioner, announced this week.

The department's activities in this field, although costly at the outset, serve a triple purpose and ultimately prove to be a definite economy, Commissioner Elsberg said.

First, the cutting of noxious weeds eliminates what otherwise would be an ever present menace of re-seeding adjoining farms with weed pests. In the second place, the cost of fall mowing and brushing which is now under way is many times repaid by winter savings in snow removal. Weeds and brush cause roadways to fill up with snow, and their elimination reduces plowing expense in immense proportions. In the third place, mowing and brushing is essential not only for simple highway beautification, but to assure clear visibility on curves and turns and ready readability of traffic warning and directional signs.

Up to August 1, the Highway department has expended $16,374.68 for brushing and $68,632.98 for mowing and weed eradication, with the heaviest cost yet to come.

Lucille Thomas Wins as Safety Demonstrator; Awarded Trip to Fair

Lucille Thomas, of the Thief River Falls 4-H club was selected as the champion safety demonstrator at an achievement day held Monday at the Auditorium. The title of her demonstration was "Safe Driving and Safe Walking". She will compete at the Minnesota State Fair next week. Ruby Werner and Jean Vielguth of the Steiner 4-H club won first on their demonstration in home beautification. For their demonstration they chose "Making a Rock Garden". Their alternates are Lorraine Thomas and Carol Hicks of the Thief River Falls club.

Mink Is Bloodthirsty Animal

The mink often feigns death when captured. It is one of the most bloodthirsty, as well as courageous of small animals, hissing its defiance, fighting to the last. It will kill for the sheer lust of blood, one mink massacreing up to 30 unlucky chickens in a single night. Its chief hunting area, however, is the water. The mink is a marvelous swimmer and diver, feeding on fish and frogs.

Raleigh Never on Mainland?

Sir Walter Raleigh, who introduced the potato into Ireland and tobacco into England, is believed never to have set foot on the mainland of North America; but visitors to Trinidad may see some of the dents his guns made on Port of Spain. He wiped out most of the early town because the people wouldn't give him water.

Minnesota Employment Service Will Fill 200 Jobs Thru Examination

Merit examinations will be held in thirteen cities on September 24 and 25 to determine an eligibility list from which some 200 positions will be filled in the Minnesota *State Employment Service*, which will begin to function Jan. 1, 1938, in conjunction with the state unemployment compensation division.

This was announced by Frank T. Starkey, state industrial commission member in charge of the new, state-wide service and the unemployment compensation division. The new service, which will be free to both workers and employers, will take over the work of the National Reemployment Service.

Examinations will be held in the following cities: St. Paul, Duluth, Brainerd, Albert Lea, Bemidji, Crookston, Fergus Falls, Mankato, Rochester, St. Cloud, Virginia, Willmar, and Worthington.

Final date for filing of applications is September 11. Forms and information may be obtained from Rolf Opjorden, 204 State Capitol, St. Paul, who has been designated special representative of the United States Employment Service to cooperate with the federal service in conducting the examinations.

Positions to be filled include: assistant director, $3,000-$3,600; field supervisor, $2,600-$3,200; administrative assistant, $1,800-2,400; employment office manager, $2,200-$2,600; senior interviewer, $1,740-$2,100, and junior interviewer, $1,140-$1,680.

All examinations are open to both men and women who are citizens of the United States and residents of Minnesota for at least one year immediately preceding the day they file their applications. Minimum requirements in terms of experience and education vary in accordance with the responsibilities of the positions.

Official Paper of Pennington County and City of Thief River Falls

Thief River Falls is going to have a corn palace this year and it probably will be the farthest north that a corn palace has ever been built. For many years this community has been producing ripe corn. The acreage has been increasing steadily year after year and now there is a corn field on practically every farm. Many of the old-timers can remember when corn was a doubtful crop in southern Minnesota. Quicker ripening varieties, and perhaps some modifications in the climate, have moved the corn belt northward and there is reason to hope that in the course of time this crop will be the important feed crop of this territory. Those who speak with authority on such things tell us we need more cultivated crops. At any rate we have a lot of corn this year and we're going to celebrate the fact by building a corn palace. Never having seen a corn palace we look forward to the completion of this one with a great deal of interest.

Yielding to pressure, the administration has finally consented to a nation-wide census of the employed. It will be a census in name only, however. The unemployed will be invited to register at post offices—as they have registered in the past at employment offices. There will be no attempt to chart the facts of employment and unemployment in the various industries and trades and when the figures are finally totalled we will be no smarter than we are now. The cost of this procedure probably will not be great but whatever it is it can be charged up as another useless and wasteful expenditure.

It may sound silly but in our opinion one of the top-ranking improvements in the city this year is the new sidewalk in front of the Union State Bank. This because of the crying need for new sidewalks thruout the business section. Building new ones may become an epidemic. Jim Cosgrove has let a contract for rebuilding the walk in front of the Northern Hotel. Others may follow. The trouble in the past has been that all of the sidewalks have been so bad that no one has had to feel especially ashamed of his. With a few stretches of good walk, the poor walks will become more noticeable and pretty soon all of them will be rebuilt—we hope.

Schools open Tuesday in the city and that means another season of activity for almost sixteen hundred students, teachers and other school employees. It means sixty-three people drawing pay checks again after the summer vacation and a pay roll of that size represents quite a business. When the machinery of this organization starts operating again hundreds of mothers will have to get up earlier in the morning.

Some of the most terrific explosions have been caused by a small amount of powder on hubby's coat.—Atlanta Journal

THE MUDDLED POLITICAL SITUATION
(Dawson Sentinel)

There are thousands of citizens in the state of Minnesota who are at present in somewhat of a muddle when the question of political party affiliation is given a thought. Republicans and Democrats still lack real leadership in this state, and cannot seem to get the necessary co-operation to get going along any definite line. Uncertainty and stalling are costing them plenty of support every day that goes by. The Farmer-Labor party is apparently splitting into two parts. Those who can no longer tolerate the tactics of the present administration are looking for a party affiliation that will more nearly meet their views than do the extremists now in power at the capitol! This is not to be wondered at, as it is merely history repeating itself. The older parties have had this happen to them before, and in all likelihood it will happen again. Keep a party in office long enough and all the evils that crept into the other parties will be found present and flourishing until an aroused electorate boots them out of office. This housecleaning has had a salutary effect, as it gives party leaders notice that voters are as a rule patient and forgiving, but they too can stand just so much. The annual bid for votes is just around the corner—what are those thousands of undecided voters going to do in the next election? What party are they going to affiliate with to get the kind of government they want? Cockiness and overconfidence will get politicians nowheres this time. It is high time for party leaders of all parties to do some tall thinking right now. People demand to know what a party is going to stand for now, and not a few weeks before an election.

NEKKU ROOT
(St. Paul Pioneer Press)

The problem of spreading a grasshopper bait which will not be injurious to anything but the hoppers lends particular interest to the singular properties claimed for the nekku root, recently described in the Rotarian.

This South American plant produces a poison which will kill any kind of insect or infectious pest, but can be eaten by people, dogs, animals or birds without doing harm. Such an insecticide is worth investigating as a substitute for arsenic sprays on fruits and vegetables and also as a hopper bait that can be used with safety. Nekku root may take place with red-squill which has been widely used since 1928 for rat control. Red-squill closely approaches the unique distinction of being a poison specific for this one rodent species. Experiments by the Bureau of Biological Survey demonstrated that red-squill is effective in rat control and relatively harmless to human beings and livestock. It is a wild perennial plant of Southern Europe with a large bulb from which the powder is made at comparatively low cost.

With red-squill to fight rats and nekku root to fight insect pests the world would have in its possession two powerful weapons with which to combat these plagues.

NOT REDISTRIBUTION
(Morris Tribune)

This proposition to "redistribute wealth" by the Government taking from those who have and giving to those who have not would appear entirely different if the experiment were limited to this generation. But that is not the case. The proposition that the Government shall today take from those who have and give to those who have not is a fair and honorable proposition compared to what the Government is actually doing. Instead of doing that, the Administration is piling up the national debt for the next generation to pay and spending the money—the net result of which is to take the fruits of those who will labor in the next generation and waste it on this generation. Tomorrow the children of today can work for the children of the bond-buyers of today. We ought to be ashamed of ourselves.

AT LAST IT'S SETTLED
(Springfield, Mass., Union)

It is well to have this matter settled by a high court, once and for all: "What is a drug store?"

It is all to the credit of the learned jurist of the Indiana supreme court that he went into the matter thoroughly, delving into Burns' Annotated Statutes, Webster's New International Dictionary, Apothecary definitions, the Encyclopedia Britannica and even Shakespeare.

And what did the learned judge find? That a drug store, of all things, "is a store in which drugs are sold."

FARMER LOSES HORSE IN UNUSUAL ACCIDENT

Olivia—Pete Weis, a farmer living east of Bird Island, suffered a great loss last week when a team of his horses accidently fell into a 21 foot unused well, the mishap proving fatal to one of the animals. Mr. Weis was helping with shock threshing on a neighbor's farm. As he drove his team across the yard, the horses began to fall through the ground at a place half way between the house and barn sinking into an unused well 24 feet deep and six feet in diameter. After much difficulty the horses were hoisted out, one dying shortly afterward. Neither the man who had farmed the place for nine years nor the owner knew of the old well. It is thought, however, that it may have been there fifty years or more and that the rotting of the planks combined with heavy rains softened the covering to cause the accident.

The length of each side of the Great Pyramid at Gizeh is 746 feet. Before the outer covering of limestone was removed, the length was 755½ feet. The perpendicular height is 450 feet; originally it was about 481 feet. The sides rise at an angle of 51 degrees 50 minutes. The area covered is about 13 acres.

Capitol News Review
By A. I. Harris

The senate reactionaries, without the benefit of a survey, intelligent or otherwise, arbitrarily cut down the administration's $17,000,000 relief bill to $11,200,000. They did this, not to save taxes for the home owners and farmers, but to save taxes for the Steel Trust.

And these chickens are also coming home to roost!

Welfare authorities in Minneapolis and St. Paul and in other sections of the state are already faced with a very embarrassing situation, due to insufficient relief funds. They have attempted to meet the situation by drastically cutting down relief allowances and further pauperizing those out of work, but this has proven inadequate. They now have to go to the citizens for more funds, and additional burdens will now be added to those who pay local real estate taxes.

A boon to farmers with piled up feed and seed loans was the decision of the Farm Credit Administration to release enough of the crop to establish at least minimum living conditions for the winter. It had been announced previously that collections would be made to the letter of the law, a policy which farmers maintained would serve only to force them to apply for relief. The decision to exempt crops on an individual basis came after a flood of letters and resolutions reached the F. C. A. office from individual farmers and farm organizations.

Farmers of Minnesota should watch with a great deal of interest the investigation of farm wood patches recently authorized by Congress, according to Dr. Raphael Zon, director of the Lake State Forest Experiment Station in St. Paul. He sees good possibilities of increasing farm revenue from the sale of wood lot products. The wood lot may develop into a permanent producer of cash crops, he says. The study aims to determine, among other things, the practicability of cooperative marketing of wood patch products.

Tribute to the memory of the late Governor Floyd B. Olson was paid by the people of Minnesota and the President of the United States at memorial services in Minneapolis on the first anniversary of his death, August 22.

A telegram from President Roosevelt, read by Governor Benson at services on the University campus, said: "I would consider it a real privilege to take part in the memorial service to be held on the anniversary of the death of Floyd B. Olson. Unfortunately, it will be impossible for me to be with you. I do want, however, to have a small part in it. May I request you to include my tribute to a gallant leader, a distinguished public servant, a hard fighter, and a fast friend."

"He called for federal legislation which would wipe out the inequalities under which the farmer labored and marketed as compared with railroads, whose rates were based on the cost of operating, and great corporations whose control of the market protected their prices and rate of profit.

"He refused to use troops against strikers, because this only increased the inequality of their position as compared with that of their employers.

"Olson did something for youth long before the federal government even thought of doing something. He initiated student aid which enabled young people in colleges and universities to continue their education in spite of the depression.

"To him, the Supreme Court insured that the government must remain the means of preserving certain special privileges of property."

An incident such as the recent shelling of the U. S. S. August in Shanghai harbor would, not so many years ago, have resulted in open hostilities. President Roosevelt is to be complimented on his calm announcement that the matter will be treated as an "unfortunate accident" and will not alter the Far East policy of this government.

That the Sino-Japanese conflict has now assumed the state of actual warfare, nobody longer doubts, even though there has been no formal declaration of war. In view of this fact it is rather puzzling why the United States does not invoke its neutrality laws against both sides to the conflict. The question arises, are there business considerations which prevent our doing so?

To see that all dishes are properly washed in a chlorine solution and other sanitary precautions are taken, state hotel inspectors will examine every refreshment stand at the State Fair at two-hour intervals, according to Mrs. Laura Naplin, director of the division.

The division's entire force of inspectors will be concentrated at the fairgrounds and each examiner will have a "beat" for which he is responsible, she said, in order to safeguard the health of hundreds of thousands expected to attend the fair this year.

Super-Highway Between Elk River and Anoka to Open Bad "Bottleneck"

N. W. Elsberg, state highway commissioner, set September 10 as the day for receiving bids on a new super-highway between Elk River and Anoka over the present route of Trunk Highway 10, which has been one of the most congested stretches of road in Minnesota due to its "bottleneck" nature.

The new highway will consist of two separated concrete aprons of 20 feet each, each carrying two traffic lanes one way. It will more or less closely follow the present route of T. H. 10 with the exception of several places where bad curves will be eliminated. The new highway will be made of bituminous material. Part of the old highway will be used for one of the two lane aprons.

The stretch of highway to be rebuilt is one of the most heavily traveled arteries in the state as at both Elk River and Anoka other highways converge into it. The decision to construct a divided four lane highway came, Commissioner Elsberg said, because every possible precaution for traffic safety is being taken by the Highway Department in its construction program. The 11.6 mile stretch has been the scene of a number of fatal accidents.

The specifications do not call for any landscaping of the island separating the two ribbons of concrete. However, Commissioner Elsberg said that the island, which will vary from 20 feet to 60 feet in width, will in due season come under the department's roadside development program.

The road will be completed by September, 1938.

It Happened at the Capitol

(Edited this week by H. E. Rasmussen, Austin Daily Herald)

Motivated by the desire to approach the capitol in the most liberal frame of mind and gather material for this column, I was shortly given jolts that caused doubts to arise in the mind.

The unfortunate part of it is that the administration in power now in Minnesota opposes and detests individual success. That must not happen if the collectivist state is to be ushered in to the strains of a foreign symphony, which heretofore has been revolting to all militant Americans and loyal Minnesotans. The philosophy of the f-l party in Minnesota is not one of aid to the worker and the farmer, but fundamentally it is one of complete change of the basic elements and traditions in order to transfer control of the destiny of the individual into the hands of a supernumerary group.

And, instances are not lacking. Blunderingly but bluntly the state sought to inject itself into a home rule situation in Albert Lea last Monday when an attempt was made to prevent licensed and franchised busses to operate to the fair grounds because some f-l taxi operators of that city had made a complaint to buddies in the capitol who thought they might try to put over a "fast one" through the state highway patrol. The courage of Mayor Hayek of Albert Lea nipped that plot in the bud with plenty of ammunition and there were profuse apologies. Just an instance of what might and is attempted, however, every day by the conniving, political sharp-shooters who infest most of the government departments in St. Paul. Their chief qualification for jobs is the showing they made in their ward or precinct during the election.

Another propaganda writer has been added to the staff of Abe Harris, chief propagandist, and has been assigned to the office of the attorney-general. His job is to help "sell" the administration to the voters, who pay the bills also for the "selling." As if, indeed, there were not already too many employees in the state capitol where they sit like parasites on the stair-steps, clutter up desks, and, as ravens, cluster about the refreshment stands. A 25% reduction in the staffs would doubtless result in greater efficiency. Private business operated on the same basis as the state capitol would go bankrupt within a year.

The taxpayers are paying, too, for a little printing commission on a booklet that failed to carry the Governor's name. It is the pamphlet of instructions to drivers containing the highway traffic laws and what not. The first batch got out with only the name of N. W. Elsberg, the highway commissioner, printed on the outside cover, as has always been customary. When Abe Harris and his aides, Roger Rutchick and Art Jacobs got wind of it there was trouble galore. The governor must be advertised and all that could be done was to have another batch printed up and, presto!—it is done—at the taxpayers expense.

Like the lure being placed for grasshoppers throughout southern Minnesota, George Griffith, chief oil inspector, also rated as top plot strategist, sets out a dish for Hjalmar Petersen. The bait is in the form of an olive branch to Hjalmar, whose popularity has been growing entirely too rapidly to suit the f-l chieftains and the proposition is for Hjalmar to be given the nomination and made governor in 1940 if he will only be good now, crawl into his hole and lay off criticizing the Mexican generals and the governor.

Highway Patrolmen Make 796 Arrests for Traffic Violations

Busy during the month of July when pleasure and commercial travel is near its height in Minnesota, the state highway patrol made 796 arrests, handed out 2,656 "must repair" tags for illegal equipment and gave warnings to 11,633 motorists, the patrol's monthly summary of reports revealed.

In contrast, during July a year ago the state traffic squad arrested 640 violators, the records disclosed.

In July, 108 patrolmen and officers spent 23,308 hours on duty according to their reports, bringing the patrolman-hours for the first seven months of 1937 up to 166,483. During July they traveled 370,816 miles on motor bikes and cars. This year to Aug. 1 the traffic officers had traveled 2,576,491 miles.

During the month, state patrolmen were on the scene at 127 accidents and gave first aid to 17? injured persons. Other courtesies to the driving public consisted of assistance in 1,120 minor repairs of motorists' cars, 131 orders for gasoline; 104 calls to garages for assistance for stalled motorists and help for 76 drivers in getting automobiles out of ditches. The patrolmen gave information to 3,280 drivers.

Improper equipment was the largest single reason for arrests and 201 drivers were apprehended. For going through stop signs, 141 persons were arrested; for reckless driving, 81, and for driving while drunk, 72. Fines imposed for traffic law violations for the month totaled $10,251.12, bringing the year's total up to Aug. 1 to $57,882.81.

Because of rear light not showing, 108 persons were given tags and required to make immediate adjustments.

Improper parking brought warnings to 2,563 drivers. An invitation to drive on the wrong lane was called to 1,929 motorists' attention, while excessive speed warnings slowed down 1,746 drivers.

During the month of July, 22 cars were taken into custody by the patrol and 14 were released.

ADVENTURE TRIP ENDS FIRST DAY

Breckenridge—The first day of an adventure that was to have allowed him to see the Northwest as a free passenger on railroad trains, proved to be the last with Roger C. Johnson, while traveling with a companion was stricken in a freight car with diabetes [illegible] as the train was entering the local yards. His partner informed the railroad men as to Johnson's condition and the youth was rushed to a hospital where he died the same evening. Although he had plenty of medicine with him that he took to relieve his pain, the youth sank into a coma so fast that he was unable to help himself. Contacting a brother in Minneapolis, it was learned that Roger's parents had [illegible] California on a vacation and thought that he would like to see the West.

Christgau Acts to Stop Terminations of Minnesota WPA

Effective Friday, August 27, no WPA worker in Minnesota will be [illegible] during the coming fall and winter, according to Victor Christgau, state administrator. All district directors have been advised to put this policy into effect immediately.

Mr. Christgau acted on authority from Aubrey Williams, deputy federal administrator. WPA workers are to be removed only when it is determined that they are no longer in need, have other employment or for definite cause.

These instructions are in line with an earlier announcement by Harry L. Hopkins, federal administrator, who said that quota reductions have been completed to such an extent that during the remainder of this calendar year and through the winter months it will not be necessary to remove employable persons from WPA who do not have private employment unless they are removed for cause.

DR. J. M. FARNHAM PASSES AWAY IN FARGO HOSPITAL

Osteopathic Physician Who Practiced Here 3 Years Died Sunday

Dr. James M. Farnham of this city, a Spanish-American war veteran died Sunday in a Fargo hospital at the age of 67. Funeral rites were conducted Wednesday at his former home in Appleton.

Dr. Farnham came to Thief River Falls in December, 1934, from St. Cloud, where he had lived the 20 years preceding, and while here engaged in practices as an osteopathic physician. Previously to taking up this profession he had served as superintendent of schools in various northwest communities.

He served in the Spanish-American war with Company H of the 13th Minnesota volunteer infantry, and shortly following his return from service was married to Miss Fay Haynes.

Besides Mrs. Farnham, he leaves three sons, Keith of Chicago, James of Philadelphia and Gerald of Mitchell, S. D., one brother, Bernard of Minneapolis; two sisters, Mrs. Emma Steen of Veblen, S. D., and Mrs. Florence Olen of Minneapolis, and his father, James Farnham of Glenwood, Minn.

Detroit Lakes Man and Waldie Christensen New Owners of City Dairy

C. A. Carlson, formerly of Detroit Lakes, and Waldie Christensen of this community this week completed negotiations for the purchase of the City Dairy from J. Provencher and H. A. Brumund. Mr. Carlson, who has operated a dairy in Detroit Lakes since 1929 and who will serve as manager of the local enterprise, stated that the present personnel of the plant will be retained. He explained that in addition to handling pasteurized milk as in the past, the dairy will distribute raw milk supplied by Mr. Christensen's Oakland dairy farm. Mr. Carlson's wife and two children will join him here Friday. Edgar Longren, who has been in charge of the dairy the past few years, will continue in the employ of the new owners for the time being at least.

MARKETING PACT FOR TUBERS WINS FAVOR AT G. FORKS

Program Would Ban Potato Culls From Interstate Shipment

From the discussion and arguments in favor of potato marketing agreements at Grand Forks last Saturday, it appears that such a program will be put into effect, according to County Agent Howard Grow, who attended the meeting. Most of the growers and dealers were convinced that some program should be put into operation.

The plan as set up now would prevent the sale of culls and possibly U. S. No. 2's in interstate shipments. This would keep about five million bushels of inferior potatoes out of interstate commerce. They still could be sold within the state without any restrictions.

It is estimated that there will be a surplus of about thirty million bushels of potatoes in the United States this year.

Peterson-Biddick Co. Is Drilling New Well

The annual Thief River Falls tennis tourney has reached the semi-final round, in which Marvin Benson, defending champion, is matched against Everett Erickson in one bracket and Bill Korstad faces Lincoln Arnold in the other. The matches will be played tonight and Friday evening, with the championship match slated for Saturday afternoon at 5:30.

The first round matches resulted as follows: Benson won from Roy Lee, 6-2 and 6-3; Carl Lee lost to Abby Jaranson on a default; Dick Thronson defeated Gordon Bondy 6-3, 7-5; Erickson upset Chase 6-4, 7-5; Korstad won from Austin Shanahan 6-1, 6-1; Milton Nesse lost to Bob Hart 6-1, 6-2; Gordon Overland was nosed out by Jack Petit 9-7, 6-2; and Arnold won from James Nesse 6-2, 6-4.

In the second round Benson took Jaranson 6-1, 6-1; Thronson lost to Erickson 8-6, 6-3; Korstad won from Hart 6-1, 6-2; and Arnold defeated Petit 6-3, 6-4.

Rites Friday for Mrs. Emma Nelson, Pioneer Resident

Funeral rites will be conducted at 2 p. m. Friday from the Trinity Lutheran church, Rev. R. M. Fjelstad officiating, for Mrs. Emma Nelson, pioneer resident of this city, who died Tuesday morning in a local hospital. Interment will be in Greenwood cemetery.

Mrs. Nelson, who has lived in this city the past forty-five years, was born in Valders, Norway, December 2, 1869, being at the time of her death 67 years of age. She emigrated from Norway to Festerville, Iowa in 1870, living there until 1884, in which year she left to make her home at Union, N. D. On November 6, 1890 she was married at Milton, N. D., to Ole H. Nelson, and in the following year moved with her husband to Hillsboro, N. D., where they resided until 1892. In that year they moved to this city, where Mrs. Nelson spent the remainder of her life.

She is survived by her husband proprietor of Nelson's grocery store, three daughters, Mrs. Rose G. Johnson of this city, Mrs. H. R. Eide and Mrs. R. K. Newcombe, both of Minneapolis; two brothers Joel Neste of Bapaume, Sask. Can., and Martin Neste of Julian, N. D., also five grandchildren. One daughter and one son preceded her in death.

Three Die in Car Mishap at International Falls

A coroner's inquest was scheduled at International Falls to determine the cause of an auto crash Sunday night near the Little Fork tourist park in which Leo Crunkhite, 36, his wife, 33, and Mrs. Dorothy Butts, 22, all of International Falls, were killed. The car in which they were riding hit a truck parked at the side of the highway and then sheared off three guard posts along the road. Montie Moe, Loman, owner of the truck, was being held for questioning.

MARSHALL GROUP REQUESTS ADDED FLOOD RELIEF AID

Board Members Confer With State Executive Council In St. Paul

A delegation from Marshall county told the state executive council Monday that 200 families in the county are "absolutely destitute" from recent flood conditions in northwestern Minnesota which were described as "worse than at first expected". They sought additional funds from the council for relief of victims.

The delegation consisted of County Attorney A. A. Trost, Warren; O. J. Johnson, Warren, member of the county board of commissioners, and A. W. Sommers, Grygla, chairman of the county board.

The five executive council members—Governor Elmer Benson, State Auditor Stafford King, Attorney General William E. Ervin, State Treasurer, C. A. Halvorson, and Secretary of State Mike Holm—heard delegations from all parts of the state present their claims for a part of the $1,750,000 set aside by the legislature as the state's contribution toward PWA projects.

L. P. Zimmerman, state relief administrator under whose supervision the funds are being expended, sat in during the all-day conference as advisor.

"Some areas in Marshall county are entirely destroyed by water", County Attorney Trost told the council. "You won't be able to get a kernel of grain. The hay has turned black."

The council a few weeks ago voted $55,000 for aid of victims in the flood area.

Williams Resident Hit by Motorcycle in City

While crossing the street Monday afternoon at the intersection of Main av. and Third st., Mrs. Harry Halvorson of Williams was struck by a motorcycle operated by Robert Schmeltzer. Mrs. Halvorson was taken to a local hospital to be treated for hip and arm bruises, leaving the institution the same day.

Two Slightly Hurt in Auto Mishap Saturday

Two passengers in a car driven by Gordon Fettig of St. Cloud sustained minor injuries late Saturday night when the Fettig car rammed into the rear of another driven by Donald Anderson, who had slowed up to offer aid to a stranded motorist three-quarters of a mile north of St. Hilaire. Fettig and two other occupants of his car were uninjured, but both automobiles sustained considerable damage. Sheriff Arthur Rambeck was called to the scene of the mishap.

LARGE GAIN SEEN IN N. W. SCHOOL '37 ENROLLMENT

Six Months School Year to Get Under Way on October 4

A new record of advance enrollment has been made at the Northwest School of Agriculture, according to figures released by Registrar J. W. Milnar. An increase of 27 per cent of paid room reservation deposits over one year ago, says Mr. Milnar, indicates that the all-time high record enrollment of 401 will be exceeded one month before the opening of school this year.

Through a rearrangement of rooms, added dormitory accommodations have been made to accommodate the increased enrollment. Many new improvements have been made in the furniture and equipment of the dormitories and classrooms.

The six-months school year starting this fall on October 4, enables the Northwest School students to assist with the peak load of work on the farm during the spring and fall months.

The tuition aid to rural school students who have completed the eighth grade work has enabled many students to attend school. Mr. Milnar reports that many high school graduates are enrolling for special work in agriculture, home economics, business, and farm engineering courses.

RECEIVE $33 CHECK FOR RATTLESNAKES

Preston.—The largest check issued in Blackhammer township as rattlesnake bounty was received last week by members of the Fillmore county barberry project who killed 66 rattlers. An experience which the men had would indicate rattlesnakes are more plentiful in the one township than barberry over the entire county. While working on the barberry project in Blackhammer township, Houston county, the men suddenly found themselves in a rattlesnake den.

Work Done by County CCC Members on Exhibition at State Fair Next Week

Exhibits of work done by Civilian Conservation Corps members from Pennington county will be displayed to the general public in a special exhibit at the Minnesota State Fair, from Sept. 4 to Sept. 11, it was announced this week by L. G. Larsen, in charge of CCC selection for this county.

The display will include examples of arts and handicrafts, models of representative work projects, charts showing educational progress and the ever-lowering accident rate for the boys, a collection of camp insignia and a motion picture showing what happens to a boy from the day he visits his county selection agent until he is discharged to accept employment.

To be housed in the southeast corner of the fair livestock pavilion balcony, the exhibit will be manned by representative enrollees and camp educational advisers. CCC members from this county are enrolled in the following companies: 710, Middle River; 1723, Walker; 2701, Northome; and 4707, Outing, Minn.

New Bid Request Adds Nearly a Million to 1937 Roads Program

State highways in seven counties and trunk highway streets in five towns will benefit as the result of a call for bids this week by N. W. Elsberg, state highway commissioner, for paving, grading and shouldering estimated to cost nearly $900,000.

Towns to benefit will be St. Paul, Moorhead, Ortonville, Montgomery, and Winthrop. In St. Paul one mile of University Ave. will be resurfaced by the state, four-tenths of a mile of Center St. in Moorhead will be paved with concrete, one and a half miles of highways 13 and 21 in Montgomery will be graded and given a bituminous surface, four-tenths of a mile in Winthrop on T. H. 15 will be graded and given a bituminous surface and concrete, while highways 75 and 12 will be bituminous surfaced through Ortonville.

CLOSED SEASON ON PRAIRIE CHICKENS AND GROUSE IN '37

Nine-Day Pheasant Season Is Set in Southern Minnesota

A nine-day pheasant season from October 16 to 24 inclusive for 52 counties in the southern and central portions of the state and a nine-day quail season from October 30 to November 7 for five counties in the extreme southeastern corner of the state were announced last week by Herman C. Wenzel, commissioner of conservation. There will be no open season on prairie chicken, ruffed grouse, sharptail grouse, mourning doves, woodcock, and chukar partridges.

Shooting will be allowed from 12 o'clock noon each day until 5 P. M. instead of until sundown as in former seasons. Commissioner Wenzel said the 5 o'clock deadline was decided upon because of the "confusion" caused by the sundown closing regulation. Many hunters unintentionally violated the law under the old ruling, he said.

The daily bag limit for pheasants is three cocks, or two cocks and one hen; the possession limit is five cocks, or four cocks and one hen; the season limit is ten cocks, or eight cocks and two hens.

For quail, the daily limit is six, with a possession limit of twelve, and a season limit of eighteen.

"Indications point to a shortage of pheasants in some localities," Commissioner Wenzel said. "The questionnaires we sent out in a few cases recommended closed pheasant seasons for certain counties.

"However, we felt it was impractical to have a few counties closed in the southern portion of Minnesota, as it would tend to concentrate shooting in the open areas with a resultant heavy toll."

Wenzel said an open season on grouse had been recommended for a few counties, but that it was considered advisable to leave the season closed for another year to give the birds a chance to recover more fully.

Wenzel emphasized that the pheasant and quail season were set after taking the average of recommendations made by sportsmen's clubs and game wardens in response to questionnaires sent out by the department.

Pheasants may be taken in season in the following counties: Traverse, Grant, Douglas, Big Stone, Stevens, Pope, Stearns, Sherburne, Swift, Kandiyohi, Meeker, Wright, Hennepin, Anoka, Washington, Lac Qui Parle, Chippewa, Yellow Medicine, Renville, McLeod, Carver, Lincoln, Lyon, Redwood, Brown, Nicollet, Sibley, Le Sueur, Scott, Rice, Dakota, Goodhue, Wabasha, Pipestone, Murray, Cottonwood, Watonwan, Blue Earth, Waseca, Steele, Dodge, Olmsted, Winona, Rock, Nobles, Jackson, Martin, Faribault, Freeborn, Mower, Fillmore, Houston.

Quail may be taken in Wabasha, Olmsted, Winona, Fillmore, and Houston counties, where a reasonable supply was reported and where the division of game and fish has distributed artificially propagated quail from the Carlos Avery game refuge.

Capitol News Review
By A. I. Harris

The New York Post in an editorial last week gave a hand to Minnesota's Governor Benson for his refusal to allow the Pinkerton Detective agency to operate in Minnesota.

"Governor Benson of Minnesota becomes the first governor of an American state to deny a license to a detective agency on the ground it allegedly took part in strike-breaking activities," the Post editorial reads. "The Pinkerton agency, which figured prominently in the LaFollette committee hearings, has been forbidden to carry on its operations anywhere in Minnesota. 'Pinkerton service consists largely of espionage carried on against organized labor,' says Governor Benson.

"We congratulate Governor Benson on his capacity for being shocked, an all-too-rare quality. Labor spy activities have been taken very calmly by most lawmakers. We wonder if there would be the same calm acceptance had labor hired detectives to wangle themselves corporate directorships and report back to the men."

A statewide Labor rally to be held on Labor Day at the state fairgrounds grandstand is being planned by an arrangements committee headed by George Garney, member of the St. Paul electrical workers union. Labor, veterans, and farmers groups throughout Minnesota are urged to participate, according to Jack Carrier, organizer for the arrangements committee. Governor Benson will speak, and an array of other prominent speakers have been invited, including Governor Philip LaFollette of Wisconsin, Senator Ernest Lundeen and Congressmen Dewey Johnson and Henry Teigan, and T. E. Cunningham, president of the State Federation of Labor.

Protest against the government's stringent position on collection of seed loans is being made by grain belt farmers this year. In resolutions sent to Washington they are pointing out that unless a different attitude is taken, the farmer will have little or nothing to show for a season of work.

Farmers with state seed loans will fare much better, but they are few compared with those who received loans from the feed and seed loan division of the Farm Credit Administration. Under provisions of the state measure farmers pay in kind"—on a bushel for bushel basis—so that they are not forced to sell at a low market price to pay for seed purchased at a high price.

First act of the newly formed consumers research division of the state department of agriculture was to "crack down" on fake butter dealers last week. Following investigation and confiscation of imitation butter on sale in the Twin Cities, Agriculture Commissioner Charles Ommodt and Fay G. Child, director of the new division, issued a warning to retail food dealers to be on the lookout for imitation butter being sold by fly-by-night dealers.

Laboratory tests showed that the substitutes had but 37 per cent fat (neutral lard) while the rest was water, salt, vegetable gum, and coloring.

Cooperation with the consumers research division in its activities has been promised by the Minnesota Editorial Association. Allen McGowan, secretary, has announced the association will aid in ferreting out advertisers promoting frauds and marketing foods and drugs detrimental to the public health.

A statewide memorial service on the first anniversary of the death of the late Governor Floyd B. Olson, Sunday, August 22, is being planned with a program arranged for 3 p. m. at the University of Minnesota Northrop Memorial auditorium. The service will be broadcast over a statewide hookup.

A guard of honor will stand at the late governor's grave in Lakewood cemetery in Minneapolis from 9 a. m. to 2 p. m. to receive and place floral tributes. Group pilgrimages from all sections of Minnesota to the grave are expected.

Services at Northrop auditorium will consist of organ music and hymns by a Norwegian group chorus. Representatives of three religious denominations, Catholic, Protestant and Jew, will speak and a tribute to the late governor will be paid by the present Governor Benson.

Northern Minn. Doctors Headed by Crookston Man

Dr. J. F. Norman, Crookston, was elected president of the Northern Minnesota medical association at the closing session in Virginia Saturday of the organization's annual convention. Dr. O. O. 1937 MINNESOTA STATE FAIR WILL OPEN ON SATURDAY

Management Is Preparing to Accommodate 700,000 Visitors

Minnesota's state fair will be unveiled Saturday. Completely revamped in all departments with new buildings, new exhibits and new attractions, the 1937 exposition gives promise of attracting more than 700,000 visitors for a new, all-time record.

Improvements costing approximately $1,000,000 have completely transformed the physical appearance of the grounds. The new horse and poultry pavilions have replaced 14 old wooden livestock barns that served for 42 years. The new ramp to the grandstand, new parking areas swelling the total accommodations to 29,000 cars and the construction of new streets, sewers, gas, light, curbs and gutters, provide Minnesota with the finest fair plant in America.

Exhibitors, concessionaires and workers today are moving at top speed placing displays and getting buildings ready for the opening at 6 A. M. Saturday. Exhibits valued at $25,000,000 rank the 1937 exposition the greatest in history.

The entertainment attractions will reach a new peak. Headlining the mammoth night grandstand production state fair revue will be the Aztec Indian Flying Dance, direct from Mexico. Whirling head-long after diving from the top of a 100-foot pole, the age-old ceremonial dance of the Voladores will be presented for the first time at any Fair. This is only one of the 34 aerial and acrobatic acts that are interwoven into the spectacle, which opens Saturday night.

Judging in several departments will get under way Saturday morning. The first of a series of events to determine the American Dirt Track auto racing championship will take place in the afternoon.

Saturday is Key Day and thrift tickets offering a $1.20 value for 50 cents will be good for admission to grounds, admission of auto or a visit to the Hopi Indian Village, a seat for the afternoon auto races and for two rides on the midway.

State Savings and Loan Groups Growing Rapidly

Assets of the Federal savings and loan associations in Minnesota jumped from $17,578 to $25,767,590, an increase of $8,188,842, in the twelve months ending August 1, it is shown in reports received today by the Federal Home Loan Bank Board. The reports cover the activities of 29 associations on August 1, 1936, and 31 on August 1 this year. During the same period, savings invested in these institutions rose from $9,736,977 to $11,399,506, the increase being $1,662,589. Savings invested in these and all Federals in the United States, and in many state-chartered associations, are protected through insurance up to $5,000 on each account by the Federal Savings and Loan Insurance Corporation, a $100,000,000 governmental agency.

LAD SLEEPS ON WHEN PLASTER COMES DOWN

St. Peter.—Donald Dranttel of Travers des Sioux is a mighty "hard" sleeper. He proved this when lightning struck the Dranttel home, passed through the ceiling of the room in which Donald slept and passed out thru the gable over the room. Donald did not waken, although the lightning knocked down most of the plaster in the room and a good share landed on him. Mrs. Dranttel found her son the following morning, sleeping in his plaster covered bed. The lightning struck a light pole outside the house and followed the wire in, passed thru the wires in the roof and out. Plaster was loosened on nearly the entire upper floor and the electric meter and all lights and connections were burned out.

WYANDOTTE

Services for Iver Holstad who died on Wednesday, August 25, were held on Saturday at the Clearwater Lutheran church with Rev. M. L. Dahle officiating. Burial was at the Clearwater cemetery.

Iver O. Holstad was born at Perry, Iowa Co., Wisconsin on June 12, 1876. With his parents he moved that same year to Iowa and later to Grafton, N. D. In 1901 they moved to this community, Mr. Holstad sr. filing on the homestead where the family have since resided. Iver Holstad was active in community affairs, serving as township supervisor and assessor; secretary of the Hazel Co-operative creamery, manager of the local shipping association, clerk of his school district and secretary and sexton of the Clearwater Lutheran church.

The floral offerings and memorial gifts attested to the esteem of friends and acquaintances. Surviving relatives are two sisters: Ida of Portland, Ore and Mrs. Clara Erickson of Duluth and one brother Alfred at home. His parents, two sisters and one brother preceded him in death.

Mr. and Mrs. Harold Gross and little son of Chicago arrived here on Tuesday to visit the later's parents, Mr. and Mrs. Peder Kolseth.

Out of town relatives who were here to attend the funeral of Iver Holstad were his sister: Mrs. Emil Erickson of Duluth; Helmer Halvorson, daughters Irene and Mrs. Arthur Wiener of Mahnomen, Mrs. Bertha Olson and son Oscar of East Grand Forks, Mrs. Hartick, Manus Hagen; Albert and Ivar Iverson of Grafton, N. D.

Irene and Helen Swenson of Thorhult arrived here on Sunday to visit a week with their mother, Mrs. Hulda Swenson who is employed at the L. E. Wilson home.

Mrs. Emil Erickson returned to her home in Duluth Wednesday after being here to attend the funeral of her brother, Iver Holstad.

Mrs. Chas Julin of Fort Francis, Ont., Can., visited last week with her parents, Mr. and Mrs. Anton Peterson, and with relatives in Thief River Falls.

Mr. and Mrs. Harold Gross of Chicago who are visiting at the Kolseth home, accompanied by Carl Kolseth spent Saturday on a pleasure trip to Winnipeg.

LOCALS SPLIT WITH BEMIDJI IN GOOD GA[illegible]

First Game Won by Thief River in Twelfth Inning by Score of 8 to 7

SAHL HOLDS VISITORS TO ONLY EIGHT HITS

Charlton Allows Only Four Hits to Win Easily for Bemidji on Labor Day

Thief River Falls and Bemidji split the Labor Day series Sunday and Monday, the locals winning the Sunday contest in the twelfth inning with an eight to seven score, and the Monday game going to Bemidji with a score of six to one. This series concluded the season's schedule for Thief River and gave the fans two nice games as a farewell exhibition.

In the first game of the series Sunday afternoon, Thief River piled up three counters in the eighth inning to tie the score at 6 to 6, forcing the game into extra innings. Each team scored once in the tenth and Thief River threatened in the eleventh. The winning run was pushed over in the twelfth when Urdahl scored on a bunt by Lee.

With the exception of the seventh inning, Sahl had little trouble with the visitors, getting thirteen strikeouts and allowing only eight hits. He looked bad in the seventh. Lawrence singled and Simons grounded an easy one to Sahl who threw the ball into center field, advancing the runners to second and third. What might have been a double play proved to be the start of a five run rally. Lloyd doubled over third, scoring Lawrence and Simons. Auger grounded out, advancing Lloyd to third. Halseth got a walk and Rush doubled, scoring Lloyd and Halseth. Rush came in on a single by Dexter. Two singles, two doubles and a walk along with a couple of bad throws resulted in five runs. With this inning out of his system, however, Sahl settled down by striking out two men in the eighth.

Bemidji scored its run in the first on a single and a couple of errors. The score in the tenth was registered by Lloyd on singles by Auger and Halseth.

Auger went the full course for Bemidji, striking out thirteen and allowing fifteen hits in the twelve innings. Thief River did its first scoring in the fourth. Sahl started the action with a single, DuChamp walked, Lorentson singled scoring Sahl, and Dempster singled scoring DuChamp. Lorentson scored on an error by Auger when Ekeren bunted. The next rally for the home team came in the eighth when the score was six to three against them. Auger retired the first two batters when Rosendahl, batting for Eide, singled. Ekeren singled and went to second when Rosendahl beat out a throw to

G. W. WEBSTER IS PRESIDENT OF SOO LINE

C. T. Jaffray Made Chairman of Board Effective September 1

George W. Webster, who started his railroad career at the age of 15 as a clerk, was elected president of the Soo Line at a special meeting of the board of directors last Wednesday. For a period of 51 years he has been employed by the Soo Line of roads now affiliated in its system. In recent years he has served as executive vice-president in charge of fiance.

C. T. Jaffray, retiring president, which office he has filled since 1924, was elected chairman of the board of directors. The changes were made effective September 1.

Murphy Arrested For Warehouse Burglary

James Murphy was arrested last night by local police on a warrant that was issued last spring charging him with burglarizing the Minneapolis Brewing Co. warehouse on the Soo tracks. John Dahl, who pleaded guilty to the charge, was committed to St. Cloud. Fred Beringer was the third man implicated and at the present time he is at liberty under bond, having been bound over to the District Court. At a hearing in municipal court this morning Murphy was bound over to District court and bail was fixed at $1,000.

Rush Construction On Resettlement Farms

[illegible] and Korstad [illegible] For City [illegible]ampionship

Marvin Benson, defending champion, and Bill Korstad, Macalaster College tennis captain, will battle it out for the City Tennis laurels as a result of their victories in the semi-finals. Benson defeated Everett Erickson 6-1, 6-0 while Korstad won a hard fought match from Lincoln Arnold 6-4, 6-4. This year marks the first that Arnold has not played in the finals, he and Benson having met in the finals the last three consecutive years. Benson is favored to retain the title but faces a hard match with Korstad whom he defeated in last year's tournament semi-finals.

The championship match will be played at a future date due to Korstad's absence from the city.

Hail Breaks Many Lights In Greenhouse

Martin Bothun estimates that more than 200 lights were broken in his greenhouse by the hail which struck here yesterday evening. No other damage has been reported in spite of the unusually large size of the hailstones. F. B. Curtis measured one hailstone that fell in his yard near the roundhouse that measured nearly 5½ inches in circumference. One chunk of ice weighed at the Pharmacy tipped the scale at slightly more than 1½ ounces.

Starring Constance Bennett and Cary Grant, the uproarious novel, "Topper", will be reproduced in the form of a feature length film comedy at the Avalon theatre Sunday and Monday, with a midnight prevue Saturday evening at 11:15. The outstanding cast also includes Roland Young in the title role, Billie Burke, Alan Mowbray, Eugene Pallette and others.

Bodies To Be Moved From Thief Lake And Mud Lake Cemeteries

A contract has been awarded by the state conservation commission to N. B. Ellingson of Warren to remove the bodies from the Mud Lake and Thief River cemeteries, the lands having been taken over by the federal government. Approximately thirty bodies will be moved to cemeteries in Middle River, Holt, Grygla, Silverton and Thief River Falls.

Hope to Have All Buildings Enclosed by First of December

Construction on the remaining resettlement farms is being rushed in the hope of having the rough work completed and all buildings enclosed by the first of December. It will then be possible to proceed with the inside work during the winter months and have the 111 farm units completed for occupancy by spring.

Construction crews are now putting the finishing touches on buildings near Thief River Falls and have started on the twelve units to be built near Oklee. When these are completed the scene will be shifted to Warren where sixteen sets of farm buildings are to be constructed and from there to Goodridge, Grygla and Gatske for the remaining twenty-six.

Jack Hurley, in charge of construction, has speeded up the operations and under his direction the work-hours per unit has been reduced nearly fifty per cent. At the present time the monthly payroll of the resettlement project is approximately $60,000 and it is expected that it will continue at about this figure until the first of December.

SEEK NOMINATIONS IN QUEEN CONTEST

Will Give $75 Wrist Watches To Corn Queen and Miss Thief River Falls

Two queen contests, one for young ladies living within the city limits and the other for young ladies in the rural territory, are being started this week by the Junior Chamber of Commerce as a part of the Corn Palace Days celebration to be held here October 7, 8 and 9. The young lady from the city will be designated Miss Thief River Falls. The winner of the rural contest will be the official corn queen of the celebration. Both winners will receive $75 wrist watches.

The contest is open for nominations this week and all nominations must be in by Wednesday of next week. Nomination blanks may be secured at the stores in Thief River Falls and may be deposited at the stores or mailed to the chairman of the contest committee, Judge Lincoln Arnold.

The contests will be determined by the popularity of the candidates and votes may be obtained with purchases at the stores. With each $1 purchase the buyer will receive a 100 vote ticket to be cast for any of the candidates in either contest. Names of the candidates will be announced next week.

Committees named by the Junior Chamber of Commerce to handle these contests are, Judge Lincoln Arnold, general chairman. Finance committee, Lloyd Bennes, chairman, Richard Mabey, James Newland and Arthur Myrum; Ticket committee, John Arnold, chairman, Gordon Bondy, and Jack Petit; Dance committee, Fred Fredrickson, chairman, Kenneth Lindberg, Lawrence Bjorkman and Orvis Olen.

Arena Fall Activities To Start September 18

Oscar Stenegaard and his original WDAY Barn Dance Orchestra of Fargo have been chosen by the arena management committee to open the fall activities in the Winter Sports Arena, Saturday Sept. 18th. This will be the first of a series of Saturday night dances beginning September 18th and ending October 30th with a grand Halloween jamboree on that date.

The huge arena floor, the largest and smoothest in the state, has been groomed to perfect condition for the fall opening. Mr. Stenegaard and his orchestra will present both new and old time dance music.

The arena has been popular with dance goers during the spring and summer dances and a large crowd is assured for the fall activities there. A. B. Stenberg will act as chairman of dances for the Arena management.

Kicked In Face By Horse; Seriously Hurt

Orville Farstad, about nineteen years old, of Strandquist, was rushed to a local hospital this week seriously injured by being kicked in the face by a horse. His condition is not critical.

DRAINAGE AND FLOOD RELIEF ARE PROBLEMS

Smiley Residents Seek Diversion of Overflow From The North

TOWNSHIPS TO HANDLE FLOOD WORK RELIEF

County Engineer to Organize Work Projects For Flood Victims

Drainage and flood problems occupied much of the time of the county board at its regular session Tuesday. A group of Smiley township farmers appeared before the board in the morning seeking adequate drainage to control waters that now flood their lands from the north. Leon Archibald, supervisor of flood work relief in this territory, explained the program of the State Relief Administration and asked the county to set up an organization to handle the flood work relief in the county.

Smiley township farmers who have suffered heavy losses this fall because water flowing in from the north has flooded their lands, presented a petition to the board asking the state highway department to build an offtake ditch from the Banner corner on trunk highway No. 1 south to the river, a distance of approximately three and one-half miles. This ditch would provide a run-off for the water that now flows out of the highway grade ditches and spreads over the country-side in wet seasons.

In response to this and other requests for better drainage, the board adopted a resolution, joining with other counties in this section of the state, asking the state, through appropriate departments, to make a survey of all judicial, county and other ditches, "to the end that adequate drainage and flood water protection may be afforded now and for the future." It was hoped that by concerted action it might be possible to secure a federal grant for the purpose of improving the entire ditch system in this territory.

Acting upon the recommendation of Mr. Archibald of the State Relief Administration, the board instructed the county engineer to work with the state relief agents in organizing flood relief work in the county. Such work projects will be handled through the township organizations and money will be disbursed by the county auditor. The county will be reimbursed for such expenditures by the state. The board also passed a resolution asking that work on the Red Lake River development project be started as quickly as possible.

HARDWARE MEN OF DISTRICT TO ASSEMBLE HERE

L. H. Bulach Will Address Meeting at Evelyn Hotel Wednesday Evening

Hardware men of Northwestern Minnesota will hold their annual meeting here next Wednesday night, opening their session with a dinner at the Evelyn Hotel at 6:30 o'clock. L. H. Bulach of the National Cash Register company, recognized as an authority on merchandising and selling, will address the gathering.

C. J. Christopherson of Minneapolis, manager and treasurer of the Minnesota Retail Hardware Dealers Association, will be present and will preside. It is estimated that in the neighborhood of a hundred hardware dealers and employees will attend the meeting.

Marshall County Agent To Address Garden Club

R. A. Rierson of Warren, Marshall county agent, will be the guest speaker at the regular meeting of the Thief River Falls Garden Club next Monday evening in the Civic and Commerce association rooms in the auditorium. Mrs. L. G. Larsen, president, announced this week. Mr. Rierson will address the group on the care and development of bulbs.

County To Buy Snow Removal Equipment

Pennington County is asking for bids on snow removal equipment, bids to be opened October 4th. This action was decided upon by the county board at its regular meeting Tuesday.

RURAL CREDIT REPORTS BRISK FARM DEMAND

Nearly a Hundred Farms Sold by Local Office So Far This Year

EXPECT TO SELL THAT MANY MORE THIS FALL

Rehabilitation Corporation is Buying Land For Mud Lake Farmers

J. L. Wold of the Rural Credit Department reports a brisk demand for land in this territory and states that in the neighborhood of a hundred farms have already been sold through the local office so far this year. He expects the buying to continue and hopes to put another hundred farms back into the hands of private owners by the first of the year. The territory covered by the local office includes Marshall, Pennington and Red Lake Counties.

The best customer for Rural Credit lands is the Rehabilitation Corporation which has already bought five farms. These farms have been re-sold to farmers who have been forced to move out of the Mud Lake area. Several more places are in the process of negotiation and on some of these it is expected sales will be completed in the near future. Nine Rural Credit farms have been sold direct to former Mud Lake area residents. Twelve of the state's farms in that area were sold to the government and on five more, loans were liquidated when the government took possession of the land.

Crop conditions in western Marshall county have been very favorable this year, Mr. Wold reports, and the liquidation in that part of the county should be good. Income from the western half of the territory managed by the local office will show a substantial gain over recent years and will offset losses in the eastern portion of Marshall and Pennington Counties, Mr. Wold estimates.

The Rehabilitation Corporation has already bought thirteen farms which it has re-sold to farmers forced to move out of the Mud Lake area, and seven more deals are pending, according to Burton Olson, in charge of this department. Under the direction of this organization, farmers select their own farms and the financing is handled by the Rehabilitation Corporation.

Relief Agent Urges Farmers To Save All of Their Bright Straw

The area effected by the flood will be badly in need of good bright straw to use as roughage for their horses, according to Walter E. Johnson, Field Supervisor of the State Department of Agriculture, in charge of its Flood Relief Office at Thief River Falls, who requests that no bright straw in the communities adjacent to the Flood Area be burned, indicating that his office would be willing to buy such straw at a reasonable price.

Mr. Johnson said that much bright straw will be needed in the effected communities to be used as roughage for horses, the hay being very musty and unfit for horses especially.

The appeal is made to all communities within a radius of twenty miles of the flood area to refrain from burning straw that would be fit for roughage. Anyone having bright straw for sale should get in touch with Mr. Johnson at the Rural Credit office in Thief River Falls.

CORN WANTED

Postmaster Andy Anderson is still a couple a hundred bushels short of the mark in his quest for ripe corn for the Corn Palace, construction of which will be started next week. He needs all varieties for working out the various color schemes and urges farmers to get in touch with him at once and let him know how many bushels they will be able to supply. Market price will be paid or if farmers wish to donate a bushel or two, all donated corn will be sold when no longer needed and the proceeds of such sale turned over to the 4-H Club work. Get in touch with Mr. Anderson at the post office or drop a card to "Corn" Anderson, Thief River Falls, and let him know what you will be able to do.

Water Level Lowered Four Feet Here Sunday

Is Dropped to Enable Building of Cofferdam for Power House Repairs

Four feet of water was drained out of the reservoir above the dam Sunday in order to drain the river below the dam Monday when a cofferdam was constructed at the base of the old power house within which a new retaining wall is being built. Flood waters this summer had washed out the base under the old power house to such an extent that the east wall was threatened. The new re-enforcement will strengthen the wall and also act as an apron to guide the flow from the west gate.

With the construction of this new retaining wall, all of the remains of the old wooden flumes will be removed, greatly improving the appearance of the dam and power house. Ole Irgvold, superintendent of the plant, estimates that these old flumes were installed nearly forty years ago, the power plant having started operating in the year 1900.

While the open gates lowered the water level above the dam four feet Sunday afternoon and night, the level came up quickly again when the gates were closed at seven o'clock Monday morning. Within a period of five hours the level came up two feet and by Monday night the reservoir was back to its recent normal high. At its low point Monday morning the level was down to about the mark maintained a year ago.

Judge M. A. Brattland Returned Last Night From European Visit

Judge M. A. Brattland returned last night from a two month vacation trip to Europe where he traveled through Norway, Sweden, Denmark, Finland and Russia. Most of the journey was spent with a study group organized by the Open Road Travel Bureau and conducted under the direction of Prof. Hartley W. Cross of Springfield, Mass. "The purpose of this group", Judge Brattland said in commenting on his trip, "was to study social, political and economic conditions in the countries visited and especially to investigate as to the progress made by co-operatives. Incidentally we had many opportunities for sight-seeing."

One of the interesting adventures of the journey enjoyed by the Judge was an airplane trip from Moscow to Stockholm. On his reactions to the progress of co-operatives in the countries visited he said:

"We spent five days in England and were highly favored by a number of the co-operative organizations whose guests we were and who gave us access to the different departments of their organization. The English co-operatives are truly the aristocrats of co-operation. We followed up the same inquiries in Denmark and also the Folk High-schools at Askov and educational institutions operated in conjunction with the co-operatives. Our group was royally treated while in the countries visited, but we were especially impressed by the work of these popular Danish schools. It is impossible to make any preference in speaking of the hospitality shown us by the co-operatives of the different countries.

"From Denmark we moved to Sweden where we received the same fine treatment and hospitality. In magnitude of operations the Swedish co-operatives are next to the English. The range of their activities is astonishing. Thereupon we gave the co-operatives at Helsingfors, Finland, the once-over and it becomes easy to understand why the Finns in America are the leaders in co-operation."

Local Sportsmen Will Practice Trap Shooting

Preparatory to the duck and pheasant seasons, local sportsmen will practice at trap shooting on Friday evenings, September 10, 17 and 24th and October 1st and 8th.

Shooting will start at 5:30 and continue until darkness on the trap grounds located north of Bothun's greenhouses. 12 gauge trap loads will be available and the cost of a round of 25, including shells, targets and running expenses will be $1.00 it was announced. Those wishing to use guns of other gauges must furnish their own shells.

Everyone is welcome to participate and beginners will be given special help and attention by experienced shooters.

Represent County

Dorothy Robarge, daughter of Mr. and Mrs. V. F. Robarge of this city, and Conrad Engelstad, son of Mr. and Mrs. Axel Engelstad of Rocksbury, who are representing Pennington County in the state health championship contest at the State Fair this week.

SCHOOL OPENED TUESDAY WITH ALL VACANCIES FILLED

Enrollment In Grades Shows Increase Over Figures Of A Year Ago

With the election by the board of education at a special meeting Saturday of Hilding G. Peterson of St. Paul to fill the vacancy created by the resignation of Kyle Montague from the high school faculty, all teaching positions were filled for the opening of school Tuesday.

Mr. Peterson, who will be English IV instructor, debate coach, and advisor to the Progress staff, is a graduate of Johnson high school, St. Paul, and Macalester college, and during his college course has had extensive experience in speech activities. He was a member of the Macalester hockey team which last year won the Minnesota Inter-collegiate championship.

The school year opened officially Monday with a general faculty meeting at 2 p. m. which was followed by a reception given by the board of education for the faculty members and wives of faculty members.

Enrollment at the opening of school Tuesday totaled 1413 pupils, eleven more than the first day figures of a year ago, with a slight increase anticipated within the next few weeks. Of this total, 648 pupils were enrolled in the high school and teacher training department, 201 in the Central school, and 224, 208, and 232, in the Knox, Northrup and Washington schools, respectively. In commenting on the anticipated increase, Mr. Bye stated that the absence of 4-H club members attending the state fair, and the earlier opening date this year will mean that within the next few weeks more new students than usual will be added to the opening day enrollment.

Start Construction Of Bray-Sanders Road

Construction on the eight miles of road to be graded in Bray and Sanders township is getting under way this week. Ivan Gee, contractor, moved equipment on the job Tuesday and expected to start moving dirt yesterday.

Pets Of All Types To Be Exhibited In "Pet Parade"

Dogs, cats, lambs, rats, birds and possibly even a few gentle cows will be exhibited in the "Pet Parade" which is being sponsored by the Drum Corps as a part of the Corn Palace Days entertainment. Any and all kinds of pets are eligible for the competition and many prizes will make the contest just as worth while as it is interesting, Mrs. Emmett Wright, in charge of arrangements assures us.

All entrants in this parade will receive a prize, Mrs. Wright says, but in order to limit the competition to some extent an entry fee of ten cents will be charged. Several school bands will provide the music for the parade which will be held Saturday afternoon, October 9.

PLAN FOR CORN PALACE DAYS OCTOBER 7-8-9

Three Day Celebration Will Feature Variety of Entertainment

CORN QUEEN WILL BE CROWNED LAST NIGHT

Jr. Chamber of Commerce Will Conduct Popularity Queen Contest

Committees named at a meeting held Saturday noon at the Evelyn Hotel have been busy during the week making arrangements for the Corn Palace celebration to be held here Thursday, Friday and Saturday, October 7, 8 and 9. The local Legion post, the Junior Chamber of Commerce and the Auxiliary Drum Corps will co-operate with the Civic & Commerce Association in handling entertainment features of the festival.

A popularity contest and the election of a Corn Queen will be conducted by the Junior Chamber of Commerce. This contest will close the last day of the celebration. Entertainment Thursday and Friday evenings will be arranged by the Legion and the Auxiliary Drum Corps will sponsor a pet parade to be held Saturday afternoon.

Plans for the construction of a Corn Palace have been prepared by Russell Anderson. The entire front of the Arena will be covered and Mr. Anderson expects to start building the frame early next week. Roy Larsen is chairman of the committee on construction, other members being M. G. Peterson, Roy Oen, Carl Kretzschmar and Leonard Olund.

Assembling of the corn and other material to be used in the building is proceeding nicely under the direction of Andrew Anderson who reports that he has received a fine response from the growers of this territory. Mr. Anderson is also chairman of a corn contest committee other members being Howard Grew and Robert J. Lund.

Other committees provided at the meeting Saturday are,

Finance, Walt Jung, chairman, Paul Lundgren, A. F. Berge, Leon Kalher and George Werstlein.

Decorations, O. C. Paulson, Chairman.

Music, E. F. Wright, Chairman, R. Riggs.

Program, Frank Binkel, Chairman, Morris Bye, W. W. Prichard, Joe Maruska.

Publicity, Alex Campbell, chairman, A. B. Stenberg.

LEE WHIPS GRID SQUAD INTO SHAPE FOR FIRST GAME

Meet Red Lake Falls in Night Game Here Next Friday Night

Coach George Lee is giving the Lincoln High football squad its first scrimmage tomorrow night and for the next few days will work the players hard to put them into condition for the first game to be played here Friday night of next week. With two week's practice behind them, the candidates for position on the team are becoming well seasoned and are standing up nicely under the harder work.

Thirty-five students have reported for practice so far, fourteen of these being letter men. Several of the youngsters are showing much promise, Lee reports, and may give a few of the letter men an argument for position on the team. Loren Stadum, 170 lbs. is probably the outstanding prospect for the line which will average close to 160 lbs. The backfield is lighter and probably will not weigh more than 150 lbs. average.

Applications For Feed Grants Will Be Taken

A representative of the State Department of Agriculture will be at the following places to take applications for feed grants, Walter E. Johnson, flood relief supervisor, announced this week:

Inga Stenberg And Elmer B. Berg Wed

Miss Inga Stenberg, daughter of Mrs. Marie Stenberg of this city and Elmer B. Berg of this city, son of Mrs. Anna Berg of Plummer, were married at a quiet ceremony at the parish home of Rev. E. L. Tungseth Saturday afternoon. Rev. Tungseth read the service at two o'clock. Attendants were the bride's brother and sister-in-law, Mr. and Mrs. Otto Stenberg.

Immediately following the ceremony Mr. and Mrs. Berg left to spend the week-end at Winnipeg, returning to this city Monday evening.

Upon their return they were honored by the bride's mother at a five o'clock buffet dinner at which thirty-five guests, relatives and close friends of the bride and groom, were present. A profusion of lovely garden flowers decorated the house for the occasion.

Mr. and Mrs. Berg will be at home at 201 Croocker Avenue So. the latter part of this month. Mr. Berg is a night patrolman in this city. His bride is employed at Lein's.

LOIS NELSON HOSTESS AT DINNER PARTY FRI.

Miss Lois Nelson entertained seven close friends at a dinner party at her home Friday evening as a final get-to-gether of the group before Miss Nelson left for school. Miss Nelson left Tuesday morning for Evanston, Ill., where she will attend the National College of Education. A two-course dinner was served at six-thirty o'clock, flowers and lighted tapers being used as decorations. Covers were placed for the Misses Adele Holmstrom, Audrey Anderson, Annette Simonson, Vivian Ward, Helen Granum, Helen Rice, Brunell Erickson, and the hostess.

Royal Arch Masons To Conduct Sessions Here October Fourth

Royal Arch Masons of Minnesota, North Dakota and the Province of Manitoba will meet here Monday, October 4th, as guests of the local Chapter of the order. Degree teams and officers of chapters at Crookston, Grand Forks, Grafton and Winnipeg will take part in the ritualistic and degree work. The Grand High Priests of the Minnesota, North Dakota and Manitoba jurisdictions will be present, according to Paul A. Lundgren, who, with Frank Rinkel, is making arrangements for the gathering. More than a hundred and fifty visiting members are expected to be present at the afternoon and evening meetings.

Mae Day, E. P. Burstad Are United in Marriage

Miss Mae Day and Even P. Burstad were united in marriage in this city on Thursday of last week. Judge Andrew Bottelson officiated. Mrs. Burstad, a member of the Bergen troupe, left Saturday with the troup on a western engagement expecting to return to this city in a few weeks, after which the Burstads will be at home at 501 South Tindolph Avenue.

MRS. ORIN LYNDE IS HOSTESS FOR DAUGHTER

Mrs. Orin Lynde was hostess at her home last Thursday afternoon for her daughter Jonette in celebration of Jonette's ninth birthday anniversary, which occurred August 28 while the Lyndes were attending a convention at Virginia. Nine guests were present including Jonette Lynde, honor guest, Mary Ann Grendahl, Donna May Twete, Colleen Engelstad, Katherine Bagmoen, Alice Lind, Betty Ann Brahs, Jean Brahs and Ralph Lynde. The guests spent the afternoon playing games, balloons and candy favors being provided for the guests. A lovely birthday luncheon carried out in yellow-and-green, including a cake with lighted candles, was served by Mrs. Lynde. Jonette received lovely birthday gifts.

Minneapolis Visitors Entertained In City

Mrs. Harold Lundin and her sons Paul and Lynn of Minneapolis, who visited with relatives and friends here last week, were entertained at informal afternoon parties at various homes throughout the latter part of the week.

On Thursday Mrs. T. S. Brekke entertained in honor of Mrs. Lundin and her sons, other guests being Mrs. Nels Gunderson, Miss Thea Gunderson and Mrs. Harold Rasmussen.

Mrs. Andy Anderson was hostess for Mrs. Lundin Friday afternoon. Guests were Mesdames Lundin, O. F. Halkin, John Lind, T. S. Brekke, and Harold Rasmussen, and the Misses Manie Wise and Ione Halkin.

Concluding the group of parties, Mrs. Carl Melby entertained Mrs. Lundin, Mrs. Rasmussen and Mrs. H. N. Elofson at her home Saturday. Mrs. Lundin and her two sons returned to their home in Minneapolis Monday morning.

Ruth Theresa Peterson, Gordon Leigh Andre Wed

Cathedral candles in tall candelabra, palms, and baskets of gladioli decorated Bethlehem Lutheran church, Minneapolis, for the marriage on August 24 of Miss Ruth Theresa Peterson, daughter of Mr. and Mrs. Joseph Peterson of this city, and Gordon Leigh Andre, son of Mr. and Mrs. Charles J. Andre of St. Paul. Rev. O. S. Helgstad presided at the service which was read at 4 p. m.

"The Bridal Chorus" from Lohengrin was played for the wedding party's processional by Kenneth Johnson, who also played Mendelssohn's Wedding March for the recessional.

The bride, who entered on the arm of her father, wore a white taffeta faille gown and a shoulder-length veil fastened with a cluster of sweetheart roses. Her only jewelry was a string of pearls, a gift from the groom, and her bouquet was of gardenias, Johanna Hill roses and white swansonia.

The bridesmaid, Miss Mabel Hodgson of Minneapolis, was gowned in pink mousseline de soie and carried Briar cliff roses and blue larkspur. The groom and his attendant Wilbur H. Andre, a brother, were attired in white flannel suits. Ushers were the groom's brother, Russel C. Andre, and George Lee Smith of St. Paul.

After a reception at the home of the groom's parents, the bride and bridegroom left for Indianapolis, Ind., where they will reside.

Among the out-of-town guests present at the wedding and reception were the bride's parents of this city.

Eastern Star Holds School of Instruction In This City Wednesday

Members of the Fosston, Argyle, and Warren chapters of the Eastern Star, together with members of the local chapter, convened in this city Wednesday for a school of instruction, at which all of the work of the organization was exemplified by the various chapters. Mrs. Olga Anderson of Cambridge, Worthy Grand Matron, conducted the school. The opening session commenced at 3 p. m. and was followed by supper served at the Hotel Evelyn. The group reconvened for the evening session after the supper hour recess. Distinguished visitors present, in addition to Mrs. Anderson, were Mrs. Maurita Mink, of Crookston, Grand Warder, and Mrs. Alma Femrite, Worthy Matron of the Crookston chapter. The out-of-town representatives of the three visiting chapters numbered approximately fifty.

Randall-Koglin Vows Spoken in Minneapolis

The nuptial vows of Miss Vera May Randall, daughter of Mrs. Maggie Randall of this city, and Reynold W. Koglin, son of Mrs. Marie Koglin, also of this community, were spoken at Minneapolis at 10 a. m. Saturday. Rev. J. T. Dixon, pastor of Foss Methodist church of Minneapolis, and formerly of this city, read the service. The bride's brother and sister-in-law, Mr. and Mrs. Ross Randall of this city, were the attendants.

For her wedding, the bride had chosen a frock of cocktail blue taffeta and accessories of navy. Her costume was complemented by a corsage of pink roses, gladioli, and baby's breath.

Mr. and Mrs. Koglin returned to this city Monday. Mrs. Koglin is a graduate of Lincoln high school with the class of 1931. Mr. Koglin was graduated from the Milwaukee school of Engineering last February.

Present at the wedding were Mr. and Mrs. Ross Randall and family Mrs. Maggie Randall, and Mrs. Marie Koglin, all of this city.

Miss Ruth Jacobson's Betrothal Announced On West Coast Aug. 25

Mr. and Mrs. S. A. Stevenson of Eugene, Ore., entertained 24 guests at a formal dinner August 25 when they announced the engagement of Miss Ruth Jacobson, daughter of Mr. and Mrs. P. J. Jacobson of this city, to their son William A. Stevenson. No definite date has been set for the wedding.

Miss Jacobson, a graduate of Lincoln high school, has for the past year been employed as supervising technician in the Western Clinical and X-ray Laboratories in Eugene.

Mr. Stevenson, a graduate of Oregon State College, School of Pharmacy, is now a student at Reid college, School of Medicine.

Ole Offerdahls Feted On Silver Anniversary

In honor of their silver wedding anniversary, Mr. and Mrs. Ole Offerdahl were feted by Mrs. Offerdahl's brother-in-law and sister, Mr. and Mrs. Adolf Eklund at a buffet supper at the Eklund home Tuesday evening. Supper was served at eight o'clock, a lovely bridal cake gracing the buffet. Decorations were in pink and silver. The guests of honor were presented with beautiful gifts in remembrance of the occasion. The list of guests included Mr. and Mrs. Ole Offerdahl and their sons Clarence of Fosston, Melvin, and Raymond; Mr. and Mrs. Jens Offerdahl of Middle River, Knute Knutseth, Mrs. Clarlina Terrian, Arthur Terrian, Miss Emma Rhodegard, Miss Carolyn Rhodegard, and Miss Hilda Wilson.

EDLA, MENDELL ERICKSON HOSTS AT FAREWELL PARTY

Miss Edla Erickson and Mendell Erickson entertained seventeen guests at their home last Thursday evening in honor of Miss Vivian Skoglund, Miss Ruth Hanson and Robert Hanson, all of whom left during the week-end to attend school. Miss Skoglund left Saturday to enroll at Swedish hospital, Minneapolis, Miss Hanson is attending Moorhead State Teachers college, and Mr. Hanson returned to Chicago Sunday to resume his study at Moody Bible Institute. Games and refreshments were provided for the guests' enjoyment. Present in addition to the honor guests were Miss Mae Lundquist, Miss Wahlie Berglund, Miss Rachel Hanson, Miss Edith Skoglund, Miss Hazel Finsand, Rodney Brodin, Howard Swandstrom, Lee and Dave Hanson, all of this city, and Miss Dorothy Ulvan, Miss Mae Carlson, Miss Edith Anderson, Paul Anderson and Verner Anderson, all of Roseau.

Miss Edith Mickelson Becomes Bride Of Waukegon, Ill., Man

Miss Edith Mickelson, daughter of Mr. and Mrs. Frederick Mickelson of Belgrade, became the bride of Randolph G. Struxness of Waukegon, Ill., son of Rev. and Mrs. Edward Struxness of Belgrade, at high noon nuptials at the close of services in Crow River Lutheran church at Belgrade Sunday. The groom's father read the service.

The "Bridal Chorus" from Lohengrin and Mendelssohn's Wedding March were played by the groom's sister, Miss Valborg Struxness of Belgrade, for the wedding party's processional and recessional, and as part of the service, Rev. Struxness sang "Ilecauve". The bride entered on the arm of her father, who gave her in marriage. She was attended by her sister Miss Ruth Mickelson, head of the kindergarten department of the local schools, as maid of honor. Melanchton Struxness was his brother's groomsman.

Following the ceremony a wedding dinner was served at the Mickelson home, covers being placed for the immediate families. A motor trip to Waukegon, Ill., where they will reside, constituted the wedding trip of the couple, who left Monday for Waukegon. They will be at home at 318 Sheridan Road after September 15.

Mrs. Struxness was employed as a nurse at the St. Luke's hospital in this city for a year, leaving this city slightly over a year ago to assume a position at Waukegon.

HANDICRAFT CLASSES TO ORGANIZE MONDAY

An organization meeting of the Handicraft class will be held at the Civic and Commerce rooms in the auditorium Monday at 2 p. m. The leader, who has just completed a course in handicraft, will discuss various types of handicraft at this meeting. All those planning to enroll for these classes are urged to attend this very important meeting. Lunch will be served by the leaders.

Official Paper of Pennington County and City of Thief River Falls

Governor Benson doesn't like the prosperity stories that are being spread over the pages of the Twin City papers. To him such hopeful publicity is positively offensive. And undoubtedly some of the yarns they spin are a little colored. Perhaps the Governor is partly right in objecting to them. But certainly these prosperity stories are no more objectionable than the Governor's constant yammering about poverty and distress. If we were to believe what he tells the world about Minnesota then all of us are in a bad way indeed. And it is barely possible that he, along with other members of his mournful crew, are largely responsible for the exaggerations to which he so strongly objects. Some of these exaggerations are justified as an offset to the bad publicity he has given the state. Maybe the Governor can effect a compromise with the metropolitan dailies that would make all of us a little happier. We are sure that if he would go to them and promise to be a little more temperate in what he says he could get them to promise to be a little more considerate of the facts.

We have a half-ful bottle of mosquito lotion that we will be glad to trade for a pair of ear muffs or what have you.

The Thief River ball team ended the season in a creditable manner by splitting the Labor Day series with Bemidji. Reviving a game that was as dead as baseball was in this community is a slow process but the two years of activity have certainly brought results. Because of this activity one young fellow, Sahl, has an opportunity to go places. He looks good and might go far. Aside from Sahl, our choice for the most likely looking youngster on the team is Jaranson. They tell us he has played every inning of every game during these two years. He has the appearance, in action, of being a ball player.

With three separate and distinct organizations handling the flood relief problem in this territory there shouldn't be any danger of any worthy cases being neglected. One set of officials provides for those who need cash. Another group worries only about feed for livestock. The third organization concentrates on providing jobs for those who want work. There are other agencies, too, that are lending a hand but their assistance is merely incidental. At any rate there is no good reason why anyone in the flooded area who needs assistance should not get it.

And next on the list is a sugar tax which will take effect as soon as dealer's stocks are depleted.

THINK THE THING OUT
(Appleton Press)

Recently the county welfare board announced an intention to deal rather severely with men receiving public relief who spend the major portion of their allotments for beer and hard liquor. In keeping with what appears to be a timely and appropriate move, the village council announced its intention to cooperate in every possible way with this program of the county welfare board.

It is difficult to understand that the action could be criticized by the public, as a whole, by the business men, or by the worthy relief client who is applying his aid to the support of his family. It brought surprise, therefore, to find some suggesting that it was not the business of these public bodies to so strictly govern the expenditures of relief money by the individual.

The relief client should recognize that if he wastes his funds on non-essentials, and thereby causes suffering to his family, the inevitable result will be a wave of public resentment that will bring more drastic regulation than has been considered as yet. On the other hand, use of the funds for proper purchases will build respect for the relief program and will be one of the greatest factors in accomplishing more liberal allotments and fewer restrictions. Misapplication of relief funds hurts the individual, his family and every other man who is dependent on the same agency for sustenance.

The business man who fears that close attention to methods of expending relief funds will bring resentment and a loss of business should recognize that this is a very short sighted view. No reasonable beneficiary of relief will resent this situation because he has nothing to resent. It does not affect him. He is already making best use of his funds. The one who resents must be the one who the shoe fits. If this one is spending his allowance for non-essentials his family continues to be in want and the cost of their care is doubled, at the expense of those who foot the bill, whoever that is. Many of these business men who think it would be better to wink at the situation, feel that they are paying the bill.

Fathers who drink up their pay checks while their children cry from hunger, really do not deserve much sympathy.

If there is any question about the propriety of action that will prevent relief funds from being spent for drink, it must arise through failure of the critics to think the thing out.

WHY THE HURRY?
(Duluth Herald)

Following the suggestions of some legislators, Governor Benson is considering calling another special session of the legislature to adopt a housing act for Minnesota. Without such a law the state cannot share in the $100,000,000 which will be available this year to help local housing authorities in various parts of the country to clear up slums by building new dwellings for families with low incomes.

There are several misconceptions about the federal plan. In the first place, the grants are not outright gifts. Under one plan there is a loan, which must be repaid. Under the other there is an outright gifts of only 25 per cent of the cost, and 15 per cent of the labor cost, taken from relief funds. In either case the grants are festooned with strings which put a heavy responsibility on the local authority.

For the next three years the sum is limited to $500,000,000, with $100,000,000 available the first year.

It would be well to find out how many Minnesota communities are ready to meet all the requirements before the whole state is subjected to the expense of another special session of the legislature.

Housing projects are important, and we are going to see many of them in the next few years. Past experience has shown that they are likely to be expensive. The federal requirements under the new act are so exacting that much time can be spent profitably in planning before the legislature need act.

While we gloat with pride over the millions of dollars spent by the tourists in Minnesota, did it ever occur to you that the weed crop in Minnesota does twice as much damage to the farmers as the tourists spend in Minnesota?—Lake Wilson Pilot.

Rack Rent

Rack rent is a rent consisting of the full annual value of the property, or near it. In Great Britain rack rent has been defined by statute, as in the public health act of 1875, to be (for the purpose of that act) a rent "not less than two thirds of the full net annual value of the property out of which the rent arises."

Liberal Fall Feeding Adds to Dairy Profits

Liberal feeding of early fall freshening cows and of all cows during the dry period will materially increase the Minnesota dairyman's income, according to E. A. Hanson, extension dairyman, University Farm, St. Paul.

Too often the early fall freshening cow is underfed because pastures are low, and to many dairymen it seems too early to start barn feeding only a few cows. All CTA records, however, show that fall freshened cows, well fed from the beginning, lead in year round butterfat production.

During late summer and early fall months, alfalfa hay will serve as a pasture supplement if pastures are sufficiently heavy. If pastures are poor, fresh cows should receive a full feed of hay and grain twice daily in order to maintain high production. Silage may be fed to advantage immediately after the silo has been filled.

At this season of the year, fall freshening cows are being turned dry, and others are rapidly going that way because of poor pastures. Good dairymen aim to give their cows a dry period of about 6 weeks. Cows thin in flesh when turned dry should be fed a fattening ration during the dry period. Cows in good condition at freshening time will always start the lactation period giving more milk daily and continue at a higher level for a longer period than cows that have a short dry period and freshen in poor condition.

Patrol Arrests 71 For Not Dimming Headlights

Cracking down on the driver who will not dim his lights, state highway patrolmen in the past week arrested 71 drivers who continued to use the high beam when signaled to lower their lights.

In each instance a conviction was obtained and a penalty imposed. Motorists with two-beam lights who will not dim will be arrested, John P. Arnoldy, patrol chief, declared.

At the same time, he warned drivers to use extra precaution in the next two weeks as state fair traffic, people leaving their lake homes, students returning to school and the like will load the highways in almost every section of the state.

Underfeeding in Youth Leaves Mark for Life, State Doctors Assert

Interesting studies in nutrition and its relation to growth have been reported by anatomists at the University of Minnesota. According to these studies, cited in today's bulletin from the Public Health Education Committee of the Minnesota State Medical Association, underfeeding in childhood leaves its mark throughout life.

No matter how well he is fed later the person who is obliged to go through a period of semi-starvation in childhood will never reach the average height and weight of the adequately fed.

These observations were frequently made in Europe after the World War when the children who went through a post-war starvation period began to grow up. It has been substantiated by extensive studies on rats made at the University of Minnesota. The rats were consistently underfed from the time of weaning until they reached 18 weeks. After that they were given the regular, entirely adequate diet on which another group of litter mates had thrived since birth. At first they grew rapidly after the change in diet was made. Then growth slowed down and they never caught up with the others.

At death the underfed rats were shorter and weighed less than the others though they had nearly normal weight brains, pituitary glands, stomachs, intestines, hearts, lungs, spleens, sex organs.

Clearly it is impossible, however, for tardy rescuers to make it up to the children who have been deprived of proper food in their early childhood.

Provided for Cyclists

A law passed by the Ohio legislature in April of 1898 indicated that either everyone rode bicycles or else the bicyclists supported a potent lobby. The law provided that persons sprinkling streets in the larger cities should leave a dry strip four feet wide. This was to be a path for the bike riders who might skid on the slippery streets.

P. O. Department Bares Fraud in Pennsylvania

Postmaster General James A. Farley announced this week that, through the efforts of the post office department, another gigantic swindle carried on through use of the United States mails, which netted its operators approximately one million dollars and plundered among its victims individuals in every state of the Union, Canada, Mexico and Cuba, has been stamped out. It was also pointed out that twenty-four members of various groups engaged in this fraud against the public have been brought to trial and convicted.

This latest swindle to receive the attention of postal inspectors involved the promotion of the mythical "Baker" or "Becker" estates in the State of Pennsylvania, particularly in the city and county of Philadelphia. The promoters of this racket represented to their victims that they had indisputable proof of the existence of these estates, which included properties in the very heart of Philadelphia, worth approximately sixty million dollars.

There is no Baker estate and there never had been such an estate that could possibly be the subject of such schemes. Something that started as a rumor grew into a gigantic fraud. Thousands of people were deceived into contributing their time and money for many years without any return or possibility of reward.

STATE PUBLIC SAFETY BODY HAS NEW DIRECTOR

A continuation of the educational work which is credited with saving "LIVES IN Minnesota" was pledged today by S. J. Russell, new director of the Minnesota Public Safety committee. Mr. Russell was appointed to the position of director to succeed C. H. Zealand, who has become associated with the National Safety Council. The new director is well known through the state because of his previous work as publicity director of the committee.

Red River Valley History
By Wm V. Werking

A Booster Speaks

While the statements below may suggest the enthusiasm of a native Californian when he writes or talks about his state, the truth is that these statements are just that—true. It has been learned that this region is a favored land in the matter of variety of products of the soil when given proper care.

Contrary to the view of those not acquainted with these counties tree and small fruits are easily and profitably grown here. Native fruits such as plums, grapes, blueberries, high bush cranberries, gooseberries and many others grow in great abundance in the woods along the water-courses.

The standard varieties of plums, gooseberries, currants, and crab apples grow with but little care and produce good crops of fruit. Hardy varieties of apples given intelligent care and attention yield abundantly as has been proved by the many bearing trees and orchards of this section. The same as in any other region, the successful growing of fruits is more dependent upon the man than it is upon the climate, and an increasing number of persons are proving that there are no handicaps of note to prevent success along this line here.

Northwestern Minnesota offers exceptional advantages for the growing of beef cattle, horses, sheep and hogs, as well as for dairying. The fundamental conditions which are necessary for livestock raising are amply filled here. There are many varieties of cheap feeds which will furnish the different feeds such as alfalfa, shock corn, or corn silage, barley, oats and flax. Another great advantage is found in the dry climate free from sudden and extreme changes. This fact regarding the climate is of greatest importance. While the temperature goes somewhat low a short time during the winter, this is not a serious matter with beef cattle, and especially those that are being fattened. Sufficient shelter can be provided at a very small cost, as, for instance, simply a straw shed with openings at the south side. Beef cattle are different from dairy cattle in this respect because they retain all the body heat, a large proportion of which, in the dairy cow, is drawn when the milk is removed twice each day.

Livestock raising with beef cattle production as the main object can be operated with probably the smallest amount of labor of all the different classes of farming. The farms are here and the labor can be secured. The general conditions applying to the beef cattle also apply to sheep and swine. Great success has followed in this work. In raising beef, mutton, and pork the good water, dry climate, and the easily grown feeds present unusually favorable conditions for the man of even moderate means. Many splendid herds are here now with increasing numbers each year.

There is no section of the country that presents greater opportunities in poultry raising than this section of the state. The markets are at its door, the Twin Cities to the south; Duluth and the Iron Range cities to the east; and numerous summer resorts, scattered over a very wide area, give access to the greatest markets in the Northwest.

The climate of this part of the state is extremely favorable to poultry raising. The steady unvariable winter weather insures the best of health and vigor, in the flocks, while the long cool summer days are conducive to the most rapid and steady growth of its young stock. Indeed, it is freely admitted by buyers of national reputation that nowhere in the United States can be found young stock of chickens, ducks and turkeys, that exhibit such marked indications of rapid growth and freedom from diseases as are produced in this part of the state.

It has been demonstrated year after year that corn, clover and alfalfa can be depended upon for a good crop in Northwestern Minnesota. With these crops dairying is assured of its proper place in the front rank. Dairying means a constant monthly income from the sale of the products, the utilization of the farm help during the winter months when labor is comparatively cheap, and above all, the use of the home grown feeds upon the farm and the return of the fertility to the soil. These counties have all of the ear marks of a dairying section.

Dairy herds are springing up around every town. A co-operative creamery is the proud boast of nearly every community in each of the counties. There are over 100 creameries in this section, nearly all of which are cooperative. This is an outstanding record, comparing favorably with any other of the state.

PUBLIC OPINION

Mr. Editor:

I wish to express my appreciation of the work Mr. N. A. H. is doing by writing "Topics of the Times" every week. In my opinion he is developing into a real artist in that line. Many of his epigrams are as near perfect as they can be. Of course, when he shoots at matters in politics, those of us, who are not strongly in love with the venerable G. O. P. feel that he sometimes shoots a little over the mark and hits us; but then a reasonable person must always admit that he has the same right of political opinion as we have. And then he is always careful so that it does not hit us so hard that we bleed, and I always enjoy to read those "Topics".

New Farm Tenant Act Is Not Yet Effective

Although numerous inquiries have been received by county agents in regards to the recently approved Bankhead-Jones farm tenant act, no administrative set-up has been issued to state and county extension workers for handling loan applications, states S. B. Cleland, farm management specialist, University Farm, St. Paul. Until administrative instructions are received, no action can be taken on inquiries. Furthermore, points out Mr. Cleland, there will probably be no very large amount of money available for loans in any one state, since appropriations for loans to purchase farms will be limited. The act authorizes an appropriation of 10 millions dollars for the year ending June 30, 1938, 25 million dollars for the following year and 50 million dollars per year thereafter. These amounts are for the entire United States and are to be divided among the states and territories on the basis of farm population and prevalence of tenancy.

SO. ST. PAUL LIVESTOCK
(By U. S. Department of Agricultural Economics and Minnesota Department of Agriculture)

South St. Paul, Minn.: Sept. 6, 1937—Cattle receipts approximated 7,200 head today with supplies largely from western states and few truck arrivals on hand. Stocker or feeder material made up about 30 percent of the run. Trade was slow at the week's opening but prices ruled about steady with last week's close. Jewish holidays as well as Labor Day were factors affecting the demand but with fair country interest apparent and supplies in general somewhat reduced the clearance was moderately good although movement proved draggy. The bulk of rough and plain grass killing steers turned around $8.25 down with good smooth lots up to $11.00 or more. Plain and medium grass fat heifers made $6.00-7.75, most medium and good western beef cows $5.50-7.00, a few selections $7.50 and more. Plain cows sold around $5.00 with low cutters and cutters $3.75-4.50, occasionally $4.75, [illegible] down to $3.00. Most range sausage bulls went at $5.75 down, a few good heavy weights up to $6.25. Good to choice vealers brought $9.00-10.00, selects $10.50, most lower grades $5.00-8.00. The bulk of stocker or feeder steers and calves sold at $5.50-7.50, inferior sorts down to $4.50, and a few good lots at $8.00-9.00.

Hog prices were fully steady at this week's opening. Receipts here were very light. Good and choice 170-250 lb. weights sold at $11.00-11.15, the top $11.25, with a few 250-300 lb. butchers at $10.90-11.10. A limited number of 140-160 lb. light lights made $10.25-11.00. Good sows, 300 lb. down, cashed at $9.50-9.85, a few at $9.75, and heavier weights down to $9.00. Good stags made $9.75-10.25. Several lots of 75-100 lb. feeder pigs were noted at $10.00-10.50 with choice around 90 lb. weights at $11.00.

Lambs opened the week on a firm basis Monday. Receipts were about as large as last Monday. Good to choice native fat lambs cleared at $10.25 mainly, a few strictly choice at $10.50. Cull and common lambs went at $7.50-8.50 and medium to choice ewes at $2.50-3.75. Native feeding lambs sold upward to $9.00. At last week's close choice fat Washington lambs sold to killers at $10.50 and choice range feeding lambs at $10.25.

Experts in Furniture-Making

The craft of the Seventeenth century settlers in Bermuda in making household furniture from wood of the Island cedar trees is preserved in the work of their descendants as well as in antique examples of their work found in Bermuda homes. Polish is never used in the finishing of the furniture. But wax and oil, used in small quantities, gives a rich, dull finish and in addition, preserves the pungent fragrance of the cedar.

Corn and Alfalfa Are Partners in Farming

Corn and alfalfa, two of the most important crops raised on many farms, supplement each other in several ways, says S. B. Cleland, farm management specialist at University Farm, St. Paul.

Corn is a heavy feeder and especially needs plenty of nitrogen, the element which alfalfa supplies most liberally. Corn requires a plentiful supply of humus and the decaying root systems of an old alfalfa field furnish large quantities of humus. A farm with a large proportion of its land in corn needs a large acreage of such a legume as alfalfa; and likewise, a farm with a large acreage in alfalfa needs some heavy feeding crop like corn to utilize its fertility.

Corn and alfalfa make an effective combination for killing quack grass and Canada thistle, Mr. Cleland states. With modern machinery and tillage methods, quack is killed easily on land that is in corn, but thistles persist on corn land. With alfalfa, the reverse is true. Quack often increases and thistles disappear in an alfalfa field. A judicious use of alfalfa and corn over the farm helps to keep these two serious weeds in check.

In feed value, also, corn and alfalfa supplement each other. Corn is rich in carbohydrates, alfalfa rich in protein. The combination is valuable for many classes of livestock—corn and alfalfa hay for beef steers; a grain mixture rich in corn, with alfalfa as the chief roughage, for dairy cows; corn and alfalfa pasture for hogs; these are examples of good feeding combinations of the two crops.

Cruelty to Animals Law in 1871

The first Ohio law to prevent cruelty to animals was passed in April of 1871. Abuses were defined and fines ranging from $10 to $50 were provided.

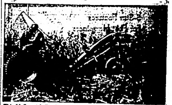
McCORMICK-DEERING
Power-Operated Corn Binders
The Fast Way to Cut Corn



This McCormick-Deering 1-Row Power Corn Binder and Farmall 20 Tractor cut 10 to 12 acres of corn a day.

WHETHER you're cutting corn for the silo or the shock, McCormick-Deering Power-Operated Corn Binders are a good investment. They easily handle more acreage in a day than horse-drawn binders. They perform smoothly, turning out bundles that are firm, well-tied, evenly butted, and easy to handle.

These binders are made in 1- and 2-row sizes and are available in two types—one for average corn and one for short, small varieties.

Ask us to demonstrate these labor-saving machines. The McCormick-Deering line also includes vertical and horizontal horse-drawn binders.

McCormick-Deering 2-Row Corn Binder, the ideal machine for large acreages. Capacity 20 to 25 acres a day.

LOCAL GOLFERS WIN TROPHIES AT CROOKSTON

Jung and Kvikstad Take First and Second Flight Honors

Five trophies were brought back to Thief River Falls by local golfers who played in the Red River Valley tournament at Crookston over the Labor Day week-end. Vic Jung won first flight honors, defeating Meyer Muus of Grand Forks in his final match. Vic Kvikstad took the second flight, winning from C. J. Murphy of Grand Forks.

Other Thief River Falls winners were Douglas Booren who was runner-up in the third flight, losing his final match to Merriam Fredericks of Crookston; Hal Ekeren who defeated F. H. Stadsvald of Crookston for the seventh flight consolation; and Tom Mehegan who lost his final game to H. C. Anderson of Crookston for runner-up of the eleventh flight.

Ernotte Hiller of Crookston won the tournament championship for the third successive year, defeating Theos Morck, also of Crookston, 4 up in the final match. B. W. Gabrielson and H. O. Chommie of this city, who had placed in the championship bracket, were eliminated in the first round, Gabrielson by Wally Paulson of Grand Forks and Chommie by Morck.

Others from here who played in the tournament were Dr. H. H. Hedemark, Bruce Prichard, Wm. Sponheim, S. Daniels and Kern Olson.

W. N. Morell Wins Trip To Mackinac Island

Mr. and Mrs. W. N. Morell and daughter Lois left Monday for Minneapolis where they will join a party of New York Life Insurance company representatives in a trip to Mackinac Island, Mich. Mr. Morell was awarded this outing by the company as recognition of his work as agent during the past year, he having qualified for membership in the $100,000 Club. They expect to return some time during the latter part of next week.

Chommie Is Winner of Club Championship Golf Tournament Here

H. O. Chommie is the 1937 golf champion in Thief River Falls, he having defeated B. W. Gabrielson in the final thirty-six hole match 3 up. Vic Kvikstad is playing Wm. Sponheim for consolation honors in the championship flight.

Hal Ekeren won the first flight, defeating Bruch Prichard in a close match. Other matches in the tournament have not been completed and Douglass Booren, tournament chairman, requests that all matches be completed by Sunday. Mr. Booren also announces that a short stop tournament will be played at Bemidji Sunday and that qualifying scores must be turned in by 10:00 o'clock Sunday morning.

Peter Lendobeja, 70, Dies in Local Hospital

Peter Lendobeja of Goodridge died Tuesday in a local hospital at the age of 70 years. Funeral rites were held this morning at St. Bernard's Catholic church, Rev. A. J. Merth officiating, and interment was made in St. Bernard's cemetery.

Mr. Lendobeja was born June 29, 1867 in Poland, coming to the United States in 1891. He settled at Columbus, Neb., where he resided for three years before moving to Gully. Seven years later he moved to this community, and when the reservation was opened he took a homestead in the vicinity of Goodridge, where he has since made his home.

Surviving relatives are his wife, Mary Lendobeja, five sons, Theodore and Julian of Goodridge, Walter, Leon and Adam, all of this city; three daughters, Mrs. Bert Johnson of Goodridge, and Mrs. Cecil Heberling and Mrs. Al Gerend, both of Akron, Ohio.

Heavy Rains Retard Soo Grain Movement

Heavy rains over a large area west of Fordville Friday night delayed threshing and retarded the grain movement through here on the Soo Line. Threshing was resumed quite generally yesterday however, and railroad officials are preparing for another period of rush business.

LOCALS SPLIT WITH BEMIDJI IN GAMES

(Continued from page 1)

third and Rosendahl scored when Dexter bobbed Lee's grounder. Ekeren and Lee scored when Jaranson singled, tieing the score.

Thief River came up from behind in the tenth again as a result of loose playing. With two away, Ekeren singled. He went to third on a wild throw to second and scored on a wild pitch. The winning run came in the twelfth when Bush fumbled Urdahl's grounder, who went to third when Rosendahl grounded safe to short. He beat the ball home on a bunt and run combination with Lee doing the bunting.

Bemidji batted in a 6 to 1 victory in the Labor Day game, getting thirteen hits from Stroble, one of them being a circuit clout and another a triple, three doubles and eighth singles. Stroble had nine strikeouts to his credit, however, and the only score after the third was Petrie's home run. While this was going on, Charlton held Thief River to four scratch hits and was never in danger after the first inning.

Halseth started the fireworks for Bemidji in the first by converting the first ball pitched into a high fly that Sahl dropped in right field. He went to third when Dexter flied out to Rosendahl and came home on an infield play at second. Thief River evened the score in this inning when Dexter failed to field Lee's grounder. Lee went to third on Rosendahl's single and came home when Petrie tried to keep Rosendahl from stealing second. From then on only five Thief River men reached first base.

Bemidji scored twice in the second. Lloyd walked and Stroble retired the next two batters on strikes. In the meantime Lloyd had stolen third and came home on a wild pitch just ahead of Halseth's three bagger. Bush singled scoring Halseth. Three hits brought in two more runs in the third. Charlton singled over third, Simons bunted safe and Lloyd sacrificed, advancing the runners to second and third. Brustad drove in the two scores with a single. It looked like a few more scores when Skale hit, going to second on a futile play at third but Brustad was caught short at home on a grounder to Eide and Bush flied out to Eide. Petrie's home run in the sixth ended the scoring.

PICK-POCKETS MAIL CHECKS, KEEP CASH

Detroit Lakes—A thief who is more than half-way honest is the pick-pocket who kept only the cash and mailed back the checks contained in a wallet he stole. Samuel Sadler of Winnipeg, who is vacationing at Fairhaven resort at Lake Sally was stripped of his wallet while watching a golf tournament. He reported the theft to the police. In the purse were seven traveler's checks for $20 each totaling $140 and $24 in cash. A day later the checks were found in a mail box, with a paper bearing Sadler's name attached to them. Happy to get back the checks, Sadler is out only $24, his wallet and identification cards.

Funeral Rites Held Today For Victim Of Threshing Mishap

Funeral rites will be held this afternoon at two o'clock at Trinity Lutheran church, Rev. R. M. Fjelstad officiating, for Palmer Dahl, 41, of the Steiner community, who died in a local hospital Sunday from injuries suffered on Monday afternoon of last week when his left arm was caught in a belt on a threshing machine. Mr. Dahl succeeded in breaking the belt, which had twisted around his arm, preventing further injury. He was rushed to a local hospital where he died Sunday. Interment will be made in Greenwood cemetery.

Mr. Dahl was born June 16, 1896 at Sisseton, S. D. In 1904 he came to this community, remaining here until 1920, in which year he moved to Mayville, N. D. He returned to this city in 1928 and lived on a farm near Steiner until his death.

Surviving relatives are his wife, one daughter Eleanor May; his mother, Mrs. Paul Dahl; four brothers, Ervin, Andrew, Theo, Clarence, all of Mayville; and three sisters, Mrs. August Austinson, Miss Ida Dahl of this city, and Mrs. Arthur Braughton of Livingston, Mont. His father, one brother, and one sister preceded him in death.

Condition of State Deer Herd is Studied in Game and Fish Dept. Survey

Minnesota state game wardens are counting noses, figuratively speaking, of the deer inhabiting the state. The annual survey now being conducted by the Game and Fish division will determine the condition of the deer herd and present state of the deer range, particularly as to food supplies.

Data will be tabulated indicating an increase or decrease in the number of deer, the percentage of increase or decrease over a ten-year period, with a definite comparison as to population last year. Whether or not the deer range is expanding to the south and west of the so-called deer territory will also be determined.

Both winter and summer food supplies will be studied. If winter feeding of alfalfa hay is considered imperative to keep deer in a healthful condition, the survey asks how much hay will be required and the number of deer that are expected to be reached. The survey also seeks information as to extensive cedar cuttings in the various districts during the past five years.

Information will be secured as to the number of deer that have allegedly died because of lack of food. Where such deaths have been noted data will be sent in as to whether or not such deaths were due to excessive numbers of deer in yarding areas or because of a general food shortage. Effect of wolves and dogs on deer will also be studied.

WINNIPEG PASTOR WILL SPEAK AT MAVIE FESTIVAL

Rev. John Herzer of Winnipeg, Canada will speak at Mavie this Sunday, the occasion being Zion congregation's annual mission festival day. He will preach in the forenoon at 10:30 and in the 2:30 service will lecture on Mission work in Africa. A chicken dinner will be served at noon.

Bernard O. Sather, Former Local Man, Dies at Middle River

Bernard O. Sather of Middle River, an early settler in this community died August 23 at the age of 74 years.

Mr. Sather was born January 30, 1863, at Solar, Norway, leaving there when a young man to come to the United States, making his home at Eau Claire, Wisc., in 1883. Later he went to Minneapolis where he met and married Martha Jorstad in 1887. During the following years he resided at Grafton, N. D., and in this city, later homesteading at Middle River, where he resided until his death.

Surviving are his wife and six children, Mrs. P. E. McCahon of Rugby, N. D.; Mrs. Thomas Furlong and Mrs. E. T. Dickinson of Havre, Mont., John, and Bill, all residing at home. Also eight grandchildren. Two children, Mrs. Lillian Svhenkey and Oscar preceded him in death.

Orben Sime To Give Unique Concert At The Trinity Church

Mr. Orben Sime of Readstown, Wisc., has been scheduled to present his entire program at the Trinity Lutheran Church, Sunday evening, Sept. 12, commencing at 8 o'clock p. m. Advance information indicates this will be a program of unusual character.

Traveling entirely by car Mr. Sime carries with him $4,000 worth of musical instruments, a collection of twenty in all, from which he chooses those he uses at each concert. Included among these is his so-called "pitch-fork cello" said to be a $1,000 instrument and the only one of its kind. It is made by Knute Reindahl of Madison, Wisc., who is said by some to be one of the greatest violin makers and wood carvers in this age, and whose work is endorsed by men like Fritz Kreisler, Jan Kubelik, Arthur Hartman and Alexander Bull, son of Ole Bull.

Another one of his instruments is played by waving the hands before it, the right hand controlling the pitch or voice and the left hand the volume. The music according to Mr. Sime is produced by harnessing the squeaks and howls that were heard in the first stages of radio music. The instrument is played without touch and is said to produce a very mellow tone and is now used by several symphony orchestras in this country.

Transients Kidnap Farmer; Steal Car; Are Caught at Border

Five days after they had kidnapped farmer Floyd Rynerson of Stephen and stolen his car, G. S. Clinkenbeard, 34, of Oklahoma City, and William Barneo, 24, of Portland, Oregon, gave themselves up to border patrolmen at Phiney. Rynerson had given the men a ride Thursday morning, they having told him they were going to work for one of his neighbors. A short distance out of town they poked a gun in his ribs and directed his course to a point about 2½ miles east of Florian. Here they wrapped him in a blanket and tied him to a tree, then taking his car they started back to Stephen. When two miles west of Florien they lost control of the car and turned it over in the ditch, suffering minor cuts about the face.

It took some time for Rynerson to free himself and the man-hunt did not get under way until Thursday afternoon. During the following days they were trailed east and were reported seen at Newfolden and Middle River, but they managed to make their way north through the brush country and on Monday afternoon appeared at the Canadian border where they were arrested. On questioning they admitted that they had planned to return to Stephen to rob the bank. Both young men carried .38 calibre revolvers.

OLD DEBT COLLECTED BY NEWSPAPER STORY

Grand Rapids.—One person who believes in newspaper publicity is a local physician, Dr. M. M. Hursh, who has just received payment for an old account which he had crossed from his books. More than a year ago the doctor carried advertisements stating than in an effort to relieve the financial situation he was writing off a large number of accounts, and starting with a clean slate. This information was picked up by news services and it reached a man in Arkansas who said to his wife, "When we go north next summer we will stop in and pay that old, forgotten account we owe Dr. Hursch." Last week Mr. Blank—for the man shall have no other name here—walked into the doctor's office and asked for his bill. Dr. Hursh could not remember it until he was reminded of a stormy rainy night 24 years ago when he had driven with a team and buggy to Hill City to aid the physician there on a difficult case. The occasion was recalled, the bill was paid, and now Dr. Hursh is making plans to visit his patient's home town in the Ozarks.

NON-RESIDENT FISHING LICENSE INCREASE NOTED

Despite an increase of one dollar in the cost of nonresident angling licenses in the state, Harry E. Speakes, Game and Fish director, reports an increase in both the numbers of licenses issued and revenue accruing. Up to August 31, the increase in revenue from this source has been $30,326, Mr. Speakes said. In 1936 to August 31, there were 32,779 non-resident angling licenses reported for a total of $91,217. The same period this year finds 33,978 non-residents have been reported as having purchased angling licenses for a total of $121,544.

WOMAN FINDS PURSE AND FRIENDLY CITY

Austin.—Driving a shiny, maroon colored Packard sedan a California woman is carrying with her an excellent impression of Austin and the friendliness of its citizens who assisted her when she was stranded with only the new car and not a cent in her pocket, in finding her purse which had been lost somewhere between Sparta, Wisconsin and Austin. An interruption of Mrs. George S. Wilson's trip from Wisconsin to California came abruptly when she stopped at an Austin gas station and had her car serviced. She was about to pay the attendant when she discovered that her purse, contining $35.00 cash and a number of traveler's checks, was missing. Stranded with a new car but not a cent on her person, she did not know where to turn for assistance. Finally, with tears in her eyes, she related her distress at the local police station, saying she was certain the purse had been left at a gas station somewhere between Sparta, Wisconsin and Austin. She could not name the town, knowing only that it was a "white gas station." Too excited to trace her route, she asked for someone to drive her back and a man, who wasn't working volunteered. The police chief had a gas station fill the Packard's tank and loaned the woman five dollars as Mrs. Wilson and the Austin man watched for the "white gas station." Reaching La Crosse she exclaimed that's the one and upon inquiry it was learned the attendant had found the purse and money intact.

FARMERS WARNED OF UNLICENSED PRODUCE BUYERS

Losses to Farmers Heavy in Deals with Fly-by-Night Dealers, Says Ommodt

Charles Ommodt, State Commissioner of Agriculture, this week warned farmers not to sell to unlicensed produce dealers.

The warning was issued on the basis of information received from L. H. Brodrick, head of the Division of Wholesale Produce Dealers. Mr. Brodrick said that many complaints have been coming to his department as a result of frauds practiced upon farmers by unlicensed produce buyers.

"In cases where worthless checks are issued or where the buyer fails to pay for what he has purchased and where the buyer is not licensed and bonded, there is very little chance for recovery by the farmer who has sold the goods to this buyer," said Brodrick. "On the other hand, when a licensed buyer fails to meet his obligation to a seller, the recovery of losses can nearly always be made through the Department of Agriculture, providing a complaint is immediately filed."

Brodrick pointed out that thru enforcement of the produce buyers licensing and bonding law, thousands of dollars have been saved farmers.

Brodrick also said, "It is against the law for a wholesale produce buyer to operate without a license. Nevertheless, there are many unlicensed produce buyers operating in Minnesota. This is due to the fact that it is physically impossible for our department to check on everybody in this state. To curb this menacing situation, we ask the cooperation of every farmer."

"A farmer may cooperate with us by demanding that the produce buyer show his license, and if he does not have a license, by reporting this information at once to the State Department of Agriculture."

"It is very important that we rid the State of unlicensed fly-by-night produce buyers, many of whom are out to fleece farmers."

"Also when a produce buyer licensed or otherwise fails to pay for produce purchased, the facts should be reported at once. Delay may prevent recovery of losses wherever there is evidence of fraud—whether it be due to undergrading or improper weight, failure of payment, or for any other reason, the fact should be immediately reported to the State Department of Agriculture."

MAYOR SAVES DIMES TO GO ON VACATION

Mountain Lake — Preaching thrift and economy for the village while reigning several terms as head of the councilmen has inspired Mountain Lake's mayor, P. D. Dick to practice personally what he preaches. And now Mr. Dick's savings of lowly dimes will take him and his family on a vacation. Establishing the habit of saving dimes which he accumulated, the mayor last week took inventory and found he had 770 of the thin pieces of silver or $77.00, enough for a pleasant jaunt to South Dakota's scenic Black Hills. Together with his wife and daughters the mayor left early in the week on his outing, forgetting for a time his cares and worries over the welfare of his charge.

CYCLE OF DRY YEARS ENDED IN RED RIVER VALLEY

Northwest School Records Show 17.42 In. Rainfall Up To Sept. 1

Apparently the cycle of dry years recently experienced in the Red River Valley has been broken. According to weather records at the Northwest School and Station, every year since 1927 has had less than average precipitation. In this year, however, 17.42 inches have been recorded up to September 1st which is more than the total for the entire year as an average of the last nine years.

The annual precipitation (rain and melted snow) is 19.76 inches as an average of 36 years. As an average of the years 1928 to 1937 it is 16.16 inches. With 17.42 inches already recorded in 1937 it will require only 2.34 inches from September 1 to January 1 to equal the long-time average.

Although the rainfall this season has been ample for crop needs it has not been sufficient to increase or even maintain subsoil moisture under growing crops, according to R. S. Dunham, agronomist at the Station. Beginning the season with 22 per cent of water in May at a 36 inch depth under wheat, the same soil contained only 14 per cent August 2 when the crop was ripe. This loss is equivalent to approximately 2.2 inches of rain.

There has been only one cooler July in nine years than the one in 1937, but August was unusually warm. Maximum temperatures were not extreme but the average for the month was considerably above normal. The maximum temperature for the year so far was 96 and occurred in July.

How does your Pocketbook look?

If your pocketbook has a tendency towards flatness—and you'd like to see it more plump—you'll be interested in what this telephone user told us.

"I was surprised to find that in ten days the telephone saved us 20 trips that amounted to 144 miles," one of our customers told us. "At only 5 cents a mile this is a saving of $4.32 or at the rate of $12.96 a month."

There's an added pleasure in having the convenience, the protection and the social advantages of telephone service when you know that having a telephone tends to make your pocketbook plumper.

WOLF RACES WITH DEATH FOR TRY AT LAMB CHOPS

Walker — A touch of characteristic northwoods wildness disturbed the serene complacity of a county road near Webb Lake last week when two summer visitors were startled by a long gaunt timber wolf emerging from the woods. When the wolf saw the approaching auto, he hesitated, backed up a pace or two, and then, deciding that the fresh lamb chops to be had in the sheep pasture across the road were preferable to safety, fled across the road into the adjacent pasture. "Wolf, wolf!" would most likely have been Farmer Johnson's cry had he been watching his sheep at the moment. The tourists report the wolf looked lean and hungry and that the sheep were an enticement after emerging from the swampy woods.

PALMER DAHL MEETS DEATH IN THRESHING ACCIDENT

The folks of this community were shocked and saddened by the death of our friend and neighbor, Palmer Dahl who passed away Sunday morning at a hospital in Thief River. Mr. Dahl was badly hurt on Monday afternoon when his arm was caught in a belt on the threshing rig. The belt twisted around his arm and Palmer succeeded in shoving his feet against the rig, and breaking the belt in two. His wife helped him remove the belt from around his arm and he was rushed to the hospital where his left arm was amputated just below the elbow. He was doing as well as could be expected until Saturday when he took a turn for the worst and passed away early Sunday morning. His neighbors and friends are distressed and saddened by his going as Palmer was well liked, being an easy going person, always willing to help his friends as he could. He was a good mechanic and his services were often asked by his neighbors. He left to mourn him, his wife, daughter, his mother, three sisters, and four brothers, and countless friends. The funeral will be held Thursday afternoon at 2 o'clock from the Trinity Lutheran church.

Mrs. J. Aasund and daughters Marlene Carol and Beverly Jo-Ann and Mrs. W. Johnson and little son of Thief River were visitors at the H. Rupprecht home Sunday.

CHUKAR PARTRIDGE IS INTRODUCED INTO STATE

A new upland game bird has come to Minnesota. Conservation Commissioner Herman C. Wenzel and Harry E. Speaks, director, division of Game and Fish, witnessed the initial chukar partridge release and participated in the brief program commemorating the event which occurred last week-end near Fairmont. The chukar partridge is a native of Nepal in central Asia. They are a hardy bird and have been successfully introduced in Pacific coast states. One-third larger than the Hungarian partridge, they are smaller than the ringnecked pheasant

GRYGLA

To Conduct Confirmation Services

At the confirmation services of the Grygla Lutheran church on Sept. 12, Olaf A. Anderson, will occupy his father's pulpit at the morning services. Mr. Anderson, during the past year, has served his year of internship in theology under Dr. E. M. Hegge, pastor of the Central Lutheran Church of Tacoma. While at Tacoma, Mr. Anderson rapidly became known as a capable, interesting and forceful speaker, and also gained wide popularity as a radio speaker. He was given special recognition early this summer when chosen to preach on the Church of the Air program over the Columbia network.

During his year at Tacoma, he had the rare privilege of conducting several of the Protestant services at the McNeil Federal Penitentiary, located on McNeil Island of the Puget Sound. Also having complete charge of the music, Sunday School and Young Peoples departments of the Central Lutheran, Mr. Anderson was presented with a large purse of money from the congregation and received gifts from various other organizations at the end of his year in appreciation of his work. He will return to the Luther Theological Seminary at St. Paul to complete his theological course on September 15th.

VFW TO ORGANIZE SAFE BIKE RIDERS CLUBS OVER NATION

Minnesota Highway Patrol Safety Plan Adopted at Buffalo

The Minnesota bicycle safety clubs plan, originated by the state highway department's highway patrol some months ago, was adopted by the Veteran of Foreign Wars at the annual encampment at Buffalo, N. Y., and will be pushed nationally by that organization, John P. Arnoldy, patrol chief, was informed this week.

The VFW urged all its posts to create such clubs in the interest of safety for boys and girls who ride "wheels" and also to teach youngsters a respect for traffic laws which carry through to the time when they become automobile drivers. The VFW will also take steps to obtain city ordinances for control of bicycles. Copies of proposed ordinances, Chief Arnoldy said, are available at the national headquarters of the Veterans of Foreign Wars in Washington, D. C.

"The bicycle rider is a hazard in traffic and a danger to himself if he does not heed traffic rules as rigidly as an automobile driver," Chief Arnoldy said. "For this reason we in Minnesota set-up bicycle safety clubs. It has taught our young boys and girls that traffic laws are for them as well as for motorists. It has opened their eyes to the dangers of 'bike' riding and it has made them cautious. Once they become car drivers they will be better for this early education."

The VFW set 10 commandments for safe riders. They are: Bicycles shall not carry more than one person, except bicycles constructed for more. Stop at all "stop" signs. Ride only on the right side of the street. Do not hold on, nor hitch bicycles to any other vehicle. Do not ride at night without a light on the front and a reflector or lamp on the rear. Do not ride abreast of any other bicycle rider. Do not ride out of alleys and driveways, or from behind parked cars, without stopping and looking to see that sidewalks or streets are clear of traffic. Obey traffic signals and the orders of traffic officers and school patrols. Do not engage in any trick riding or weave in and out of traffic on the street or public highway. Become familiar with and obey all traffic rules and regulations; be watchful and alert at all times; be safety minded.

THIS LITTLE PIGGIE DIDN'T LIKE MARKET

Glencoe.—One little piggie that accompanied its brothers and sisters didn't like the market when it was "pigday" in Glencoe and farmers were buying or selling little "piggies" at seven dollars each. A transaction was being made between two farmers and while they were taking the pigs from one crate and transferring them to another, one, which evidently did not like being taken to market, managed to get away and started a number of Glencoe citizens on a merry chase. The pig was finally cornered, but frustrated in its break for freedom, it emitted many indignant squeals upon returning to the crate.

PRUNE TREE BEARS FRUIT

Mrs. John Walker of Roseau has in her orchard a prune tree that she planted fourteen years ago. It has attained a height of about ten feet and the tree is two inches through at the bottom. The tree will bear a bumper crop of prunes this year, and Mrs. Walker says they will ripen.

The tree was planted from pits brought back from the west coast 14 years ago.

SEPTEMBER IS PEAK MONTH FOR 'POLIO'

Prompt Attention Urged For All Illness—Keep Children From Sick Persons

September is always the peak month for infantile paralysis; and while there were more cases of the disease in August this year than there were last, there is no reason, as yet, to fear a major infantile paralysis or "polio" epidemic in Minnesota. This is the opinion of the Committee on Public Health Education of the Minnesota State Medical Association expressed in a bulletin on the subject issued today.

Forty-three cases have been reported so far in the state. They are scattered cases for the most part, according to the most recent figures available from the State Board of Health, with the exception of one community in West Central Minnesota. Here there seems to be a slight concentration of cases and health authorities and doctors are watching this community because of the possibility of the development of an epidemic center such as developed in 1930 and 1931 in Southwestern Minnesota.

No cause for special alarm was seen, as yet, by the authorities. In St. Paul only two cases have been reported; in Minneapolis 10 and in Duluth 1.

It was suggested to parents by the doctors that they watch any illness of any kind that may develop during the fall season and report it immediately so that the child may have prompt treatment in case the illness should by any chance be polio. The same watchfulness should be exercised every year in late summer and early fall. They also urge the parents to protect their children from contact with illness of any kind and to keep them, as much as possible out of crowds.

Gold Bearing Quartz is Found in Clearwater Co.

Anton E. Erickson of the Ruffy Brook community in Holst township, Clearwater county, found a piece of quartz or rock the other day which carried what looked to be gold, according to the Bagley Independent. He sent the rock to the University of Minnesota, where geologists declared that it did contain gold. The farm is about five miles southeast of Clearbrook.

As Mr. Erickson has done considerable clearing of land, in which work explosives have been used, he does not know just where the gold-bearing rock may have come from.

This is the first discovery of gold in Clearwater county, and in fact in this section of Minnesota. With the discovery of oil the circle will be complete, as iron ore is already on the county's list of natural resources.

YOU NEED THESE life-saving advantages OF CONCRETE

From your own experience you know that concrete is the safest road. Its even surface makes driving easier, reduces nervous strain and results in better car control. Its gritty texture improves traction and braking, resists skidding, wet or dry. Because of its flat "crown" drivers don't tend to ride the center of the road—passing is safer.

Concrete makes night driving safer. Its light-grey surface reflects more light, helps you see better. Illuminates obstacles and pedestrians. Sharply defines the edges and helps you stay on the road.

Highway officials are striving to reduce traffic accidents. Urge them to pave with concrete and secure for your community the safest as well as most economical pavement money can buy. You can benefit by your active interest as many others have done.

MORE BUILDING JOBS APPROVED BY THE COUNCIL

Three New Residences Included in Permits Totaling $16,000

NEW PARK GETS NAME OF FLOYD B. OLSON

Council Grants Use of Auditorium for October Festival

Building permits aggregating in excess of $16,000 and including three substantial new residence projects were approved by the city council at its session Tuesday evening.

Permits granted include L. B. Hartz, residence on Kendall av. N., $6,500; Elmer Adolphson, residence on Crocker av. S., $5,000; George Ege, residence on Markley av. N., $3,500; C. W. Swan, remodeling residence, $350; J. P. Curtis, roof repairs, $175; Mrs. Carsten Christenson, roof repairs, $112; Ella Dahl, residence, $425; and Syver Klopp, residence, $600.

At the request of a delegation headed by H. O. Berve, the council voted on motion of Alderman H. W. Kinghorn to designate as Floyd B. Olson park the tract recently established west of the business district. Following the action it developed that the park board, to which the matter had been referred previously, had recommended the name of Lincoln park.

J. A. Narverud appeared at the meeting to protest the granting of a license to the Bon Ton Cleaners, charging that the establishment does part of its work outside the city in violation of a local ordinance. It was voted to request the Bon Ton proprietor to be present for a hearing at the next meeting of the council September 24.

The council acted favorably on a request presented by Secretary Paul Lundgren of the Civic and Commerce association to install the city's street lighting decorations for the fall festival scheduled for October 7, 8 and 9, and to grant the festival committee the use of the Auditorium on those days.

Also formally approved was a plat of the West Greenwood cemetery addition prepared by Surveyor B. F. Umland. The addition provides approximately 130 burial plots.

The council authorized a curb and gutter project on Taft st. adjoining the residence properties of Roy Barzen and E. O. Iverson, as well as a new sidewalk fronting on the Barzen property. Action was deferred on a request of the Bemidji-Warren Bus company that a no-parking bus stop be established on the street on the east side of Sorenson's cafe.

Following six years of efficient service, Police Chief A. B. Stenberg was voted a $15 a month salary increase, and a similar raise was given to Patrolman L. W. Knadle.

ENROLLMENT FOR 1ST SCHOOL WEEK AGGREGATES 1426

Public Schools Have 24 Pupils More Than a Year Ago

A total of 1426 pupils were enrolled in the Thief River Falls public schools Friday at the end of the first week of the fall term, this number being an increase of 24 over last year's enrollment at the corresponding time, Supt. Morris Bye announced. All of the increase is in the grades, the enrollment in Lincoln high school being 550, the same as last year.

The first week's enrollment in the grade schools and kindergarten for this year and last were as follows:

	1936	1937
Central	199	205
Knox	198	198
Northrop	188	191
Washington	192	203
Kindergarten	75	77

Due to overcrowded conditions in a few grades in the Washington school, Mr. Bye stated, it was found necessary to shift a few pupils to the Northrop school where classes were considerably smaller.

WDAY Orchestra Will Make Music for Arena Dance Saturday Night

Oscar Stenegaard and his original WDAY barn dance orchestra will open the schedule of fall activities at the winter sports arena with a dance Saturday evening, September 18. With the fan heating system in good order, the building will be kept at the proper temperature for the comfort of the dancers. This will be the first of a series of five dances arranged by the arena management committee for Saturday nights this month and in October. Allyn Cassell and his orchestra will provide music for the second event Saturday evening, September 25.

ARMY ENGINEERS ENDORSE SEWAGE PLANT FOR CITY

U. S. Men Also Recommend Red Lake River Channel Improvements

Eight projects in the main water plan proposed for the Red river drainage basin were listed Tuesday in order of priority by United States army engineers, who estimated the total cost of the program at $4,421,280.

Effective solution to the more serious problems of water supply and sewage pollution in the Red river valley with additional benefits from reduction of floods, recreation and conservation of wild life would result from completion of the program, the army engineers reported.

The projects listed in the order of priority and with the estimated cost of each include:

Eleven dams in the Otter Tail chain of lakes, $28,580.

Otter Tail river channel improvement, $257,000.

Red Lake dam and channel improvement, $205,200.

Sewage treatment at Valley City, Fairmount and Wahpeton, N. D., and Breckenridge, Halstad, Thief River Falls, Red Lake Falls, Crookston and East Grand Forks, Minn., $551,000.

Lake Traverse reservoir, Bois de Sioux channel improvement, $1,471,000.

Seven of the projects listed in the comprehensive water plan proposed in the report of the interstate committee on the Red river drainage basin were not considered essential to the main plan by the engineers.

Three projects were said to be suitable for WPA programs, including four dams in the Otter Tail basin, the Sheyenne-Wild Rice low water diversion and the nine sewage treatment projects.

Find Only One Case of Infantile Paralysis

Contrary to alarming rumors that gained circulation in some quarters during the past week, there is but one case of infantile paralysis in the city, Dr. O. F. Mellby, city health officer, reported yesterday. That case, he added, developed a week ago Saturday and does not appear to be in a particularly aggravated form. Mrs. Clara Paulson, public school nurse, during the week has made a thorough check among the pupils and has discovered no evidence of infection, Supt. Morris Bye stated.

A representative of the state board of health arrived in the city this morning to make a survey of the local situation, Dr. Mellby stated.

M. L. Wilson Praises Resettlement Project

M. L. Wilson, undersecretary of agriculture at Washington, D. C., who recently inspected the Thief River Falls resettlement project, wrote J. W. Taylor, manager, during the past week stating that he had received a highly favorable impression of the undertaking. He said, "I think your project is sound and well administered, and it was a great inspiration to me to see it." He added that he had written a Minneapolis newspaper publisher suggesting that he arrange for a feature story to let the people know what a good job has been done.

Balloting Now Under Way for Selecting of Two Lucky Girls

With many nominations made and with voting ballots now available at approximately 150 local business places, the contests sponsored by the Junior Chamber of Commerce for the selection of a Miss Thief River Falls and a Corn Palace queen are getting well under way this week-end.

The contests are being held in connection with the fall festival scheduled for October 7, 8 and 9, and the two queens will be crowned at a gala dance in the arena the closing night of the festival, Saturday, October 9. In addition each of the two winning girls will be presented with a $75 wrist watch, now on display at Elofsons and Wangenstein's jewelry stores.

Following are the nominees for the title of Miss Thief River Falls: Adele Holmstrom, Myrtle Hanson, Rose Sheedy, Eunice Lindholm, Bernice Berge, Verona Urdahl, Thelma Brooten, May Kavanaugh, Margaret Dillon; Mary Warner, Dorothy Peterson, Dorothy Holmgren, Ardith Ostrom, Rhodella Angell, Lucille Vevea, Helen Wilson, Agnes Haug, Corlan Dokken, Lois Engen, Jean Frissell, Ruth Wassgren, Ardith Haney and Helen Anderson.

Nominees for Corn Palace queen, selected from outside Thief River Falls, include Doris Hagglund, St. Hilaire; Mae Lindquist, Rt. 5, City; Isabelle Nelson, Mavie; Rosella Mandt, Oklee; Ruth Mandt, Goodridge; Dorothy Korstad, Goodridge; Mayme Anderson, Hazel; Iris Ayers, Rt. 1, City; Marjorie Lane, Rt. 1, City; Lucille Lindbloom, Rt. 5, City; Ann Hermanson, Goodridge; Helen Johnson, Hazel; Ann Hanson, Rt. 3, City; Lydia Lockrem, Rt. 5, City; Race Woolson, Rt. 4, City; Ethel Parnow, Goodridge; Vera Grandstrand, Warren; Eunice Hillyer, Rt. 2, City; Bergit Kroskue, Oklee; Anne Stromme, Oklee; Lois Medchill, Plummer; Ula Guillmette, Red Lake Falls; and Henrietta Delorme, Red Lake Falls.

The junior chamber committee in charge of the contests announced that ballots for girls not listed in the above groups will be accepted until next Thursday, September 23, at the same time reminding the public that only rural girls are eligible for the title of Corn Palace queen.

It was also announced that an elimination to the ten highest candidates in the Miss Thief River Falls group and the 15 highest in the Corn Palace queen group will be made next Thursday, September 23, and that ballots should be deposited before next Wednesday evening. The aspirants for the Miss Thief River Falls title will be further reduced in number to the five highest on September 29, the committee stated.

Those interested in supporting any of the various candidates are urged to ask for contest ballots at business places in the city when making purchases.

4-H CLUB WORKERS WIN RIBBONS AT MINNESOTA FAIR

Delegation of More Than 20 Returns Home Last Week-End

More than twenty 4-H boys and girls returned to their homes in Pennington county last Saturday and Sunday after spending the week at the Minnesota state fair. They were accompanied by County Agent Howard Grow, Miss Thelma Solle, county club leader, and others.

Marion Green took part in the Style Review and came home with a blue ribbon, Marilyn Soper won a blue ribbon on her clothing exhibit, and Ellen Janda placed in the blue ribbon group with her bread. The placing for demonstrations have not been received as yet.

On Thursday evening the Civic and Commerce Association members of Minneapolis were hosts to the 4-H club members at a banquet in the Minneapolis Auditorium. They also celebrated the 25th anniversary of 4-H club work in Minnesota and the anniversary of T. A. Erickson, State 4-H club leader, who was a 4-H club leader for 25 years in Minnesota.

TAX LEVY FOR SCHOOLS FIXED SAME AS IN '36

Budget for Local District Adopted Monday Calls for 38.5 Mills

FUND SET UP FOR NEW HIGH SCHOOL BUILDING

Total of Budget Items Is Slightly Higher Than a Year Ago

Despite a slight increase in the budget of the Thief River Falls school district, the board of education at its September meeting Monday evening fixed the tax levy on city property for school purposes at 38.5 mills, exactly the same figure as the previous year.

Included in the levy is the one-mill regular mill tax, 34.5 mills maintenance tax and a three-mill levy to be accumulated in a building fund pending the time when a new high school building is needed. This three-mill levy supplants a similar levy previously made for bond retirement and interest, which next year will be provided for by the proceeds of the state income tax. The three-mill levy is expected to raise approximately $4,500, Supt. Morris Bye announced.

The budget as adopted provides for the retirement of $16,000 in bonds and payment of $3,765 in interest. Mr. Bye stated that the bond and interest fund now has a balance of $14,932.93, and that revenue to the local district from the state income tax will amount to at least $11,000 a year from now on.

It was explained that the budget calls for $2,879 more money for current expense than last year, which is more than accounted for by the following budget increases: Teachers salaries, $1,564; high school books, $775; janitors' salaries, $300; and transportation, $465; aggregating $3,004. The purchase of a new school bus more than accounts for the increase of the budget for capital outlay from $3,300 to $5,125.

Other items in the budget as approved include general control, $524; superintendent's office, $4,780; general administration, $275, other expense of general control and audit, $230; teachers' salaries, $63,633; textbooks, $2,875; library books, $875; supplies, $2,425; other expense of instruction, $425; operation of plant, $14,125; maintenance of buildings and equipment, $3,325; auxiliary agencies, including transportation, health promotion, etc., $6,080; and fixed charges, $1,625. The total budget for current expense of $101,193 compares with last year's budget figures of $98,314.

The board at its session, acting under the terms of a recently enacted state law, fixed a charge of $3 per month for transporting non-resident pupils to Lincoln high school. Contracts will be made on that basis with school boards in rural districts, which in return will be reimbursed from state funds.

Mr. Bye submitted a report on band instruction conducted during the summer months under the direction of R. G. Riggs, revealing that the high school band held 13 practice sessions attended by an average of 34 members, in addition to which an average of 23 private lessons were given. The junior band held eight rehearsals attended by an average of 25 pupils, 14 of whom were promoted to the high school band. An average of 19 junior members and 16 beginners also received private lessons. A total of 107 boys and girls received instruction during the summer months.

The board designated the Tri-County Forum as the official paper for the school district, its bid being on the basis of the legal rate.

Red Lake Falls Eleven Plays Here Friday Night

Following three weeks of practice sessions, the Lincoln high school football squad will meet its first test of the season Friday evening at 8 o'clock when it will compete under floodlights with the Red Lake Falls team. The tentative starting lineup, chosen by Coach George Lee from a field of 35 candidates, including 14 lettermen, is listed on the High School Progress page in this issue.

Abe Kashey to Appear Here in Return Match Friday Night, Oct. 8th

Abe Kashey, noted wrestler from Minneapolis, who created a minor sensation with his performance at a wrestling show in the arena last spring, will come to the Auditorium for a return engagement in this city Friday evening, October 8, according to Bill LaFave, who is promoting the event for the American Legion post. Matched with Kashey will be Lou Plummer, another well-known grappler. A series of five bouts will be presented in the course of the evening.

CREAMERY MEN TO HEAR DISCUSSION THIS AFTERNOON

State Bacteriologist Will Lecture Group at Auditorium

Creamery managers, operators and helpers from thruout Northwestern Minnesota are assembling at the Auditorium this afternoon for a special meeting of Districts 3 and 4 of the Minnesota Creamery Operators and Managers association.

Dr. G. A. Vacha, chief bacteriologist of the state department of agriculture, dairy and food, will give a lecture dealing with the prevention of high bacterial counts in butter, one of the causes of off-flavor.

C. M. Peack, secretary of the association, and Land O'Lakes fieldmen John Lager and P. L. Anderson have arranged for several tubs of specially flavored butter to be used in a judging contest in connection with the meeting.

MARSHALL COUNTY AGENT ADDRESSES GARDEN CLUB HERE

R. A. Reierson Discusses the Care of Various Kinds of Bulbs

An interesting discussion of the care and culture of bulbs of various kinds was given at the September meeting of the Thief River Falls Garden club Monday evening by R. A. Reierson of Warren, Marshall county agricultural agent.

Mr. Reierson recommended planting tulip bulbs early in the fall rather than in October, and advised mulching the bulbs in the fall to prevent heaving of the soil when the frost goes out in the spring. He also gave many other helpful suggestions.

In a brief business session presided over by Mrs. L. G. Larsen, president, the organization formally adopted as its name the Thief River Falls Garden club, and voted to hold meetings the second Monday evening of each month with the exception of November, December and January when sessions will be suspended.

Junior Chamber to Map Festival Plans Tonight

Details of the fall festival October 7, 8 and 9, in the sponsorship of which the Junior Chamber of Commerce is participating, will come up for discussion this evening at a meeting of the chamber to be held in the Log Cabin at the Palm Garden cafe. The group will also consider a proposal to organize an athletic club to function during the winter months, President Clarence Sande said.

90 to 100 Cars of Grain Each Day on Soo Division

While the fall grain movement on the Thief River Falls division of the Soo Line has apparently passed its peak, from 90 to 100 carloads have been handled here daily during the past week, it was reported at the local offices.

Firemen Are Summoned Into Action Monday

Responding to its first call in two months, the fire department Monday was summoned to the M. G. Morstad home at 203 Markley av. S. when a kerosene stove blazed up. The stove was carried out of the house, no damage resulting.

To Plan County Farm Program Here Friday

Farm Leaders Will Discuss 1938 Program of Extension Work

The Pennington county agricultural planning meeting will be held in Thief River Falls on Friday, September 17. This meeting is for the purpose of planning the agricultural extension program for the county to be carried out in 1938 through the extension service by the county agricultural agent and his assistants.

C. L. McNelly, district county agent leader, will be present to help the local people in formulating the program for next year according to Howard E. Grow, county agent.

Those serving on the different committees are as follows:

Livestock: Carl Beiswenger, Sr., Ed. Hanson, Frank Hardisty, Harry Woolson, Waldie Christenson and R. J. McKercher.

Agricultural conservation: Hans Anton, Alfred Longren, Ole Nesland and E. B. Pomerenke.

Poultry: Mrs. R. F. Hayes, Mrs. Peter Lovly, Frank Johnson, John O. Swanson, Lloyd Johnson and Anton M. H. Jensen.

Farm bureau: L. A. Nelson, Jim McCrum, S. E. Hunt, N. P. Schalz, C. H. Toomey, Clarence Peterson, Pat Culkins and Emil Larson.

Crops: Wm. Smith, Peter Engelstad, Anton Johnson, Wm. Kruse and C. A. Lindquist.

The 4-H club planning committee will meet later with a representative of the state 4-H club office. Miss Lois Reid, acting home demonstration leader, will meet with the women's group during the fall months to discuss their project for next year.

New Philco Radio Models to be Placed on Display Today at Larson Company

An event of annual importance in the radio world opens today at the Larson company, local Philco dealers, and continues until Saturday of next week. This showing, headlined as Philco Week, features the new Philco radios now on display.

This year's exhibit, said L. H. Larson, is of particular interest due to the featuring of what is said to be the first radio of its kind in this country, having not only automatic tuning for the convenience of the set owner, but also a new inclined control panel which shows the dial instantly and easily without the necessity of stooping.

During Philco week, Mr. Larson said, the store offers special terms, trade-in allowances and other buying inducements which make it easier than ever to own one of the new models.

THIS CITY WILL BE REPRESENTED AT U. S. LEGION MEET

O. C. Paulson Department Delegate; Tom Rowan Is Alternate

Thief River Falls will be represented at the national American Legion and auxiliary convention in New York City September 20-23 by Mr. and Mrs. O. C. Paulson and Mr. and Mrs. Tom Rowan. Mr. Paulson, who will serve as delegate from the Minnesota department of the Legion, was recently named by Commander Mike Hurley of Pine City as a member of the state rehabilitation committee for a two-year term, succeeding E. A. Haugen of Pelican Rapids who has been named legion contact officer with the veterans bureau. Mr. and Mrs. Paulson plan to leave Friday evening to join a special train at St. Paul, while Mr. Rowan, who is adjutant of the Elmer J. Eklund post, has already left with Mrs. Rowan for New York.

Work Is Started on New Home for L. B. Hartz

Following the award of the general contract to Hans Stenegaard, work got under way Monday on the construction of a substantial new residence for Mr. and Mrs. L. B. Hartz. The home, to be located on Kendall av. south of the Roy Barzen residence, will be of brick veneer construction and will include eight rooms. Henning & Rustad, architects, drew the plans.

Corn Palace Material Comes in Steadily This Week; More Is Requested

With ears of corn to be used in constructing the corn palace coming in steadily during the past week, Postmaster Andrew Anderson, who has the job of assembling the material, this morning renewed his request that local farmers bring in a few bushels. About half the necessary quantity has been arranged for to date, he said, and with construction of the palace getting under way today in preparation for the fall festival October 7, 8 and 9, enough more corn is desired so that the work may proceed without interruption. With a large supply of matured corn in the territory this fall, no difficulty is anticipated in securing the necessary amount.

S. K. DAHLE KILLED IN AUTO ACCIDENT WEDNESDAY NIGHT

Meets Instant Death When Train Hits Car at St. Hilaire

In the first fatal automobile accident of the year in Pennington county, Svenke K. Dahle, long time respected resident of Thief River Falls, met his death Wednesday evening when his car, in which he was a passenger, was struck by the Great Northern passenger train one-half block from the St. Hilaire depot as the train was drawing into the village.

In the collision, following which the Dahle car was carried for a quarter of a block along the track, Mr. Dahle was instantly killed. Mrs. H. K. Strand, who was driving the car, sustained internal injuries, while Mr. Strand was only slightly hurt. Both are receiving treatment in a local hospital. The car was almost completely wrecked.

Mr. Dahle, who was born in Norway, was 73 years old, and had been proprietor of the Central hotel in this city for more than twenty years. Funeral arrangements had not been completed this morning, pending the arrival of relatives. A detailed obituary will be published next week.

James Murphy Is Given Suspended Sentence

James Murphy of Saginaw, Michigan, formerly of this city, pleaded guilty in district court Monday morning to a charge of second degree of grand larceny, the charge resulting from Murphy and two other men last spring breaking into the warehouse of the Minneapolis Brewing company in this city and taking a quantity of beer. He was given an indeterminate sentence of from one to five years, which was suspended on his promise to make restitution.

Committee Named for Pet Parade October 9

Mrs. J. N. Nesse, Mrs. Leonard Hanson and Mrs. James Cablis will serve as a general committee in charge of arrangements for the pet parade, sponsored by the auxiliary drum corps, which will be a feature of the fall festival Saturday afternoon, October 9. Prizes, which will be awarded to all contestants, will be placed on display in downtown stores well in advance of the event, it was announced.

Times Display Shows Unusual Vegetables

Added to the display of garden products in the Times window this week was a bunch of well-bleached celery raised by Albin Knauf on a plot in the old mill yard. Another contribution supplied by Christ Nessen of Trail was a 12-inch-long cucumber weighing four pounds, which Mr. Nessen stated had attained its full growth in less than ten days.

Mrs. Fred Solie, living northeast of Goodridge in Moylan township, today sent in a giant gourd-like vegetable fully three feet long and also a slender cucumber two feet long.

PLAN DRIVE TO RID COUNTY OF BANGS DISEASE

U. S. Department of Agriculture Will Conduct Campaign

PROJECT WILL CLEAN UP REMAINING HERDS

Government Will Make Indemnity Payment on Infected Animals

The United States department of agriculture through the bureau of animal industry has designated Pennington County as the first county in Minnesota to have an area test for Bangs disease in cattle. During the past few years a great many of the herds of cattle in the county have been tested and it is the aim of the department to test all remaining cattle.

Commenting on the project, County Agent Howard Grow said, "Now is a very good time to make this area test as many farmers are short of feed and cattle prices are high. Any reactors would be sold to good advantage at the present time. The government always makes an indemnity payment on infected animals which is in addition to the price that the animal brings on the market.

"Educational meetings will be held next week for the purpose of discussing the disease, its control, loss caused by Bangs, and its relationship to the safe guard of human life. All farmers who have not signed agreements for testing will be notified of these meetings.

"It is an honor for Pennington County to receive the opportunity of having all cattle in the county tested for Bangs disease. Every cattle owner should cooperate to make this undertaking successful by having their neighbors and friends sign contracts for the testing for the disease."

Several veterinarians employed by the United States bureau of animal husbandry will be in the county to carry on the test. It is anticipated that the work will start about October first.

Judge Brattland Tells C. C. of European Trip

In an informal address at the Civic and Commerce association luncheon last Thursday, Judge M. A. Brattland discussed impressions gained on his recently completed tour of European countries. While English appears to be becoming the universal language, he stressed the importance of a study of languages by the growing generations.

Wilma Lorrayne Aakre And Bemidji Man Wed

Miss Wilma Lorrayne Aakre, daughter of Mrs. E. Aakre residing near this city, and Frank Wilbur Philbs of Bemidji were married Sunday afternoon, September 5, at 12:30 o'clock in Christ's Lutheran church in St. Paul, Rev. A. E. Hanson, formerly of Bemidji, reading the service in the presence *of relatives and friends.*

The bride's wedding ensemble consisted of a moss green silk alpaca gown with matching accessories and an arm bouquet of Talisman roses and baby's breath. Her attendant, Miss Maria Boyum of Lanesboro, was dressed in blue and white. Arnold Aakre, brother of the bride, who was groomsman, sang "O Promise Me" and "I Love You Truly".

After the ceremony the bride and bridegroom left for Duluth and the North Shore Drive, stopping at the Naniboujou Lodge on the Gunflint trail and returning via Virginia, where they were entertained at a buffet dinner at the home of Mr. and Mrs. R. R. Aakre, brother and sister-in-law of the bride. Mr. and Mrs. Philbs are at home at 122 Beltrami Avenue in Bemidji.

Mrs. Philbs is a graduate of Lincoln high school and French's business college of Bemidji. She has been employed the past three years in the office of the county auditor at Bemidji. Her husband is a graduate of the Bemidji high school and is employed as manager of the Brunswick Bowling Alleys.

SHOWER GIVEN FETING MRS. CHARLES MOHR

Mrs. Charles Mohr (Maxine Dalton) of Detroit Lakes was honored Sunday afternoon while spending the week-end in this city at the home of her parents, Mr. and Mrs. George Dalton. The affair was a parcel shower at which Miss Norma Noel and Mrs. Floyd Dahl were hostesses at the Dalton home. Honoring Mrs. Mohr were the Mesdames Frank Hayden, Knute Haugen, C. Noel, Carl Melby, Bjernson, Gust Haugen and George Dalton; the Misses Helene Storhaug, Juliette Olson, Ruth Lundstrom and Dorothy Noel; and the hostesses.

THOMAS LEE MELGAARD WED IN BERKELEY, CAL.

Announcements were received in the city this week of the marriage in Berkeley, California, September 9, of Thomas Lee Melgaard, son of Mr. and Mrs. T. L. Cora Horten, Andrew Grendahl Vows Spoken at Holt September 5th

Miss Cora Horten of this city, daughter of Mrs. Mary Horten of Voltaire, N. D., became the bride of Andrew Grendahl, also of this city, at a pretty house wedding at the home of the bride's uncle and aunt, Mr. and Mrs. R. C. Daily of Holt, September 5. Rev. E. L. Tungseth read the service at two o'clock. Miss Horten was attended by Miss Johanna Peters of this city, and Willie Garfve of Newfolden, uncle of the bride, was groomsman.

The rooms of the Daily home were decorated in pink-and-white for the occasion, white wedding bells centering the pink ceiling decorations. The wedding party stood within a semi-circle of garden flowers beneath an improvised arch covered with streamers. Baskets of cut flowers and ferns flanked the arch.

The bride's wedding gown was of white satin, fashioned with a slight train and a lace bodice, the lace extending to the elbows to form the upper sleeve. Her finger-tip veil was fastened to a beaded tiara, and her bouquet was of American Beauty roses and white sweetpeas. The bridesmaid wore a floor-length gown of pale green and a corsage corresponding to the bride's bouquet.

Following the ceremony, a reception was held. Covers were placed for the bridal party and the nearest kin at a table of honor which was centered with a wedding cake. Forty relatives of the bride and bridegroom were present at the wedding and reception, the only out-of-town guest being Mrs. Charlie Winnegge of Devils Lake, N. D.

Immediately after the reception, Mr. and Mrs. Grendahl left on a brief trip to the bride's home at Voltaire, N. D., and to Devils Lake. They returned to this city last Thursday evening and are at home in the Lynde-Waale apartments, 302½ North LaBree Ave. Mr. Grendahl is employed with the Northern Woodwork Co. His bride took a nurses training course at the Physicians hospital in this city and is employed as Dr. O. G. Lynde's office nurse.

PATENTED DUAL-CHAMBER BURNER—Greatest clean fire range of any burner. Silent, clean, odorless, at all stages—from pilot light to maximum heat.

HEAT REGULATOR—Simple as turning a dial. Gives you all the heat you want on cold days, just enough heat to take the chill off on milder days.

SPECIAL "WASTE-STOPPER"—Prevents heat from rushing up the chimney, sends more heat into your home. Saves oil!

HEAT GUIDES—Circulate the heat evenly. No cold spots.

FULL FLOATING FLAME—Licks lazily against the sides of the heater, circulates more heat into the house. Gives you "more heat per gallon".

Duo-Therm heaters are SAFE . . . listed as standard by the Underwriters' Laboratories . . .

Let us show you the new Duo-Therm oil burning circulating heaters. There are eight models—three finishes. Inexpensive, too.

Doris Wilson of Bagley, Leonard Harris Are Wed at Candle Light Service

Before an improvised altar of gladioli and candles, Miss Doris Wilson, daughter of Mr. and Mrs. De Vere Wilson of Bagley was united in marriage to Leonard Harris, son of Mr. and Mrs. Paul Harris of this city at a candle light *ceremony at 9:30 A. M.* Sunday at the home of the bride's parents. Rev. Anderson, pastor of the Free Lutheran church of Bagley officiated at the service.

The bride who was given in marriage by her father was attired in a dusky pink moire taffeta gown fashioned on princess lines which fell into a small train. Her bridal bouquet was of pink roses. Her attendant, Miss Falsum Johnson of Warren, wore an aqua marine floor length gown of satin and carried a bouquet of gladioli and larkspur. She wore a small gold cross, a gift of the bride. Pat Harris of this city attended his brother. The mother of the bride wore a navy blue street length dress with gray accessories and the bridegroom's mother wore a navy blue dress with dark accessories.

Just previous to the exchange of vows, Mrs. Dale Habstret of Warren, a cousin of the bride, sang "Oh, Promise Me." She was accompanied by Mrs. Kenneth Fare of Bagley who also played the wedding march.

Following the ceremony a reception was given at the bride's home for relatives and close friends. The young couple then left for Hokah where Mr. Harris is employed with the state highway department. Mr. Harris is a graduate of the Thief River Falls high school. Mrs. Harris graduated from the Bagley high school and attended the University of Minnesota last year.

MRS ANDY WILLIAMSON ENTERTAINS FOR SON

Mrs. Andy Williamson, assisted by Mrs. George Williamson, was hostess at her home Monday afternoon for her son Allen James, the occasion being his sixth birthday anniversary. Six guests were invited in addition to Allen James, honor guest. They were Harry Simons, Jr., Robert Henderson of Lone Pine, Calif., Robert Thompson, John Hamilton, Kenneth Woodhouse, and Roger Williamson. Games and contests were enjoyed, prizes going to Harry Simons, John Hamilton and Robert Henderson. A birthday luncheon was served, a birthday cake with six candles occupying the center of the luncheon table. Balloons were guest favors. Allen James was presented with many lovely gifts.

OUTCROPPING LIGNITE COAL IS DISCOVERED

New Ulm—Believe it or not there is coal in "them thar hills". It may not be in paying quantities but coal has been discovered on the Alfred Gronau farm six miles northwest of Fort Ridgely. Mr. Gronau states the vein was six inches in width and that it cropped out from the hillside in a deep ravine. The coal is not heavy, and when submitted to test has a tendency to disintegrate. Although it is questionable whether there is sufficient in the vein to pay for mining, a more extensive investigation will be made, as there may be other and larger veins of the product on the farm, located but a short distance from the Minnesota river. Mr. Gronau, who was surprised to discover coal in this part of the country, expects to turn over the specimen to the historical museum.

ESCAPES DEATH FROM FALL INTO OATS BIN

Sleepy Eye—Falling into a bin of oats while the grain was being drawn out of a spout at the bottom was very nearly fatal for Marvin Hanson, eight-year-old son of Mr. and Mrs. Rudolph Hanson of Milroy. When the oats did not flow from the spout, Elmer Hansen, who was working nearby, investigated and found the boy's foot sticking out of the bottom. Fast work in scooping out the grain and reaching the boy's hands to pull him out saved his life. The lad was unconscious and breathing had ceased. Artificial respiration was begun promptly and the boy regained consciousness.

Official Paper of Pennington County and City of Thief River Falls

Light department billings for the first eight months of the year came within $700 of equalling last year's total for the same period. In other words the reduced rate in effect during this period was just about offset by increased volume. During the remaining four months the increased volume will result in a proportionate gain in billings, the new rate having gone into effect on the first of September, last year. City clerk Pederson is hopeful, therefore, that the billings for this year will increase four or five thousand dollars over last year which will bring the total close to a hundred and twenty thousand dollars. Just a few years ago fifty thousand dollars was considered a very satisfactory annual volume.

Now that the sidewalk is poured in front of the new Falls theater and traffic on that side of the street will be able to proceed in a normal way, it has occurred to us that this building has been erected with a minimum of inconvenience to the public. The builders have been exceptionally considerate and most of the time during the construction period an improvised walk has been kept open in front of the building. Only when construction itself made passage dangerous was the public obliged to circle the gravel piles in the street. In behalf of the community we say "thank you".

Another city election is just around the corner but there doesn't seem to be much excitement about it as yet. Perhaps the lack of interest is due to the fact that things have been going along very smoothly. The present group of city officials seem to be working in harmony and apparently are doing a pretty good job of managing the city's affairs. Maybe it would be a good idea to have things as they are for a couple of more years.

A friend of ours who has always insisted that wars are made by selfish interests and all that sort of thing, set us up to coffee and doughnuts the other day in order to tell us what our country ought to do to the blankety blank Japs. He was mad all the way through and pounded the table so hard he almost upset the coffee. We don't remember much of what he said but it did occur to us that he himself was a good example of why we have wars. His emotions had swept him completely off his feet. He was boiling over with hate and prejudice, that hatred to anyone who would listen. Multiply that individual by a few thousand and you have a lot of explosive power. Right now is a good time to keep cool. We all have ideas of right and wrong in the present international mess but it doesn't help matters to get excited about them. It will be less difficult for our statesmen to deal with difficult situations if the masses of the people remain reasonably calm.

We have heard many fine comments about the corn that is being displayed in our windows and that will be used in the building of the corn palace. It is quite common to hear people express surprise that such fine corn can be grown up here. And yet some of our farmers have been growing corn just as good as that displayed, year in and year out for many years. The thing that surprises us about the ripe corn in this territory is the large amount that ripens in spite of the way it is planted. Very little of the crop is checked in. Most of it is drilled in thick for fodder and ensilage purposes. The planting of small plots of quick ripening varieties for experimental purposes should be encouraged. An acre of ripe corn provides a lot of turkey feed.

Albin Knutt brought in a fine stalk of celery from his garden over in the mill yard. Grown on a small scale, this is one crop that would find a good local market.

Under the lights, Friday night, the Lincoln High grid squad will make its first appearance of the season. Night football proved popular here last year but there never was what you might call a serious shortage of room for the spectators. If you don't see the first game you can't see them all.

Officials down at Washington are having a little difficulty deciding what they are going to do about cotton. Four years ago they knew the exact answer. Cut down production. And so the machinery for cutting cotton production was set in motion. The result was very gratifying. The price of cotton went up and everybody was happy. Why hadn't somebody done something like this before? Right now, however, they are not so sure their original plan was right. As production in the States was reduced, production in other parts of the world increased. Our growers were losing out in the world markets. The government's crop control plan, if continued, would, in the course of a few years take American cotton off the world market entirely. And the cotton grower would have to turn to other crops in competition with other American farmers. That's why the officials are now scratching their heads, trying to figure out a new solution. They are talking now of a two-price arrangement, one price for this country and another price for that part of the crop that is sold on the world market. And this would be fine if it were not for the fact that such an arrangement calls for a protected American market. That sounds [illegible] popular in Washington at the present time. Such an arrangement would be contrary to the administration's reciprocal trade ideas. It probably can't be done, after all, to the "brain trusters."

It is good news locally to hear that [illegible] have placed the Red Lake River development project near the top of the list in their program of water conservation. The project provides for a control dam at the outlet of Red Lake and improvement of the channel from the outlet to Highlanding. Farther down on the list provision is made for sewage treatment plants here and at other points along the river. Information as to how soon work on the project will get under way is not available but there is said to be reason to hope that the time of action [illegible].

Topics of the Times

By N. A. H.

A neighboring editor explains what a hangover feels like. The average man would modestly plead ignorance.

We note a sound criticism of the American temperament to the effect that it has a tendency to consider the latest news the most important.

No wonder there are so many caucuses. This country boasts 1,000,000 golfers.

A new movie is called "The Road Back". It sounds, says Billy [illegible], like the story of a girl who got into the wrong auto.

Now come the days when blankets are a useful item of household equipment.

The marital status in Hollywood film circles is further complicated by the fact that there are so many retakes.

Maybe the reason Uncle Sam hasn't ordered a forty hour week for employers is that so much time is required to fill out all the tax forms.

Too bad that the unborn generation that will pay the bills can't be allowed to vote on the government spending program.

A bow of appreciation to Mr. A. L. Jackson for his friendly letter in the Times last week.

David Lundeen, State Official, Is Disbarred

David Lundeen of Minneapolis, disbarred Friday from practicing law by the State Supreme court on charges of misconduct, continued on the job this week as director of the state division of soldier welfare and head of the war veterans relief agency. There was little indication as to the attitude the state executive council, which named Lundeen head of the relief agency, and the State Board of Control, which appointed him director of the Soldier Welfare division, will take toward the disbarment.

637,062 PERSONS ATTENDED STATE FAIR LAST WEEK

New All-Time Attendance Record Is Set at Event

The 1938 Minnesota state fair will be held September 3 to 10, and plans are already under way for the 79th annual exposition, announces Raymond A. Lee, secretary. From every viewpoint the 1937 fair was successful. A new all-time attendance mark was established, with 637,062 passing through the gates as compared to 636,484 a year ago. New records for individual days were made on Saturday, Sunday, Friday and the final Saturday. Thrill day attracted 100,655, the first time the 100,000 mark has been passed on any day excepting Labor Day.

Financially the Fair was a complete success. While a substantial profit will be shown, the exact amount cannot be determined until the revenue from all sources can be checked and the expenditures compiled. Whatever the profit is it will be invested in new buildings and permanent improvements for the 1938 Fair.

COUNTY FARMERS TO VOTE ON POTATO MARKETING PACT

Growers Asked to Express Opinions Next Week On Proposal

Potato growers in Pennington county will have the opportunity of voting on the potato marketing agreement and on a potato goal in the 1938 agricultural conservation program on September 21, 22 and 23 in Thief River Falls, according to Howard E. Grow, county agent.

A district meeting will be held in Thief River Falls on Monday, September 20 for six counties in this territory. This meeting will be for the county agricultural conservation committees and county agents. Representatives of the state committee will conduct this meeting and discuss the marketing agreement and goal referendum that growers will ballot on the following three days.

The marketing agreement if put into effect would keep all potatoes below U. S. No. 2 grade out of interstate commerce. These cull potatoes could still be marketed within the state without conflicting with the agreement. At the presen time there appears to be a surplus of 30 million bushels. By putting the marketing agreement in force it would keep about 5 million bushels of cull potatoes out of interstate shipment.

There will be some expense involved if the agreement is put into effect which would have to be borne by the producers and handlers. If the marketing agreement will stimulate prices enough to offset the expense involved and still give the growers a fair price for their potatoes it would be wise to put the agreement into effect. On the other hand, unless it stimulated prices it would not be of any value. Every grower should vote one way or the other on the agreement.

An educational meeting will be held in Thief River Falls Tuesday evening at 8:30 P. M. Balloting will follow the meeting and on Wednesday and Thursday from 9:00 A. M. until 5 P. M. Interested farmers are asked to inquire at the county agent's office for location of polling place.

HIGHWAY PATROL SEEKING SAFETY RECORD IN SEPT.

Heavy Travel During Month Calls Forth Special Efforts

Overtime and extra miles of travel are marking the work of the state highway department's highway patrol this month because of the additional travel which regularly prevails during September.

In addition, the patrolmen and officers are expending every effort to co-operate with the various safety groups which are staging the annual "Make September the Safest Month" drive, W. F. Rosenwald, state traffic engineer, voiced a policy of the highway safety division when he stated that "while we do additional work to aid in the September safety drive, the highway safety units never actually put on a more intensive drive one month than they do the next. However, we are genuinely trying to make this September the safest month just as we will try to make November, December and all the months to come the safest months."

Students returning to school summer vacationers returning to their winter homes, state fair week visitors, heavy movements of farm produce and other factors make September the month in which the most traffic passes over the highways of Minnesota, Mr. Rosenwald said. As heavy traffic means additional hazards for the motorists, it also means longer hours and longer travel for Minnesota's 100 highway patrol men.

In discussing safety at a meeting in the Twin Cities recently, the state safety division head declared that "if every driver will remember his good manners once he is behind a wheel and will use simple courtesy on the road our traffic accidents and fatalities will drop immediately. Such things as 'hoging the road,' driving without giving the proper signals, refusing to dim lights, holding up a procession of cars because of unnecessarily slow speed thus forcing other automobile drivers to go around you, forcing your way into traffic with no regard for the other fellow and countless other selfish and discourteous acts are responsible for untold accidents."

Mr. Rosenwald also urged adherence to the state law which requires that speed be cut to 30 miles an hour whenever passing through a city or village. This, he claimed would immeasurably lower the gastly traffic toll.

EAST GRAND FORKS MAN ARRESTED ON LOCAL COMPLAINT

Robbery Charge Is Entered Against Night Club Operator

Charges of illegal operation of gambling devices and robbery in the second degree were preferred against Melvin King in municipal court in Crookston Saturday after Polk county officials raided King's New Moon night club on the outskirts of East Grand Forks Friday night, seizing about 30 quarts of liquor and six slot machines, says the Crookston Times.

Robbery charges grew out of complaints filed by two Thief River Falls men who accompanied the Polk county officials to East Grand Forks Friday night and identified King as the man they claimed knocked them insensible and robbed them September 7.

Sheriff Julius Spokely, Deputies O. K. Bolstad, Ed Kelley and Frank Lohn, and Max Raines of the state bureau of criminal apprehension, conducted the raid. They were accompanied to East Grand Forks by Oliver Kaushagen and Oscar Amren, of Thief River Falls.

The second degree robbery charge alleges that King took $10 from Amren at the New Moon. Kaushagen claims to be an eyewitness to this theft.

A third warrant, charging King with illegal possession and sale of liquor, is held by County Attorney F. H. Stadsvold, but King has not been arraigned on this charge.

In municipal court in Crookston Saturday morning Judge William P. Murphy set Friday at two p. m. for preliminary hearing of King on the gambling device and robbery charges. Bond was set at $500.

Elsberg Lets Contract for Paving on T. H. 75

Awards totaling $258,210.25 for 5.7 miles of concrete paving and grading, five miles of bituminous surfacing, and 12.6 miles of gravel surfacing in five counties have been let by N. W. Elsberg, state highway commissioner.

The jobs awarded include: Kittson county, grading and paving, T. H. 75, length three miles, located between Noyes and three miles south, to Hallett Construction Co., Crosby, for $128,224.81 out of matched federal aid.

FEDERAL AGENCY PREDICTS LARGE SUPPLY OF DUCKS

Hunting Season in Northern Zone Will Commence *October 9*

The biological survey bureau in Washington predicted Monday that larger flocks of ducks will be on hand for the hunting season this year because of successful conservation work. Guns will start booming in northern states October 9.

"There will be an increase for the second consecutive year," the survey prophesied. "It seems the conservation program of abolting restriction and refugee establishments is working out."

The bureau said cooperation of sportsmen and the states had been invaluable. It is asserted that a numerical decline of ducks up to 1935 resulted from wanton killings, and disapperance of breeding and resting places due to drainage and agricultural development.

About 240 sanctuaries, some described as "super-refuges," have been established in Minnesota, North Dakota, South Dakota, Montana, Oregon, Michigan, and other northern states.

To check over-shooting, the bureau ordered limitation of gunloads to three shells, prohibited use of live decoys and bait, and restricted the season to 30 days.

The northern zone season is from October 9 to November 7 and intermediate from November 1 to November 30.

It is said that 10,000,000 persons play table tennis in this country. The champion players are under 21 years of age.

150th Anniversary of Signing of Constitution to be Observed Sept. 17

A resolution urging state wide participation in the 150th anniversary of the signing of the Constitution of the United States on Friday, September 17, has been adopted by the United States Constitution Sesquicentennial Commission for Minnesota.

Members of the Commission are Henry M. Gallagher, Chief Justice of the Minnesota Supreme Court, chairman; William S. Ervin Attorney General of Minnesota; and Lewis E. Lehmann, member of the Board of Regents of the University of Minnesota.

The sesquicentennial anniversary on September 17 will be the first of four events to be commemorated during the course of a nation wide observance ending April 30, 1939. Other events to be commemorated are the ratification of the Constitution, the organization of the national government and the inauguration of President Washington.

The celebration in Minnesota on Friday will take the form of pageants and tableaux; informal meetings and program featuring the constitutional theme; special radio broadcasts and other events.

On the eve of the state wide celebration members of the Minnesota Commission will be heard in a special radio broadcast over WCCO from 6:00 to 6:15 P. M., Thursday, September 16.

Nils Hagen, Founder of Oklee Herald, Succumbs at Home September 3d

Nils Hagen, 67 years of age, a resident of the Oklee community since 1914, founder of the Oklee Herald, and publisher of that newspaper for 21 years, died at his home in Oklee September 3 from heart trouble aggravated by high blood pressure, says the Red Lake Falls Gazette. He had been confined to his home by his illness but a couple of days.

Mr. Hagen came to the Oklee community from Bagley where he had been employed on a newspaper and where he also practiced law for several years. He was one of the pioneers of the Oklee community and contributed liberally of time and effort to the building of that community.

He was born in Norway, April 15, 1870 and came to the United States when 23 years of age. He spent a number of years in the Bagley community and was the owner of a fine farm in Clearwater county. On January 22, 1918, he was united in marriage with Miss Kate Lidberg.

Besides his wife he is survived by one brother, Gust Hagen of Fisher and his aged father, Eberhart Sonsthagen, still living in Norway.

Funeral services were held at Oklee Monday at 1 p. m. with Rev. J. K. Lerohl officiating.

NRS Reports on Job Placements in August

During August the 27 National Reemployment offices of the state made 7,231 private, public, and relief placements, and registered 3,925 new applicants, according to R. S. Eldevik, manager of the Thief River Falls office which is affiliated with the state-wide net work. The consolidated information was received today from Dreng Bjornaraa, state director. Placements in private industry alone totaled 4,793, a decrease of 8.5 per cent from July. As compared with private placements made a year ago, August placements were 223.8 per cent higher. Clearance jobs, those filled by shifting workers between areas in cases where a supply does not exist locally, amounted to 766 for last month.

STATE SIXTH IN NATION FOR JULY PRIVATE JOBS

According to information just released from Washington headquarters of the United States Employment Service, Minnesota was eighth in the nation in total placements for July with 11,870, and sixth in private placements with 8,556. The five states, leading Minnesota in private placements are Texas, Illinois, California, New York and Ohio, in the order named.

UNIVERSITY WILL OPEN 68TH TERM SEPTEMBER 27TH

Large Enrolment Expected at State Institution During Fall

The University of Minnesota will open its sixty-eighth year of educational and cultural service to the people of the state on Monday Sept. 27. Faculty members will be on hand September 15 to take part in the various advance duties connected with registration, advice and examination through which students must pass before taking up the routine of the 1937-1938 school year.

Registration of new students will take place September 20-21, the first two days of Freshman Week. The remainder of the period will be devoted to acquainting new students with their duties and in getting them accustomed to their new surroundings before classes begin. Examinations for removal of conditional grades are scheduled for Sept. 20-21, with physical examinations set for the same dates. Registration for the Arts college will be held Sept. 21-24.

As the University's sixty-eighth year gets under way principal new features will be largely of a research nature. Opening of the new experimental engineering laboratory, starting of construction of the giant "atom smasher" and the nearly completed hydraulic research laboratory are among the features of this type.

Dr. Lotus D. Coffman will be starting his eighteenth year as president of the University of Minnesota. During his tenure of office the institution has doubled its size and has added greatly to its national stature and reputation.

Four new members will take up duties on the Board of Regents this fall. They are George B. Leonard of Minneapolis; Lewis E. Lohmann of St. Paul; Benjamin DuBois of Sauk Centre and Martin Olson, a resident of Vining. They will succeed Rufus R. Rand, Minneapolis; Julius Coller, Shakopee; A. J. Olson of Renville and Dr. O. J. Hagen of Moorhead, whose terms have expired. Another vacancy has been created by the recent death of Regent John G. Williams of Duluth.

Dr. John T. Tate will head the Arts College, the largest unit in the University, this fall, succeeding retiring Dean J. B. Johnston in the principal administrative change on the campus. Another major change, appointment of Julius M. Nolte, formerly of Duluth and now of Wayzata, as director for the Center for Continuation Study, will be in effect. He succeeds Dr. Harold R. Benjamin, recently appointed dean of education at the University of Colorado.

BAD WEATHER can be GOOD WEATHER for you

Telephone operators here know from experience that storms increase the number of telephone calls. When it's unusually hot or cold...when it rains or snows or blows ...it's extra good weather for you to use telephone service. You are looking for a way to get things done...to talk with friends...without getting out.

You probably appreciate having a telephone most on stormy days... and in emergencies...but every day, it can save you time and expense by running your errands. One of the secrets of having more leisure is to use the telephone...you can accomplish so much more in so much less time.

2 Young People Injured When Their Car Crashes Into Soo Freight Train

Two young people, Leonard Gagnon of Poplar River and Miss Rebecca Paquin of Oklee suffered painful injuries about 10:40 p. m. Thursday, when the car which was being driven by the former crashed into a Soo Line freight train at the crossing just south of Plummer, says the Red Lake Falls Gazette.

Mr. Paquin and Miss Gagnon were returning to Oklee when the accident happened and had just turned off Highway 9 to cross the tracks when they crashed into the freight which had been switching in the Plummer yards.

S. J. Bredeson of Red Lake Falls came upon the young folks immediately following the accident and picked them up and took them into Plummer from which place he started to take them to a Thief River Falls hospital but was met half way by a doctor who transferred the injured young people to his own car.

Mr. Gagnon was able to leave the hospital a couple of days following the accident, but Miss Paquin was more seriously injured about the head and body and will have to remain at the hospital for some time.

The car in which they were riding is a total wreck.

ALVARADO WILL HOLD FESTIVAL SATURDAY

Alvarado will hold its first annual fall festival Saturday, September 18. A feature of the day will be an address by Superintendent Paul Hanson of the Hallock public school. MAN IS LUCKY IN FALL OF 35 FEET

Belle Plaine—Henry Hugo of Hancock township had a lucky fall, if falls can ever be lucky. He fell from the top of his barn, a distance of 35 feet, hit the top of his car and—bounced off onto the ground. Striking the car top served to break the fall so that Hugo escaped without a broken bone. Some bruises and a sprain are the total of the man's injuries in the 35-foot drop.

Brown-Meneley—Nov. 5

This duo was organized in 1923 at Dixon, Ill. under the red path Lyceum management. Carl Brown hails from Handel, Ind. Glen Meneley comes from Columbia, Miss. During the World War Brown and Meneley were in France in the 89th and 90th Divisions, occupying adjoining sectors, though they were not then acquainted. After the Armistice, Carl Brown was in an "enlisted Man's show," which presented shows daily throughout France and Germany. They made their dates by army truck. They played a week stand at the Paris Theater. Since 1923, for 14 years Brown and Meneley have appeared in every state in the Union, and gave the first program ever presented for northwest Assemblies at Fairmount, N. D., in September 1933. Glen Meneley is a son of the well-known Chautauqua manager, C. W. Meneley. Glen went to high school at Riverside and Beaumont Calif., attending an art school, he was room mate of Lawrence Tibbett. Received his musical instruction at the University of Southern Calif. Later coached by Harry Mercer, concert artist of Chicago. Studied piano at Chicago musical college.

Bob Hanscom—January 7

Presenting the "Tale of Two Cities" Born at Thomason, Maine. Educated in Maine. Enlisted in the U. S. Army during the war. He became a favorite in the army company as an entertainer where he received the nick name "Sunshine Bob." Organized his first dramatic company in 1920. This company has been on the road ever since, and is the oldest established company in the Lyceum field. He is Dean of the School of the Drama at Winona Lake, Ind. He is best known himself as a creator of old men, but his greatest triumph was as "Widow Sagle" in "Sun-up". This he played for three straight years in United States and Canada. He is one of Canada's favorite stage stars. He has had repeated offers from New York and Hollywood producers, but sticks to his first love, the American platform.

Leon Albert was introduced to the Albany, N. Y. Rotary Club a few years ago, as a modern cock-tail, a "Little bit of everything" Born in the Dutch West Indies, of parents [illegible] French subjected in England. A naturalized American citizen and an ardent [illegible] Latin America. He has experiences which few have ever duplicated. As a young boy he went through the greatest of our American catastrophes, the destruction of the city of St. Pierre on the Island of Martinique by a volcanic explosion in 1902. [illegible] snuffed out in about [illegible] of only 5 who [illegible] who escaped. A short time ago he delivered a poignant and dramatic radio address on this subject. A fluent speaker in French, English, and Spanish.

M. Van Rees—September 24

The N. W. S[illegible] offers for the first time the eminent Dr. M. Van Rees, American mentalist and magician. Composing his introduction is a baffling and mystifying array of American, European and Oriental magic, utterly fascinating to the curiosity of all. Mr. Rees presents a series of baffling mind reading, Spirit mysteries, and strange Mental miracles. You may not believe in mind reading or psychic phenomena but you must rejoice in his startling revelations of mysticism, a remarkable demonstration where facts are stranger than fiction. [illegible] something rare and unbelievable, considered from its enlighten educational and entertainment value.

Reporter Interviews New English Teacher

Name? Mr. Hilding G. Peterson.

Where did you attend college? At Macalaster College, St. Paul.

Have you taught before? Only practice teaching.

What do you think of Lincoln High School? An excellent school, I think it is a privilege to be here.

What do you think of the students? I think they're a fine young group to work with. As far as I know, they are very intelligent.

What do you think of our public address system? A very fine way of communicating with the students. It saves a lot of time for the teachers.

Do you approve of home work? No, not too much. Some is all right.

Do you believe in a lot of Extra Curricular Activities? Yes, they're the things that broaden one's character.

Have you a nickname? No.

What is your pet motto? Be prompt, dependable and helpful.

How do you like Thief River Falls? It is a beautiful little town, but I have difficulty in finding entertainment. I am waiting for the hockey season to open, so I can play some hockey.

What is your advice to the students? To enjoy themselves while in high school. There is plenty of work ahead.

MEET THE PROWLERS

For those who are interested and would like to know just how the prowler football squad lines up this year as to weight and a few other details, the following facts and figures have been gathered.

In each case, the number following the boy's name is his weight. The boys are listed according to how they rate; for instance, the one who will most likely fill that position first, etc. (Of course in the line there are two boys for each position except center; therefore the first two listed in line positions are first choice.) An X between the player's name and his weight signifies that he was a regular on last year's team.

Ends—Mickelson X 125, Quale 155, Lorentzon X 163.

Tackles—Stadum X 167, Mattson 159, Tundberg 168, Melby 151.

Guards—Johnson 133, Eide 143, H. Oen 151, Hess 139, Erickson 1[illegible].

Centers—Hanson X (captain) 146, Lonke 150.

Backfield—(4 positions) Tunberg 137, Nesse 150, Bredeson X 170, Caldis 155, Stadum 137, Shanahan 110, R. Oen 110, Booren 1[illegible].

The average weight of the team that will probably start against Red Lake Falls tomorrow evening is approximately 148½ pounds. The line averages 147⅝ and the backfield about 150½.

The general outlook, at this point, for the season is rather dull. The team is not quite up to standard for some reason. They have the material, the plays, and the coaching but are still not the team they should be. They have men in the backfield, a boy who can kick, pass, and do a lot of shifty running, but nobody can heave a pass when the other line is on him almost as soon as he gets the ball from the center. Besides all this there is plenty of weight in the backfield for line smashes through center, guard positions, and off tackle, if the backs would really get down to business and do a bit less fumbling and if the line would be a little more severe with their blocking. In all fairness, it should be stated that there are a few boys on the team who really work and get into the spirit of the game, but these few cannot carry the whole load and, until the others come to life, the Prowlers this year will just be another football team, instead of what the Prowlers were last year. Maybe a little enthusiasm on the sidelines tomorrow evening will do the trick, if something doesn't happen before then. Why not try it?

Shop in the Times first.

TEACHERS RETURN FROM VACATIONS FOR OPENING DAY

Varied Vacation Lands Draw Lincoln Teachers

R. W. Gabrielson, physical education and biology instructor—spent the major part of the summer in Thief River Falls, where he served efficiently as swimming and diving instructor. He also coached members of the tumbling team who made a daily appearance at the Pennington county fair. The latter part of his vacation was spent at his home in Chicago and at Camp Lake, Illinois.

Coach George E. Lee spent the greater part of his vacation at home. He coached and managed the Thief River Falls baseball team, and also the Junior league teams. Part of his time was spent fishing.

R. G. Riggs, band and American History instructor—also remained in town for the greater part of the summer. He conducted practices for the junior and senior high school band twice each week. The Lincoln high school band also appeared in two concerts at the Pennington county fair. The latter part of August he spent at Bemidji, where he also attended the Legion convention.

Miss R. E. Nelson, new music supervisor—vacationed at a lake and went to summer school at McPhail school, Minneapolis. She also sang at a number of weddings.

W. G. Claffy, principal and physics instructor, left the latter part of June for a camp in Minnesota and two weeks at French Lake, Faribault, and Anoka.

Miss M. Wise, commercial instructor, vacationed for three weeks at Yellow Stone Park and the Black Hills. The latter part of the summer was spent at her home in Savanna, Missouri.

Hilding G. Peterson, new English and debate instructor, was occupied with work all summer at Yellow stone.

C. W. Pope, industrial training instructor, had one month's employment at St. Cloud and vacationed the remaining summer months at his home in Thief River Falls.

Morris Bye, Superintendent, was in Thief River Falls just about all the time except for a week spent at Alexandria.

Miss H. Helquist, physical education and biology, spent the summer having a good time and went on several small trips.

Miss A. Tandberg, English III instructor, took a trip to all points south. She spent six weeks there and especially enjoyed New Orleans and Mexico City.

Miss H. C. Diebel, History instructor—vacationed in Minnesota, particularly at Sauk Center.

H. F. Harrison was occupied with work at home all summer except for a five days' vacation spent at the North Shore.

Miss Helen Margaret Olson, English and French instructor—was a counseller at Camp Algonquin near Chicago practically all summer.

Mrs. B. G Korstad stayed at home here most of the time except for a short visit in the Cities and at Red Lake.

Miss T. Larson, commercial instructor, spent her summer at the following places: Minneapolis, Northfield Summer Resort, Wisconsin, Iowa, and North Shore.

Miss R. Stenerson, English instructor, spent her vacation at her home in Moorhead.

Miss A. T. Dock, new librarian—took a twenty-day trip through Montana, Idaho, Washington, Oregon, Yellowstone Park, and then back through the Black Hills. She spent the remaining summer working in St. Paul.

Miss E. H. Dahlen, Home Economics instructor spent one month at various lakes including Lake Andrusia and White Earth. She also spent two weeks at Minneapolis.

Miss Lois E. Thoreson, home economics and general science instructor, spent a nice quiet vacation at her home in York, North Dakota with the exception of a stay at Detroit Lakes.

Miss B. Greenland, Latin and mathematics instructor, had a lovely trip through the Black Hills, Yellowstone park, and throughout the West. She returned on July 1 to her home at Red Willow Lake, North Dakota.

J. A. Johnson, business relations and industrial training spent a nice and hot vacation in Southern Minnesota. He spent most of the summer working at Marshall, Minnesota.

Miss C. G. Paulson, school nurse, was the nurse at Campfire Girls Camp at Excelsior.

Mr. G. H. Mayer-Oakes, chemistry and Geometry instructor, spent the summer teaching summer school in Thief River Falls.

EDITORIAL

The opening of school has again brought the universal topic of football to our eager ears. Throughout the nation's schools, football teams are tensely waiting for the opening whistle which will officially open the 1937 season. Lincoln High School is no exception.

Since August 15, Coach George Lee's gridders once referred to as "Thief River's unclassified maniacs" have been working into playing condition preparatory to another gruelling grind to defend last years district crown. Every possible avenue to gridiron success has been, or will be, attempted to give the school and the public a winning eleven. Prospects are excellent for a team that will closely rival last year's champs in popularity and ability.

Team competition will be keener as all rivals will be especially gunning for the Prowlers. The players realize they have a record to uphold. From the beginning of the season to the end the pressure will be on, and how long the Lee-men will possess an undefeated record we will not venture to predict. We can safely say, however, that any eleven Coach Lee sends onto the field will give an admirable account of itself whether in victory or defeat.

It is this trait that should lure a multitude of curious fans to the four nocturnal home games that have been carded for this fall. When the squad takes the field to face Red Lake Falls tomorrow night, it is your duty as a student of Lincoln High School to be there. Nothing like a large, friendly, and enthusiastic crowd will give a team the ambition to win. Surely no better tribute could be given the new team of 1937 than your attendance and support at this game.

A very few of the readers of this editorial may declare they see no enjoyment in witnessing a football contest. For a few, football must be compared to spinach; one must learn to like it. A knowledge of the common fundamentals of football and the attendance at one or two games ought to bring results.

The team will not let you down by playing an aggressive brand of football. Are you going to let Coach Lee and the team down by not attending the games?

SENIORS WHO'S WHO

Lillian Amundson is the name if you please, but it's often "Pennie". She's only seventeen but she is old enough to know that she prefers chile con carne to any other dish and "Snuffy Smith". Though swimming and dancing are her favorite sports, she likes to relax with some good reading material, or the subject she likes best, French. Lillian would like very much to have seen Tyrone Power and Joan Crawford together in "Topper". Her pet peeve (and we quite agree) is a boy who thinks he can dance but really can't.

"Pennie" aspires to be either a private secretary or a ballroom dancer. She is inspired by a young lady after whom she was named.

If you hear a terrified squawk in the dead of the night, don't be surprised at finding Lorraine Amundson causing a simply awful rukus in a chicken house because she likes nothing better than to sit down to a dinner of fried chicken. She's only seventeen years old but she has a turned up nose (and how!) and she's terribly short, the whyfore of the peculiar cognomen, "Squirt". She simply adores Martha Raye and Tyrone Power together in shows like "Thin Ice". "Squirt" likes English IV best of all her subjects, (no wonder, she's always talking anyway) but she'd rather read "Gone With the Wind" by Margaret Mitchell. She loves to sing and dance and keep a scrap book. Her pet peeve is her kid sister to whom she reads "Blondie" everyday.

Lorraine aspires to be a swimming and physical education instructor just like R. W. Gabrielson.

Lillian and Lorraine are cousins and I understand that there is no love lost between them.

Pauline Zacher is her name but it's Paulie for short. She is only sweet sixteen but we bet she knows plenty. Paulie's favorite book and author are "Lantern in Her Hand" by Bess Streeter Aldrich. She likes Joan Blondell and Dick Powell and would like to have seen them in Saratoga. She'll sit down to a plate of chocolate [illegible] pie any time. Paulie likes to play basketball and her hobby is collecting souvenirs. She favors English IV of all her subjects because she wishes to speak fluently to her patients when she is a full fledged nurse.

Proves Fish Can Hear

Tests of the hearing of fishes by Dr. Mair Evans were described by him before a conference of naturalists at Norwich, England. Worms were put into a bottle kept in a tank containing fish, and at the same moment a tuning fork was sounded. Immediately the fish swam into the bottle and ate the worms. When this had been repeated several times the fish apparently recognized it as a dinner gong. By association the fish obeyed the gong, even when no worms were in the bottle.

PROWLING AROUND

Coach George Lee's principal task in rebuilding his contender for the district football race will be the formation of an entire new backfield as the members of last year's quartet either graduated or are following the pigskin parade elsewhere.

Lynn Booren is being groomed for Roger Wessling's quarterback post. The fullback post appeared adequately filled until Mel Hougham left school for an indefinite period. Ray Bredeson, mammoth guard, was inserted in the fullback slot and may be a fixture there, but he will be sadly missed in the line. Lowell Nesse, triple-threat ace, appears to be the outstanding halfback on the squad.

Popping up as a new "diamond in the rough" is Ray Oen who was extensive service on the Crookston A. C. varsity squad before transferring here this fall. Ray, who is making his presence felt as a backfield performer, possesses a world of speed and is reputed to be a hard man to stop. Perhaps he is another Pomeroy Hill who came to Lincoln High unheralded and bowed out last fall as one of the best in Prowler history. We predict a pleasant surprise.

Karl Sandberg, powerhouse, junior tackle, who was counted on as a regular, suffered a recurrence of a back injury which almost put him on the shelf last spring. Sandberg missed several practice sessions, but he maintains Old Man Jinx will come out second best, and he will be in his usual position at the opening whistle.

George Lee's success here in Thief River Falls apparently has convinced local towns that the first requisite of a football coach is that his first name is George. George C. Wilson of Topeka, Kansas has been engaged by the East Grand Forks school to succeed the popular C. P. "Chalky" Reed, who resigned to coach elsewhere. At Goodridge, George Schmle has been assigned to guide minor sport activity in their school. If the theory holds true, they may attain the same popularity that Coach Lee enjoys here but they have a long ladder to climb.

Freshmen and Sophomores are requested to report to Coach Lee for football practice after school, in preparation for the annual Frosh-Soph. game later this fall.

LOCAL BAND TO GO TO BEMIDJI FOR OCT. M.E.A.

Band Takes Part in Various Activities During Summer

Under the direction of Mr. R. G. Riggs, the high school band has made decided progress in its work this summer. As a result of the regular band practice held on Mondays and Thursdays during the summer, Mr. Riggs has been able to start out this year's work with a well organized band. Most of the band members continued to take regular lessons on the Prescott System throughout the summer.

The band gave two outdoor concerts during July and both of these were successful. The band also played for the rural school graduation held in the auditorium. On August tenth and eleventh, the grandstand performance was preceded by a concert given by the high school band.

The band has been invited to give a concert at the Teachers' convention at Bemidji on October 21. They have begun practice on the numbers they will play.

The size of the band is considerably larger than it was last year. The members are as follows:

Clarinets: Irene Holseth, Palma Jahr, Charles Gustafson, Margaret Jacobson, Mae Wilson, Wendell Pope, Gerald Evenson, Thomas Carlisle, Lorraine Baken, Irvin Wilson, Beatrice Pederson, Elaine Bessler, Barbara Jacobson, Maurine Rhodegard, Marion Oden, Marion Douville, Harriet Nelson, Virgil Lubita, Robert Lund.

Flute and Piccolo: Marjorie Helquist.

Oboe and C Soprano Saxophone: Claire Myhrum.

Saxophones: Jerome Salveson, Wendell Olson, Paul Senstad, Darleen Edwards, Eugene Nelson.

Cornets: Ralph Gustafson, Lorraine Amundson, Lester Erickson, Donald Pederson, Vernon Ostrom, John Carlot, Delbert Harbott, Irvin Wilson.

Horns: James Skarstad, Martha Havel, Homer Matheson, Robert Paulson.

Baritones: Elinor Erickson, Milton Kelerson.

Trombones: Gloria Quist, Robert Quale, Jack Grantum, Howard Lund.

Basses: Wesley Burrell, Miloy Nelson, Orrin Pederson.

Drums: Willis Wright, George Effinger, Joyce Bennes, Donald Aasland.

Tympani: Ardith Burrell.

Drum Major: Lois Ann Peterson.

Twirler: Bernice Larson.

ROUND THE SCHOOL

Mrs. Korstads Alegebra classes are starting problems worked by formula and are also reviewing fractions.

The Typing I classes are just beginning to learn the keyboard. Also the shorthand II class is reviewing the manual.

Mrs. Korstad's solid geometry class is constructing and drawing figures to get the idea of perspective.

Miss Tandberg's English III classes are studying the magazine.

Mr. Riggs' History class is now studying colonization.

Mr. Claffy's physic class is about to study the mechanics of machinery.

Mr. Peterson's English IV class is studying speech making.

Miss Dahlen's Home Economics I classes are doing some canning while the season is still open.

Miss Dahlen's Home Economics II classes are studying budgets and inventories and selecting designs for winter dresses to be made.

Miss Thoreson's general science classes are studying environment and the forces of nature and air pressure.

Miss Greenland's Latin II classes are starting translation and reviewing vocabulary.

Miss Greenland's Latin I classes are beginning easy stories and translation.

Miss Stenerson's English II classes are studying short stories and grammar composition.

Lincoln High to Have Athletic Insurance

Unquestionably, one of the greatest detriments in the path of improving the welfare of High School Athletic participation has been dispelled by the program of High School Athletic Insurance benefit.

One of the greatest objections to athletic programs used to be the risk of physical injuries and the resulting financial costs. However, the insurance plan now in effect practically eliminates the latter.

This plan provides payments for injuries resulting from activities sponsored by the Minnesota State High School League. The plan of assessment is based on a differentiated registration fee. The fee per boy for coverage of all sports is 75c, while the fee for all but football is 25c. This fee recognizes that football is more hazardous than other sports, as well as providing a more reasonable rate for boys not participating in the sport.

Possible Indemnities range from $200 for the irrepairable loss of sight in one eye, $150 for the fracture of both arms or both legs, to $2 for a chipped tooth. The amount actually paid, however, will not exceed the amount of the itemized statement presented by the doctor. The injury must occur during regular practice, during a regular scheduled contest or in a class exercise conducted by a regular gymnasium supervisor.

The plan provides protection for participants in interclass, intramural, or interscholastic competition.

The advocates of this program firmly believe that the plan is essential to the growing interest in High School athletics.

SEPTMEBER SALLIES

Running out of gas is just an old gag to most of us, but it was the real thing last Friday night. For further information I refer you to Eddie H.

Here's to the Senior boys—and their super-colossal weiner roasts!

Betcha I can guess where all of our Ginger Rogers and Fred Astaires will spend their Saturday nights hereafter—at the Arena. Yowsah!!

Me thinks after a course in English IV, Lincoln High will turn out a fine batch of Mark Antonys and Patrick Henrys. But definitely!

And with a new bunch of bright and eager Freshmen (no cracks this time) how about going in for bigger and better school spirit—especially during pep fests.

I suppose Bennes thinks she is smart because her boyfriend works at the Evelyn Hotel. Maybe she is. None of the rest of us girls even rated a boyfriend at the Evelyn.

Look out, some of you prospective birds, Arlene P. isn't as innocent as she looks.

Coach is a big brute! When a meek and mild little bland Freshman approached him and asked "Is football very tough?" Coach's vague reply was "No, not very tough. There were only two guys killed last year." The timid freshman looked at him agape and agog and slowly backed away. Coach didn't expect to get hung upon his words but he showed mild surprise when Claffy, a little while later, told him that a little tow-headed freshman had come to the office and asked for the names of the two fellows killed last year in football.

What's this fatal charm in and about the Rulien domicile? Can it be Stubby, the pup? No, definitely. Not Stubby but Martha and Dorothy Borgan. It seems that the girls simply cannot get their algebra alone because they are being bothered constantly by PESTS!

Parts of Body Named for Him

Marcello Malpighi (1628-1694), the Italian physiologist whose discoveries did so much to advance the knowledge of anatomy, says Collier's Weekly, has more structures of the human body named after him than any other man in history.

PROWLER ELEVEN TO TANGLE WITH RED LAKE FALLS

First Game of Season to Be Held at Lincoln Field Friday

Tomorrow evening the 1937 football season will be inaugurated in Thief River Falls when the Prowlers will open their schedule against Red Lake Falls. Whether the start of this year's season will be as promising as last year is yet very doubtful.

If you will recall, in a spring game with Red Lake Falls, the local team came out on top of a 26 to 0 score. However, the chances tomorrow look very slim, at least for repeating such a performance right now. The boys seem to have lost that zip and fighting spirit which was so prevalent in last year's team, the team that completed the most successful season that Lincoln High School football had seen for many a year.

Unless the boys snap out of it and get down to business between now and Friday night—well, an upset is not probable, but it is possible. If the Prowlers do pull out on top, in their present condition, it will not be by more than one touchdown. That's the writer's opinion.

The starting line-up for the game will probably be as follows: LE, Quale; LT, Stadum; LG, Eide; C, Hanson; RG, Johnson; RT, Mattson; RE Mickelson; QB, Tunberg; LH, Nesse; RH, Bredeson; FB, Caldis.

FROM WHAT I HEAR

Coach Lee tells us the only difference between a cud-chewing cow and a gum chewing girl is the thoughtful expression on the face of a cow—which all reminds me of a little poem in that same class:

Cows have such a serious look—
They must be thinking—
But I don't know—
I've seen the same look on men—

Eddie Holmstrom's "Jalope" always gets you there—but you don't always get back—Joyce O., Marky R., Marion O. and Butz H., and Eddie were left on the dark-dark highway,—in the middle of the night till a kind old soul (Jerome S.) had the heart to give them a lift—

Jean Lee says we gals gotta stick up for our rights around here—they're spending too much money on the boys—after all (she asks us) who furnishes all the pep at the game, etc? Yours Truly heartily agrees with her.

Billy C. says he'd be a better typist if he could chew gum—he must have rhythm—or something—Well—I'll see what I can do.

PLUMMER SPLITS ITS DOUBLE HEADER SUNDAY

Loses to Kittson, St. Hilaire, Red Lake Falls combination, playing as the Red Lake Falls league team 5 to 4 and winning from Charlstock 17 to 4.

Learning, as we have some time ago, that an impartial hearing on our protest of a former game in which ineligible players were used was utterly impossible under the jurisdiction of the officers of the league, we graciously withdrew same and refrained from entering one on the game Sunday.

In as much as Oklee team used ineligible players all season and Red Lake Falls Sunday used 2 players on the Kittson roster, one on the St. Hilaire roster and an additional outsider, we claim these games as forfeited as far as organized base ball goes and conforming with the agreement accepted by all teams when the League was organized last spring. Plummer won 13 and lost 1 game of the 14 games scheduled without the infraction of a single rule in the agreement, and is willing to let the public judge to whom the "Sportsmanship" trophy should be awarded.

G. A. Krueger, Manager.

SINGLE CORN STALK YIELDS SEVEN EARS

Heron Lake.—A freak corn stalk that went Papa and Mamma Dionne two better was brought to Heron Lake last week from the Sontag farm operated by Claude Carlson. Although none of the ears were fully developed, only several being regular size, the stalk has seven ears on it. Ordinarily a stalk of corn has but one ear and it is quite unusual to find one with two ears now and then. The stalk exhibited here is about ten feet tall from a field in which that is the average height.

POWER PLANT SHOWS 16 PCT. GAIN OVER 1936

Kilowatt Output for First Eight Months Reaches 2,006,861

RECEIPTS EQUAL '36 DESPITE LOWER RATES

Total of 506,000 Kilowatts From Water Turbines to September 1

An increase of 16 per cent in the kilowatt output of the Thief River Falls power plant for the first eight months of 1937 as compared to the corresponding period in 1936 is revealed in figures tabulated by Supt. Ole Legvold of the water and light department. He stated that the output to September 1 this year was 2,006,861 kilowatts, compared to 1,724,460 kilowatts for the same months in 1936.

Due to the increased consumption of current, receipts of $73,027.03 from the plant to September 1 this year are virtually the same as for the first eight months of 1936 when substantially higher rates were in effect. As the reduced rates went into effect September 1 last year, receipts for the remaining months of 1937 are expected to show a substantial rise compared to 1936.

The kilowatt output for each month of this year and last is shown in the following table:

	1936	1937
Jan.	234,780	285,470
Feb.	209,810	255,670
March	215,520	259,101
April	211,870	244,800
May	213,690	239,720
June	198,250	227,300
July	221,100	230,120
Aug.	219,840	264,680
	1,724,460	2,006,861

The following figures showing receipts from the plant for the first eight months of this year and last are taken from records in the office of City Clerk P. G. Pederson. The figures for last year include a total of $3,232.25 in meter rentals, for which no charge is made this year.

	1936	1937
Jan.	$ 11,643.64	$ 10,341.27
Feb.	9,585.30	10,371.63
Mar.	8,071.82	8,850.55
April	9,031.17	9,224.92
May	8,376.66	8,412.94
June	9,147.84	8,757.62
July	7,954.77	8,168.38
Aug.	9,002.17	8,899.72
	$ 73,713.37	$ 73,027.03

In commenting on the kilowatt production figures for this year, Mr. Legvold stated that the water turbines in the local plant produced 506,500 kilowatts during the first eight months of the year, with an indicated total of 175,000 kilowatts for the full month of September, making an aggregate output for the water wheels in excess of the total of 650,300 kilowatts produced in this manner during the full four-year period 1933-1936, when low water levels prevailed in Red Lake river.

PROWLERS MEET CROOKSTON TEAM FRIDAY EVENING

Win First Game of Season, Defeating Red Lake Falls 33 to 6

Buoyed up by their 33 to 6 victory over Red Lake Falls in their opening game of the season last Friday evening, the Lincoln high school football team will seek another win Friday night of this week when the Crookston high school eleven will furnish the opposition.

The first period of the Red Lake Falls contest ended 0-0, while the Prowlers scored three touchdowns in the second period and one each in the third and fourth. Red Lake Falls scored late in the second period following an 80-yard run by Martell, who later went over for a touchdown.

The Prowlers play at East Grand Forks October 1; at Grafton October 8; and at Mahnomen October 15; following which two home games will be played against Warren October 22 and against Bemidji October 29.

Inspecting Corn for Festival Corn Palace

Scouting for corn to be used in building the corn palace now under construction in front of the arena in preparation for the Thief River Falls fall festival October 7, 8 and 9, Postmaster Andrew Anderson, chairman of the agricultural committee of the Civic and Commerce association, is shown above with Fred Copp inspecting a fine field of Rainbow Flint corn on the Copp farm five miles northwest of the city. Mr. Anderson, who is charged with the responsibility for providing an adequate supply of corn for the palace, announced this week that the goal is now in sight.

Korn Kob Klub to be Formed This Evening

To Take Charge of Whoopee Department of Fall Festival

To take charge of the whoopee department of the fall festival to be held in Thief River Falls October 7, 8 and 9, the Secret Order of the Korn Kob Klub will be formally launched this evening at 8:30 in the Civic and Commerce association rooms.

Membership will be limited to men of all ages who enjoy a little good-natured fun, it was announced and the Klub regalia will include a badge bearing the name of the organization and a corn cob pipe, which the owner will be pledged to use on every possible occasion. Badges and pipes will be distributed this evening to the first 400 members enrolled.

While the Korn Kob Klub is strictly a masculine organization, the feminine influence will be present to the extent that members of the Legion auxiliary drum corps will aid in the enrollment of neophytes in the order, which is expected to rival the High Hat club of a few years back.

Officers will be elected at the first meeting this evening, following which plans will be discussed for the part to be played by the Klub in the fall festival. The drum corps will be on hand to enliven the proceedings.

Cassell Orchestra to Play for Second Arena Dance Saturday Night

Allyn Cassell and his popular orchestra will provide music for the second of a series of mammoth "barn dances" to be staged in the winter sports arena Saturday evening, September 25, it was announced today. A good-sized crowd of dancers turned out for the first event last Saturday night. The Cassell orchestra which has performed over Radio Stations WNAX, WOW and others, features a group of vocalists including Jack Kane, Chuck Butler, Zeke Ellefson and Lew Askland.

GOOD RESPONSE TO PROPOSED TESTING OF COUNTY CATTLE

Meetings to Sign up Farmers Scheduled for This Week-end

From the response that has already been received on the test for the elimination of Bang's disease in cattle in Pennington County it apparently will meet with approval of nearly every cattle owner, reports Howard E. Grow, county agent. Since the announcement last week that the United States department of agriculture was intending to test all of the cattle in the county, several farmers have come in to the county agent's office to sign contracts asking to have their cattle tested.

Educational meetings are being held now for the purpose of giving the farmers some of the more important facts in connection with Bang's disease. The first meeting was held in Thief River Falls Wednesday evening. Other meetings to be held are: St. Hilaire, Hilden & Olsen hall, Thursday, Sept. 23; Goodridge, school gymnasium, Friday, September 24; and River Valley, community hall, Monday, September 27. A large attendance is expected at all meetings.

Steal Merchandise at Local Hotel Saturday

A quantity of sample merchandise, the property of G. Sommers company, St. Paul wholesale house, was stolen Saturday night from the sample room of the Evelyn hotel. The loot included billfolds, pen-and-pencil sets, hosiery and other items.

Huge Carrots and Grapes Placed in Times Display

A bunch of gigantic, well shaped carrots measuring as much as 20 inches in length were entered in the Times "Can You Beat It" department this week by John P. Pederson, living in Rustad's addition. Fred Protz submitted a cluster of Beta grapes which are virtually as large as the ordinary Concord variety.

WRESTLING BOUTS ARE ARRANGED FOR CARD HERE OCT. 8

Glen Undlin of Appleton to Meet Lou Plummer in Feature Bout

Arrangements for the wrestling program to be presented in the Auditorium Friday evening, October 8, as a feature of the fall festival are now taking final form, Bill LaFave, promoter for the local Legion post, stated today.

Due to an engagement to appear in New York October 11, Abe Kashey will be unable to make a return appearance here at the festival. Instead, Lou Plummer of Baltimore, Md., will be opposed by Glen Undlin, 225-pound grappler from Appleton, who has been seeking a match with the Baltimore man for a long time. The match will have a one-hour limit or one fall to a finish.

In the semi-final event, with a limit of 30 minutes, Karl Koopman of Minneapolis, 160 pounds will meet George Saubr, 188, of Lincoln, Nebraska. This will be preceded by a match between Frank Topas, 210, of Minneapolis, and Pete Frosis, 205, of St. Paul. Each of the contestants to appear here has had from seven to 12 years mat experience. In addition, several pairs of local amateurs will appear on the program. Wally Karbo of Minneapolis will serve as referee.

50 TO 60 CARS OF GRAIN EACH DAY ON SOO LINE

The grain movement thru this city on the Thief River Falls division of the Soo Line slackened considerably during the past week compared to the peak reached earlier in the month, an average of 50 to 60 carloads being received each day, it was reported at the division office here.

FARM PLANNING UNIT STRESSES WORK ON SHEEP

County Organization Sets October 12 for Ram Exchange Day

COMMITTEE ON BANGS TEST IS APPOINTED

Also Discuss Projects for Promotion of Poultry Industry Here

The Pennington county agricultural planning meeting was held in Thief River Falls last Friday. Due to the busy season there were only a small number of farmers present to plan the extension program for 1938. The planning committee present were Hans Anton, Ed. Hanson, Lloyd Johnson, Frank Hardisty, Carl Beiswenger Sr., C. A. Lindquist, Emil Larson, Wm. Kruse, E. H. Pomerenke.

The committee decided to stress the sheep work for another year. The plan calls for the ram exchange and sale on October 12 at Thief River Falls, an educational meeting in December on winter feeding, and a tour in June similar to the one held last June.

The other livestock work to be emphasized is the area test for Bang's disease in cattle. The test will be made in October. A county committee composed of Anton Johnson, Ed. Hanson, E. H. Pomerenke, Emil Larson, C. A. Lindquist and S. E. Hunt will help secure new contracts with farmers who have not signed before. Township committees were also appointed.

The committee recommended some educational meetings on seed treatment for the prevention of smut in oats and barley. They also wanted some demonstration plots of Peatland barley, Thatcher wheat and Minhybrid No. 402 corn in 1938. A school will be held during the summer on the proper handling and threshing of barley so that it will grade malting and henceforth sell at a higher price.

The poultry program calls for a series of meetings on incubating and brooding in April, culling in July, and feeding, housing and management in September. Attempts will also be made to secure some poultry producers to keep accurate records of their flock in cooperation with Miss Cora Cooke, poultry specialist at University Farm. Dr. W. A. Billings will again visit with about thirty turkey growers in the county.

The committees on 4-H club work and the women's project will meet later to plan their work for 1938.

Grow Outlines '38 Farm Conservation Program

Says New Setup Is Based on Good Farm Management Principles

A brief outline of the 1938 Agricultural Conservation Program was received this week by Howard E. Grow, county agent. Mr. Grow says that next years program will be easier to understand and administer. The programs for 1936 and 1937 have been emergency programs to replace the corn, hog and wheat programs that were declared unconstitutional in 1936. The new program for 1938 is of a permanent nature and primarily based on good farm management principles.

In 1938 there will not be a soil depleting base assigned to each farm as has been done in the past, but rather there will be a soil depleting limit set for each farm. In addition there will be a soil conserving goal for each farm. If a farmer does not overseed his soil depleting limit and reaches his soil conserving goal along with carrying out the recommended practices such as making new seedings of legumes, applying phosphate, etc., he will be in full compliance and will receive his full payment. When a farmer is only in partial compliance he will get a partial payment.

The method of determining payments is entirely different than in the previous programs and each farmer will know exactly what his payment will be in the spring before seeding if he complies with the program. This is a distinct gain and many farmers will take advantage of it. The new program will be announced and educational meetings will be held in the near future.

LAST RITES THIS AFTERNOON FOR SVENKE K. DAHLE

Rev. E. L. Tungseth Will Officiate at Zion Lutheran Church

Funeral rites will be conducted at 2 p. m. today at the Zion Lutheran church, Rev. E. L. Tungseth officiating, for Svenke Knutson Dahle, who was killed Wednesday evening of last week near St. Hilaire when his automobile crashed into the Great Northern passenger train. Interment will be made in Greenwood cemetery.

Mr. Dahle was born in Setesdalen, Norway, in 1865, coming with his parents to the United States in July 1886. They settled near Evansville, Minn., residing there for two years before moving to Kloten, N. D. When the reservation was opened he filed on a homestead. In 1908 he moved to this city where he was married in 1912 to Sina Dahl, who preceded him in death, December 21, 1931. In 1915 he became the owner of the Central Hotel, which he operated until September 1, 1935, at which time he retired from active business. He continued to make his home in this city until his death. He was president of the board of trustees of Zion Lutheran church at the time of his death.

Surviving relatives are one sister, Mrs. Gunvor Nesland of Oklee and fifteen nieces and nephews. Deceased relatives, in addition to his wife are his parents and three brothers.

Visiting Officials Are Guests of Rotary Club

The Rotary club at its luncheon meeting Tuesday noon was addressed briefly by Congressman R. T. Buckler of Crookston and Senator E. L. Tungseth, both of whom discussed the resettlement program under way in this section. George F. Authier, assistant director of public relations with the farm security administration, also spoke briefly. Mr. Authier was for many years Washington correspondent of the Minneapolis Tribune.

Workers Alliance Plans Meeting This Evening

The public is invited to attend a meeting of the Workers Alliance this evening at 8 o'clock in the Sons of Norway hall, Earl Long, business agent, stated today. Speakers will include George Blake of Detroit Lakes, Joe Thompson of Crookston and Bill Jones of Bemidji, and it is possible that Glen Roberts of Duluth, CIO organizer, will be present at the meeting.

Where Tall Corn Grows

That it isn't necessary to go to Iowa or Southern Minnesota to find first-class field corn is the conviction of Postmaster Andrew Anderson, based on his travels thru this section in quest of corn to be used in the erection of the Thief River Falls corn palace, now under construction in preparation for the fall festival October 7, 8 and 9. Above he is shown in company with Christ Engen on the latter's farm five miles northwest of the city, with an excellent field of corn providing a background.

PRIZES GIVEN TO EACH ENTRY IN PET PARADE OCTOBER 9

Big List of Contestants Is Expected; Three School Bands to March

That the pet parade to be held Saturday afternoon, October 9, as a feature of the fall festival, will attract a record list of entries is assured by the announcement today that there will be prizes for every contestant.

In addition to merchandise prizes, which will go on display next week in the window of Al's Coffee Shop, the awards will include ice cream, lollypops, balloons and a free ticket to each contestant to a movie matinee following the parade.

The parade will form at the arena corner and will proceed thru the business district and back to the arena, where prizes will be awarded. In order to avoid confusion, each entrant will bear a number.

The event is expected to attract fully 200 entries, including children with dogs, cats, rabbits, chickens and a variety of other pets. To provide music for the occasion the Thief River Falls, Warren and Red Lake Falls school bands will participate.

Included in the committee in charge of the parade are Mrs. J. N. Nesse, Mrs. Leonard Hanson and Mrs. James Caldis, members of the auxiliary drum corps, sponsor of the event.

Roosevelts to Visit Grand Forks Oct. 4th

Grand Forks officials and civic groups this week began working out the details of the reception and entertainment for President and Mrs. Roosevelt on their three-hour stop in that city Monday, October 4. The presidential train will arrive from the west coast at about 9:30 in the morning en route to Washington.

$60.50 Is Subscribed to Babcock Memorial Fund

Following a brief report by Mayor W. W. Prichard on the Charles M. Babcock memorial fund project, a total of $60.50 was subscribed at the Civic and Commerce association luncheon last Thursday, more than half the Pennington county quota of $112.50. The exact form of the memorial to the founder of the Minnesota trunk highway system remains to be decided. Mayor Prichard announced that he is prepared to receive further voluntary contributions at his office.

FINAL PLANS FOR FESTIVAL TAKING FORM

Crowded Program of Activities Is Planned for October 7-9

CORN PALACE TO BE DEDICATED OCT. 7

Four Bands and T. R. Falls Drum Corps to Share in Event

With "Something doing all the time" as their objective, committees working on details of the Thief River Falls fall festival October 7, 8 and 9 made much headway during the past week in rounding out the program for the three-day event. Construction of the corn palace which will be the center of attraction at the festival is now well under way and an ample supply of corn has been arranged for by Postmaster Andrew Anderson.

The program will open with the formal dedication of the corn palace Thursday evening, October 7, followed by a dance in the arena. Frank Rinkel, chairman of the program committee, is now arranging for the presence of an outstanding speaker.

A variety of street activities are being arranged for Friday, October 8, during the afternoon, including the appearance of bands and drum corps and amateur musical groups being arranged by Emmet Wright, chairman of the music committee. In the evening an outstanding wrestling program will be presented at the Auditorium, followed by an arena dance.

The major event of Saturday afternoon will be the children's pet parade, in which fully 200 entries are expected. Also participating will be the Warren, Red Lake Falls and Thief River Falls high school bands, and the Legion auxiliary drum corps and the Ninth District band also will perform during the afternoon and evening. Saturday evening a corn palace queen and a Miss Thief River Falls will be crowned at elaborate exercises being arranged by the Junior Chamber of Commerce in connection with a gala dance in the arena.

Substantial prizes will be awarded winning entries in a corn show to be conducted in connection with the festival, the schedule of awards being as follows: Early Strain Minnesota 13, four prizes ranging from $2 to $7; Northwestern Dent, $2 to $7; Minnesota 23, $1 to $5; Rainbow Flint, $1 to $4; Gehu Flint, $1 to $4; White Flint, 1 to $4. Each entry will include ten ears of corn, and a special sweepstakes prize of $10 will be awarded by the Pennington county fair association.

The Korn Kob Klub will be launched as a fun-making organization in connection with the festival at a meeting this evening in the Civic and Commerce association rooms. Each member will be presented with insignia including a corn cob pipe and a special badge. Sponsors are arranging for an enrollment of 400 members.

Official Paper of Pennington County and City of Thief River Falls

Norm Holen, our city editor, is going to be surprised when he sees his picture in the paper this week. But it serves him right. It will do him good to take a little of his own medicine. Year in and year out he grinds out stories about other prominent people and now that he's president of the Red River Valley Editorial Association he should get a little recognition. At any rate that's the way the rest of us around the shop felt about it so without him knowing anything about it we dug out an old photograph of him and there he is in black and white on the front page. And while we're on the subject we might say too that Norm does a mighty good job of writing the news. His mistakes are few and far between. Facts are handled by him just as impartially as it is humanly possible to do. His "Topics of the Times" column, which is widely quoted, provides him an outlet for his own opinions and these, wrapped up with a smile, are never offensive. Of the many complaints we get about this and that, very few are caused by Norm Holen and his news department of the paper.

Honorable mention this week for sidewalk improvement goes to the Red Owl Store. It will no longer be necessary to walk around the lake that formed on the sidewalk there after every shower. Who's next?

For years I have been able to save myself a lot of frothing at the mouth by pausing long enough to say, "What of it?" when something has come up to bother me. Just try this yourself the next time you are inclined to get excited or irritated over things and you will see how effectively it will work. Please do not think that I am attempting to give you an easy going formula for shrugging your troubles away. It is not as simple as all that. Troubles, like seed time and harvest, will always be with us. But a change of attitude toward them will make a world of difference in their effect upon us.—Vash Young, author of "A Fortune to Share."

THE COST OF RELIEF
(Long Prairie Leader)

The St. Paul Dispatch is publishing a series of articles by its staff writer, Joseph H. Ball in which the relief situation in Minnesota is pictured. The articles are timely and of especial interest as showing the magnitude of the present relief activities. The surveys show—

About 460,000 persons received aid of one kind or another in Minnesota last year. This is one person in every seven in the state.

The total relief expenditures for all purposes during the year were $120,000,000. If paid for by a state levy, the rate would have been more than the average total levy throughout the state for all purposes. (Average precinct levy for all purposes, local, school, county and state in 1930 was 79.31 mills. It would have taken a levy of 96 mills to produce the $120,000,000.) If paid for by an income tax, it would have taken the entire taxable income of all the citizens in the state in 1935. (The taxable income of Minnesota citizens as reported by the state tax commission in 1936 was $119,176,-816.)

The total net income of all the farmers in the state in 1936 would have paid but a fractional part of the cost.

And here is the worst of it—the greater part of the $120,000,000 that was spent in the state for relief in just the one year of 1936 was not paid at all—it was borrowed and left for the next generation to pay.

Here are figures showing the relief load as to persons—

Those on direct relief, 35,360 cases, 3½ persons to the case	123,760
Those on WPA, 57,300 cases, 3½ persons to the case	200,550
Persons getting old age assistance	31,530
Those in CCC camps	12,960
Mothers receiving pensions	4,975
Blind persons getting aid	480
Persons employed on PWA projects	9,600
National Youth Administration employed 3,500 and gave aid to 12,000 more	15,500
The Rural Resettlement Administration aided an unestimated number of rural and urban citizens	
Total, not less than	402,355

When it is remembered that six years ago practically none of these relief activities were in existence or even heard of, we get an idea of the social changes through which the country is passing and the problem of payment with which we must contend in the future. It is true the federal government is paying the largest part of the bill—but where does the federal government get the money? Eventually it will come out of the productive energy of the people. It is as much a mortgage upon the earning capacity of every citizen as if the instrument was drawn up, signed and recorded.

The relief problem is growing—not diminishing

Topics of the Times

A lot of folks agree President Roosevelt never spoke a truer word than last Thursday when he said the nation is threatened by dictatorship.

Looking Backward

From the Times, Sept. 22, 1927

Members of the local Legion post will hear a radio account of the Dempsey-Tunney prizefight this evening at a meeting in the golf club house.—There was an increase of approximately 2300 acres in alfalfa plantings in Pennington county this season, according to County Agent J. J. McCann.— Preparations are being completed for the installation of two water turbines in the addition to the power plant now being constructed.—A total of 692 cars of freight passed thru the local yards Monday of last week, H. A. Pratt, agent, reported.— Pennington county's alfalfa booth at the Minnesota state fair attracted much attention.—Carl Gulrud returned from a trip to Northern Iowa.

TWENTY YEARS AGO
From News-Press, Sept. 20, 1917

Twelve men, the first contingent of Pennington county men drafted for war service, will leave here Friday en route to Camp Dodge, Iowa.—Leona Olson, two-year-old daughter of Mr. and Mrs. Gordae M. Olson, living southwest of the city, was accidentally killed Friday when run over by a grain wagon.—Mrs. F. F. Haynes and Miss Cora Toffelmire left for a visit at Mason City, Iowa.—Oscar Cerny returned from Lewiston, Montana, where he had been employed, and will leave soon to enter military service.—Miss Miriam Bishop left to attend Vassar college at Poughkeepsie, New York.

To Interview U. S. Navy Applicants Here Friday

Thomas Attridge, chief turret captain in the United States navy will be stationed Friday at the Evelyn hotel to interview applicants for enlistment in the navy. An age limit of 17 to 25 has been set for eligible applicants, who must be unmarried and have the consent of their parents.

NUMEROUS CASES BROUGHT BEFORE MUNICIPAL JUDGE

Many Drunks, Traffic Law Violators, Sentenced This Week

More than a dozen cases, including those of ten men, mostly transients, charged with drunkeness, were disposed of by Judge Lincoln Arnold in municipal court early this week. The men convicted on intoxication charges were assessed from $5 to $7 each.

Three men Monday were found guilty of traffic law offenses. Willard Erickson of Viking, who was arrested Saturday evening on a drunken driving charge after his car collided with three other vehicles on LaBree av. was sentenced to pay a fine of $35 and costs or serve 30 days in jail, and his drivers license was revoked.

Halvor Nesland was taken into custody early Monday morning on Horace av. on a reckless driving charge. He was fined $35 and his drivers license was suspended 30 days. Ed Archambault also was in court Monday to face a reckless driving charge brought against him September 4 when his car got out of control and skidded into a yard on Riverside av. S.

Police arrested John Freed in the winter sports arena Saturday evening, charging him with malicious destruction of property when he entered the men's lavatory and poked a number of holes thru the fiberboard partition. In municipal court Monday morning he was sentenced to pay a fine of $40 or serve 30 days in the county jail.

October 31 Deadline for Checking Requests on '37 Soils Program

Notice has been received by Hans Anton, chairman of the Pennington County Agricultural Conservation Association, that October 31, 1937 is the final date that requests for inspection of farms to be considered in the 1937 Conservation Program can be accepted. Such requests must be in the County Office or postmarked not later than this date. The final check of performance will be made in the near future with the hope that it will be completed shortly after the first of November.

A. F. Berge Is Appointed Treasurer of Festival Committee

The fall festival set for October 7, 8 and 9 in this city furnished the chief topic of discussion at the Civic and Commerce association luncheon last Thursday noon.

Reports were submitted by Roy Barzen, chairman of the committee supervising the construction of the corn palace; Postmaster Andrew Anderson, in charge of assembling the supply of corn; Frank Rinkel, chairman of the program committee; Paul Lundgren of the street decorations committee; and Lincoln Arnold of the Junior Chamber of Commerce, which is sponsoring the dual queen contests.

Secretary Lundgren announced that A. F. Berge had been named treasurer of the general festival committee and that all bills incurred will be cleared thru his office.

Dr. G. A. Vacha, chief state bacteriologist with the department of agriculture, dairy and food, spoke briefly on his work in connection with creameries, canneries and bottling plants.

College Football Started in '69

The first football game between colleges was played at New Brunswick, N. J., November 13, 1869, between teams representing Princeton and Rutgers. Rutgers won.

First Lutheran Church of Goodridge Arranges Fall Festival Sunday

The First Lutheran Church of Goodridge will have a fall festival Sunday, Sept. 26, at the home of Mr. and Mrs. O. Prestabak, 8 miles north of Goodridge on the highway. The ladies aid will serve dinner at noon and the program will begin at 2 p. m. Paul Rasmussen, former dean at Concordia college who now is budget commissioner for the state of Minnesota, will be the speaker. He will speak on the subject, "Social Implications of Christianity." Music will be provided by the Land O'Lakes male quartet and the church choir as well as by other groups.

Everyone is invited to attend.

More Than 50 Creamery Men Convened Thursday

More than fifty creamery managers and employes assembled at the Auditorium last Thursday afternoon for a special joint meeting of Districts 3 and 4 of the Minnesota Operators and Managers association. Dr. G. A. Vacha, chief bacteriologist with the department of agriculture, dairy and food, was the principal speaker, giving suggestions on the prevention of high bacterial counts in butter.

ENROLLMENT SET FOR VETERAN CCC CAMP IN OCTOBER

Opportunity Offered to Unemployed Veterans for Winter Months

Approximately 500 vacancies in the veterans' CCC will be filled during the enrollment period beginning October 1, it was announced today at the local office of the National Reemployment service, following receipt of information from the veterans' administration facility in Minneapolis.

Every veteran who is unemployed and is likely to be during the winter months and is in good physical condition may file his application for enrollment. The new ruling requires that an applicant must have been discharged from a VCC Camp six months before he is eligible for reenrollment.

The pay begins with $30.00 per month and includes lodging, food, clothing and medical care. It is not necessary that the veteran has a relief status to qualify. Application blanks can be secured from the U. S. Veterans Administration Facility at Minneapolis. They should be executed in duplicate, and when completed, they must be returned by October first.

Former Local Hockey Star to Play with Los Angeles Team This Year

Frank Deagle of Winnipeg, who during the latter part of last winter, filled the right wing position on the Thief River Falls entry in the States-Dominion hockey league, will play this winter on the team of Loyola university at Los Angeles, California, it was learned here this week. He was selected on the basis of his performance in games played in this city. Ernie Pellissier of the Emerson team will be given a tryout with the Montreal Canadiens, he being one of several players in the local league to try for places on major league teams.

DRENG BJORNARAA TRANSFERRED TO POST IN ST. LOUIS

State Agency to Take Over Reemployment Service in Minnesota

Dreng Bjornaraa of St. Paul, since February 1934 state director of the National Reemployment Service, will be transferred by the United States Employment Service to St. Louis, Missouri, upon the termination of NRS activities in Minnesota, according to an announcement received here this week. The Minnesota State Employment Service, with offices in the Twin Cities and Duluth, will expand over the remainder of the state now served by the NRS, under provisions of the unemployment compensation law. Merit examinations for applicants for positions in the expanded state service will be held Friday and Saturday, and it is expected that the Minnesota agency will be in statewide operation before January 1, 1938, when benefits become payable.

In St. Louis, Mr. Bjornaraa will direct a field research center of the Division of Standards and Research of the United States Employment Service. It is designed to develop job description materials as aids to interviewers and to cooperate with the Missouri Service in the development of certain techniques which later may be applied throughout the Service.

When the NRS was organized in Minnesota in August, 1933, Mr. Bjornaraa was appointed as field supervisor under Director O. D. Hollenbeck who was later transferred to Washington in charge of the Veterans' Placement Service. During the CWA period the Service maintained an office in each county, but the number of full-time offices has since been gradually reduced to 27.

Four associates of Mr. Bjornaraa previously have been transferred to Washington, Supervisors H. D. Huxley, A. C. Gernes, and Paul H. Keneflck to the field staff of the United States Employment Service, and Arnie Solem to the Social Security Board staff. Mr. Bjornaraa is a graduate of the University of Minnesota where he was employed by the Employment Stabilization Research Institute from 1930 to 1933. Prior to his University work he served as editor of the Thief River Falls Times for six years.

MARCOUX CORNER IS SCENE OF AUTO FATALITY SUNDAY

Coroner's Jury Holds Red Lake Falls Resident Responsible

A Polk county coroner's jury at Crookston Monday held Dwight Kundert of Red Lake Falls responsible for the car crash death near Marcoux Corner early Sunday of Glen Gerald Toombs, 21, of Northome, Minn.

Toombs, fatally injured in the crash one and one-half miles east of Marcoux Corner, died in a Crookston hospital later Sunday. With him was his brother-in-law, Perry Gingerich of near Mentor, only slightly hurt.

Their car and Kundert's crashed head-on. A warrant and complaint charging Kundert, who suffered cuts and bruises, with gross criminal negligence in the operation of an automobile resulting in the death of a human being, has been issued by F. H. Stadsvold, Polk county attorney.

The verdict of the coroner's jury said that Toombs met his death because of the "reckless and grossly negligent manner" in which Kundert operated his car.

Arthur E. Lofkin and Torkel Knutson, state highway patrolmen, who investigated the mishap testified at the inquest they found a half empty pint whiskey bottle and an empty gin bottle in Kundert's car.

The patrolmen also testified that Kundert, traveling west, was on the left side of the road when the accident occurred. Kundert, later told them, they said, that he had been driving between 50 and 60 miles per hour and had apparently fallen asleep. All marks on the pavement, they said, were on the south side of the road. The victim's father, John H. Toombs, also testified.

The charge placed against Kundert is the result of a Minnesota law passed this year. Upon conviction the penalty is from one to five years in prison or a fine up to $1,000, or both.

THRESHING ENGINE EXPLODES, 2 HURT

Winnebago—Steam from an exploding threshing engine on the William Schubbe farm near Delavan severely scalded two persons, Bernice Schubbe, 19, and Victor Heinrich, 14, who were brought to the local hospital. The threshing rig had just pulled into the Schubbe yard where it was to be used to move a small building. The boy and girl were standing on the platform when the explosion occurred and, according to the farmer, were blown nearly twelve feet from the machine. The girl, who is in a serious condition, suffered first and second degree burns over two-fifths of her body, being injured from the waist to the soles of her feet. The boy was burned on the hands, forearms, legs, feet and back.

TREE LADEN WITH APPLE BLOSSOMS

Luverne.—More and more oddities are cropping out in Rock county, where the latest "Believe It or Not" curiosity is reported by Byron J. Scott, who farms near Hardwick. He has in his orchard an apple tree which is blooming for the second time this year. Mrs. Scott discovered the phenomenon one day last week when she went to see how the apples were coming. The tree bloomed as usual this spring and is full of apples. Now with the tree laden with fruit, it has again blossomed. It is not uncommon for fruit trees to blossom out of season, but unusual when a tree full of fruit blossoms for the second time.

FINDS DATE CARVED IN CENTER OF TREE

Waseca.—After being obliterated for a period of 125 years, strange coincidence brought to light a date carved in a tree in 1822. It occurred when Carl Frisk, splitting wood on his farm in Wilton near Waseca, split a section where one tree had grown over another to reveal the perfectly carved characters: 1822 7-4 S. The regularity of the carving would indicate that the figures were carved with a tool made for the purpose, perhaps by early surveyors working in that territory. Following the impression of these figures in the wood, another tree grew over them. Ninety-three rings were counted on the new growth, indicating the same number of years as the age of the tree.

PROWLERS DOWN RED LAKE FALLS BY SCORE 33-6

First Game of Season Draws Large Crowd From Both Towns

The Prowler's game with Red Lake Falls last Friday evening ended much more successfully than predicted, at least as far as the score was concerned. The score happened to be the same as last Year's 33 to 6.

There were no touchdowns or other points made in the opening quarter by either team, although it was evident in the first few minutes of play that the local boys had the edge over their opponents. Three of the Prowler's five touchdowns were made in the second quarter and all three of them resulted from crashes over the line from the two-yard marker. Red Lake Falls also made their only score of the game in the closing minutes of play in the [illegible]. Their counter came after Martell, left halfback, made a spectacular eighty-yard run from his own ten-yard line to the Prowler's ten-yard stripe where Shanahan forced him out of bounds. The very same play around their right end, brought Martell over the goal-line. The attempt for conversion failed. Forward passes netted the locals their other two touchdowns, one in each of the last two periods. Quale was successful in three out of four attempts at conversion.

Nesse proved his ability as a running back, and the team as a whole proved they could be better than just fair. There were a few too many "checks" in the game, which indicated that somebody didn't know his plays. Round off some of the rough edges and clear up their plays and then the Prowlers will be a team above the average.

The line-ups follow:

Prowlers		R. L. Falls
Quale	LE	Brown
Stadum	LT	Gullickson
Eide	LG	R. Brown
Hanson (c)	C	Baker
Johnson	RG	Columbus
Mattson	RT	Ducharem
Lorentson	RE	Beaudry
Tunberg	QB	Kelfenheim
Nesse	LH	Martell
Bredeson	RH	Poullot
Caldis	FB	Converse

Substitutions:—T. R. F.—Oleson, Mullin, Thomas, Hess, Lunke, Sundberg, Mickelson, Booren, Shanahan, Stadum, Holmberg. R. L. F.—Richards, McFarland, Christie, Provost.

Touchdowns: T. R. F.—Caldis, 2; Nesse 1, Bredeson, 1; Quale, 1; R. L. F. Martell, 1.

Conversions: T. R. F.—Quale, 3. R. L. F. 0.

Officials: Lloyd Hennes, referee; "Rip" Dablow, umpire; Roy Oen, head linesman.

Band Performs at First Football Game Friday

Last Friday night the Lincoln High school band made its first appearance this year at the first football game of the season. Before the game the band marched through town, playing several marches during their course. At the game the band also played many different marches.

Saturday, October 2, the band will go to Warren to help celebrate hamburger day there. The following Saturday, Oct. 9, the Warren high school band will come to Thief River Falls to celebrate the corn festival. October 21, the band will go to Bemidji to play for the M. E. A. This means that October will be a very busy month for the band and it will take lots of hard practice to get ready for all these public appearances, besides playing at the football games every Friday evening.

Last Wednesday evening the band elected officers for the coming year. Those elected are: Robert Quale, president; Ralph Gustafson, vice-president; Bern Hoffseth, secretary-treasurer; Gloria Quist, librarian; and Charles Gustafson, property manager.

The band is planning to get white sweaters on which they can wear their band letters won last year. These sweaters will be worn at basketball games as a uniform, so that the gold and blue uniforms can be saved for other concert appearances.

In last weeks paper we failed to mention that the following are members of the high school band: Alto Clarinets: Gordon Caldis, Alice Burlingrud

Trombones: Robert Looker, Floyd Melby.

Seniors Select Class Officers at Meeting

At their class meeting last Tuesday the seniors elected the following as class officers for the year:

President, Jerome Salveson; vice president, Erling Melby; secretary, Gordon Holte; treasurer, Bob Hanson; advisors, Mr. Claffy and Miss Greenland.

Mr. Claffy informed the class that the jewelry salesmen will present their samples of class rings to a senior committee on October 4. A committee composed of the students listed below was elected who, in turn, will decide upon a competent Prowler staff.

Robert Smith, Robert Quale, Roy Lee, Wendell Pope, Lynn Booren, Jerome Salveson, Lorraine Haken, Mary Chommie, Marion Olen, Arline Prestabak, Margaret Jacobson and Fae Belcher.

Have you had some connection with Library work before? State Board of Control, State Office Building.

What do you think of Lincoln High? I think that Lincoln High is going to "progress".

What do you think of the students? I think they're very, very fine.

What do you think of our public address system? I think it is very effective.

Have you a nickname? Yes—Hickory—Hickory, Dickory, Dock. Catch?

What is your pet motto? Golden Rule—especially good for library work.

How do you like Thief River Falls? Exceptionally well.

What is your advice to the students? Mix a little pleasure with study.

ROUND THE SCHOOL

Miss Olson's English I classes are studying short stories.

Mr. Lee's social science government classes are studying the making of the constitution.

Miss Biebel's World History classes are studying Ancient History and the "sub-man."

Miss Nelson's music groups are now taking form. The Boys' and Girls' Glee Clubs have been partially formed and they are receiving tests on the quality of the voice, and tone. The boys' Octet has been formed.

Mr. Popes household mechanics classes are learning the rules of the roads and the proper operation and handling of the automobile on the highway. They are using as their text a booklet published by the Minnesota State Highway Department.

Miss Greenland's algebra classes are beginning elementary construction.

ALUMNI NEWS

The following is a list of a few of last year's seniors and the schools which they plan to attend:

University of Minnesota: Marjory Matheson, Alfred Nelson, Victor Jung, Philip Prichard, Helen Granum, Bill Korstad, Jack Adkins.

Concordia College: Margaret Gustafson, Elizabeth Dahlen.

St. Olaf College: Iola Morell, Brunell Erickson, Milton Nesse.

St. John's College: Julien Provencher, Harley Kelly.

Moorhead State Teacher's College: Ruth Hanson, Vernon Wedul.

University of North Dakota: Peggy Paupst, Jimmy Peterson.

Hamline University: Jean and Hettie Gustafson.

Normal Training: Elmer Doran.

Postgraduate Course at Lincoln: Dorothy Johnson, Harold Buck, Laverne Rambeck.

North West Institute of Technology: Margaret Rae Munt.

Vivian Havel is employed in Mr. Bye's office.

Ariel Biely is at work in Larson's Music Store.

Roberta Daly and Marion Green are engaged in the city.

Lenny Helquist is occupied as a service station attendant.

Solveig Fjelstad is taking up nursing at Fairview Hospital in Minneapolis.

Merten Ward is studying nursing at Omaha, Nebraska.

Margaret Aasen is taking a business course at a South Dakota school.

Archie Monson is at present employed at the J. C. Penney Co.

We wish all these students the best of luck in their various enterprises.

Mr. Johnson's business relations classes are "learning how to study" using a new unit they are initiating and hoping that from now on the students will master his lessons better.

Mr. Mayer Oakes' Chemistry classes are getting acquainted with chemistry by studying the alchemist and his work and the reasons why everyone should study chemistry.

LOCAL ELEVEN SLATED TO MEET PIRATES FRIDAY

Crookston Loses First Game to Fargo

Fresh from their encounter with the red-clad gridders from Fosston, Coach Obermeyer will lead his Crookston Pirates into the Prowler port Friday night, hoping to foil the home team's attempt to repeat last year's victory over the visitors.

The spear head of the Pirates' attack will be a boy who is making his first appearance in Thief River Falls as a member of the Crookston roster. He is Warren Starr, the pony half back, who in his debut for Crookston last Friday, ran wild against Fosston and proved to be a touchdown threat numerous times as he broke loose for long gains. George Muir, a crashing fullback is also to be reckoned with.

While the [illegible] were demonstrating their superiority over Fosston, our Prowlers, paced by Lowell Nesse, shifty half back, and Loren Stadum, massive tackle, were having a field-day at the expense of Red Lake Falls, setting them back to the tune of a 33-6 defeat. This Years grid machine proved by this win to be every bit as powerful as last year's District Championship edition.

For those interested in statistics we find that Crookston was much harder hit by Old Man Graduation than were the Prowlers. Last year the Prowler "B" squad handily trounced over the outfit that bowed to the Crookston "A's" last Friday 25-0.

Both teams will be in excellent condition and race fettle for the coming contest.

Summing up the Potentiality of the two squads, we find prospects for a tight tussle, the Prowlers holding a slight advantage over the invaders.

The probable starting lineup for the respective teams is: Crookston: B. Sampson and E. Haugen, ends; C. Roldal and E. Moline, tackles; B. Fidluf and R. Samson, guards; McKenzie, Center; S. Turnquist, W. Bouse, S. Hegland, G. Muir, backs.

It is uncertain who will start for the locals, as Coach Lee is experimenting with different combinations. The lineup will most likely not be announced until game time.

SENIORS WHO'S WHO

Name: Donald Lawrence Anderson

Nickname: Don.

Age: 17 or more

Favorite subject: Agriculture (Picture me a farmer)

Best-liked dish: I like bananas because they have no bones.

Favorite book and author: "Gone With the Wind" (the first two pages) by Margaret Mitchell.

Comic Strip laugh: Harold Teen

Favorite movie stars and cinema: Loretta Young and Don Ameche in "Love Under Fire".

My sport: boxing

Hobby: Dancing and listening to the radio

Aspiration: To be a college girl.

Inspiration: Wally Kinighorn.

My name is Ivan Russell Bundy but you can leave out the Russell. And as for a nickname, I don't really know what it is because everybody calls me anything they think of. My age? I won't talk. No! I won't talk. Oh, I like all five of my subjects—oh me? I like corn beef and cabbage even if I have to cook it myself. I haven't any favorite book and author. I read the "Look". I like the comic "Good Deed Dotty" and I think all Good little boys and girls should read it. You may quote me as saying that in the field of movie stars and cinema, I prefer anyone from Joe E. Brown to Mae West. I like ready-dowdy boxing for my sport. My hobby is smoking a pipe, listening to the radio, and dancing. I aspire to be a bum, hobo, or tramp, and my inspiration is Pete the tramp.

His ma calls him Wesley but us guys call him "Wes". Johnson's kid appeared on October 2, 1920 and as far as we know he's still putting in regular appearances (not saying where she lives). Physics rates "tops" with Wes and, miracles of miracles, his favorite book is "Public Speaking." Now "Wes" tells us that MacGruder is its author but maybe that's just a cunning way to avoid hurting Coach's feelings. When it comes to his favorite cinema—movies to you kids—and stars, Wes is non-committal. But oh boy—when it comes to pie Alamode and football! Chemistry just haunts Wes as a hobby. Guys that talk too much do a fair job of hauntin him, too. Wes' favorite comic strip is Jane Arden. When he's a big shot, he plans to jaunt around the world 'cause if Magellan can do it he can too. And now big stuff he hopes to become a University of Minnesota student.

Enrolments are still not complete in agriculture so still more pupils can enroll.

FIRST PEP FEST OF THIS SEASON WAS HELD FRIDAY

Douglas, Dalquist, Helquist Chosen as Cheer Leaders

A pepfest was held Friday afternoon, September 17, 1937, prior to the football game with Red Lake Falls. Mr. Claffy was master of ceremonies. The school song was sung by the student body accompanied by Mr. Harrison and directed by Mr. Riggs. The program was in the form of a "Take a Chance". Coach Lee introduced the football players to the students and gave us a vague idea of our prospects of winning. Then the names of the football players were placed in a helmet and Vernon Ostrum drew a name to see who the speaker would be. The lot fell to Lynn Booren who declared that he didn't know what he was going to say any more than we did, but he hoped we'd all be out to see the team win. Bob Hanson, Captain, also expressed his desire to win in a short talk.

Next, the names of the faculty members were placed in the helmet and Vernon Ostrum again drew a name. This time Mr. Riggs was the lucky one, and he said he thought we could make at least 3 points to every 2 made by Red Lake Falls. The candidates for cheer leader were now given chance to show their ability in that line, Joan Dahlquist as the first one whose name was drawn and the others in order of their appearance were Leona Brattland, Marjory Helquist, Anna Hanson, and Elaine Douglas. Those chosen by the faculty were Joan Dahlquist, Marjory Helquist, and Elaine Douglas. These three girls will be our cheer leaders during the rest of the school year. The pep fest was ended by having the football boys leave the assembly first, accompanied by much applause from the students.

MAN SUFFERS FISH BITES ON ABDOMEN

Hutchinson.—The fish are biting these days even though Lake Stella may not formerly have been classed among lakes where fishing is good in August. They're so hungry they'll bite your big toe, or even your stomach—according to Kelly Kiliman of this city who has 24 neat fish bites across his abdomen. It all happened when one evening last week Kelly hot and tired from a trip to the city, decided to go bathing at Lake Stella. Clothed in only a pair of shorts, the weary gentleman waded out into the cool water of the lake and sat down. The water was refreshing, it was dusk, and Kelly meditated on the pleasures of lake bathing, when suddenly, he felt sharp bites on his abdomen. A big husky pickerel armed with sharp teeth, had sneaked up on him in the dark and was saying in effect, "take that, and that, and that, and that." And the fish-bitten man screamed and ran for shore without looking back to see if the fish were following.

Reserve Supplies of Meats Reported Low

Reserve stocks of meats in the United States are rapidly decreasing, according to recent storage reports of meat packing plants of the country, says the weekly market digest prepared by the Central Cooperative association, farmer-owned livestock selling agency at South St. Paul.

During August there was a heavy outward movement of meats from storage cellars and on September 1, total stocks of all frozen and cured meats held in the United States amounted to 467 million pounds, or the second smallest total meat stocks on record for that date. This total was 20% less than a month previous and it is equal to about eleven days normal production of meats in federally inspected packing plants of the country. In contrast to this light supply of meats, on March 1 stocks exceeded one billion pounds.

Pork stocks decreased more rapidly than other stocks during August and on September 1 only 371 million pounds were held in storage, this total being 96 million pounds less than a month ago and nearly 30% less than the five year average.

FAULTY GROUNDING CAUSE OF ACCIDENT

Appleton.—Faulty electric wiring in a house in which a "hot" instead of a "cold" wire was grounded on the water piping is reported as the cause of an accident in which M. C. Saterbak was knocked unconscious by a 110 volt electric shock he received while working on the water pipes in an Appleton residence. Called to the home for plumbing work, the full voltage began to pass through Saterbak's body when he grasped the pipe at two different points. He was unable to let go, and considerable time elapsed before aid arrived and he was released from the grip of the electricity. He regained consciousness in about 20 minutes, but a week later stated that he could still feel the results of his harrowing experience.

A Visit To The Quints

All writers of newspaper columns introduce more or less extraneous matter occasionally. We, in doing so here, offer the excuse that the subject is linked to pioneer conditions here.

For example, in the early settlement days in this neighborhood babies did not fare as well as they do today. Milk was scarce and most of the attentions now considered a matter of course in baby's care was impossible. But nowadays babies in all civilized countries receive the very best attention and science devotes much time to improvement of this care. Our babies here are so favored, but none in all the wide world perhaps receive as good care as the famous Dionne quintuplets.

Because the situation near Callander, Ontario, where the quintuplets live presents striking contrasts which include oxen hitched to quaint carts, old-fashioned houses and other buildings also the very latest modern touches, the writer feels that a brief report on a trip to Callander and the quints' home recently will be of interest to readers.

Callander is 212 miles north of Toronto, Ont., which makes it about 1,600 miles from Grand Forks. The Dionne home is 2½ miles from Callander in a neighborhood called Corbiel. It is strictly rural, even the lone Corbiel railroad station being three miles away. The country is rough and very rocky, but residents manage to subsist largely by farming. Callander lies on a large body of water, Lake Nipissing. Those who saw the motion picture, "The Country Doctor," in which Dr. Dafoe appeared with the quints, will recall a large steamboat in the picture. The writer saw no signs of a steamboat on the lake, however.

We propose to tell first how one sees the quints. Our party visited relatives in Toronto and while there learned through the press and from the radio that only four of the quints could be seen because one had a cold. We waited and learned that on a certain day the appearance of all five would be resumed. We set out and, sure enough, at 2:30 in the afternoon the showing began. There were about 2,500 persons on hand, most of them from the states. We saw cars from as far away as Oklahoma and the cars, of course, covered a wide area.

The visitors are admitted to a large enclosure covering about an acre, around which is a high wire fence. The enclosure is directly in front of the hospital, a long low building resembling CCC barracks. A gate leads to a corridor which passed around the quints' playground on two sides. On the side facing the playground the corridor has glass walls and tight against the glass on the inside is a coarse-meshed screen. By advancing close to the glass one may see through clearly but the quints cannot see through, being too far away from the screen. Thus, the youngsters do not know they have an audience.

The playground, covering about a half acre is equipped in the usual manner of the playgrounds of wealthy children. The day we were there it was chilly and occasional drops of rain fell. The quints wore blue coats and white tam o'shanters. They looked for all the world like dolls that had been made from the same pattern. Until one looked at their faces they looked exactly alike and most everybody that has seen them agree that they are the sweetest babies in the world—they were three years old last May, by the way. There was one nurse present when we viewed the quints and she assisted them in their play merely by handing them toys. Too, she found it necessary to walk among them continually as two of the five were in a bit of a funk and were apparently in a fighting mood. Marie rapped Cecille over the head with a pasteboard game box and Emelie pulled Marie's hair. But the results were not serious to anyone and nobody cried.

We cannot tell all we saw in this article but do wish to tell something about Papa Dionne. He has a large store across the road from the hospital in which are sold lunches, ice cream, soft drinks, etc., postcards and souvenirs of all kinds. Dionne sits at a desk behind a velvet curtain in a corner like a Gypsy fortune teller and signs his name for a quarter. The writer paid to have him sign a post card and found him a handsome, well groomed man, whose face was illumined by intelligent eyes and whose general appearance bespoke a sort of culture and even sophistication. We were told this metamorphosis was the result of three years' contact with the outside world. We did not see Mama Dionne, but did see a sister of the quints. We propose to devote one more article to this subject as we are sure many women at least will be interested.

Making Much of Trifles

We miss so much in this life, because we often pass by the little things. We are ever looking forward to great achievements instead of making the most of trifles.

Naming America

According to a Mexican archeologist, America got its name from a Mayan word, "Ame-rris-kin," which means "Land of the Brilliant Sun," and not from the name of the explorer, Amerigo Vespucci.

CHILD FALLS ASLEEP AT THEATRE, IS LOCKED IN

Laverne—Falling asleep at a show and waking hours later to find himself locked in a pitch-black theatre was the unenviable experience last week of Melvin Earl, 12 year-old Luverne boy. Having attended the first show one evening Melvin decided to stay through the second movie also, but fell asleep because, as he explained, "I had already seen it once, so it wasn't so exciting the second time." At 11:30 the manager locked the theatre after first making "sure" that everyone was out. He had not seen the boy, who had slipped down in his seat. Melvin was awakened at 2:15 a. m. by the rumbling of a truck in the alley. He groped his way to the front door only to find it locked and not a chance of getting out without help. Frantically he shook the doors until the night watchman heard him, opened the door, and Melvin scurried home to bed.

BUSINESS BOOM NEAR

The U. S. Chamber of Commerce reports that this Fall and Winter will usher in an unprecedented boom if Labor-Capital disputes do not seriously retard production.

Public reputations are built upon private reports. Families for whom we have conducted funerals tell others the appointments, impressive beauty and efficient direction of our service are satisfactory beyond criticism.

The family's choice of the price they will pay is made at the time they select the funeral furnishings.

PHONE WIRE CUT BY AUTO'S GYMNASTICS

Blooming Prairie.—Violently hurled through the air in his car as it performed startlingly intricate mid-air gymnastics and was reduced to a pile of junk, a Medford man recently experienced a fortunate and narrow escape in an accident which occurred near Claremont. When the driver lost control of his car it hit the ditch with terrific force, was thrown upwards so it looped the loop and tore down the telephone wires above, sailed over a four-foot gate without touching it, came down and bounded around a bit on its nose, and then landed on all four wheels, the tires of which were flattened like pancakes. The car, wrecked so completely that only a few minor parts from the engine will be salvaged, has attracted much attention. The driver escaped with a few scratches and bruises.

First Eruption of Mount Etna

The first recorded eruption of Mount Etna was in the Eighth century B. C. Another, occurring in 477 B. C., is graphically described in Aeschylus' "Prometheus Bound."

CONSTIPATED 30 YEARS
"For thirty years I had stubborn constipation, awful gas bloating, headaches and pains in the back. Adlerika helped right away. Now I eat sausage, bananas, pie, anything I want and never felt better." — Mrs. Mabel Schott. J & H Drugs.

GOPHER ELEVEN THIS FALL FACES STIFF SCHEDULE

Opens Season Against North Dakota State Next Saturday

Facing another schedule studded with some of the country's strongest elevens the University of Minnesota football team is winding up its preliminary training this week preparatory to another national championship quest.

Three times acclaimed national champions, Minnesota has a nucleus of 28 lettermen for the 1937 squad that will open the season against North Dakota State in Memorial Stadium, September 25. Coach Bernie Bierman, with his usual thoroughness, is leaving nothing undone to produce his fourth consecutive national champion since coming to Minnesota in 1932. In that time Gopher teams have won 32 victories, lost four games and have been tied four times.

Following the North Dakota State game the Gophers will play Nebraska at Lincoln, October 2, Indiana at Minneapolis, October 9, Michigan at Ann Arbor, October 16, Notre Dame at Minneapolis, October 30, Iowa at Iowa City, November 9, Northwestern at Minneapolis, November 13, Wisconsin at Minneapolis, November 20.

Facing this army of foes Minnesota will undoubtedly play before the largest number of football fans of any Gopher team in history. It is expected that the team will play before capacity crowds in every game of the season. Sale of tickets for the Minnesota-Notre Dame game, October 30, closed two weeks ago, with every seat in Memorial Stadium taken. For the Northwestern game, November 13, only about one thousand bleacher seats remain unsold, and these undoubtedly will be taken weeks before the contest.

Indications are that the Indiana and Wisconsin games also will draw a capacity crowd, according to the ticket office and away from home the Nebraska stadium already has been sold out and at Michigan and Iowa City the ticket sales have indicated unusual interest in Minnesota's strong eleven.

Valley Dairymen Meet in Detroit Lakes Oct. 27

Plans for the annual Red River Valley Dairymen's convention are being made by C. M. Pesek, of Crookston, secretary of the organization. The convention will be held October 27 and 28, at Detroit Lakes with more than 200 creamery managers and their assistants from Red River Valley towns in attendance. Crookston was the convention city last year. A banquet and smoker will open the meeting the evening of October 27. Business sessions and judging will take place the following day.

STATE IRON MINES PAY RECORD TAXES FOR CURRENT YEAR

1937 Production of Ore Attains New All-Time High Mark

Approximately $8,000,000 in occupational and royalty taxes on iron ore will be collected this year, the state tax commission announced Monday.

The sum represents the largest single year's revenue from ore since the first iron was mined in northeastern Minnesota 40 years ago.

Record demands for ore for the manufacture of rails, munitions and other products boosted the estimate for this year's output to 48,000,000 tons—well above the previous peak in 1929.

Increased tonnage, combined with increases in tax rates from 6 to 10 per cent, will bring the state $6,500,000 in occupational taxes and $1,500,000 in royalty taxes, the tax commission estimated. Last year the total was slightly over $3,000,000.

FINDS NATURAL SPRING IN BASEMENT OF HOME

Bemidji.—"It's a dandy spring", says Phil McClellan of the natural spring which sent pure, cool water bubbling into the basement of his home while he began digging a drain. Heavy rains of last week had filled the basement of the McClellan home on Boston lake, north of Puposky, to a depth of five or six inches. The house stands more than 12 feet above the level of the lake, so McClellan decided he would dig a drain and let the water run into the lake. After discovering the spring, McClellan had to install a drain to get rid of the excess spring water.

TRAFFIC ACCIDENT REPORT AGENCY IS READY TO OPERATE

Highway Department Will Receive Reports on Road Mishaps

The set-up for officially recording all traffic accidents in the state in which personal injury or property damage exceeding $50 is suffered is ready to function, according to N. W. Elsberg, state highway commissioner.

The commissioner is charged under the new uniform traffic code with the duty of both zoning the highways and directing the state traffic accident reporting agency.

The new agency has been developed so as to permit safety officers to find, in a few minutes, the number of accidents in which a driver has been involved and also to determine the accident count at any spot on the state trunk highway system and in the cities. The present filing system is built on the "cross-check" basis and exposes at once "accident prone locations" and accident prone drivers."

The form to be filled by parties to an accident is ready for immediate distribution. It is available to peace officers and drivers anywhere in the state.

Under the new law, a driver involved in an accident is required to report in writing to the safety division of the State Highway Department, St. Paul, within 24 hours, or as soon as injuries will permit. Failure to comply is punishable by a fine not to exceed $100 or 90 days in jail. The agency has a system whereby it learns whether accidents are reported or not.

When an accident victim's report is received by the safety division, an official accident report blank asking specific details will be dispatched to the party by next mail.

When the report is returned, location of the accident will be marked on a huge "spot" map and the driver's license record will be marked with the time and place of the accident. This will early point out dangerous spots on thoroughfares as well as dangerous drivers and dangerous cars. The purpose of the new set-up is to uncover all three so that immediate steps can be taken to remove road hazards and eliminate incapable drivers and unsafe automobiles.

"In the decent interest of safety," said W. F. Rosenwald, state traffic engineer in charge of the safety division, "every driver should speedily co-operate with the state highway department in reporting an accident. We will be forced by law to take stringent steps if this is not done. The purpose of this requirement is to protect you and your family against horrible injury or death on the street and highway. In the end it will mean safer travel for us all."

CAR CRASHES INTO HOUSE, UNDAMAGED

Sleepy Eye.—Crashing into a board wall, one of the attractions that often heads a fair program, would be considered practically nil to the sedan owned by Fred Remus, which can crash into a house without causing any damage of consequence. Remus drove the sturdy vehicle into the elevator driveway at Sleepy Eye one day last week, but forgot to set the brake before he got out. The car started down the incline, sped across the street, and into the side of a residence. The screen door on the house was damaged and a few dents marred the siding, but otherwise damage was small. The car was little the worse for its runaway.

GOODRIDGE

The enrollment of the Goodridge school to date is one hundred sixty. There are twenty-five in the primary room with ten beginners in the first grade, seven in the second and eight in the third grade. The intermediate grade has twenty-five also, with seven in the fourth grade, ten in the fifth and eight in the sixth grade. The Junior High have twenty-three, with twelve in the seventh grade and eleven in the eighth grade.

The Senior high school have eighty seven, with a class of twenty seven freshmen, twenty four Sophmores and twenty-four Juniors. The seniors are the smallest Class with twelve.

A number of students in the high school have not reported for school yet due to large amount of farm work yet to be done. Prospects for a larger enrollment than ever, are very promising.

The organization of the regular class work has progressed very satisfactorily and it is hoped that when all pupils have reported, work may continue with out interruption until the end of the school year. Organization of both a boys and girls Glee Club has begun and regular practice will commence in a few days. The band organization is being delayed temporarily until instruments can be located.
